ECTS CREDITS: 4

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Underline the main ways of reflecting and presenting the resources, sources, processes and results obtained by the organisation; Study the principles of financial accounting, of the methods and the working techniques; Help students build logical and creative reasoning as well as the necessary skills to achieve different tasks and use the financial information in order to manage the activity of the entity; Familiarise students with the basic knowledge of accounting and teach them how to efficiently manage the resources in order to administer the business at a high level to know and control the results of each level of the organisational structure of the company where accounting is kept; Taking these aspects into consideration, we need to teach the following issues: how to draw up, process, check, register, classify and archive the accounting documents; how to correctly assess the patrimony structure; how register the economico-financial operations regarding the patrimony structures in accounting; manage accounting in accordance with the reality of the economic processes; Underline the significant ways in which accounting can provide the necessary information to efficiently administer the business.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: STATISTICS

CODE: D19IEIFCL214

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Explain the place and the role of statistics in contemporary economy; Present the conceptual system which statistics uses in the national economy at both levels: macroeconomic and microeconomic; Form and develop students' skills to gather, process, present and analyse data from the statistical point of view; Acquire modern methods and instruments from the statistics field to study the socio-economic processes.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: ECONOMIC INFORMATICS

CODE: D19IEIFCL215

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Acquire the knowledge and form the necessary skills in order to use software

products in the management of the economic activities in an efficient way; Know the main software products which are used in the economic field; Create the necessary skills and abilities to use the software programs in the economic field in an efficient way; Acquire knowledge and create the necessary skills for using a table processor at an advanced level.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

2ND YEAR, 1ST SEMESTER

COURSE TITLE: MARKETING

CODE: D19IEIFCL319

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Students should understand the marketing approach from a double perspective: as specialists in companies to be able to implement marketing policies; as consumers, to be able to identify the abusive practices of marketing; Understand the concepts, methods, techniques and instruments of marketing which are used in finance; Apply the methods, techniques and instruments specific to the activity of marketing; Understand the role of marketing research within the organisations from the financial field.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: BUSINESS ACCOUNTING

CODE: D19IEIFCL320

ECTS CREDITS: 3

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Acquire specific knowledge related to "Business Accounting" as well as form the necessary skills to put it into practice; Acquire skills regarding: accounting organisation and management; draw up, check and control the supporting documents specific to the already studied operations; Ways of transferring into accounting the operations with the third parties, the expenses and the income of the entity etc.; Present the information in accounting documents of synthesis and make full sense of them in the process of proving the economic decisions.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: ENTREPRISE FINANCIAL MANAGEMENT

CODE: D19IEIFCL321

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Explain concepts, theories, methods and instruments of financial nature referring to the financial management of companies.; Apply concepts, theories, methods and instruments of financial nature in private entities to

solve problems specific to financial management; Students should acquire theoretical notions regarding: decisions of investments and financing; the capital of a company; the management of intangible assets; the management of current assets; the international financial results.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: ECONOMETRICS

CODE: D19IEIFCL322

ECTS CREDITS: 6

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Present the theoretical base of econometrics and highlight its connections to mathematical statistics (statistic inference, estimation theory); Present the econometric methods and the main types of econometric models; Design applications regarding the parametric estimation of econometric models associated to microeconomic and macroeconomic processes and the financial markets.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: ECONOMIC INFORMATION SYSTEMS

CODE: D19IEIFCL323

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Mark the limits and investigate the activities within software companies by using modern IT technologies, in order to familiarize students with the use of specific software products; Present some analyses of informational and IT systems as well as the specific activities to create them; Provide the features of performing economic systems, of electronic markets and net-economy, of commerce and e-business; Supply theoretical concepts regarding data bases and data deposits; Present ways of processing information by means of using software products that are also used in the economic field.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: DATA STRUCTURES

CODE: D19IEIFCL324

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Ensure the theoretical and practical support to identify, represent and use the various types of data, algorithms and the related operations; Explore the various ways of structuring the data; Identify the classes of operations which may be used on the data; Study the method of representing the objects belonging to various data structures in the computer; Project an adequate representation of the data and project and analyse the operating algorithms.

LANGUAGE OF INSTRUCTION: Romanian
ASSESSMENT METHOD(S): Preliminary examination

2ND YEAR, 2ND SEMESTER

COURSE TITLE: BANK AND MONETARY ECONOMICS

CODE: D19IEIFCL429

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): To familiarise students with the current principles and approaches from the national monetary-financial field; Ensure a base of understanding as well as familiarise with the activities related to the monetary and banking field; The present subject is intended to make students understand the way the monetary and payment systems are organised and the credit process; It is focused on providing key notions regarding banks and the banking activity as well as the instruments of the monetary policy; By following this lecture, the students will develop the ability to analyse the monetary phenomena of the banking activity.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: OBJECT ORIENTED PROGRAMMING

CODE: D19IEIFCL430

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Know the development directions of software programming; Train the students to use the programming language Visual C++, in order to understand the difficulties of object IT programming and thus create personal IT applications; Delimit and research the specific activities which take place in the system of economic operator, using the concepts of object orientation; Object orientation appears as a recent solution to building systems or complex applications, mainly the stable elements of the system for the uniform modelling of the objects. They highlight the base of the evolution of applications and anticipate easy solutions to reuse in the evolution of logics; Teach the development directions of programming oriented towards object; Value the information obtained using object-oriented applications which helps in discovering the real situation, the causes (in case deficiencies appear), and take effective measures to improve the activity. The agreed or generalised circulating information, which helps to scientifically prove decisions, requires the use of different types of data; Modelling the complex reality, the object oriented techniques emphasize the importance of the behaviour of data, the concept of object including not only the data but also the possible operations which can be done on them.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: OPERATING SYSTEMS

CODE: D19IEIFCL431

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Understand the theoretical aspects of operating systems; Present the main concepts and mechanisms which lie at the basis of a modern operating system; Know the role and functions of the components of the operating systems; Understand the interaction between the operating system and user as well as between the operating system and hardware; Acquire the basic elements regarding: the basic structure of operating systems; competitive processes, operations on processes, communication between processes, synchronisation; plan UC, assess planning algorithms; real and virtual memory; system files; entry-exit system; All these examples have as support the UNIX system.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: DATABASES

CODE: D19IEIFCL432

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Ensure the theoretical and practical support to design, administer and use databases; Present the creation principles and the implementation methods of the relational databases; Present the technique of database normalization which ensures the representation of the real systems under the form of optimised models of data; Present the basic elements of the SQL language; Offer the theoretical and practical support for the use of the management system of databases MySQL.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: COMPUTER NETWORKS

CODE: D19IEIFCL433

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Know the terminology, the principles of functioning and the concepts specific to the computer networks; Understand and explain the way of functioning of the existing networks, on levels of abstracting, using the basic knowledge in a proper way; Form the necessary skills to administer the computer networks; Acquire the basic elements regarding: hardware, architecture and interconnection of computer networks; operating with the protocol concepts, the stack of protocols, services and setting logical connections between them within the reference models OSI and TCP/IP; the constitutive elements and the typologies of computer networks; acquire the principles of interconnection and interoperability; form the necessary skills to administer the network and

configure the routers and the servers; connect the different network equipment using a variety of physical environment; static configuration of a local network in a given number of sub-networks using the sub-network mask, starting from a given IP address.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: MANAGEMENT ACCOUNTING

CODE: D19IEIFCL434

ECTS CREDITS: 3

TYPE OF COURSE: Optional

COURSE OBJECTIVE(S): Know the role and importance of the information provided by the management accounting for the management of entities; Present and acquire the methodology of organising and running the accounting management; Register the possible expenses and the obtained production in the financial accounts; Identify and build costs, use the instruments and management techniques in order to monitor the profit, to assist planning, to implement and control global performance; Know the calculation methods of costs and the concrete conditions of application; Present the new trends of methods and processing procedures of the information related to costs.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

COURSE TITLE: CREDIT INSTITUTION ACCOUNTING

CODE: D19IEIFCL435

ECTS CREDITS: 3

TYPE OF COURSE: Optional

COURSE OBJECTIVE(S): Know the informational system of a credit institution, the particularities of the basic accounting model applied to credit institutions; Know the theoretical and practical notions specific to the banking activity; Know the calculation method of the interest, techniques and instruments specific to the banking activity; Know the model and technique of accounting record of the operations specific to the banking activity.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S):

COURSE TITLE: ETHICS AND ACADEMIC INTEGRITY

CODE: D19IEIFCL437

ECTS CREDITS: 3

TYPE OF COURSE: Optional

COURSE OBJECTIVE(S): Present and explain the concepts and elements defining academic ethics and integrity through a quantitative and qualitative analysis of the phenomena specific to this discipline; initiating students in the field of ethics and academic integrity; Quantitative and qualitative analysis of phenomena specific to ethics and academic integrity; Integrating acquired knowledge into other subjects

in the training system of this master in the development of individual reports and case studies.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

3RD YEAR, 1ST SEMESTER

COURSE TITLE: ECONOMIC ANALYSIS

CODE: D19IEIFCL542

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Explain the evolution of the economic phenomena registered at the level of the company by analysing the factors which determine them and set the right directions to influence them; Provide a system of indicators used in the analysis of the activity volume, of expenses and the company profit; Provide a methodology of analysing the efficiency of using the production factors; Present the way of working with the balance sheet in order to correctly reflect the situation of the corporate assets and capital.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: VISUAL PROGRAMMING

CODE: D19IEIFCL543

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Through its content and structure, the course aims at treating the absolutely necessary theoretical concepts and concepts. Conventional programming languages are difficult to learn and use, requiring skills that many do not have. For this reason, user interfaces from a wide range of programs have begun to come up with facilities to complement and ease programming capabilities; Explaining and interpreting fundamental concepts in software; Visual programming is programming in which more than one dimension is used to transmit information; Acquiring knowledge to understand how to build a professional interface; Knowledge of the properties, methods and events to which they react: the form, the controls in general and the most used visual controls; Knowing controls that are not visible in execution, but act behind the scenes; Acquiring the skills needed to build contextual and routing menus; Working with the balance sheet in order to correctly reflect the situation of the corporate assets and capital.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: SOFTWARE ENGINEERING

CODE: D19IEIFCL544

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): The content and the structure of the lecture "Engineering Programming"

aim at presenting the theoretical notions and concepts which are absolutely necessary in order to create software systems, to develop IT applications, to analyse, project, implement, test and research soft systems; Use and assess the instruments for developing applications regarding the processing of resources within an organisation; Explain and interpret the fundamental knowledge in software; Offer students advanced knowledge of the current IT systems and of the major problems which lie at the base of designing systems; Acquire and understand the concepts and techniques of specifying and checking systems; Build a professional image on the process of development of the programs; Acquire an organised style of programming which may lead to clear programs, easy to understand and repair; Acquire the techniques of structured programming and develop the programs in steps, refining them in consecutive steps; Master basic techniques to design reliable programs and functional safety; Determine students to have knowledge of software engineering: user requirements, soft requirements, architectural projection, program processing, quality insurance, validation and checking, patterns of designing interfaces; Forming specialists capable of projecting, implementing and exploiting the IT systems; The specific objectives of the present subject refer to: student's abilities to produce a high quality soft by using engineering methods, to understand and use the software engineering concepts during the development of the program, the ability to work in a team, to use concepts and methods to identify processes, actors, entities and the business rules of the IT system.

LANGUAGE OF INSTRUCTION: Romanian
ASSESSMENT METHOD(S): Examination

COURSE TITLE: INFORMATION SYSTEMS ANALYSIS AND DESIGN

CODE: D19IEIFCL545

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Know the development directions of financial-monetary IT systems from our country; Form a systematic view on the financial-monetary IT systems; Develop the skills to design and assess the financial-monetary IT systems; Know the methodology of designing financial-monetary systems and apply them in order to determine the requirements for financial banking IT systems; Promote attitude qualities and specific skills in order to use and design financial-banking IT systems; Explain the fundamental aspects of developing software systems, as well as modelling applications in accordance with the requirements of beneficiaries; Teach the developing directions of IT systems; Teach the methodologies of designing IT systems and apply them in order to determine the requirements; Model the complex reality, make full use of the obtained information in order to discover the real situation, to

find out the causes where deficiencies happen and take the necessary measures to improve the activity.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: WEB PROGRAMMING

CODE: D19IEIFCL546

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Present the internet network not only from the point of view of the user but also from the point of view of the programmer on Internet; Develop the skills for writing programs which contribute to the success of a company, starting from simple Web presentation pages and continuing with virtual shops, supplier chains, long-distance contracts and distributed applications.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: SME MANAGEMENT

CODE: D19IEIFCL547

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Develop the ability to identify a business opportunity; Explore the management process of a small business; Understand and appreciate the role and lifestyle of the entrepreneur in the contemporary society; Identify and understand the initiation ways of a small company; Familiarise with drawing up a successful business plan; Know the specific elements of the main options of financing of small and medium-sized companies; Know the evolution steps of small companies and understand the problems and management challenges specific to each stage.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

COURSE TITLE: DATABASE MANAGEMENT

CODE: D19IEIFCL548

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Ensure theoretical and practical support in order to design and administer the database and the development of applications with BD; Present the concept and design involved in the use of the relational database system MySQL; Approach elements of advanced programming MySQL: stored procedures, cursors, trigger-i; Present the basic elements of the PHP language; Offer the support to connect BD MySQL by PHP and the presentation of advanced topics MySQL related to security and optimisation; Create practical PHP and MySQL projects which, by means of the studied examples, will prove the power and multilateral character of the PHP language and of the MySQL database.

ASSESSMENT METHOD(S): Examination

COURSE TITLE: MICROECONOMIC FORECASTING**CODE:** D19IEIFCL549**ECTS CREDITS:** 4**TYPE OF COURSE:** Optional

COURSE OBJECTIVE(S): Developing anticipation, analysis and synthesis capabilities, and disclosing the predictive management spheres and the need to imprint economic management on a predictive character; Acquiring specific methods and techniques, operational, decision making, forecasting and predictive management; Identification of the essential aspects of analyzing and substantiating demand and supply on different types of market; Stimulate, form and develop forward thinking in a world dominated by risks, uncertainties and undeterminations; Training and development of student analysis and synthesis capacity - both quantitatively and qualitatively; To acquire modern statistical methods and tools for anticipating the phenomena and economic processes in the Romanian enterprises.

LANGUAGE OF INSTRUCTION: Romanian**ASSESSMENT METHOD(S):** Preliminary examination**COURSE TITLE: QUANTITATIVE METHODS USED IN MARKET RESEARCH****CODE:** D19IEIFCL550**ECTS CREDITS:** 4**TYPE OF COURSE:** Optional

COURSE OBJECTIVE(S): Developing anticipation, analysis and synthesis capabilities, and disclosing the predictive management spheres and the need to imprint economic management on a predictive character; Acquiring specific methods and techniques, operational, decision making, forecasting and predictive management; Identification of the essential aspects of analyzing and substantiating demand and supply on different types of market; Stimulate, form and develop forward thinking in a world dominated by risks, uncertainties and undeterminations; Training and development of student analysis and synthesis capacity - both quantitatively and qualitatively; To acquire modern statistical methods and tools for anticipating the phenomena and economic processes in the Romanian enterprises.

LANGUAGE OF INSTRUCTION: Romanian**ASSESSMENT METHOD(S):** Preliminary examination**COURSE TITLE: PROBABILITIES AND MATHEMATIC STATISTICS****CODE:** D19IEIFCL551**ECTS CREDITS:** 4**TYPE OF COURSE:** Optional

COURSE OBJECTIVE(S): Assimilation of probability theory elements and their application in insurance statistics and theory; Knowledge of fundamental notions of probability theory; Knowledge and use of techniques for collecting and processing statistical data; Using the theory of probabilities and the results

of statistical studies in conducting and managing economic processes; Acquiring actuarial math elements.

LANGUAGE OF INSTRUCTION: Romanian**ASSESSMENT METHOD(S):** Preliminary examination**COURSE TITLE: TIME SERIES ANALYSIS****CODE:** D19IEIFCL552**ECTS CREDITS:** 4**TYPE OF COURSE:** Optional

COURSE OBJECTIVE(S): To provide a modern presentation of the methods and models used in analyzing time series and their applications; To explain the main theoretical concepts to characterize univariate and multivariate linear time series models, especially autoregressive and integrated mix models of ARIMA mobile media, VAR vector autoregressive models, and generalized autoregression models with GARCH-conditioned heteroscedasticity; Introduce applications for international markets and international business processes.

LANGUAGE OF INSTRUCTION: Romanian**ASSESSMENT METHOD(S):** Preliminary examination**3RD YEAR, 2ND SEMESTER****COURSE TITLE: MOBILE DEVICES AND APPLICATIONS****CODE:** D19IEIFCL655**ECTS CREDITS:** 5**TYPE OF COURSE:** Compulsory

COURSE OBJECTIVE(S): Know the basic concepts of programming mobile devices; Induce students the feeling that everybody is able to design, implement and test software applications for mobile devices; Provide theoretical and practical support for using computing platforms such as: Eclipse, JetBrainsAppCode; Provide theoretical and practical support for using computing platforms such as: Xamarin and Embarcadero Delphi.

LANGUAGE OF INSTRUCTION: Romanian**ASSESSMENT METHOD(S):** Examination**COURSE TITLE: INFORMATION SECURITY AND PROTECTION IN INFORMATION SYSTEMS****CODE:** D19IEIFCL656**ECTS CREDITS:** 5**TYPE OF COURSE:** Compulsory

COURSE OBJECTIVE(S): Know the essential aspects regarding the security of information in IT systems; Acquire the necessary knowledge regarding the principles and means used in developing a security policy of information within an organisation; Acquire the basic elements regarding: formal methods of analysing IT risks; assessment criteria of security; methods of controlling access; cryptographic techniques; practices of IT management; the security aspects of operating systems, databases, computer networks, software applications.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: MULTIMEDIA

CODE: D19IEIFCL657

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Present the various multimedia facilities of the current computer systems and of the multimedia creation software; Acquire the basic elements regarding: The defining features, methods, techniques and standards of representing and processing the multimedia information used by the software devoted to multimedia systems: text, static images, dynamic images, animation, audio, video; Develop the necessary skills to create multimedia applications.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: SOFTWARE SUITES

CODE: D19IEIFCL658

ECTS CREDITS: 3

TYPE OF COURSE: Optional

COURSE OBJECTIVE(S): Presentation of the most popular and commercially licensed software packages for statistics and data analysis; Developing programs with applications in descriptive statistics, inferential statistics, time series analysis and multidimensional data analysis; It creates the theoretical and practical foundation for acquiring the knowledge gained in the other disciplines with computer and financial-accounting profile.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

COURSE TITLE: COMPUTER AIDED ACCOUNTING

CODE: D19IEIFCL659,

ECTS CREDITS: 3

TYPE OF COURSE: Optional

COURSE OBJECTIVE(S): Students' understanding of concepts regarding the practical use of generic computer products in order to train them as future specialists in the economy; Training students in the use of information technology in the processing and communication of economic information; Elaborating statistical studies using the appropriate software; Comparative evaluation of software used in statistical analysis.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

COURSE TITLE: ECONOMIC PROCESS MODELING AND SIMULATION

CODE: D19IEIFCL660

ECTS CREDITS: 4

TYPE OF COURSE: Optional

COURSE OBJECTIVE(S): The ability to perform simulations based on a process model and interpret the results of these simulations to substantiate

management decisions; Acquiring theoretical and practical skills for real-world modeling; Analyzing the economic reality of an enterprise and building models of business processes that shape the company's dynamics; Simulation of business processes using specific models.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

COURSE TITLE: UNCONVENTIONAL PROGRAMMING

CODE: D19IEIFCL661

ECTS CREDITS: 4

TYPE OF COURSE: Optional

COURSE OBJECTIVE(S): Students' understanding of how to work with evolutionary algorithms to solve optimization problems with economic applications; Understanding the fundamental concepts for evolutionary computation; Understanding, acquiring and using genetic algorithms, evolutionary algorithms, and genetic programming; Using evolutionary algorithms to solve performance optimization problem classes for performance criteria (eg, optimizing stock portfolios).

