November 5, 2020

Since 2016, on the occasion of the celebration of the first conference of the ICAMNM series, I have been collaborating with the Department of Applied Mathematics of the University of Craiova.

It has been an honor for me to participate in all the conferences that have been held, being able to appreciate the high scientific level that exists in the Department of Mathematics.

It is worth highlighting the importance of the Workshop on Industrial Mathematics and Computer Science, with interesting contributions that show the role of mathematics in industry.

Best wishes to the Faculty of Sciences.

Higinio Ramos Calle