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

COURSE TITLE: ELECTRONIC DOCUMENT MANAGEMENT

CODE: D19IEIFCL662

ECTS CREDITS: 4

TYPE OF COURSE: Optional

COURSE OBJECTIVE(S): Acquire the knowledge and form the necessary skills to efficiently implement and exploit the management systems of the documents; Present the principles, standards and management methods of documents in an organisation; Form a general view on the use of management systems of the documents; Acquire the necessary knowledge regarding design and implementation of the management systems of documents in an organisation; Form the necessary practical skills to exploit the management program of documents in organisations.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

COURSE TITLE: PROGRAMMING ENVIRONMENTS

CODE: D19IEIFCL663

ECTS CREDITS: 4

TYPE OF COURSE: Optional

COURSE OBJECTIVE(S): Acquisition of knowledge and skills training required for the effective implementation and operation of document management systems; Presentation of the principles, standards and methods for achieving program products in economic entities; Building an overview of the program products used in the automation of office activities; Acquiring knowledge and skills necessary for the realization and implementation of

program products used in the automation of office activities.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

COURSE TITLE: BUSINESS ETHICS

CODE: D19IEIFCL665

ECTS CREDITS: 3

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Students familiarize with the main trends, approaches and fields of business ethics; understand the basic theories regarding business ethics; know the relevant ethical aspects in the business field; know the concepts and theories regarding the social responsibility of companies and corporate management; know the significant directions of implementing an ethical behaviour within a company; develop the ability to offer well-founded personal opinions regarding certain topics from business ethics.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

FIELD: CYBERNETICS, STATISTICS AND INFORMATION SYSTEMS IN ECONOMY
PROGRAMME TITLE: STATISTICS AND ECONOMIC FORECASTING
BACHELOR'S DEGREE

1ST YEAR, 1ST SEMESTER

COURSE TITLE: MICROECONOMICS

CODE: D19SPIFCL101

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Acquiring general economic knowledge necessary to understand the competitive microeconomic environment that exists in a functioning market economy; Ensuring the basic economic culture of future specialists in the specialized economic fields (management, marketing, finance, accounting, statistics, etc.).

COURSE CONTENTS: Getting to know and understand the main economic processes that take place at the level of the economic agent (consumer choices, fundamentals of demand, supply conditions, competitive market, and fundamental incomes of society).

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: MANAGEMENT

CODE: D19SPIFCL102

ECTS CREDITS: 4

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): To familiarize students with the main concepts and practices in the field of management; To develop organizational and solving skills for some decisional situations.

COURSE CONTENTS: Presentation of the main theories that have been released in the evolution of managerial thinking; Systematic presentation of management processes; Investigating the functions of management processes; Identify the key competencies of the successful manager; Recognize the main management methods and techniques and the context of their use; Developing students' communication skills, decision making, critical thinking, teamwork.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: FUNDAMENTALS OF ACCOUNTING

CODE: D19SPIFCL103

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Students acquire basic accounting notions, knowledge and understanding of the procedures specific to the accounting method, understanding the specific terminology for the financial-accounting field of activity.

COURSE CONTENTS: Defining and explaining

concepts and principles specific to accounting theory; Forming a logical way of thinking about the transposition into accounting of the main economic and financial operations generated by the activity carried out by the economic agents; Understanding the methodology and working techniques specific to accounting, including mechanisms for the collection and processing of data from alternative documentary sources and from the current activity, for the assessment of the factors influencing the accomplishment of the benefits within the economic entities.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: MATHEMATICS APPLIED IN ECONOMICS

CODE: D19SPIFCL104

ECTS CREDITS: 6

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Forming skills to mathematically shape certain economics problems involving economic and financial decisions.

COURSE CONTENTS: Forming skills to identify and process information in order to form the mathematical model; Knowing the methods of mathematical optimization in making economic and financial decisions and determining the optimal solution for practical problems; The form of a logical thinking in making the necessary decisions by an economist

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: FUNDAMENTALS OF IT

CODE: D19SPIFCL105

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Students acquire basic concepts on: data organization and structuring, organization and operation of computers, operating systems, computer networks and the Internet.

COURSE CONTENTS: Assimilation of basic concepts on business information technologies (TIA); Training the skills and abilities necessary for exploring TIA; To enlarge the knowledge related to the Microsoft Word program and creating professional presentation with Microsoft PowerPoint; To create the prerequisites for obtaining the ECDL certificate.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: BUSINESS LAW

CODE: D19SPIFCL106

ECTS CREDITS: 3

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Acquire basic theoretical knowledge regarding: the concepts of economic

activity and business law; sources of business law; business enterprise; professional traders; the trade fund; insolvency of traders; the formation and execution of contracts for the exploitation of the commercial enterprise; special commercial contracts for the exploitation of the commercial enterprise.

COURSE CONTENTS: At the end of the course the participants will acquire the following specific competencies: a. professional: 1. Appropriate use of concepts, theories, paradigms and methodologies in the legal field as well as the techniques and instruments specific to the legal field; 2. Application of Romanian legislation, European legislation and other international legal instruments; 3. Use the necessary knowledge to collect data and information about a concrete law problem; 4. Use of the legislation in force in the analysis of legal situations, in their legal classification and in solving them; b. transversal: 1. To achieve professional tasks efficiently and responsibly; 2. To apply efficient teamwork techniques; Effective use of communication resources and assisted professional training sources.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

1ST YEAR, 2ND SEMESTER

COURSE TITLE: MACROECONOMICS

CODE: D19SPIFCL210

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): The main objective of Macroeconomics is to help students, future economists, to develop a correct reasoning about how the economy operates as a whole, taking into consideration the complex process of modernizing economic structures and European integration.

COURSE CONTENTS: Including macroeconomic themes, along the course there are substantiated and used macroeconomic indicators that are relevant the macroeconomic indicators relevant for the assessment of unified economic activities, in order to achieve connections in dynamics between the emerging economic phenomena. At the same time, the course includes topics related to the market system, to insure a balance between the unified demand and supply, the economic growth, the fluctuations of economic activity, macroeconomic equilibrium and imbalances, inflation and unemployment.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: BUSINESS ETHICS

CODE: D19SPIFCL211

ECTS CREDITS: 3

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): To address the issue of business ethics as follows, presenting concepts, tools and applications used in this field in order to understand ethics in an ever-evolving environment.

COURSE CONTENTS: To know the ethical aspects of an organization; To solve case studies on the ethical issues of an organization; To base a plan of compliance for the principles of business ethics.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: PUBLIC FINANCES

CODE: D19SPIFCL212

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Provides theoretical and practical information about the concepts, processes, methods and decisions in the field of public finances, as well as about the institutions that manage the problems specific to the field of public finances.

COURSE CONTENTS: Identifying and defining concepts, theories, methods and financial instruments regarding the field of public finance; Explaining and interpreting concepts, theories, methods and financial instruments in the field of public finance; Applying concepts, theories, methods and financial instruments in public and private entities.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: FINANCIAL ACCOUNTING

CODE: D19SPIFCL213

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): To enable students to accumulate knowledge specific to the Financial Accounting domain, as well as to develop the necessary skills to transfer them into practical work.

COURSE CONTENTS: Acquisition of specific knowledge and skills training on: organization and managing the financial accounting at economic entities; the preparation, verification and control of supporting documents specific to the operations that are under study; performing calculations and analyses on capital, stocks, fixed assets, treasury values, etc.; capitalizing the information provided by the financial accounting in the process of substantiating economic decisions.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: STATISTICS

CODE: D19SPIFCL214

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): To explain the place and role of statistics in the contemporary economy; To present the conceptual system with which statistics

operates in the national economy, both at the macroeconomic level as well as at the microeconomic level.

COURSE CONTENTS: To form and develop students' ability to collect, process, present and perform a statistical analysis of data; To acquire some modern statistical methods and tools for the study of socio-economic phenomena and processes.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: ECONOMIC INFORMATICS

CODE: D19SPIFCL215

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Acquisition of knowledge and building the necessary skills for an efficient use of software products in the management of economic activities.

COURSE CONTENTS: Getting to know the main software products applied in the economic field; Creating the skills and abilities necessary for the efficient use of software products applied in the economic field; Acquiring knowledge and creating the skills needed to use advanced spread sheet processors.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

2ND YEAR, 1ST SEMESTER

COURSE TITLE: MARKETING

CODE: D19SPIFCL319

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Students should understand the marketing approach from a dual perspective: as business specialists, in order to be able to implement marketing policies; as well as consumers, to discern abusive marketing practices.

COURSE CONTENTS: Understanding the concepts, methods, techniques and marketing tools with applicability in the sphere of finance; Applying the methods, techniques and tools specific to the marketing activity; Understanding the role of marketing research in financial organizations.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: BUSINESS ACCOUNTING

CODE: D19SPIFCL320

ECTS CREDITS: 4

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): To enable students to accumulate the set of knowledge specific to Business Accounting, as well as to form the necessary skills to apply them in practical work.

COURSE CONTENTS: Obtaining skills related to:

organizing and conducting accounting; the preparation, verification and control of supporting documents specific to the studied operations; reflecting in accounting the operations related to the relationships with the of third-parties, the expenses and revenues of the entity, etc.; the presentation of information within the summarized accounting documents, as well as to capitalize them in the process of substantiating the economic decisions.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: ENTREPRISE FINANCIAL MANAGEMENT

CODE: D19SPIFCL321

ECTS CREDITS: 4

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Explaining concepts, theories, methods and financial instruments related to financial management of companies; Applying concepts, theories, methods and financial instruments in private entities to solve specific financial management issues.

COURSE CONTENTS: Students acquire theoretical notions regarding: investment and financing decisions; the capital of the enterprise; asset management; managing current assets; global financial results.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: ECONOMETRICS

CODE: D19SPIFCL322

ECTS CREDITS: 6

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Presenting the theoretical bases of econometrics and highlighting its links with mathematical statistics (statistical inference, estimation theory).

COURSE CONTENTS: Presentation of econometric methods and the main types of econometric models; To make applications on parametric estimation of econometric models associated with the processes of microeconomic, macroeconomic and with the financial markets.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: ECONOMIC INFORMATION SYSTEMS

CODE: D19SPIFCL323

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): To separate and to investigate activities within the software companies by using modern computer technologies in order to familiarize students with the use of specific software products.

COURSE CONTENTS: To present some analyses of informational and informatics systems, as well as the specific activities in order to achieve them; To provide the features of efficient economic systems, electronic markets and the net-economy, commerce and e-business; To provide some theoretical concepts related to databases and data storage; To present ways of processing the information through some software products used in the economic domain.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: EUROPEAN ECONOMICS

CODE: D19SPIFCL324

ECTS CREDITS: 4

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Explaining the EU's activities.

COURSE CONTENTS: Using the appropriate criteria and methods for assessing studies/ analysis of EU policies and institutions; Developing action/ initiative projects within the EU; Assessing actions/ initiatives undertaken within the EU.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

2ND YEAR, 2ND SEMESTER

COURSE TITLE: DEMOGRAPHY

CODE: D19SPIFCL429

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Students will acquire fundamental theoretical concepts and the specific methodology for the collection, processing, statistical analysis and interpretation of data from the population's field of activity and data regarding life quality.

COURSE CONTENTS: The thematic of the courses and seminars will facilitate to future economists the following: acquisition of the methodology for collecting, presenting, processing and analysing the statistical-demographic data (total and selective research); assimilation of some statistical models of analysis and forecast of demographic phenomena; the formation of practical skills for carrying out selective statistical studies on population and life quality.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: BANK AND MONETARY ECONOMICS

CODE: D19SPIFCL430

ECTS CREDITS: 4

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): To familiarize students with the main trends and approaches from the national monetary-financial field.

COURSE CONTENTS: Provides a basis of understanding as well as getting acquainted to the main activities related to the monetary and banking sphere; The discipline allows understanding the way monetary systems are organized, the payment system as well as the credit process; It is meant to acquire key notions regarding banks and banking activity and the instruments of monetary policy; By participating at this course, students will develop their ability to analyse the monetary phenomena and the banking activity.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: TIME SERIES ANALYSIS

CODE: D19SPIFCL431

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): To provide a modern presentation of the methods and models used in analysing time series and their applications.

COURSE CONTENTS: To explain the main theoretical concepts to characterize invariable and multivariable linear time series models, in particular the mixed autoregressive models and those integrated by mobile array (ARIMA), autoregressive vector models (VAR) and generalized autoregressive models with conditional heteroscedasticity (GARCH); To present applications for international markets and international business processes.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: STATISTICAL SURVEYS

CODE: D19SPIFCL432

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): To explain the evolution of economic phenomena recorded at the micro and macroeconomic level in terms of determining factors, in order to identify the directions of action to influence them.

COURSE CONTENTS: 1. Students acquire the fundamental theoretical notions used in "Statistical Surveys"; 2. To acquire specific methodology in order to collect, process, perform a statistical analysis and interpretation of data within statistical surveys and investigations; 3. To implement programs with applications within statistical surveys and investigations; 4. To form some practical skills.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: PROBABILITIES AND MATHEMATICAL STATISTICS

CODE: D19SPIFCL433

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Acquiring some elements of the probability theory and applying them in the statistics and insurances' theory.

COURSE CONTENTS: To know the basic notions of the probabilities' theory; To know and to use the techniques for collecting and processing statistical data; To use the theory of probabilities and the results of statistical studies in conducting and managing economic processes; To acquire actuarial math elements.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: FINANCIAL AUDIT

CODE: D19SPIFCL435

ECTS CREDITS: 3

TYPE OF COURSE: optional

COURSE OBJECTIVE(S): Initiation in the examination and diagnosing entities' systems, transactions and processes, its position and an objective financial performance.

COURSE CONTENTS: Explaining the need for reasonable transparency of outcomes and accumulations within and in connection with organizations; Understanding and familiarizing yourself with the various issues of insurance against information risk; Presenting possible alternatives to improve the quality of information and the incidence of perceptions; Description of the systematic process of obtaining and evaluating evidence required in financial audit; The display, from a theoretical and practical perspective, of the concepts, objectives, means and techniques called for by those who guarantee correct information; Particular attention is paid to both the concepts used by the auditors: materiality threshold and audit risk, audit error and fraud, as well as in some areas of major importance for audit engagements: planning in audit, approaching the audit, testing and evaluation, analysis and reporting.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

COURSE TITLE: INTERNAL AUDIT

CODE: D19SPIFCL436

ECTS CREDITS: 3

TYPE OF COURSE: optional

COURSE OBJECTIVE(S): Understanding and assimilating the bases of internal audit; Initiation in interpreting and appreciating the various nuances and (in) the coherence of processes and systems.

COURSE CONTENTS: Examining the conceptual principles of the internal audit; Clarification of distinctions between internal and external audit, internal audit and inspection, management control and other similar concepts; Familiarize yourself with techniques for detecting inaccuracies and deviations as well as assessing their consequences; Initiation of the future specialist of diagnosis, of methods assessment , procedures, post analysis, organizing

the activity; Presentation of legislative and procedural internal audit trails; Encouraging the student to express opinions not only about the good application of the rules but also about their quality; Developing communication and reporting skills specific to internal audit engagements.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

COURSE TITLE: ACCOUNTING CONTROL

CODE: D19SPIFCL437

ECTS CREDITS: 3

TYPE OF COURSE: optional

COURSE OBJECTIVE(S): Knowledge and application of the basic concepts, procedures and methods used by management control to formulate decisional judgments and assess the performance of the entity/ organization.

COURSE CONTENTS: 1. Organization and exercise of management control; 2. Develop, track and control budgets by type of activity; 3. Choice of management control procedures according to the specificity of the entity's activity; 4. Analyse entity management by using appropriate tools; 5. Formulate decisional judgments based on calculated costs; 6. Analysis of cost behaviour based on volume of activity; 7. Determining the impact of changes in the entity's operations on costs, results and inventories.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

COURSE TITLE: COMPUTER AIDED ACCOUNTING

CODE: D19SPIFCL438

ECTS CREDITS: 3

TYPE OF COURSE: optional

COURSE OBJECTIVE(S): Understanding, identifying and solving basic accounting problems recorded at the firm's level through the factors that determine them, in order to identify the informative ways of approaching them.

COURSE CONTENTS: Presentation of the legal minimum characteristics that a computerized accounting system must meet, the main defining elements of such a system, the general approach to their exploitation and use. Through the theoretical and especially practical knowledge, students are provided with an accumulation of knowledge that allows them unconditioned access to a job in the field of accounting given the conditions in which computerized systems are highly used. It also aims at the possibility for future graduates to carry out some work tasks involving: the implementation of a computerized accounting system, the exploitation and the improvement of the exploitation of a previously implemented computerized accounting system.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

3RD YEAR, 1ST SEMESTER

COURSE TITLE: MICROECONOMIC STATISTICS

CODE: D19SPIFCL543

ECTS CREDITS: 4

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Students acquire the fundamental theoretical notions used in Microeconomic Statistics.

COURSE CONTENTS: To acquire the specific methodology used at the microeconomic level; To form practical skills regarding the use of statistical methodology at the microeconomic level.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: ECONOMIC ANALYSIS

CODE: D19SPIFCL544

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Explaining the evolution of the economic phenomena recorded from the company's level in terms of the factors that determine it, in order to identify the directions for action that will influence them.

COURSE CONTENTS: Providing a system of indicators used to analyse the volume of activity, costs and profitability of the firm; Providing a methodology for analysing the efficiency of use of production factors; Presenting the method of processing the balance sheet for an accurate reflection of the assets and capital situation;

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: MACROECONOMIC AND INTERNATIONAL STATISTICS

CODE: D19SPIFCL545

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Students acquire the fundamental theoretical notions used in the macroeconomic and international statistics.

COURSE CONTENTS: To acquire the specific methodology regarding the collection, processing, statistical analysis and data interpretation at a macroeconomic and international level; To develop practical skills related to: collecting statistical data, processing statistical data, interpreting data; To conduct statistical studies at a macroeconomic and international level.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: MICROECONOMIC FORECASTING

CODE: D19SPIFCL546

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): To develop the capacity to anticipate, analysis and synthesis, to reveal the predictive management characteristics and the need to imprint on the economic management a predictive character.

COURSE CONTENTS: To acquire the specific methods and techniques, with an operational character, in order to substantiate decisions, to elaborate the forecasts and the predictive management of a company; To identify the essential aspects which are involved in the analysis and to substantiate the demand and the offer on different types of market; To simulate, to form and to develop an anticipative reasoning in a world dominated by risks, uncertainties and non-determinations; To form and develop the students' analysis and synthesis capacity - both quantitatively and qualitatively; To acquire modern statistical-mathematical methods and tools of a predictive approach regarding the phenomena and the economic processes within the Romanian enterprises.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: DATA ANALYSIS

CODE: D19SPIFCL547

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): To explain the defining principles and concepts for the Data Analysis subject.

COURSE CONTENTS: Presentation of the methods and models based on which multidimensional data analysis works; To form and develop students' ability to use data analysis models and cognitive models extracted from the data; To acquire some practical skills by conducting case studies.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: FINANCIAL PROCESS SIMULATION

CODE: D19SPIFCL548

ECTS CREDITS: 3

TYPE OF COURSE: optional

COURSE OBJECTIVE(S): To know the substantiation ways of prices in various fields of activity.

COURSE CONTENTS: The acquisition of the theoretical concepts regarding the nature of the price; To understand the way prices are set in all production and provision of services activities; To recognize the main types of competition on which the economy is currently based; to know the methods used in order to determine the prices of the new products; To know the system of prices that operates in the national economy and in the international trade.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

COURSE TITLE: PRICES AND COMPETITION**CODE:** D19SPIFCL549**ECTS CREDITS:** 3**TYPE OF COURSE:** optional**COURSE OBJECTIVE(S):** To know the ways of prices' substantiation in various fields of activity.**COURSE CONTENTS:** To acquire theoretical concepts regarding the nature of the price; To understand the way prices are established in all production activities for the provision of services; To recognize the main types of competition on which the economy is currently based; getting to know the methods used to determine the prices of the new products; Getting to know the system of prices that operates in the national economy and in the international trade.**LANGUAGE OF INSTRUCTION:** Romanian**ASSESSMENT METHOD(S):** Preliminary examination**COURSE TITLE: STATISTICS IN INSURANCES****CODE:** D19SPIFCL550**ECTS CREDITS:** 3**TYPE OF COURSE:** optional**COURSE OBJECTIVE(S):** Students acquire theoretical fundamental concepts and the specific methodology for the collection, processing, statistical analysis and interpretation of data from the insurance field of activity.**COURSE CONTENTS:** The themes of the courses and seminars will help future economists: selecting and applying appropriate methods of statistical research in the field of insurance; creating practical skills for carrying out statistical studies in the field of insurance.**LANGUAGE OF INSTRUCTION:** Romanian**ASSESSMENT METHOD(S):** Preliminary examination**COURSE TITLE: SME MANAGEMENT****CODE:** D19SPIFCL551**ECTS CREDITS:** 3**TYPE OF COURSE:** optional**COURSE OBJECTIVE(S):** To develop the ability to identify an entrepreneurial opportunity.**COURSE CONTENTS:** To explore the management of a small business; Understanding and appreciating the entrepreneur's role and lifestyle in contemporary society; Identify and understand the ways to start a small business; Familiarize yourself with how to develop a successful business plan; To know the specific elements of the main financing alternatives for small and medium enterprises; To know the stages of evolution of small enterprises and understanding the problems and challenges for management, specific to each stage.**LANGUAGE OF INSTRUCTION:** Romanian**ASSESSMENT METHOD(S):** Preliminary examination**COURSE TITLE: FINANCIAL AND BANK STATISTICS****CODE:** D19SPIFCL552**ECTS CREDITS:** 3**TYPE OF COURSE:** optional**COURSE OBJECTIVE(S):** Students acquire fundamental theoretical concepts and the specific methodology for the collection, processing, statistical analysis and interpretation of data from the financial-banking domain.**COURSE CONTENTS:** The themes of the courses and seminars will help future economists: to select and to apply the appropriate statistical research methods in the financial-banking domain; to form practical skills for carrying out statistical studies in the financial-banking domain.**LANGUAGE OF INSTRUCTION:** Romanian**ASSESSMENT METHOD(S):** Preliminary examination**COURSE TITLE: QUALITATIVE VARIABLE STATISTICS****CODE:** D19SPIFCL553**ECTS CREDITS:** 3**TYPE OF COURSE:** optional**COURSE OBJECTIVE(S):** Students will acquire the fundamental theoretical notions used in Qualitative Variable Statistics.**COURSE CONTENTS:** To acquire the specific methodology of statistics used in the case of qualitative variables; To form practical skills regarding the use of the statistical methodology for the processing of the qualitative variables.**LANGUAGE OF INSTRUCTION:** Romanian**ASSESSMENT METHOD(S):** Preliminary examination**3RD YEAR, 2ND SEMESTER****COURSE TITLE: FINANCIAL ANALYSIS****CODE:** D19SPIFCL656**ECTS CREDITS:** 4**TYPE OF COURSE:** compulsory**COURSE OBJECTIVE(S):** Explaining the evolution of economic phenomena recorded at the firm's level in terms of the factors that determine them, in order to identify the directions of action to influence them.**COURSE CONTENTS:** Providing a system of indicators used in the analysis of the business volume, expenses and in the firm's profitability; Providing a methodology for analysing the efficiency of the use of production factors; Presenting the method of processing the balance sheet for an accurate reflection of the assets and capitals' situation.**LANGUAGE OF INSTRUCTION:** Romanian**ASSESSMENT METHOD(S):** Examination**COURSE TITLE: SOFTWARE SUITES FOR STATISTICS****CODE:** D19SPIFCL657**ECTS CREDITS:** 5**TYPE OF COURSE:** compulsory

COURSE OBJECTIVE(S): Presentation of the most popular and commercially licensed software packages for statistics and data analysis.

COURSE CONTENTS: Developing programs with applications in descriptive statistics, inferential statistics, time series analysis and multidimensional data analysis; Elaboration of statistical studies using the appropriate software; Comparative evaluation of software used in statistical analysis.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: MANAGEMENT ACCOUNTING

CODE: D19SPIFCL658

ECTS CREDITS: 3

TYPE OF COURSE: optional

COURSE OBJECTIVE(S): Explaining the evolution of the economic phenomena recorded at the level of the company in terms of factors that determine it, in order to identify the directions of action to influence them.

COURSE CONTENTS: Acquiring a specific language and getting to know the procedures, techniques, tools used by the management accounting; Identifying and building costs at the level of public, financial and credit institutions, starting from the aspects of economic entities; Preparing reliable, understandable and relevant information for the users; Easily adapting to the entities' specific of the management through costs.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

COURSE TITLE: ETHICS AND ACADEMIC INTEGRITY

CODE: D19SPIFCL660

ECTS CREDITS: 3

TYPE OF COURSE: optional

COURSE OBJECTIVE(S): Addressing business ethics, presenting concepts, tools and applications used in this field to understand ethics in an ever-evolving environment.

COURSE CONTENTS: Be aware of the ethical aspects of an organization; Solve case studies on the ethical issues of an organization; Base a plan of compliance with the principles of business ethics.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

COURSE TITLE: MACROECONOMIC FORECASTING

CODE: D19SPIFCL661

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): To develop the ability to anticipate, analysis and synthesis, to reveal the predictive management characteristics and the need to imprint on the economic management a predictive character.

COURSE CONTENTS: To acquire the specific methods and techniques, with an operational character, to substantiate decisions, to elaborate the forecasts and the predictive management of a company; Identifying the key aspects involved in the regional development profile; Stimulating, shaping and developing an anticipative reasoning in a world dominated by risks, uncertainties and non-determinations; Forming and developing the students' analysis and synthesis capacity – both quantitatively as well as qualitatively; To acquire modern statistical- mathematical methods and tools for a predictive approach regarding the phenomena and the economic processes from the Romanian enterprises.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: QUANTITATIVE METHODS IN MARKET RESEARCH

CODE: D19SPIFCL669

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Developing the ability to anticipate, analyse and synthesize and disclose the predicate management spheres and the need to imprint a predictive character on the economic management.

COURSE CONTENTS: Assimilation of specific methods and techniques, with an operational character, fundament decisions, and predictive management of the firm; Identification of the essential aspects requested by the analysis and fundament of demand and supply on different types of market; Stimulating, creating and developing the forward thinking in a world dominated by risks, uncertainties and non- determinations; Training and development the students' analysis and synthesis capacity - both quantitatively and qualitatively; To acquire modern statistical- mathematical methods and tools for anticipating the phenomena and economic processes from Romanian enterprises.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: DATABASES

CODE: D19SPIFCL662

ECTS CREDITS: 3

TYPE OF COURSE: optional

COURSE OBJECTIVE(S): Provides the theoretical and practical support for the design, administration and use of databases.

COURSE CONTENTS: Presents the principles of achievement and methods of implementation of the relational databases; Presents the technique of databases normalization which ensures the representation of real systems in the form of optimized data models; Shows the basic elements of SQL language; Offers the technical and practical

support for using the management system of MySQL database.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

COURSE TITLE: MOBILE DEVICES AND APPLICATIONS

CODE: D19SPIFCL663

ECTS CREDITS: 3

TYPE OF COURSE: optional

COURSE OBJECTIVE(S): To get to know basic concepts of mobile device programming.

COURSE CONTENTS: It starts from the premise that anyone must be able to project, implement and test mobile software applications; Provides theoretical and practical support for the use of Eclipse, JetBrainsAppCode programming platforms; Provides theoretical and practical support for the use of Xamarin and Embarcadero Delphi programming platforms.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

COURSE TITLE: MULTIMEDIA

CODE: D19SPIFCL664

ECTS CREDITS: 3

TYPE OF COURSE: optional

COURSE OBJECTIVE(S): Presenting the multimedia facilities of current computing systems and multimedia creation software.

COURSE CONTENTS: Students acquire the basic elements regarding: the defining characteristics, methods, techniques and standards of representation and processing of media information used by software dedicated to multimedia systems: text, static images, dynamic images, animation, audio, video; To develop the skills for the creation of multimedia applications.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

COURSE TITLE: DESIGN AND IMPLEMENTATION OF WEBSITES

CODE: D19SPIFCL665

ECTS CREDITS: 3

TYPE OF COURSE: optional

COURSE OBJECTIVE(S): Provides the theoretical and practical support for the design, administration and use of Websites.

COURSE CONTENTS: It starts from the premise that anyone who has, at least, operating computer skills but no experience in Web Design, as a result of acquiring the taught notions, will be able to master up to a professional level all the working procedures for the design and creation of a site web; Provides theoretical and practical support for using the MySQL database management system.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

FIELD: ACCOUNTING
PROGRAMME TITLE: ACCOUNTING AND MANAGEMENT INFORMATION SYSTEMS (CRAIOVA AND CENTRE OF DROBETA-TURNU SEVERIN)
BACHELOR'S DEGREE

COURSE TITLE: MICROECONOMY

CODE: D20CGL101

ECTS CREDITS: 6

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Acquiring general economic knowledge necessary to understand the competitive microeconomic environment existing in a functioning market economy; Ensuring the basic economic culture of future specialists in the specialized economic fields (management, marketing, finance, accounting, statistics, etc.); Knowledge and understanding of the key economic processes that take place at the level of the economic agent (consumer choices, the fundamentals of demand, supply conditions, the competitive market, the fundamental incomes of society).

COURSE CONTENTS: Course: Chapter 1. Economy - the form of human action; Chapter 2. Economics - Science of Economic Action, Social Science; Chapter 3. Market economy; Chapter 4. Economic goods. Their utility and value; Chapter 5. Organization of business activity for business; Chapter 6. Production factors and their use; Chapter 7. Demand; Chapter 8. Offer; Chapter 9. Market and competition; Chapter 10. The price and training mechanisms in different markets; Chapter 11. Producer inputs. Seminar: 1. Organizational Seminar; 2. Economy - the form of human action; 3. Economics - the science of economic action; 4. Market economy; 5. Economic goods, utility and value; 6. Organization of economic activity; 7. The system of factors of production; 8. Production theory - applications 9. Application - applications; 10. Offer - applications; 11. Market and competition; 12. The price and training mechanism in different markets; 13. Income from inputs.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written exam: multiple choice tests/questions + applications to solve 70%, Assessment during the semester 30%.

COURSE TITLE: MANAGEMENT

CODE: D20CGL102

ECTS CREDITS: 3

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): The development of analytical and synthetic thinking, the transition from the fragmentary approach, specific to the economists of execution, to the systemic, complex thinking characteristic of economists of wide interdisciplinary conception.

COURSE CONTENTS: Course: Chapter 1. Evolution of managerial thinking and practices; Chapter 2.

Theoretical foundations of enterprise management; Chapter 3. The structural organization of the enterprise; Chapter 4. Information system and managerial communication; Chapter 5. Decision-making process in the enterprise; Chapter 6. Methods and management techniques; Chapter 7. Enterprise managers; Chapter 8. Enterprise culture management. Seminars: 1. Organizational Seminar; 2. Evolution of managerial thinking and practices; 3. Theoretical foundations of enterprise management; 4. The structural organization of the enterprise; 5. Information system and managerial communication; 6. Decision-making process in the enterprise; 7. Methods and management techniques; 8. Company managers; 9. Enterprise culture management.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written exam: theoretical questions, grid tests and 50% solving applications. Control themes, 50% tests.

COURSE TITLE: ACCOUNTING BASIS

CODE: D20CGL103

ECTS CREDITS: 6

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Students acquire basic accounting notions, knowledge and understanding of the methods specific to the accounting method, understanding the terminology specific to the financial-accounting field. - Defining and explaining concepts and principles specific to accounting theory; - Forming a logical way of thinking about the transposition into accounting of the main economic and financial operations generated by the activity carried out by the economic agents; - Understanding the methodology and working techniques specific to the accounting, including mechanisms for the collection and processing of data from alternative documentary sources and current activity, for the assessment of the factors influencing the realization of the benefits within the economic entities.

COURSE CONTENTS: Chapter 1. Object and method of accounting; Chapter 2. Accounting representation of the patrimony and financial results; Chapter 3. Documentary evidence and accounting records; Chapter 4. Account and double entry in accounting; Chapter 5. Accounts recording of the main economic transactions; Chapter 6. Verification scale. Seminar: 1. Subject and method of accounting; 2. Balance sheet assets balance sheet; 3. Equity Balance Sheet; 4. Balancing changes; 5. Documentary evidence and accounting records; 6. Characteristics of account structure; 7. Rules of operation of the accounts; 8. Double entry and correspondence of accounts; 9. Capital accounts; 10. Fixed Asset Accounts; 11. Stock accounts; 12. Third-party accounts; 13. Treasury accounts; 14. Expenditure accounts; 15. Income accounts.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written exam: grid tests + 60% solving applications. Portfolio of works carried out during the semester; written test 40%.

COURSE TITLE: APPLIED MATHEMATICS IN ECONOMY

CODE: D20CGL104

ECTS CREDITS: 6

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): The transmission of the mathematical knowledge necessary for the future economist and the formation of the skills to model mathematically certain cases from the economy; Developing skills to identify and process information to write mathematical models; Knowing the optimization methods and determining the optimal solution for practical, analytical and numerical problems; Developing a logical, precise thinking needed in decision-making in socio-economic practice; Exposing concrete models to maximize benefits, minimize material consumption or transport costs, optimize inventory management, optimize investment, etc. which prepare the future economist with scientific decision-making methods, eliminating empiricism in economic activity.

COURSE CONTENTS: Chapter 1. The Problem of Linear Programming. Examples; Chapter 2. Systems of linear equations; Chapter 3. Simplex algorithm. Multiple optimal solutions to linear programming problems; Chapter 4. Duality. The simplex dual algorithm. applications; Chapter 5. The canonical form of a system of linear equations. reoptimization; Chapter 6. Transportation Issues; Chapter 7. Topology Elements in R^n . Square shapes. Determining the canonical form of a square shape. Gauss's method. Jacobi's method. Classification of square shapes; Chapter 8. Real Functions of Multiple Real Variables. Limits. Continuity; Chapter 9. Taylor's Formula. The extremes of real functions of several variables; Chapter 10. Extreme Applications. Deterministic patterns of stock management; Chapter 11. Extreme with tie equality. Lagrange's multiplier method; Chapter 12. Events field. Probability field; Chapter 13. Classical probability schemes; Chapter 14. Applications. Subject template for the exam. Seminar: 1. Linear models. Bring linear programming problems to standard form; 2. Systems of linear equations. Gauss-Jordan total elimination method. Particular types of solutions of linear equation systems: basic solutions, programs, basic programs. Simplex algorithm-table variant. Multiple optimal solutions. Applications to optimal production planning issues; 3. Duality. The simplex dual algorithm. reoptimization; 4. Transport-type problems; Square shapes. Determining the canonical form of a square shape. Classification of square shapes; Real functions of several real variables; Partial derivatives of 1. gradient order. Second-order partial derivatives. Hessian. extreme; 6. Extreme applications. Deterministic patterns of

stock management. Extreme with tie equality. Lagrange's multiplier method; 7. Field of events. Probability field. Classic likelihood schemes.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written exam: 9 problems to solve, according to the model presented 80%. Homework, individual discussions 20%.

COURSE TITLE: INFORMATION TECHNOLOGY BASICS

CODE: D20CGL105

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Acquiring basic theoretical notions defining the content and place of the discipline in a computer context; Developing practical skills for efficient use of electronic computers in current work; Effective economic approach to information and communication technologies. Students acquire basic concepts on: organization and operation of computers; data organization and structuring; operating systems; computer networks and the Internet.

Use of information and communication technologies to receive, evaluate, store, produce, present and exchange information. Use of communication and information services provided by the Internet through business processes. Deepen knowledge of the Microsoft Word word processor and professional presentations with Microsoft Power Point.

COURSE CONTENTS: Chapter 1. Basic concepts of information and communication technology; Chapter 2. Data Organization and Structure Issues; Chapter 3. Organization and operation of electronic computing systems; Chapter 4. Operating systems; Chapter 5. Computer and Internet Networks. Seminar: 1. Assessment of the student's initial knowledge. Discussions on requirements and modalities of examination, promotion to the Basics of Information Technology discipline; 2. The architecture and mode of operation of an electronic computing system; 3. Windows operating system. Presentation and customization of interface elements; 4. Utility programs; 5. Working with Windows files - Organize, create, share, print, search. Use of electronic mail and the Internet. Internet Explorer features; 6. Introduction to Word. Launching in execution, interface elements, creating, opening, saving, reading, printing documents in word. Using templates 7. Format documents, personalize and add visual effects to text. Presentation of Ribbon Home; 8. Define and use styles and references. Presentation and use of ribbon (Ribbon) References; 9. Presentation and use of Ribbon Insert. Creating and using lists and tables. Editing equations .; 10. Creating Slides in Power Point; 11. Using templates in Power Point.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Multiple choice test 50%. Laboratory test to assess the achievement rate of the applied exercises was 50%.

COURSE TITLE: BUSINESS LAW

CODE: D20CGL106

ECTS CREDITS: 3

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Acquiring basic theoretical knowledge on: the concepts of economic activity and business law; sources of business law; business enterprise; professional traders; the trade fund; insolvency of traders; the formation and execution of contracts for the exploitation of the commercial enterprise; special commercial contracts for the operation of the economical enterprise.

COURSE CONTENTS: Chapter 1. Enterprise - legal form of professional activity; Chapter 2. Individual traders; Chapter 3. Company Forms and Their Classification; Chapter 4. Formalities required to constitute the commercial company; Chapter 5. Operating companies; Chapter 6. Dissolution and liquidation of commercial companies; Chapter 7. Mandate contract; Chapter 8. Agency contract; Chapter 9. The franchise contract.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Combined exam, multiple choice questions and a 70% case study. The ongoing evaluation will follow the seminar work as well as 30% scheduled testing.

COURSE TITLE: ENGLISH 1

CODE: D20CGL107

ECTS CREDITS: 2

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): To know and apply English-specific terminology in order to succeed in the international business environment, to become familiar with the specific language of emails, reports and telephone conversations held in English; - acquiring and developing business vocabulary specific to the following topics: Commerce, The Sole Trader, Partnership, Kinds of Ownership III, The Two Sides of Corporation, Transport and Communication, The Nature of Accounting in order to be used correctly in business situations; - The Review of Grammar Structures - The Article, The Plural of Nouns, The Gender of Nouns, The Pronouns, The Pronoun I, The Pronoun II and the Numeral - in order to be used correctly in business situations; - the ability to express and fluency in English. The dialogue will focus in particular on a number of situations and activities specific to the future profession, namely: encouraging free expression of students on the basis of established themes, study of business texts; - Acquiring the English language reading skills underlying the development of the specialized vocabulary; - acquiring the fundamental elements of linguistics as well as the stylistic ones, which are extremely

necessary in the written communication for the writing of future specialized papers, oral and interactive practice to encourage the expression of ideas and opinions, in order to acquire the new business vocabulary specific to the themes approached.

COURSE CONTENTS: Chapter 1. Commerce; Chapter 2. The nature of accounting; Chapter 3. Partnership; Chapter 4. Kinds of Ownership III; Chapter 5. Transport and Communication; Chapter 6. The two sides of corporation; Chapter 7. The sole trader.

ASSESSMENT METHOD(S): Homework, individual discussions 30%. Written exam 70%.

COURSE TITLE: PHYSICAL EDUCATION 1

CODE: D20CGL108

ECTS CREDITS: 1

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): The discipline aims to develop the theoretical, practical and methodical skills for individual or group practice for a healthy lifestyle; Awareness of the students about the role and importance of practicing physical exercise; Strengthening the theoretical, scientific and practical notions of physical exercises in leisure time by the student; Developing volitional moral traits, aesthetic sense, discipline, fair play and communication and teamwork skills; Maintaining and maintaining health through exercise, in order to increase the potential for physical and intellectual work; Promoting growth processes and harmonious physical development of the body; Physical and mental recovery after various activities; Harmonious blending of intellectual activities with physical activity.

COURSE CONTENTS: Fitness and bodybuilding - exercises specific to the development of certain muscle groups; Application trails combined with treadmills, jumps, equilibrium exercises, escalation, climbing, etc .; Sports games: basketball, football; Table tennis-the basic technique of the main technical procedures; Verification and evaluation - control samples.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Evaluation of individual and team activities 100%

COURSE TITLE: MACROECONOMY

CODE: D20CGL211

ECTS CREDITS: 6

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): The main objective of Macroeconomics is to help students, future economists, develop a correct thinking about the way the economy operates as a whole under the complex process of modernizing economic structures and European integration. Including macroeconomic themes, the macroeconomic indicators relevant to the assessment of aggregate economic activities are based and used throughout the discipline to make

correlations in dynamics between the emerging economic phenomena. At the same time, the discipline includes topics related to the market system, ensuring the balance between aggregate supply and demand, economic growth, economic activity fluctuations, macroeconomic imbalances and imbalances, inflation and unemployment.

COURSE CONTENTS: Chapter 1. Theoretical foundations of macroeconomics; Chapter 2. The monetary market; Chapter 3. The capital market; Chapter 4. The labor market; Chapter 5. Forex market; Chapter 6. Economic growth and sustainable development; Chapter 7. Income, consumption and investment. Chapter 8. Equilibrium and economic imbalance; Chapter 9. Fluctuations in economic activity. Business cycle; Chapter 10. Occupation and unemployment; Chapter 11. Inflation. Seminar: 1. Organizational Seminar; 2. Theoretical foundations of macroeconomics; 3. The monetary market; 4. The capital market; 5. Monetary market applications and capital market; 6. The labor market; 7. The foreign exchange market; 8. Economic growth and sustainable development; 9. Income, consumption and investment; 10. Income, consumption and investment applications; 11. Economic equilibrium and imbalance; 12. Fluctuations in economic activity. Business cycle; 13. Occupation and unemployment; 14. Inflation.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written exam: multiple choice tests/questions + 70% solving applications. Essays, case studies, individual discussions 30%.

COURSE TITLE: BUSINESS ETHICS

CODE: D20CGL212

ECTS CREDITS: 6

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Addressing business ethics, presenting concepts, tools and applications used in this area to understand ethics in an ever-evolving environment; to know the ethical aspects of an organization; to solve case studies on the ethical issues of an organization; to base a plan to respect the principles of business ethics.

COURSE CONTENTS: Chapter 1. Conceptual separations of business ethics; Chapter 2. Ethics in the decision-making process; Chapter 3. Ethical issues regarding employees; Chapter 4. Ethics in the relationship with shareholders; Chapter 5. Ethics in Consumer relationships; Chapter 6. Fair competitive practices; Chapter 7. Sustainability of organizations; Chapter 8. Involvement of the organization in the community. Seminar: Chapter 1 Conceptual separations of business ethics; Chapter 2 Ethics in the Decision Process; Chapter 3 Employee Ethics Issues; Chapter 4 Ethics in the relationship with shareholders; Chapter 5 Ethics in Consumer relationships; Chapter 6 Fair Competition Practices; Chapter 7 Sustainability of organizations; Chapter 8 Involvement of the organization in the community.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Multiple choice exam with two mini-70% case studies. Homework, case studies, knowledge acquisition test, 30% essay.

COURSE TITLE: PUBLIC FINANCES

CODE: D20CGL213

ECTS CREDITS: 3

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Introducing students in the study of public finances, knowledge of the concepts regarding the relations, institutions and financial mechanisms of the market economy countries, the correct understanding of the phenomena, processes and tendencies that are manifested in the field of public finances. Knowledge of the architecture of the financial and budgetary system; Definition of public expenditures and their typological analysis; Knowledge of the public financial system.

COURSE CONTENTS: Chapter 1. Finance - introductory notions; 2. Budget system; 3. Public expenditures - general notions; 4. Categories of public expenditure financed through budgetary and extra-budgetary resources; 5. Establishment of public financial funds; 6. General tax notions 7. Tax system 8. Tax evasion and repercussions of taxes. Seminar: 1. Determination of budgetary balances based on budget execution; 2. Indicators on the level, structure and dynamics of public revenues; 3. Indicators on the level, structure and dynamics of public spending; 4. Quotation rates. Progressive taxation; 5. Taxation systems. Separate taxation - global imposition; 6. Technical procedures to avoid double taxation; 7. Tax evasion and repercussions of taxes.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): The final exam consists of a written test with multiple choice content with one or two correct answers and a practical application to solve 70%. The ongoing evaluation is based on the following components: - making and sustaining a paper on topics set at the beginning of the semester - 30% of the final grade of the evaluation during the semester; -Supporting an announced test (usually in week 7) - 50% of the final grade of the ongoing assessment; - Active presence during the debates - 20% of the final mark of the 30% ongoing evaluation.

COURSE TITLE: FINANCIAL ACCOUNTING

CODE: D20CGL214

ECTS CREDITS: 3

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): To enable students to attain the knowledge set specific to Financial Accounting, as well as to develop the necessary skills to translate them into practical work. Acquiring skills related to: organizing and managing financial accounting; the preparation, verification and control of supporting documents specific to the operations under study;

performing calculations and analyzes on capital, stocks, fixed assets, treasury values etc .; capitalizing the information provided by financial accounting in the process of substantiating economic decisions.

COURSE CONTENTS: Chapter 1. Theoretical fundamentals on the organization of financial accounting; Chapter 2. Capital Accounting; Chapter 3. Fixed Assets Accounting; Chapter 4. Stocks and ongoing production accounting; Chapter 5. Treasury Accounting. Seminar: 1. General evaluation rules; 2. Capital Accounting; 3. Intangible assets accounting; 4. Accounting for tangible and financial assets; 5. Accounting of raw materials and materials; 6. Accounting of production in progress and products; 7. Treasury Accounting.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Classical written exam 60%. Portfolio of works carried out during the semester; written test 40%.

COURSE TITLE: STATISTICS

CODE: D20CGL215

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Explaining the evolution of the economic phenomena recorded at micro and macroeconomic level in the light of the factors that determine them, in order to identify the directions of action for their influence; 1. Students acquire the theoretical notions used in descriptive and inferential statistics; 2. Attainment of the specific methodology for the collection, processing, statistical analysis and interpretation of data; 3. Forming practical skills.

COURSE CONTENTS: Chapter 1. Observing, systematizing and presenting statistical data; Chapter 2. Numeric indicators of distribution bands; Chapter 3. Analysis of time series; Chapter 4. Introduction to statistical inference; Chapter 5. Statistical survey; Chapter 6. Stochastic dependence: regression and correlation. Seminar: 1. Debating the main notions and concepts of statistics. Methods of observation and systematization of statistical data; 2. Methods of presentation of statistical data. Construction of statistical series. Construction of statistical graphics; 3. The choice, calculation and interpretation of central trend indicators; 4. Calculation and understanding of variance and asymmetry indicators.

5. Statistical methods used in time series analysis. Indicators of dynamics and basic methods of trend adjustment; 6. Build a random sample. Use of survey distributions in statistical inference; 7. Estimation of parameters. Testing of statistical hypotheses; 8. Applications of the statistical survey (simple, typical or layered) in the socio-economic field; 9. Applications of correlation and regression in the socio-economic field.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Homework, individual discussions 10%. Exam: multiple choice tests + 70%

solved applications. Seminar activity: Individual discussions, participation in 20% application solving.

COURSE TITLE: ECONOMIC INFORMATICS

CODE: D20CGL216

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Through its content and structure, the Economic Informatics course aims to treat practical concepts and theoretical concepts that are absolutely necessary for the understanding of the Excel environment and to provide users with advanced capabilities for understanding, understanding, explaining, interpreting and using the digital environment. Solving any economic problems with utility by means of existing environments. Developing modern user habits so that they can analyze and process a data table specific to any organization using the Excel environment, as well as identifying specific operations and tools to identify the directions of action that must address any organization-specific economic problem. Using financial resources in the financial-accounting field, defining, describing and explaining the basic concepts of the digital environment, the use of Excel. To offer the economist student: tools for using and deepening new information and communication technologies for organizing, processing and presenting data, graphical representation of information. Acquisition of specific knowledge needed to manage an organization, namely: creating digital reports for current managerial activities, periodic reports or exceptional necessity very needed in the processing of data used in business operations.

COURSE CONTENTS: Chapter 1. Basic notions in Microsoft Excel 2010; Chapter 2. Editing and formatting spreadsheets; Chapter 3. Formulas and Functions in Microsoft Excel; Chapter 4. Using Functions in Microsoft Excel; Chapter 5. Work with data in Microsoft Excel 2010; Chapter 6. Diagrams in Microsoft Excel 2010 (I); Chapter 7. Diagrams in Microsoft Excel 2010 (II). Seminar: 1. Getting Started in Microsoft Excel; 2. Editing and formatting spreadsheets; 3. Using formulas in spreadsheets; 4. Using functions in Microsoft Excel; 5. Work with data in spreadsheets; 6. Diagrams in Microsoft Excel I; 7. Charts in Microsoft Excel II.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Multiple choice exam 50%. Laboratory test 50%.

COURSE TITLE: ENGLISH 2

CODE: D20CGL217

ECTS CREDITS: 2

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Cours: To know and apply English-specific terminology in order to succeed in the international business environment, to become familiar with the specific language of emails, reports

and telephone conversations held in English; - acquiring and developing business vocabulary specific to the following topics: Types of Accountants, Balances, Assets, Liabilities, Insurance Providers, Banking, The Banking System in order to be used correctly in business situations; - Review of grammatical structures - Present Tense Simple & Continuous, Past Simple & Continuous, Present Perfect Simple & Continuous, Past Perfect Simple & Continuous, Ways of Expression Future, Sequence of Tenses and Modals - to be used correctly in business situations; - the ability to express and fluency in English. The dialogue will focus in particular on a number of situations and activities specific to the future profession, namely: encouraging free expression of students on the basis of established themes, study of business texts; - Acquiring the English language reading skills underlying the development of the specialized vocabulary; - acquiring the fundamental elements of linguistics as well as of the stylistic ones, which are extremely necessary in the written communication for the writing of future oral and interactive practical documents in order to encourage the expression of ideas and opinions in order to acquire the new business vocabulary specific to the themes approached. Seminar: Chapter 1. Types of accountants; Chapter 2. The banking system; Chapter 3. Assets; Chapter 4. Insurance providers; Chapter 5. Liabilities; Chapter 6. Banking; Chapter 7. Balance sheets.

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Homework, individual discussions 30%. Written exam 70%.

COURSE TITLE: PHYSICS EDUCATION 2

CODE: D20CGL218

ECTS CREDITS: 1

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): The discipline aims at forming the theoretical, practical and methodical skills for individual or group practice for a healthy lifestyle; Awareness of the students about the role and importance of practicing physical exercise; Strengthening the theoretical, scientific and practical notions of physical exercises in leisure time by the student; Developing volitional moral traits, aesthetic sense, discipline, fair play and communication and teamwork skills; Maintaining and maintaining health through exercise, in order to increase the potential for physical and intellectual work; Promoting growth processes and harmonious physical development of the body; Physical and mental recovery after various activities; Harmonious blending of intellectual activities with physical activity.

COURSE CONTENTS: 1. Fitness and bodybuilding - exercises specific to the development of certain muscle groups; 2. Application trails combined with treadmills, jumps, equilibrium exercises, escalation, climbing, etc.; 3. Sports games: basketball, football;

4. Table tennis - the basic technique of the main technical procedures; 5. Verification and evaluation - control samples.

ASSESSMENT METHOD(S): Written final exam-multiple choice 70%; Semestrial evaluation 30%: tests and homeworks.

COURSE TITLE: FINANCIAL ACCOUNTING 2

CODE: D20CGL322

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): To enable students to acquire the knowledge set specific to Financial Accounting 2, as well as to train the necessary skills to translate them into practical work; Obtaining skills related to: organizing and conducting accounting; the preparation, verification and control of supporting documents specific to the operations under study; the accounting in the accounts of third-party transactions, the expenses and revenues of the entity etc.; the presentation of the information in the summary accounting documents, as well as their harnessing in the process of substantiating the economic decisions.

COURSE CONTENTS: Chapter 1. Debt and debt accounting; Chapter 2. Expenditure Accounting;

Chapter 3. Income accounting; Chapter 4. Accounting work for the closure of the financial year. Seminar: Seminar 1: General structure and assessment of receivables and debts and settlement of accounts with suppliers; Seminar 2: Accounting for customer settlements; Seminar 3: Accounting for Personnel Settlement and Settlement Accounting for Insurance and Social Protection; Seminar 4: Accounting for settlements with the state budget and with other public bodies; Seminar 5: Accounting for settlements with the state budget and other public bodies; Seminar 6: Accounting for settlements with the state budget and with other public bodies; Seminar 7: Settlement of accounts within the group and with associates, accounting of settlements with debtors and various creditors, accounting for investment grants, regularization and assimilation operations, and accounting for commitments and other off-balance sheet items; Seminar 8: Accounting for Expense Expenses; Seminar 9: Accounting for Financial Expenses and Other Expenses; Seminar 10: Operating Income Accounting; Seminar 11: Financial Income Accounting and Other Income; Seminar 12: Breakdowns and Preliminary Checks on Annual Financial Statements; Seminar 13: Structure of Annual Financial Statements; Seminar 14: Administrators' report; Auditing or auditing of annual financial statements; Approve, sign and publish annual financial statements.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Classical written exam - 70%; Portfolio of works carried out during the semester; written test - 30%.

COURSE TITLE: FINANCIAL MANAGEMENT OF THE COMPANY

CODE: D20CGL323

ECTS CREDITS: 6

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Explaining concepts, theories, methods and financial instruments related to financial management of enterprises; Applying concepts, theories, methods and financial instruments in private entities to solve specific financial management issues; Students acquire theoretical notions regarding: investment and financing decisions; the capital of the enterprise; asset management; managing current assets; Global financial results.

COURSE CONTENTS: Chapter 1. The domain of financial management of the firm; Chapter 2. Company capital; Investments in fixed assets; Chapter 4. Depreciation of Fixed Assets; Chapter 5. Sizing and financing of current assets; Chapter 6. Managing company results.

Seminar: Seminar 1. Rules and structure of the company's financial management; Seminar 2. Structure of the company's capital; Seminar 3. Increase of company capital; Seminar 4. Charging

the firm; Seminar 5. Investment decisions; Seminar 6. Depreciation; Seminar 7. Management of the stocks of circulating assets; Seminar 8. Efficiency of the use of circulating assets; Seminar 9. Determining Profit.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): The actual exam will take the form of a classical exam, and the examination tickets will be three subjects, of which two theoretical and one applied - 50%; The evaluation will follow the seminar work as well as the preparation of an essay and a test - 50%.

COURSE TITLE: ECONOMETRICS

CODE: D20CGL324

ECTS CREDITS: 6

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Presentation of the theoretical bases of econometrics and highlighting its links with mathematical statistics (statistical inference, estimation theory); Presentation of econometric methods and main types of econometric models; Making applications for the parametric estimation of econometric models associated with microeconomic, macroeconomic and financial market

COURSE CONTENTS: Chapter 1. Introduction to Econometrics; Chapter 2. Simple linear regression model; Chapter 3. Multiple linear regression model; Chapter 4. Generalized linear model; Chapter 5. Modeling and predicting time series; Chapter 6. Models with simultaneous equations.

Seminar: 1. Applications on methods of statistical inference and hypothesis testing; 2. Applications for the parametric estimation of the simple linear regression model; 3. Applications for the parametric estimation of the multiple linear regression model; 4. Time series modeling and forecasting applications; 5. Applications to identify models with simultaneous equations.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Exam: multiple choice tests + solving applications - 70%; Seminar activity: individual discussions, participation in application solving, homework - 30%.

COURSE TITLE: ECONOMIC INFORMATION SYSTEMS

CODE: D20CGL325

ECTS CREDITS: 3

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): The delimitation and investigation of the economic activities taking place at the company level, using modern computer technologies, in order to facilitate the student's use of software products; Study of the architecture of advanced economic systems, electronic markets and net-economy, commerce and e-business; Providing theoretical and practical concepts regarding the use of databases and database management systems in

the economy; Presentation of the way information is processed through software/integrated management systems used in the economic field.

COURSE CONTENTS: Course: Chapter 1. Concepts concerning the use of information technology at the business environment; Chapter 2. The place and the role of the information system in the information system; Chapter 3. Information system at the organization level; Chapter 4. Integrated information systems; Chapter 5. Planning systems for resources entered in ery; Chapter 6. ERP system – SWAN; Chapter 7. Concepts of relative databases; Chapter 8. MICROSOFT ACCESS 2010; Chapter 9. Trends of the information systems in the context of the new economy. Seminar: 1. Designing a database and component objects; 2. Integrate Microsoft Access with other applications. Import-export operations data; 3. Multidimensional data analysis. Pivot the data; 4. Drafting reports; 5. Querying databases; 6. Graphic representation of data using diagrams; 7. Project presentation.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written Exam – 50%; Laboratory test – 50%.

COURSE TITLE: PHYSICAL EDUCATION AND SPORTS 3

CODE: D20CGL327

ECTS CREDITS: 1

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Discipline has as its objective the formation of theoretical, practical and methodical skills for individual or group practice for a healthy lifestyle; Awareness of the students about the role and importance of practicing physical exercise; Strengthen the theoretical, scientific and practical notions of physical exercise in free time by students; Developing volitional moral traits, aesthetic sense, discipline, fair play and communication and teamwork skills; Maintaining and maintaining health through exercise, in order to increase the potential for physical and intellectual work; Promoting growth processes and harmonious physical development of the body; Physical and mental recovery after various activities; Harmonious blending of intellectual activities with physical activity.

COURSE CONTENTS: Practical lessons: 1. Athletics: school elements of running, jumping and running; 2. The long jump technique in place; 3. Application paths combined with treadmills, jumps, equilibrium exercises, escalation, climbing etc; 4. Sports games: volleyball, bandminton; 5. Bilateral games under similar contest conditions.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Evaluation of individual and team activities – 100%

COURSE TITLE: MONETARY ECONOMY

CODE: D20CGL430

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): To familiarize students with the main trends and approaches in the national monetary financial sector; Provides a basis of understanding and familiarity with the main activities related to the monetary and banking sphere; The

discipline allows understanding of the organization of the monetary systems, the payment system as well as the credit process; It is meant to acquire key bank and banking notions and monetary policy instruments; Students will develop their ability to analyse monetary phenomena and banking activity.

COURSE CONTENTS: Chapter 1. Currency and money supply; Chapter 2. Monetary Theories; Chapter 3. Monetary systems; Chapter 4. Credit and Interest; Chapter 5. Banks and Banking activities; Chapter 6. Banking performance and risks; Chapter 7. Inflation; Chapter 8. Monetary policy instruments. Seminar: 1. Types of coins. Account currency versus metal currency; 2. The European Monetary System - a Perfect Monetary System? The international monetary system - the challenges of the future; 3. The Keynesian Concept versus the Monetarist Conception; 4. Forms of credit. Practical application of interest rates; 5. Banking performance and risk management applications; 6. Monetary policy instruments. Refinancing tools. Mandatory reserve system. Open market operations.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Final written exam - 50%; Homework, individual discussions, papers, tests - 50%.

COURSE TITLE: PUBLIC ACCOUNTING

CODE: D20CGL431

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Developing the capacity to understand the way in which organizations in the public sector are organized, operating and financing. Understanding the application of the accrual accounting system to public sector entities. Familiarize yourself with the notions of budget system, budget classification, credit ordinator and other public sector specifics. Students have to demonstrate skills in: knowledge, delimitation and accounting in the accounting of assets, equity and debts to public institutions; improving and applying the accounting principles and policies in public institutions in Romania; Developing skills regarding the evaluation of asset, equity and debt ratings for public sector entities; knowing and completing the complete set of financial statements for public institutions in Romania.

COURSE CONTENTS: Chapter 1. Particular aspects regarding the organization and functioning of the accounting of public institutions in Romania; Chapter 2. Capital Accounting; Chapter 3. Fixed asset accounting; Chapter 4. Inventory accounting; Chapter 5. Accounting for current receivables and debts; Chapter 6. Treasury Accounting for Public Public Institutions; Chapter 7. Expenditure and Income Accounting; Chapter 8. Financial statements in public institutions. Seminar: 1. Capital accounting; 2. Fixed asset accounting; 3. stock accounting; 4. Accounting of current receivables and debts; 5.

Accounting of treasury of public public institutions; 6. Accounting for expenditures and revenues; 7. Financial statements in public institutions.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written final exam - 60%; Homework, individual discussions, papers, tests - 40%.

COURSE TITLE: FINANCIAL SYSTEMS AND REPORTING

CODE: D20CGL432

ECTS CREDITS: 6

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Allow students to acquire the knowledge-specific set of financial-accounting reports, as well as to train the necessary skills to translate them into practical activity; Obtaining skills related to: organizing and conducting accounting; the preparation, verification and control of supporting documents specific to the operations under study; making calculations and analyzes of third party relationships, entity expenses and revenues, etc .; the presentation of the information in the summary accounting documents, as well as their valorisation in the process of substantiating the economic decisions.

COURSE CONTENTS: Chapter 1. Breakdowns and Preliminary Checks on Annual Financial Statements; 2. Inventory of the patrimony; Determining the result of the exercise; Chapter 4. Profit sharing operations accounting; Chapter 5. Structure of Annual Financial Statements; Preparation of annual financial statements; 7. Treatment consistent with the international financial reporting standards applied in the closure of the financial year. Seminar: Case Studies: 1. Dimensions and Preliminary Checks on Annual Financial Statements; 2. Inventory of the patrimony; 3. Determining the result of the exercise; 4. Accountancy of profit sharing operations; 5. Structure of annual financial statements; 6. Preparation of annual financial statements; 7. Treatments complying with the international financial reporting standards applied in the closure of the financial year.

ASSESSMENT METHOD(S): Written exam - 70%; Debate within seminars; Practical work seminar solving; tests; Control themes. - 30%.

COURSE TITLE: DECISION SUPPORT SYSTEMS

CODE: D20CGL437

ECTS CREDITS: 3

TYPE OF COURSE: Optional

COURSE OBJECTIVE(S): The course aims at: Developing specific thinking, familiarizing the future specialist with the basic notions of assisting the decision; Any student should review and clarify the core concepts and theories associated with Decision Support Systems (SSD), expert systems, group support systems and decision-making systems; Examine examples and study cases for documenting computer support in decision-making in organizations, as well as carrying out planning, analysis and leadership tasks; To discuss and develop competencies in the analysis of decision support systems; Familiarize the students with the fundamental concepts of the field of decision support systems (SSD) and illustrate the applicability of the methodologies and computer products in the field in advanced applications and in everyday life. The subject is presented progressively. After introducing the most important concepts of decision theory, we describe a number of more recent and classic methods (including original results) for systematically assisting decisions. The following are the concepts of IT systems for SSD: SSD usage, technology and development.

COURSE CONTENTS: Chapter 1. Information. Decision. Makers. Environment and decision making. Introduction to the theory and practice of SSADs; Chapter 2. Decision support and decision support systems - general overview; Chapter 3. Architecture of SSADs; Chapter 4. Decision Support Systems for Economic Units - Communication technologies for ssad; Chapter 5. Data Management. Data storage; Chapter 6. Knowledge Management; Chapter 7. Knowledge management support systems. Seminar: Theme 1: Case study on the analysis and the elements of a decisional situation; Application for data analysis using modern software tools and technologies; Modeling investment decisions with financial functions; Financial or prediction functions for assisting investment decisions; Microsoft Excel. Functions for calculating depreciation; Pivot table - tool in decision making. Topic 2: Case study on modeling decision-making in an organization using the Excel environment. Simulation of business issues with EXCEL; Optimizing decisions through "WHAT IF" analysis • Achieving a goal - Goal Seek procedure • Forecasting values using the response tables • Solving decisional problems using SCENARIO MANAGER Applications • Theme 3: Solving decisional problems using SOLVER Applications • Theme 4 : Types of decision-making problems at the firm's level Decision-making techniques Practical examples of modeling the company's activity Theme 5: Evaluation of projects and discussions on topics presented by students.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written Exam – 50%;
Laboratory test – 50%.

COURSE TITLE: MANAGEMENT CONTROL

CODE: D20CGL542

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Knowledge and application of the basic concepts, procedures and methods used by management control to formulate decisional judgments and assess the performance of the entity/organization; organizing and exercising management control; development, tracking and controlling of budgets by types of activities; the choice of management control procedures according to the specific nature of the enterprise's activity; analyzing entity management by using appropriate tools; formulating judgmental judgments based on calculated costs; analysis of cost behavior based on volume of activity; determining the incidence of changes in the entity's operations over costs, results and inventories.

COURSE CONTENTS: Chapter 1. Fundamentals of management control; Chapter 2. Cost variability; Methods based on the principle of partial costs; The impact of activity variation on costs, results and stocks; Chapter 5. General aspects of budgetary management; 6. Develop, track and control the core business budgets; Chapter 7. Elaboration, tracking and control of enterprise complementary budgets. Seminar: 1. Fundamentals of management control; 2. Behavior of fixed and variable expenses determining the behavior of expenditures; 3. Cost-volume-profit model; 4. Elaboration of the cost calculation using the direct-costing method. Determining the influence of optimization factors on the entity's result; 5. Elaborate the cost calculation under the use of other methods based on the partial cost principle: direct cost method, specific cost method; 6. Elaboration of the cost calculation under the marginal cost method; 7. The impact of activity variation on costs, results and stocks; 8. Significance of the cost of the sub-activity and its analysis; 9. Budget - the company's management tool. General principles of budgetary management. Hierarchy and interdependence between budgets; 10. General Principles and Basis of Sales Forecast. Budgeting and sales control; 11. Establishment of the production program, budget preparation and control; 12. General Principles and Basis of Supply Forecast. Budgeting and Supply Control; 13. The approval of investments, the preparation and development of the investment budget and its control; 14. The General Principles and the Basis of the Treasury Forecast. Budgeting and Treasury Control.

FIELD: MARKETING
PROGRAMME TITLE: MARKETING
BACHELOR'S DEGREE

1ST YEAR, 1ST SEMESTER

COURSE TITLE: MICROECONOMICS

CODE: D18MKL101

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Students' knowledge-transfer concerning the specificities of the field, taking into account the particularities of the activities at the microeconomic level.

COURSE CONTENTS: 1. Provide the basic knowledge of economic theory and modern methods specific to the field in order to identify, define, explain, interpret and apply economic concepts at a microeconomic level; 2. Provide the necessary knowledge to formulate hypotheses and propose solutions to economic problems.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: MANAGEMENT

CODE: D18MKL102

ECTS CREDITS: 6

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): To familiarize students with the main concepts and practices in the field of management; To develop organizational and decision-making skills.

COURSE CONTENTS: 1. Present the main theories seen in the evolution of managerial thinking; 2. Systematic presentation of management processes; 3. Investigate the functions of management processes; 4. Identify the key competencies of the successful manager; 5. Recognize the main management methods and techniques and the context of their use; 6. Develop students' communication skills, decision making, critical thinking, teamwork.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: FUNDAMENTALS OF ACCOUNTING

CODE: D18MKL103

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Enable students to acquire the essentials of accounting as well as to gain the skills required to put them into practice.

COURSE CONTENTS: 1. Define and explain the concepts and principles underpinning accounting theory; 2. Substantiate a reasonable thinking about transposing the principal economic and financial operations, generated by economic agents' activity, into specific accounting language; 3. Grasp accounting methodology and working technique,

including mechanisms for data collection and processing by taking into consideration alternative documentary sources and current activity in order to assess factors which impact benefits realization within economic entities.

CODE: D18MKL214

ECTS CREDITS: 4

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Students' knowledge of the most important concepts on the practical use of Microsoft Excel spread sheet processors in order to train them as future specialists in the economy.

COURSE CONTENTS: 1. Students' training in the use of information technology in the processing and communication of economic information; 2. This discipline creates the theoretical and practical foundation needed to acquire further knowledge in other computer science disciplines in the coming years.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

2ND YEAR, 1ST SEMESTER

COURSE TITLE: MARKETING

CODE: D18MKL321

ECTS CREDITS: 6

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Students' understanding of the marketing approach, from a dual perspective: as business specialists, to be able to implement marketing policies; as well as consumers, to discern abusive marketing practices.

COURSE CONTENTS: 1. Understand concepts, methods, techniques and marketing tools; 2. Apply the methods, techniques and tools specific to the marketing activity; 3. Understand the role of the marketing research within organizations.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: ACCOUNTING IN TRADE, TOURISM, SERVICES

CODE: D18MKL322

ECTS CREDITS: 4

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Address definite accounting related issues, typical of commerce, tourism and services-based centres so that,

following the debate upon the topics put forward, students' efficient training, from a conceptual, theoretical and methodological point of view might be ensured.

COURSE CONTENTS: 1. Deliver an adequate amount of theoretical knowledge, thus enabling students to address, in a specific manner, the distinct elements of organizing and handling the accounting of economic entities in the field of commerce, tourism and public food industry; 2. Acquire the knowledge and skills necessary to manage economic activities linked to commerce and tourism.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: FINANCIAL MANAGEMENT OF ENTERPRISES

CODE: D18MKL323

ECTS CREDITS: 5

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): 1. Explain concepts, theories, methods and financial instruments related to the financial management of enterprises; 2. Apply concepts, theories, methods and financial instruments within private entities in order to resolve particular financial management matters.

COURSE CONTENTS: Learn about theoretical concepts connected with: 1. investment and funding decisions; 2. enterprise capital; 3. asset management; 4. current asset management; 5. global financial results.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: DATABASES

CODE: D18MKL324

ECTS CREDITS: 4

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Delimiting and investigating managerial activity that takes place at the company level by using modern computer technologies to familiarize students with the use of software products.

COURSE CONTENTS: 1. Provide the features of high-performance economic systems, electronic markets and the net-economy, commerce and e-business; 2. Providing theoretical concepts on databases and data warehouses; 3. Presentation of the way of processing the information through software used in the economic field.

Chapter 7. Ethics and corruption; Chapter 8. International trade and ethical considerations; Chapter 9. Globalization and ethical concern; Chapter 10. Ethics and organizations. Seminar: 1. The global economy from an ethical perspective; 2. Ethical principles; 3. Determinants of ethical behavior; 4. Ethical theories and cultural contexts; 5. International business ethics: strategies and responsibilities; 6. Ethical decision making; 7. Ethics and corruption; 8. International trade and ethical considerations; 9. Globalization and ethical concern; 10. Ethics and organizations;

LANGUAGE OF INSTRUCTION: Romanian/English
ASSESSMENT METHOD(S): Final exam 50%. Seminar 50%.

COURSE TITLE: PUBLIC FINANCE

CODE: D20EAL213

ECTS CREDITS: 3

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Understanding and identifying the basic concepts about the mechanisms of

formation and allocation of public funds. Ability to use concepts concerning the public finance (public funds, public spending, public loans, budgetary system, deficit funding). Modern methods of budgeting. Levying taxes. Structuring public spending.

COURSE CONTENTS: Course: Chapter 1. Finances-Introduction; Chapter 2. Budget system; Chapter 3. Public expenditure; Chapter 4. Financial public funds; Chapter 5. General terms of taxes; Chapter 6. Tax system. Seminar: 1. Finances-Introduction; 2. Budget system; 3. Public expenditure; 4. Financial public funds; 5. General terms of taxes; 6. Tax system.

LANGUAGE OF INSTRUCTION: Romanian/English
ASSESSMENT METHOD(S): Written exam: multiple choice tests and applications to solve 60%. Homework, individual talks 40%.

COURSE TITLE: FINANCIAL ACCOUNTING

CODE: D20EAL214

ECTS CREDITS: 3

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Understanding, identifying and solving basic accounting for the economic entities registered at the main operations of inputs and outputs to and from heritage. Knowing the theoretical foundations on the concepts and principles of accounting, property valuation, definition, structure and Recognition of economic operations that occur between the main economic elements. Acquiring skills operating the accounting, analysis and accounting of the various economic and financial operations.

COURSE CONTENTS: Course: Chapter 1. Financial accounting - object, principles and rules; Chapter 2. Accounting of capital; Chapter 3. Accounting of fixed

assets; Chapter 4. Accounting for stocks and production in progress; Chapter 5. Accounting of treasury. Seminar: 1. Financial accounting - object, principles and rules; 2. Accounting of capital; 3. Accounting of fixed assets; 4. Accounting for stocks and production in progress; 5. Accounting of treasury.

LANGUAGE OF INSTRUCTION: Romanian/English
ASSESSMENT METHOD(S): Assessment during the semester (homework, individual talks) 30%. Evaluation at the end of semester (written exam: multiple choice tests and applications to solve) 70%.

COURSE TITLE: STATISTICS

CODE: D20EAL215

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Presenting theoretical foundations of Statistics highlighting its links with mathematics (statistical inference, estimation theory). Learning of basic theoretical concepts used in Statistics. Learning specific methodology for collecting, processing, statistical analysis and interpretation of data. Forming of practical skills regarding: collecting of statistical data, statistical processing of data, data interpretation, realizing of statistical studies.

COURSE CONTENTS: Course: Chapter 1. Observation, systematization and presentation of statistical data; Chapter 2. Numerical indicators of the distribution series; Chapter 3. Time series analysis; Chapter 4. Introduction to statistical inference; Chapter 5. Statistical sampling; Chapter 6. Stochastic dependence: regression and correlation. Seminar: 1. Applications regarding collection, grouping and presenting of statistical data; 2. Applications regarding numerical indicators of distribution series; 3. Applications regarding the analysis of time series; 4. Applications regarding the statistical inference; 5. Applications concerning the use of statistical sampling for solving problems; 6. Applications regarding the correlation and regression.

LANGUAGE OF INSTRUCTION: Romanian/English
ASSESSMENT METHOD(S): Written exam: multiple choice tests 70%. Individual discussions, participation in solving the applications 30%.

COURSE TITLE: BUSINESS INFORMATICS

CODE: D20EAL216

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): To provide students with knowledge and understanding of computer aided information processing as a fundamental resource in decision-making; to form student skills for use of Excel and VBA capabilities to assist their current financial and banking activities; to use Excel capabilities to obtain data analysis and interpretation, to rapidly compute financial

parameters and indicators; to use Excel in creating scenarios and decision making; to properly use financial and accounting Excel functions for computing economic figures; to use VBA capabilities for rapidly, clearly and easily solving of current financial situations.

COURSE CONTENTS: Course: Chapter 1. Basics of Microsoft Excel; Chapter 2. Editing and formatting of spreadsheets; Chapter 3. Formulas and functions in Excel; Chapter 4. Charts in Excel; Chapter 5. Financial functions in Excel; Chapter 6. Logical and Lookup functions; Chapter 7. Choose comparison for optimal decision making; Chapter 8. Databases in Excel; Chapter 9. Data analysis; Chapter 10. VBA Programming; Seminar: 1. Excel workspace formatting; 2. Excel charts; 3. Financial functions in Excel; 4. Logical, arithmetic, lookup, date and time functions; 5. Databases in Excel. Validation, filtering, sorting; 6. Data analysis. Pivot tables and charts; 7. Scenarios. What-if analysis. Reports; 8. VBA in Excel.

LANGUAGE OF INSTRUCTION: Romanian/English
ASSESSMENT METHOD(S): Written exam: multiple choice tests 50%. Practical evaluation 50%.

COURSE TITLE: SPANISH 2

CODE: D20EAL217

ECTS CREDITS: 2

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): To know and apply Spanish specific terminology in order to succeed in communicating in Spanish. -To acquire and develop the vocabulary specific to the topics addressed in order to be used correctly in both written and oral interaction; - To set and review the grammatical structures addressed in order to be used correctly both in writing and in oral terms; - Oral and interactive practice to encourage the expression of ideas and opinions in order to acquire the new vocabulary specific to the themes addressed; - To develop reading and listening skills in order to understand written texts or oral presentations related to the nature of the themes studied; - Role plays including presentations, negotiations, business meetings, telephone conversations on topics studied; - To acquire and develop writing skills.

COURSE CONTENTS: Seminar: 1. Vocabulario específico de los aeropuertos. El futuro de indicativo verbos regulares e irregulares – explicaciones y ejercicios; 2. El futuro perfecto – explicaciones y ejercicios; 3. El condicional simple– explicaciones y ejercicios; 4. El condicional perfecto– explicaciones y ejercicios. El condicional progresivo – explicaciones y ejercicios; 5. La correspondencia de los tiempos en el indicativo – explicaciones y ejercicios; 6. El subjuntivo presente verbos regulares e irregulares – explicaciones y ejercicios. Diferencias entre el subjuntivo y el indicative; 7. El imperfecto del subjuntivo – explicaciones y ejercicios. El pluscuamperfecto del subjuntivo – explicaciones y

ejercicios; 8. La correspondencia de los tiempos en subjuntivo – explicaciones y ejercicios; 9. Las reglas de si condicional; 10. El imperativo – explicaciones y ejercicios; 11. Los adjetivos y los adverbios – explicaciones y ejercicios; 12. Ejercicios de conversación libre utilizando todo el vocabulario estudiado; 13. Ejercicios de traducción y repaso final.

LANGUAGE OF INSTRUCTION: Romanian/English
ASSESSMENT METHOD(S): Written exam 70%. Tests, debates during the case studies presented during the seminar 30%.

COURSE TITLE: PHYSICAL EDUCATION 2

CODE: D20EAL218

ECTS CREDITS: 1

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): The maintenance of the general health mood and the growth of the organism's resistance to the action of the environmental factors. - The insurance of some superior issues right and harmonious physical development of the organism and the correction of the poor abilities; the prevention of the appearance of poor abilities which can be influenced by the specialization of the professional activity; - The improvement of the level of the general traction (skills, abilities and basic qualities) and the growth of applicative character; - The improvement of the skills, abilities, qualities and also of the specific knowledge of the sport parts.

COURSE CONTENTS: Seminar: 1. Running by changing the tempo after 50 m and then after 100-150 m (3/4; 2/4; 4/4; 2/4); 2. Following an applicative route with climbing, jumps and weight transportation; 3. The initial test by using the room tests; 4. Dribbling, moves- the repetition of the elements by using different methods (basketball); 5. Attack hit- learning the long jump, the balls, the jumps, the landing off; 6. Throwing the ball in the basket from drilling – learning; 7. The final situation of this specialization.

LANGUAGE OF INSTRUCTION: Romanian/English
ASSESSMENT METHOD(S): Periodic tests 30%. Final control test 70%.

2ND YEAR 1ST SEMESTER

COURSE TITLE: EUROPEAN ECONOMICS

CODE: D20EAL320

ECTS CREDITS: 6

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Explanation of EU activities, policies, institutions etc; Use of appropriate criteria and methods for assessing studies/analyzes of EU policies and institutions; Elaboration of action/initiative projects within the EU; Evaluating actions/initiatives undertaken within the EU.

COURSE CONTENTS: Course: Chapter 1. The European economy - the study of economic

indicators; Chapter 2. Integration processes in Europe. The single market; Chapter 3. Agriculture and Rural Development in the European Union; Chapter 4. The single currency and the monetary policy in the European Union; Chapter 5. Competition policy in European Union; Chapter 6. Harmonization of government policies of the Member States of the European Union in industry, energy, transport and trade; Chapter 7. Scientific research, education and training in the EU's vision; Chapter 8. EU budget policy; Chapter 9. The economy of EU regional policy; Chapter 10. The economics of the EU environment policy; Chapter 11. Economic development, unemployment and social policies in the EU; Chapter 12. Common foreign security policy and defense policy. Seminar: 1. The European economy - the study of economic indicators Integration processes in Europe. The single market; 2. Agriculture and Rural Development in the European Union; 3. The single currency and the monetary policy in the European Union Competition policy in European Union; 4. Harmonization of government policies of the Member States of the European Union in industry, energy, transport and trade Scientific research, education and training in the EU's vision; 5. EU budget policy The economy of EU regional policy; 6. The economics of the EU environment policy ; 7. Economic development, unemployment and social policies in the EU. Common foreign security policy and defense policy.

LANGUAGE OF INSTRUCTION: Romanian/English
ASSESSMENT METHOD(S): Written exam: multiple choice tests + questions 50%. Homeworks, individual discussions 50%.

COURSE TITLE: MARKETING

CODE: D20EAL321

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Development of analitic and synthetic thinking, moving from fragmented approach to systemic and complex thinking. Understanding the marketing concept; Analysing the marketing environment; Understanding the stages of a marketing research; Describing the notions of market segmentation, targeting and positioning; Identifying the main elements of the product; Analysing the price strategies; Describing the distribution policy; Understanding the promotional strategies;

COURSE CONTENTS: Course: Chapter 1. Defining marketing and the marketing process; Chapter 2. The marketing environment; Chapter 3. The marketing research; Chapter 4. Segmentation, targeting and positioning; Chapter 5. Product policy; Chapter 6. Price policy; Chapter 7. Distribution policy; Chapter 8. Communication policy. Seminar: 1. Study case- McDonalds, Starbucks; 2. Market share, Relative market share; 3. Questionnaire

design; 4. Statistics sampling method, Method of quotas; 5. Fishbein –Rosenberg method, Likert scale; 6. Boston Consulting Group method; 7. Psychological price.

LANGUAGE OF INSTRUCTION: Romanian/English
ASSESSMENT METHOD(S): Written exam: multiple choice tests to be solved and open questions to be answered 50%. Case studies to be solved, test to be solved, questionnaire to be elaborated 50%.

COURSE TITLE: BUSINESS ACCOUNTING

CODE: D20EAL322

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): To allow the students to accumulate the knowledge specific to Business Accounting, as well as forming the necessary skills to transpore this knowledge in practical activities. Achieving skills regarding: organising and conducting accounting; elaboration, verification and control of supporting documents specific to the studies operations; executing calculations and analysis regarding third party relationships, entity incomes and expenses; presenting the information from the synthesis accounting documents, as well as their valorification in the process of economic decision making.

COURSE CONTENTS: Course: Chapter 1. Receivables and liabilities accounting; Chapter 2. Expenses accounting; Chapter 3. Incomes accounting; Chapter 4. Accounting operations of closing the financial year. Seminar: 1. General structure and evaluation of bonds and debts. Accounting of the settlements with the suppliers; 2. Accounting of the settlements with the clients; 3. Accounting of the settlements with the personnel; 4. Accounting of the settlements with the state budget and other public bodies; 5. Accounting of the settlements within the group and with the associates; 6. Defining and structure of expenses; General organisation of expenses accounting; 7. Case studies: Financial expenses accounting; Extraordinary expenses accounting; 8. Defining and scope of incomes; General organisation of incomes accounting; 9. Financial incomes accounting; 10. Preliminary delimitations and verifications regarding the annual financial reports; 11. Annual financial reports structure; 12. Administrators' report; Auditing or verification of annual financial reports.

LANGUAGE OF INSTRUCTION: Romanian/English
ASSESSMENT METHOD(S): Written exam 70%. Tests, debates during the case studies presented during the seminar 30%.

COURSE TITLE: ENTERPRISE FINANCIAL INVENTORY

CODE: D20EAL323

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): The students have to assimilate theoretical knowledge on investment and financing decisions, on the enterprise capital; the management of fixed assets and of current assets, final financial results. - Knowing basic concepts of corporate finance; - Providing an overview regarding the financial decisions; - Solving the case studies in order to understand the financial mechanism.

COURSE CONTENTS: Course: Chapter 1. The area of enterprise finance; Chapter 2. Enterprise capital; Chapter 3. The investment on fixed assets; Chapter 4. The depreciation of fixed assets; Chapter 5. Management stocks of current assets; Chapter 6. Management of enterprise results. Seminar: 1. Rules and structure of financial management; 2. The structure of enterprise capital; 3. Increase of enterprise capital; 4. The debt of the enterprise; 5. Investment decision; 6. Investment financing; 7. Depreciation systems; 8. Management stocks of current assets; 9. Efficiency of using current assets; 10. Determination of profit; 11. Resume.

LANGUAGE OF INSTRUCTION: Romanian/English

ASSESSMENT METHOD(S): Written exam 50%. Case studies, essays, debates 50%.

COURSE TITLE: ECONOMETRICS

CODE: D20EAL324

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Presenting theoretical foundations of econometrics and statistics highlighting its links with mathematics (statistical inference, estimation theory). - Presentation of econometric methods and the main types of econometric models; - Developing applications concerning the parametric estimation of the econometric models associated microeconomic, macroeconomic and financial markets processes.

COURSE CONTENTS: Course: Chapter 1. Introduction to Econometrics; Chapter 2. Simple linear regression model; Chapter 3. Multiple linear regression model; Chapter 4. Time series modeling and prediction; Chapter 5. The simultaneous equations models; Seminar: 1. Applications regarding the statistical inference methods and hypothesis testing; 2. Applications regarding the parametric estimation of simple linear regression the model; 3. Applications regarding the parametric estimation of multiple linear regression the model; 4. Applications regarding the modeling and predicting of time series; 5. Applications concerning the identification of the simultaneous equations models; 6. Applications regarding the parametric estimation of the models with simultaneous equations.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: LOCAL PUBLIC FINANCE

CODE: D21FBIFCL550

ECTS CREDITS: 5

TYPE OF COURSE: Domain discipline, optional

COURSE OBJECTIVE(S): Local public finance issues are central to economic and political discourse as one of the primary functions of government is to generate resources from its people to spend money improving the lives of its people. However, while the concept of "money from the people, for the people" is quite simple conceptually, there is little agreement on how best to raise and spend

public funds in practice. Thus, the primary course objective is to provide students with the tools, and the skills to use these tools, to understand the underlying concepts and practical tradeoffs entailed in public finance policy alternatives. To prepare the students to be informed consumers of local finance data, and thus, equip students to engage constructively in the formulation, implementation, and evaluation of local public finance policies..

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: FINANCIAL MANAGEMENT OF PUBLIC ORGANISATIONS

CODE: D18MPM104

ECTS CREDITS: 6

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): During this course, students acquire skills related to knowing and understanding, explaining and interpreting, instrumental-applicative and behavioural for students who have chosen the courses of the Master's Degree programme *Management of Public Organisations*.

COURSE CONTENTS: The course offers an integrated conceptual image on the financial/economic dimensions of management of public institutions, widely-spread and used basic quantitative tools and techniques. The financial diagnosis does not represent an aim in itself but rather an effort to understand and interpret the economic features and performances of a system made up of closely-bond financial relationships. The students will get to know the main tools used in order to obtain a financial diagnosis, they will use them and they will interpret the obtained results. They will learn to choose the appropriate analytical tool for the preparation of the decision-making process for the stating and making of the decision. The financial tools should be an extension of the managerial practice, not a data-processing stage.

ASSESSMENT METHOD(S): Examination

**COURSE TITLE: FINANCIAL DIAGNOSIS OF
PUBLIC ORGANISATIONS**

CODE: D18MPM317

ECTS CREDITS: 6

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): Students acquire the skills related to knowing and understanding, explaining and interpreting, instrumental-applicative and behavioural for students who have chosen the courses of the Master's degree programme *Management of Public Organisations*.

COURSE CONTENTS: The course offers an integrated conceptual image on the financial/economic dimensions of management of public institutions, widely-spread and used basic quantitative tools and techniques. The financial diagnosis does not represent an aim in itself but rather an effort to understand and interpret the economic features and performances of a system made up of closely-bond financial relationships. The students will get to know the main tools used in order to obtain a financial diagnosis, they will use them and they will interpret the obtained results. They will learn to choose the appropriate analytical tool for the preparation of the decision-making process, for the stating and making of the decision. The financial tools should be an extension of the managerial practice, not a data-processing stage.

COURSE OBJECTIVE(S): The student will understand the necessity and functioning of public marketing related to the law problems.

COURSE CONTENTS (for topic illustration): The notion, importance and principles of public marketing.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Verification (mid-semester evaluation 20% of the final grade + final evaluation 80% of the final grade)

COURSE TITLE: LEGAL DRAFTING

CODE: D17APL565

ECTS CREDITS: 4

TYPE OF COURSE: complementary course

COURSE OBJECTIVE(S): The student will understand the necessity and functioning of legal drafting in the law field.

COURSE CONTENTS (for topic illustration): The notion, importance and principles of legal drafting.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Verification (mid-semester evaluation 20% of the final grade + final evaluation 80% of the final grade)

3rd YEAR, 2ND SEMESTER

COURSE TITLE: TOWN PLANNING LAW

CODE: D17APL560

ECTS CREDITS: 4

TYPE OF COURSE: specialised course

COURSE OBJECTIVE(S): Acquiring the specific notions and fundamental concepts of town planning law. At the end of the semester the students will be able to apply the knowledge by presenting dissertations, by analyzing different cases.

COURSE CONTENTS (for topic illustration): Projects and regulations of town planning: a. Town planning projects; b. Town planning regulations; c. Town planning authorizations

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination (mid-semester evaluation 20% of the final grade + final evaluation 80% of the final grade)

COURSE TITLE: TRANSPORT LAW

CODE: D17APL673

ECTS CREDITS: 4

TYPE OF COURSE: specialised course

COURSE OBJECTIVE(S): The students must understand the aspects characterizing the contracts of carriage, within the more general framework of civil and commercial law. The students can understand the complexity of the juridical relations making the object of transport law only by

acquiring previous knowledge of the institutions and principles of this subject matter.

COURSE CONTENTS (for topic illustration): 1. Introductory notions – regulatory framework, classification; juridical features and juridical nature of the contract of carriage; 2. The contract for the carriage of goods in the new Romanian Civil Code.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination (mid-semester evaluation 20% of the final grade + final evaluation 80% of the final grade)

COURSE TITLE: FUNDAMENTAL FREEDOMS

CODE: D17APL669

ECTS CREDITS: 4

TYPE OF COURSE: specialised course

COURSE OBJECTIVE(S): The students must acquire the knowledge in the field of fundamental freedoms, so that they will be able to understand the way of protecting fundamental freedoms by juridical means, either nationally or internationally.

COURSE CONTENTS (for topic illustration): 1. The notion of fundamental freedom; 2. The protection of fundamental freedoms by the European Convention on Human Rights.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination (mid-semester evaluation 20% of the final grade + final evaluation 80% of the final grade)

COURSE TITLE: ADMINISTRATIVE PROCEDURES

CODE: D17APL671

ECTS CREDITS: 4

TYPE OF COURSE: specialised course

COURSE OBJECTIVE(S): To acquire knowledge of the fundamental notions of administrative law in the European Union.

COURSE CONTENTS (for topic illustration): 1. Introductory notions; 2. The European administrative space.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination (mid-semester evaluation 20% of the final grade + final evaluation 80% of the final grade)

COURSE TITLE: EMPLOYMENT AND SOCIAL SECURITY LAW

CODE: D17APL563

ECTS CREDITS: 4

TYPE OF COURSE: specialised course

COURSE OBJECTIVE(S): The students will acquire knowledge in the field of employment law, will become familiar with the employment regulatory framework and the protection of social security and social assistance rights, as well as the skills for approaching an employment litigation.

COURSE CONTENTS (for topic illustration): General view on employment law: definition, the object of employment law; the employment legal relation; the principles of employment law; the

sources of employment law; 2. Collective employment law; Social dialogue; Employers; Trade unions; Representatives of employees. International employment law; EU employment law.

 ROMANIAN LANGUAGE AND LITERATURE (A) – LATIN LANGUAGE AND LITERATURE
 BACHELOR'S DEGREE

1ST YEAR, 1ST SEMESTER

COURSE TITLE: GENERAL LINGUISTICS

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): presenting a brief history of linguistics in order to provide an overview of the main theories and trends over time; introducing some linguistic notions that are useful for students' training in studying the languages they have enrolled for; acquainting students with a new perspective on the structure and evolution of languages; integrating the languages studied by students into the broader context of a typological and genealogical classification; acquainting students with notions of communication theory so that they can acquire some skills for analyzing the non-literary discourse

COURSE CONTENTS: Language theories that led to the shaping of linguistic research: the creation of descriptive grammars in the Greek-Latin Antiquity, Medieval speculative grammars (the interest in language philosophy, realism and nominalism), the rationalism and empiricism of the 17th and 18th century grammars, the actual foundation of linguistics. The subject of linguistics: Synchronic linguistics and diachronic linguistics, the connection of linguistics with other fields of study. A short history of linguistic concepts until the 20th century (2h) Saussurean Linguistics, conceptual dichotomies: language-speech, syntagmatic-paradigmatic relations, signified and signifier, synchrony-diacrony. Methodology: methods used by other sciences too, methods proper to linguistics, comparative-historical method, modern methods. Language origin. Language-thinking and language-society relationships. Language as a social phenomenon. Language studies: phonetics / phonology, morphology, syntax, semantics, lexematics. The linguistic sign: Ferdinand de Saussure's theory, the meanings of the linguistic sign, the characteristics of the linguistic sign, arbitrary and motivated signs. The communication process (issuing, transmitting and receiving the message, the limits of language communication). The stylistic ramifications of language (functional

styles). The anthropological ramifications of language (children's language, women's language). The comparative-historical method. The principles of the method. The regularity of phonetic changes. Modern methods (structuralism). Structuralist schools. Substitution. Distribution. Immediate constituent analysis. Classification of languages. Genealogical classification. Typological classification.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Exam

COURSE TITLE: CONTEMPORARY ROMANIAN LANGUAGE. PHONETICS. PHONOLOGY. ORTHOGRAPHY

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): providing an overview of the subject *Romanian Contemporary Language (LRC)* as a synchronous study (objectives and technical terms); deepening the knowledge of the phonetic-phonological system.

COURSE CONTENTS: *LRC* - investigated reality and patterns. The phonological system of the Romanian language: phonemes and combinatory allophones, the syllable, suprasegmental units, writing-speaking relationship.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Exam

COURSE TITLE: ROMANIAN LITERATURE (UP TO ENLIGHTENMENT)

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): acquiring the fundamental notions in the field of Romanian literature; the ability to translate these skills into practice; the ability to present the specialty bibliography; competent interdisciplinary correlation ability; the ability to analyze and synthesize the content; the ability to produce coherent speech.

COURSE CONTENTS: The emergence of humanist ideas in Europe and the special case of the Romanian Countries. Romanian baroque. Early chronicles in Romanian. Grigore Ureche's chronicle. Miron Costin's chronicle. Ion Neculce's chronicle. The contribution of Wallachian chroniclers to the development of the old literature. Steward Constantin Cantacuzino. Dimitrie Cantemir's biography. Ecclesiastical discourse. Varlaam's homily. Dosoftei's psalm book, Antim Ivreanul's Didahia manuscript. The birth of the luminist ideas in Europe and their import into the Romanian Countries. The historians of the Transylvanian School: Samuil Micu, Gheorghe Șincai, Petru Maior. I. Budai Deleanu as a modern writer. Țiganiada (The Gypsies' Camp).

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Exam

COURSE TITLE: LATIN**ECTS CREDITS:** 3**TYPE OF COURSE:** Compulsory, complementary

COURSE OBJECTIVE(S): Acquainting students with the main aspects of Roman institutional influences on European civilization; understanding the cultural process of the emergence of Roman civilization; acquainting students with the features of each Latin part of speech, learning and deepening the fundamental Latin grammatical notions; recognizing the Latin parts of speech and their characteristics; acquiring the ability to analyze and compare Latin in relation to the other Romance languages and more; analyzing the nouns, pronouns, adjectives and verbs selected from texts; acquiring the notions of Roman civilization; interpreting the Latin influence on European languages; Understanding the evolutionary processes of Latin.

COURSE CONTENTS: Introduction. The Latin alphabet and writing. Pronunciation rules. Writing; The noun: Declensions. Exceptions. Exercises; The legend of the founding of Rome; The adjective. Adjective classes. Comparison of adjectives. Irregular Adjectives. Exceptions. Exercises; The political organization of ancient Rome. Magistracies; The pronoun. Personal pronoun. Reflexive pronoun. Possessive Pronoun. Demonstrative pronoun. Relative pronouns. Interrogative pronoun. Indefinite pronoun. Exercises; The numeral. Cardinal numerals. Ordinal numerals. Distributive numerals. Adverbial numerals. Exercises. Roman performances, games and celebrations. The verb *sum, esse, fui*.

LANGUAGE OF INSTRUCTION: Romanian**ASSESSMENT METHOD(S):** Oral Examination**COURSE TITLE: FOLK CULTURE AND CIVILISATION****ECTS CREDITS:** 3**TYPE OF COURSE:** Compulsory

COURSE OBJECTIVE(S): acquiring the definitions and concepts of the main folk culture "segments"; analyzing specialized texts; interpreting texts taking into account the theoretical knowledge.

COURSE CONTENTS: Folk culture and folklore - Delimitations. The concept of folk culture. Spiritual and material folk culture. Ritual and ceremony poetry - the funeral. The poetry of calendar customs. The Song of the Dawn - The Song of the Fir. The carol - Typologies.

LANGUAGE OF INSTRUCTION: Romanian**ASSESSMENT METHOD(S):** Examination**COURSE TITLE: OPTIONAL COURSE A1 LITERATURE (INTERTEXTUALITY, PALIMPSEST, REWRITING)****ECTS CREDITS:** 2**TYPE OF COURSE:** Optional

COURSE OBJECTIVE(S): assimilating the main theories of dialogism, intertextuality and rewriting with a view to applying them on text corpora from the Romanian or universal literature.

COURSE CONTENTS: The theory of intertextuality (an interdisciplinary approach). Genealogy of the concept: Mihail Bahtin. Julia Kristeva, Tel-Quel Group. Subsequent theoretical models. Genette's *Palimpsests* and the categories of *transtextuality*. Forms of intertextuality in a narrow sense. Forms of intertextuality / hypertextuality: pastiche, parody, *à la manière de*, rewriting. Intertextuality in diachrony: Examples from various periods and literary movements.

LANGUAGE OF INSTRUCTION: Romanian**ASSESSMENT METHOD(S):** Examination**SUBJECT OF STUDY: SPORTS****ECTS CREDITS:** 3**TYPE OF COURSE:** Compulsory

COURSE OBJECTIVE(S): Acquisition of minimal sports terminology regarding rules and regulations, practice methods, parameters, dosing, hygiene, physiology of physical effort, planning and effects of various body training, notions of tactics; Acquisition of active strategies to secure effective and continuous feed-back; Facilitating harmonious physical development by constantly acting on the proportionality of muscle groups, preventing the installation of deficient attitudes and correcting physical deficiencies signalled in the segments and the spine; Compliance with professional deontology rules (teacher's code of ethics) based on explicit value options; Team-work spirit development to solve different learning tasks; Application of specific methods to improve personal and professional development plans.

COURSE CONTENTS: Complex corrective practice with prophylactic character; Skills. Bilateral sports games; Speed control. Bilateral sports games; Bilateral sports games; Resistance; Bilateral sports games. Force.

LANGUAGE OF INSTRUCTION: Romanian**ASSESSMENT METHOD(S):** A/R**COURSE TITLE: LIBRARY SKILLS****ECTS CREDITS:** 2**TYPE OF COURSE:** Optional

COURSE OBJECTIVE(S): acquiring the theoretical knowledge of the history and development of book sciences and libraries; presenting some modern approaches to current research, as well as acquiring practical knowledge of library organization.

COURSE CONTENTS: Bibliology – the general science about writing, books and library. The history of writing and the history of the book. The history of printing. The history of libraries. Bibliological branches: library skills, bibliophily, bibliography; bibliopepsy, bibliotaxi, ex libris.

Research technique. Documentation technique. Methods and techniques for organizing libraries. Methods and techniques for the functioning of libraries. The social function of library in various historical periods. V. Urechia's contribution to the setting up of libraries in Romania. Knowing the reader and his/her requests. Library legislation.

LANGUAGE OF INSTRUCTION: Romanian
ASSESSMENT METHOD(S): Examination

1ST YEAR, 2ND SEMESTER

COURSE TITLE: LITERATURE THEORY

ECTS CREDITS: 3

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): initiating the students into the field by offering a synthetic perspective on the working concepts and by the detailed exposure of the main sub-domains: the heteronomous connections of literature, the theory of genres, the theory of literary interpretation.

COURSE CONTENTS: The place of this subject in the current literary research. Literature specificity. Extension vs. intension. Essential concepts: classicism, romanticism, baroque, realism, modernism, postmodernism. The theory of reading and interpretation. Border speeches.

LANGUAGE OF INSTRUCTION: Romanian
ASSESSMENT METHOD(S): Exam

COURSE TITLE: CONTEMPORARY ROMANIAN. VOCABULARY. SEMANTICS.

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): acquainting students with specific contents of contemporary Romanian, of the structure and dynamics of current Romanian vocabulary.

COURSE CONTENTS: Romanian lexicology. The word - lexical unity. Word structure; etymological motivation. The word and phraseological unit. The vocabulary as a set of words. The etymological structure of contemporary Romanian vocabulary (inherited words, loans, internal formations - means of word formation, foreign words, words having unknown etymology). Lexical-Semantic Relations. Word family. The lexical-semantic field. Contemporary Romanian Lexicography.

Breakage of common unity. The formation of the Romanian language dialects. First attestations. Elements of historical phonetics and morphology.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Oral Examination

COURSE TITLE: OPTIONAL COURSE A2 LITERATURE (TEXT INTERPRETATION)

ECTS CREDITS: 2

TYPE OF COURSE: Optional

COURSE OBJECTIVE(S): The course aims at acquainting students with the main aspects of literary hermeneutics and helping them to become capable of operating with different interpretative strategies so that they can enable, in turn, pupils' understanding of the studied works and stimulate their interest in literary reading. The course is conceived from an interdisciplinary perspective, correlating information from various fields of

knowledge: literary theory, critique and history, communication theory, theory of values, aesthetics, literature didactics, etc. In this way, the content of the course will offer them the possibility to make connections with other previously acquired knowledge in these fields, thus broadening the scope of literary text study.

COURSE CONTENTS: Hermeneutics and reading. Hermeneutics, interpretation. Types of hermeneutics. Indications and strategies of reading. Difficulties. Text types, approach types. Structural and aesthetic landmarks in interpretation. Using critical texts. Interpretation. What do we interpret? When do we interpret? Interpretation and understanding (comprehension). Related concepts: text "explanation" and "exegesis". The "literature" concept. Literature as a way of using language. Literature as a form of communication. The study of literary reception / reading. Reception and reading. Directions in literary reception / reading research. Two perspectives on the difficulty of literary texts. Working with literary texts. Comprehension aspects. Difficulty types. Signaling systems and reading orientation. Literary genres as reading landmark. Interpretative strategies. Values and attitudes in the interpretation of literary texts. Literary criticism objectives. Literary criticism functions. Types of criticism and critical texts. Objectivity and subjectivity. Reading literary criticism texts.

ASSESSMENT METHOD(S): Examination

COURSE TITLE: INTERNSHIP

ECTS CREDITS: 3

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): adequate knowledge and understanding of the activity in the practice center; explaining and interpreting specific actions in well-defined contexts; the critical and constructive thinking in assimilating the norms that govern the activity of the institution hosting the internship.

COURSE CONTENTS: Collecting and systematizing important data regarding the activity field and specificity of the partner institution hosting the internship. Specifying the mission, organization, structure and program of the partner institution. Studying the documents that establish, regulate and support the activity of the institution. Assisting at specific activities carried out by the tutor or the institution staff. Participating in the tutor's training on the exigencies and difficulties of practicing the specific activities by students. Drawing up / filling in some functional texts specific to the current activities in the institution. Settling the research topic together with the tutor (I.1). Structuring a presentation of the research material. Documentation and data essentialization for the Student Internship Project (II). Group revision of the activities carried out by discussing the benefits and difficulties and filling in the Activity Sheet (I.3) including the day, the time interval and the activity carried out. Making a

synthesis report on the personal activity in the internship center and presenting it in front of the tutor in order to be evaluated.

ASSESSMENT METHOD(S): Written Examination

COURSE TITLE: OPTIONAL COURSE A1 LITERATURE: SHAKESPEARE

ECTS CREDITS: 2

TYPE OF COURSE: Optional

COURSE OBJECTIVE(S): The course offers students the possibility of gaining knowledge about William Shakespeare in order to use it as a working tool in the approach of literary texts.

COURSE CONTENTS: Shakespeare within the Renaissance Literature, Shakespeare's sonnets, Shakespeare's poems, Shakespeare's Tragedies, Shakespeare's Comedies, Shakespeare's Histories, Shakespeare's Romances

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written Examination

COURSE TITLE: LATIN

ECTS CREDITS: 2

TYPE OF COURSE: Required

COURSE OBJECTIVE(S): - initiating students in the Latin language, civilization and culture; the formation of morphological analysis and translational skills of a Latin text; understanding the general mental frameworks active in the Latin civilization space, respectively of the values and human models inherited in the European cultures; understanding the role of the Latin language in transmitting Christianity to the western area; circumscribing Christian literature in Latin, familiarizing with Christian literature texts, highlighting differences that appeared in Christian Latin versus classical Latin; awareness of continuity,

especially in the ethical values, between Latin culture and civilization and descending European cultures; the propagation of a specific anthropological model, especially through Christian theological discourse (largely written in Latin).

COURSE CONTENTS: Introduction to Latin morphosyntax: fundamental notions. Nominal group: adjective morphology. The nominal group: pronoun morphology. Introduction to the Latin verb morphosyntax. The conjugation system in Latin. Introduction to Latin civilization and culture. The evolution of the mental and institutional framework in Rome (periodization of the Roman history). The Roman axiological repertoire reported to the different institutional frameworks (kingdom, republic, empire). Mental structures and human models: the Roman civil ideal. Roman Law. Everyday life: Roman dwelling, family and its rites. Roman religion from polytheism to pro-Christianity. Latin literature (periodization, literary genres, representatives). Vocabulary. Latin inherited words.

ASSESSMENT METHOD(S): Written Examination

COURSE TITLE: INTERNSHIP

ECTS CREDITS: 3

TYPE OF COURSE: Required

COURSE OBJECTIVE(S): adequate knowledge and understanding of the activity in the practice center; explaining and interpreting specific actions in well-defined contexts; the critical and constructive thinking in assimilating the norms that govern the activity of the institution hosting the internship.

COURSE CONTENTS: Collecting and systematizing important data regarding the activity field and specificity of the partner institution hosting the internship. Specifying the mission, organization, structure and program of the partner institution. Studying the documents that establish, regulate and support the activity of the institution. Assisting at specific activities carried out by the tutor or the institution staff. Participating in the tutor's training on the exigencies and difficulties of practicing the specific activities by students. Drawing up / filling in some functional texts specific to the current activities in the institution. Settling the research topic together with the tutor (I.1). Structuring a presentation of the research material. Documentation and data essentialization for the Student Internship Project (II). Group revision of the activities carried out by discussing the benefits and difficulties and filling in the Activity Sheet (I.3) including the day, the time interval and the activity carried out. Making a synthesis report on the personal activity in the internship center and presenting it in front of the tutor in order to be evaluated.

2ND YEAR, 1ST SEMESTER

DENUMIREA DISCIPLINEI : COMPARATIVE AND UNIVERSAL LITERATURE

ECTS CREDITS: 3

TYPE OF COURSE: Core course

COURSE OBJECTIVE(S): to present the most important events and trends in the domain of comparativism; to make students develop the ability of a more specialized reading through the integration of interdisciplinary comparativism into the wider domain of literature.

COURSE CONTENTS: The concept of universal and comparative literature. The principles of comparativism (methodology, schools of interpretation). General literature. Thematic universals, invariants (cf. Adrian Marino), topoi. Thematology (*Stoffgeschichte*), literary myths, "the faith of books". Comparativism from an interdisciplinary perspective: intertextuality and comparative literature, comparativism and the history of mentalities, aesthetics, semiotics, anthropology, etc. *Weltliteratur* and the western canon. Canon controversy.

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Examination

COURSE TITLE: ENGLISH (THE SIMPLE SENTENCE SYNTAX)

ECTS CREDITS: 4

TYPE OF COURSE: Specialty course

COURSE OBJECTIVE(S): to give the students the necessary theoretical frame in order to analyze appropriately any syntactic pattern; to develop students' ability to use different syntactic structures depending on their communicative goals; within each theme both theoretical and practical aspects are given attention, specific knowledge checking being doubled by exercises and applications.

COURSE CONTENTS: Sentence types. Functional Classification of Sentences. The simple sentence Means of Connecting Words. The Phrase. The Noun Phrase. The Verb Phrase. The Adjective Phrase. The Adverbial Phrase. Complex constructions. Independent elements of the sentence. Basic sentence patterns. The order of words in the sentence

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written Examination

COURSE TITLE: ENGLISH LITERATURE (THE VICTORIANS)

ECTS CREDITS: 4

TYPE OF COURSE: Specialty course

COURSE OBJECTIVE(S): The study of Victorian English literature and of the social, economic and cultural context. Students will familiarise with notions of literary criticism applied to Victorian writers.

COURSE CONTENTS: Poets: Alfred, Lord Tennyson, Robert Browning, Gerard Manley Hopkins, Pre-Raphaelites Novelists: Charles Dickens, William Makepeace Thackeray, The Brontës, George Eliot, Thomas Hardy

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written Examination

COURSE TITLE: ENGLISH LANGUAGE IN USE: CONVERSATION AND ORAL PRESENTATION AND TEXT INTERPRETATION (POETRY)

ECTS CREDITS: 3

TYPE OF COURSE: Specialty course

CONVERSATION AND ORAL PRESENTATION

COURSE OBJECTIVE(S): to improve the students' knowledge of spoken English, to help them acquire oral presentation skills, to teach them fixed phrases (language patterns), namely lexical and grammatical formulae to be used under given circumstances, to make them understand the importance and the impact of non-verbal communication

COURSE CONTENTS: presentation skills: the four P's: Prepare, Practice, Present, Process. steps of a presentation (before, during and after the presentation). the structure of a presentation. non-verbal communication. using materials. oral presentations on a given topic.

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Oral Examination

TEXT INTERPRETATION (POETRY)

COURSE OBJECTIVE(S): During this course the students have to learn the steps that they should follow in text interpretation. They have to learn how to identify the devices used by the author, to state an idea suggested by the text and sustain it with arguments from the text. They have to develop their ability to use their previous knowledge and make associations and analogies within the text and with other texts. They should be able to produce their own interpretation of a literary text.

COURSE CONTENTS: Species belonging to the genre of poetry. Figures of speech. Imagery. Symbols. Sound features. Standard poetic forms.

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written Examination

COURSE TITLE: STYLISTICS

ECTS CREDITS: 2

TYPE OF COURSE: Complementary

COURSE OBJECTIVE(S): At the end of this course the students should have acquired the vocabulary specific to stylistic theory, understood and learnt the key concepts. They should be able to produce the stylistic analysis of a text.

COURSE CONTENTS: Introduction: what is stylistics (definition and major purpose); major levels of language. Style and grammar. Style in poetry and prose. Point of view; representing speech and thought. Style in drama. Metaphor, metonymy and stylistics. Cognitive structures and stylistics.

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written Examination

COURSE TITLE: OPTIONAL COURSE A2 – SIMPLE SENTENCE FROM THE SYSTEMIC-FUNCTIONAL PERSPECTIVE

ECTS CREDITS: 2

TYPE OF COURSE: Optional

COURSE OBJECTIVE(S): Introducing students in the study of compulsory and optional constituents and learning the normative aspects of language by developing their capacity of accurate expression in a foreign language. The proper assimilation and use of theoretical and operational concepts of English linguistics.

COURSE CONTENTS: Defining functional grammar. Constituents:

Text analysis – three levels of analysis, Constituency: functional and class units, Structure of the clause; Theme - clause as message: Characterization of Theme. Thematic structure: Theme and Rheme; Classification of Themes; Themes in special thematic structures, Multiple Themes, Information structure: Given and New Problems in Identifying the Theme; Mood – clause of exchange. The Structure of the Mood, Identifying Subject and Finite, Meanings of Subject and Finite. Mood in non-declarative clauses, Ambiguous Mood type; The structure of the Residue. Elements which

are not in the Mood-Residue structure, Polarity and modality, Problems of identifying the structure elements, Transitivity: processes and participants. Process types, Types of clauses as representation. Material clauses. Mental clauses. Relational clauses. Verbal clauses. Other types of processes Problems of identifying types of clauses

3RD YEAR, 1ST SEMESTER

COURSE TITLE: HISTORY OF ENGLISH LANGUAGE

ECTS CREDITS: 2

TYPE OF COURSE: Core course

COURSE OBJECTIVE(S): The course of lectures aims at explaining the structure and functioning of

Modern English from a diachronic point of view. The focus is on the dynamics of the development of various sub-systems of language, with a view to gaining a deeper insight into their nature. The course seeks to present the English language both as a dynamic organism with a structural history of its own and a mirror reflecting much of the past of its speakers. Individual topics trace the origin and development of forms and functions which eventually gave rise to modern English.

COURSE CONTENTS: The periods in the history of the English language, characteristics of the Germanic languages. Old English spelling, pronunciation, grammar, vocabulary. Middle English spelling, pronunciation, grammar, vocabulary. General characteristics of Early Modern English. The English language in the 19th century and the first half of the 20th century: Grammatical tendencies; the enrichment of the vocabulary: Lexical and grammatical characteristics (spelling, pronunciation, vocabulary, grammar) of American English; the English language in Canada, Australia, South Africa; Varieties of English: national, social varieties, slang, etc. Changes in language; English as a tool of international communication

ASSESSMENT METHOD(S): Preliminary examination

COURSE TITLE: SPORTS

ECTS CREDITS: 2

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Acquisition of minimal sports terminology regarding rules and regulations, practice methods, parameters, dosing, hygiene, physiology of physical effort, planning and effects of various body training, notions of tactics; Acquisition of active strategies to secure effective and continuous feed-back; Facilitating harmonious physical development by constantly acting on the proportionality of muscle groups, preventing the installation of deficient attitudes and correcting physical deficiencies signalled in the segments and the spine; Compliance with professional deontology rules (teacher's code of ethics) based on explicit value options; Team-work spirit development to solve different learning tasks; Application of specific methods to improve personal and professional development plans.

COURSE CONTENTS: Complex corrective practice with prophylactic character; Skills. Bilateral sports games; Speed control. Bilateral sports games; Bilateral sports games; Resistance; Bilateral sports games. Force.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): A/R

3RD YEAR, 1ST SEMESTER

COURSE TITLE: LINGUISTIQUE ROMANE COMPAREE

NOMBRE DE CRÉDITS: 2

TYPE DE DISCIPLINE: Fondamentale

OBJECTIFS DU COURS : former des compétences théoriques qui permettront la localisation et la définition du domaine de la linguistique romane dans l'ensemble des sciences du langage; assimiler des concepts théoriques et opérationnels du domaine de la linguistique romane; souligner le caractère synthétique du latin en contrastivité avec l'analytisme des principales langues romanes connues;

CONTENU DU COURS: 1. L'objet d'étude de la linguistique romane: la Roumanie et ses régions. Classifications des langues romanes: la Roumanie occidentale et orientale, *Romania submersa* et *Romania nova*, *Romania continua* et *discontinua*. 2. Les éléments constitutifs des langues romanes (substrats, strat, superstrats, adstrats). Substrat primaire et secondaire. substrat osco-ombrique, celtique, ligurie, étrusque, grec, mesapic, venet, illyrien, thrace, sicul, sican, ibérique, etc. 3. Le latin. Vocalisme, consonantisme, morphosyntaxe et lexique du latin populaire. 4. Les superstrats des langues romanes: germanique (wisigothique ostrogot, vandal, francique, longobard, burgond), slave, arabe. 5. Le domaine ibéro-romain: la langue espagnole: répartition géographique, premiers documents d'attestation, caractéristiques typologiques (phonétique, morphosyntaxique, lexique). 6. Le domaine gallo-roman: la langue française: répartition géographique, dialectes, première attestation de documents, caractéristiques typologiques (phonétique, morphosyntaxe, vocabulaire). 7. Le domaine balkano-romain: la langue roumaine: répartition géographique, dialectes, première attestation de documents, caractéristiques typologiques (phonétique, morphosyntaxe, vocabulaire).

LANGUE D'ENSEIGNEMENT: Roumain

FORME D'ÉVALUATION : Examen

COURSE TITLE: LANGUE FRANÇAISE (LEXICOLOGIE ET SEMANTIQUE)

NOMBRE DE CRÉDITS: 4

TYPE DE DISCIPLINE: de Spécialité

OBJECTIFS DU COURS: Entraîner les étudiants à comprendre l'importance de l'étude du sens, les notions Fondamentales avec lesquelles opère la sémantique, les mécanismes du sens. Entraîner les étudiants à utiliser de façon consciente les mécanismes d'analyse sémantique.

CONTENU DU COURS: La sémantique. L'analyse sémique ou componentielle. Les unités de sens. Les anomalies sémantiques. Formes et causes des changements de sens. La sémantique structurale diachronique. La structuration sémique du lexique. Les relations sémantiques. La présupposition.

LANGUE D'ENSEIGNEMENT: Français

FORME D'ÉVALUATION: Examen

COURSE TITLE: LITTÉRATURE FRANÇAISE (XXe SIÈCLE)

NOMBRE DE CRÉDITS: 4

TYPE DE DISCIPLINE: de Spécialité

OBJECTIFS DU COURS: l'étude du mouvement littéraire français au XXe siècle; l'acquisition des compétences nécessaires pour le débat d'idées, l'analyse, la synthèse, le commentaire de texte; l'approfondissement des connaissances culturelles, des idées contemporaines dans le domaine littéraire, historique, philosophique, artistique; le perfectionnement de l'expression orale et écrite; la formation du sens critique et l'instruction des disponibilités de communication en vue de l'argumentation logique et cohérente des opinions exprimés.

CONTENU DU COURS: Les novateurs du roman : Marcel Proust et le roman poétique. André Gide et la « mise en abyme » 2. Le roman problématique et de l'engagement : André Malraux et le roman de la condition humaine. Saint – Exupéry et la foi dans les valeurs traditionnelles. 3. Le roman existentialiste : Jean – Paul Sartre, Albert Camus. 4. Le Nouveau Roman: Alain Robbe – Grillet, Michel Butor, Le nouveau Nouveau Roman. 5. Courants nouveaux dans la poésie: Guillaume Apollinaire et la poésie cubiste. Paul Valéry et la poésie pure. Le dadaïsme et le surréalisme (Tristan Tzara, André Breton). Lignes de force contemporaines : Henri Michaux, Saint – John Perse. 6. Le discours dramatique : Les maîtres (Jean Giraudoux, Paul Claudel). Le théâtre existentialiste (Jean – Paul Sartre, Albert Camus). Les maîtres de l'absurde (Eugène Ionesco, Samuel Beckett).

LANGUE D'ENSEIGNEMENT: Français

FORME D'ÉVALUATION: Examen

COURSE TITLE: TRAVAUX DIRIGÉS: TECHNIQUES DE RÉDACTION

NOMBRE DE CRÉDITS: 2

TYPE DE DISCIPLINE: de Spécialité

OBJECTIFS DU COURS: Identifier et définir les concepts, theories et techniques linguistiques et textuelles dans la rédaction d'un texte dans une langue étrangère.

CONTENU DU COURS: Typologie des textes- notions introductives. Le choix du sujet et la documentation. Le plan général. La structure argumentative. La rédaction assistée par l'ordinateur. L'appareil scientifique de la thèse. Les index, les glossaires et les annexes. Techniques de rédaction d'un poster scientifique.

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written and oral examination

COURSE TITLE: ENGLISH IN USE – TEXT INTERPRETATION: APPLIED LITERARY THEORY AND GRAMMAR EXERCISES AND TRANSLATION

ECTS CREDITS: 2

TYPE OF COURSE: Specialty course

APPLIED LITERARY THEORY

COURSE OBJECTIVE(S): The proper knowlegde and understanding of specific notions of the discipline as well as the interpretation of theoretical contents in specific contexts.

COURSE CONTENTS: Wuthering Heights. The Strange Case of Dr. Jekyll and Mr. Hyde, The Picture of Dorian Gray, Tess of the d'Urbervilles, The War of the Worlds, Heart of Darkness, Sons and Lovers

To the Lighthouse, Nineteen Eighty-Four, Pygmalion, Death of a Salesman, Lord of the Flies, The British Museum is Falling Down

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written examination

GRAMMAR EXERCISES AND TRANSLATION

COURSE OBJECTIVE(S): to deepen and to systematize the knowledge acquired during the courses of Contemporary English Language; to make students aware of the structure of the English Verbal Phrase; to expose students to a variety of exercises and translations with different degrees of difficulty

COURSE CONTENTS: Phrasal Verbs. The Grammatical Categories of the Verb (The Category of Tense, The Category of Aspect, The Tense-Aspect System of English). The Category of Voice. The Category of Mood. Modal Verbs. The Non-Finite Forms of the Verb

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written examination

2ND YEAR, 1ST SEMESTER

COURSE TITLE: ENGLISH (THE SIMPLE SENTENCE SYNTAX)

ECTS CREDITS: 4

TYPE OF COURSE: Specialty course

COURSE OBJECTIVE(S): to give the students the necessary theoretical frame in order to analyze appropriately any syntactic pattern; to develop students' ability to use different syntactic structures depending on their communicative goals; within each theme both theoretical and practical aspects are given attention, specific knowledge checking being doubled by exercises and applications.

COURSE CONTENTS: Sentence types.. Functional Classification of Sentences. The simple sentence Means of Connecting Words. The Phrase. The Noun Phrase. The Verb Phrase. The Adjective Phrase. The Adverbial Phrase. Complex constructions. Independent elements of the sentence. Basic sentence patterns.

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: ENGLISH LITERATURE (THE VICTORIANS)

ECTS CREDITS: 4

TYPE OF COURSE: Specialty course

COURSE OBJECTIVE(S): The study of Victorian English literature and of the social, economic and cultural context. Students will familiarise with notions of literary criticism applied to Victorian writers.

COURSE CONTENTS: Poets: Alfred, Lord Tennyson, Robert Browning, Gerard Manley Hopkins, Pre-Raphaelites Novelists: Charles Dickens, William Makepeace Thackeray, The Brontës, George Eliot, Thomas Hardy

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: ENGLISH LANGUAGE IN USE: CONVERSATION AND ORAL PRESENTATION AND TEXT INTERPRETATION (POETRY)

ECTS CREDITS: 2

SEMESTER: 1

TYPE OF COURSE: Specialty course

CONVERSATION AND ORAL PRESENTATION

COURSE OBJECTIVE(S): to improve the students' knowledge of spoken English, to help them acquire oral presentation skills, to teach them fixed phrases (language patterns), namely lexical and grammatical formulae to be used under given circumstances, to make them understand the importance and the impact of non-verbal communication

COURSE CONTENTS: presentation skills: the four P's: Prepare, Practice, Present, Process. steps of a presentation (before, during and after the

presentation). the structure of a presentation. non-verbal communication. using materials. oral presentations on a given topic.

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Oral examination

TEXT INTERPRETATION (POETRY)

COURSE OBJECTIVE(S): During this course the students have to learn the steps that they should follow in text interpretation. They have to learn how to identify the devices used by the author, to state an idea suggested by the text and sustain it with arguments from the text. They have to develop their ability to use their previous knowledge and make associations and analogies within the text and with other texts. They should be able to produce their own interpretation of a literary text.

COURSE CONTENTS: Species belonging to the genre of poetry. Figures of speech. Imagery. Symbols. Sound features. Standard poetic forms.

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): written examination

2ND YEAR, 2ND SEMESTER

COURSE TITLE: ENGLISH (THE COMPOUND AND COMPLEX SENTENCE SYNTAX)

ECTS CREDITS: 4

TYPE OF COURSE: Specialty course

COURSE OBJECTIVE(S): The aim of the course is two fold: (a) to introduce students to a more recent & principled approach to the study of syntax (generative grammar) and to the rigour of scientific argumentation, and (b) to improve students' knowledge and understanding of complex English syntactic structures.

COURSE CONTENTS: The syntax of negative sentences: derivation, negative quantifiers, polarity items, emphatic negatives; Sentence coordination: reduction rules; Subordination: Criteria for classifying subordinate clauses; Raising versus control predicates, distribution & syntactic properties of Infinitive Complement clauses; ING - Complements: syntactic properties and distribution; Relative clauses.

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): written examination

COURSE TITLE: ENGLISH LITERATURE (20TH CENTURY)

ECTS CREDITS: 4

Individual Talent. *The Waste Land* . *The Love Song of J. Alfred Prufrock*; W. B. Yeats – the critic and the poet: *Sailing to Byzantium*, *The Second Coming*, *Easter 1916*, *Leda and the Swan*. D. Thomas: *Before I Knocked*, *And Death Shall Have no Dominion*, *Do not go gentle into that good night*; Aldous Huxley: *Point Counter Point* and *Brave New World*; Virginia Woolf: *Mrs. Dalloway*, *To The Lighthouse*, *The Waves*; James Joyce: *A Portrait of The Artist As A Young Man*, *Ulysses*; Samuel Beckett: *Waiting for Godot*, *Happy Days*

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: ENGLISH LANGUAGE IN USE: GRAMMAR AND TRANSLATION AND TEXT INTERPRETATION (THE NOVEL)

ECTS CREDITS: 2

TYPE OF COURSE: Specialty course

GRAMMAR AND TRANSLATION

COURSE OBJECTIVE(S): the deepening and the systematization of the knowledge, acquired during the courses of Contemporary English Language; to make students aware of the structure of the English Verbal Phrase; to expose students to a variety of exercises and translations with different degrees of difficulty.

COURSE CONTENTS: Nominal Clauses. Active vs. Passive Voice. Values of the active voice. Passive voice: form, usage, values. The subject Clause. Indicative and Subjunctive. The Direct Object Clause. Indicative, subjunctive and infinitive: criteria of choice. Sequence of tenses. Exceptions. Relative Attributive Clauses. Adverbial Clauses of purpose, condition and result. Direct and Indirect Speech. Word Order.

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): written examination

TEXT INTERPRETATION (THE NOVEL)

COURSE OBJECTIVE(S): The objective of this course is to introduce the basic ideas and methods of text interpretation theory and to provide a solid foundation for other courses based on the analysis of literary texts. Topics include points of narrative technique, style, setting, atmosphere, characterization, aspects of the comic, tragic elements, argumentative texts, social comments.

COURSE CONTENTS: How to comment upon a literary text; Practical hints on the method of approach to the text. Analysis of the text proper. Point of view. Style. The Point of view. Setting; the building up of atmosphere. Dramatic intensity. The art of suspense. Aspects of the comic. Tragic elements in passages from modern literature. Argumentative texts; the passage as a social document.

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written examination

3RD YEAR, 1ST SEMESTER

COURSE TITLE: SEMANTICS

ECTS CREDITS: 4

TYPE OF COURSE: Core course

COURSE OBJECTIVE(S): The course of this course is to familiarize the students with the basic notions of the vast field of semantics, from structural to cognitive semantics to formal semantics. Special attention is given to interface and conceptual lexical relations in order to help students improve and refine their language skills.

COURSE CONTENTS: The introductory chapter discusses the definition and domain of semantics as part of linguistic theory. The second chapter – theories of meaning and theories of reference – draws some distinctions between structuralist and cognitive semantics, offering a brief introduction to the latter. The third chapter focuses on structuralist lexical semantics, presenting in detail the componential and distributional methods of semantic analysis, lexical relations and types of lexical organization. The final chapter represent an introduction to formal semantics.

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: ENGLISH LITERATURES (AMERICAN LITERATURE)

ECTS CREDITS: 4

TYPE OF COURSE: Specialty course

COURSE OBJECTIVE(S): This course is meant to interpret works in the American Literature from the beginning to the present day. The main school of criticism, Hermeneutics is used to introduce a selection of authors and well-known works in the course and seminar activity.

COURSE CONTENTS: Elements of culture and civilization. E.A. Poe: *The Philosophy of Composition*; *The Raven*. Nathaniel Hawthorne: *The Scarlet Letter*. Francis Scott Fitzgerald: *The Great Gatsby*. Ernest Hemingway: *A Farewell to Arms*; *The Old Man and The Sea*. William Faulkner: *Light in August*. Eugene O'Neill: *Long Day's Journey into Night*. Arthur Miller: *Death of A Salesman*. Tennessee Williams: *A Streetcar Named Desire*. W. C. Williams: *Selected Poems*

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: ENGLISH IN USE – TEACHING METHODOLOGY

ECTS CREDITS: 2

TYPE OF COURSE: Specialty course

COURSE OBJECTIVE(S): Adequate knowledge and understanding of the notions specific to applied didactics; explaining and interpreting practical content in well-defined contexts; Critical and constructive reflection in the assimilation of the conceptual and methodological apparatus specific

to the discipline; constructive interpretation and extension of specific differences across the study material, and avoidance of native-language mistakes;

COURSE CONTENTS: The learner-centred approach in ELT today; Principles in course design; Teaching skills; Guidelines in ESP (English for specific Purposes);. The market-oriented approach in ELT

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: CONTRASTIVE ENGLISH GRAMMAR

ECTS CREDITS: 2

TYPE OF COURSE: Optional

COURSE OBJECTIVE(S): The courses offer the advanced students of English insights into problems they are already familiar with but have not yet tackled exhaustively, with an emphasis on a contrastive analysis between English and Romanian; The courses go into further detail and deal with the „sore“ points of the grammatical categories of the parts of speech, focusing on translation equivalence.

COURSE CONTENTS: The grammatical categories of the noun and noun determiners (the uses of the articles); A note on –er/-ing compound nouns; The Adjective: the order of adjectives; The Comparison of adjectives. Absolute phrases; It vs. There (the existential use); The Uses of Present Simple and Continuous; Present Perfect; The uses of Past Simple and Continuous; Past Perfect (tips for translation); Means of expressing futurity in English; Expressing habitual actions and generalizations; Constructions that carry an impersonal meaning; Contexts that require the presence of gerunds; Negation

ASSESSMENT METHOD(S): Written and oral examination

3RD YEAR, 2ND SEMESTER

COURSE TITLE: INTRODUCTION TO PRAGMATICS

ECTS CREDITS: 3

TYPE OF COURSE: core course

COURSE OBJECTIVE(S): to raise awareness of the importance of pragmatic studies in the more general frame of linguistics; to get the students acquainted with basic concepts such as *speech acts*, *implicature*, *presupposition*, *deixis* etc; to foster comprehension of the costs and benefits of strategic options

COURSE CONTENTS: The hybrid nature of pragmatics: An archaeology of pragmatic ideas. The American input. The European contribution. Defining pragmatics. Speech act theory. Co-operation and conversational implicature. Grice's *Cooperative Principle*. Strategies of politeness. Presupposition. Deixis. Typology: person deixis,

empathetic deixis, place deixis, time deixis, discourse deixis and social deixis

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): written examination

COURSE TITLE: INTERTEXTUALITY

ECTS CREDITS: 3

TYPE OF COURSE: Core course

COURSE OBJECTIVE(S): Familiarising students with the theoretical background of this discipline: defining and explaining such notions as text, critical approach of the text, intertextuality, intertextual analysis etc. Helping the students acquire the ability to analyse different texts, from different historical periods, from an intertextual perspective. Familiarising students with the fundamental theoretical texts of the domain

COURSE CONTENTS: 1. Introduction into the theory of the text 2. Formalist and structuralist approaches to the text 3. Post-structuralist approaches to the text 4. Defining intertextuality (historical evolution of the concept) 5. Criteria of classification and types of intertextuality 6. Postmodern dimensions of intertextuality (literature, painting, photography, architecture, cinema) 7. (1) Verbal – verbal transfer of signs: aggression within lexical boundaries (anagrams, puns, blends etc); 8. (2) Verbal – verbal transfer of signs: aggression within fixed/ variable textual boundaries (parody, pastiche, collage, travesty etc) 9. (1) Verbal – non-verbal transfer of signs: text illustrations; media intertextuality 10. (2) Verbal – non-verbal transfer of signs: ekphrasis 11. (1) Nonverbal – nonverbal transfer of signs: pictural/photographic intertextuality 12. (2) Nonverbal – nonverbal transfer of signs: architectural/ cinematographic intertextuality 13. Revision

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): written examination

COURSE TITLE: ENGLISH IN USE – TEXT INTERPRETATION (SHORT STORIES, DRAMA)

ECTS CREDITS: 2

TYPE OF COURSE: Specialty course

COURSE OBJECTIVE(S): Introduction and familiarization of students with various theoretical aspects specific to the respective field; introduction of theoretical notions related to the intertextual analysis of a text analysis of texts belonging to different periods and currents of the English literature from intertextual perspective; adequate use and didactic use of the notions specific to this discipline in well-defined situations; explaining and interpreting the theoretical and practical content in well-defined contexts; Appropriate application and transfer of the basic methods and techniques specific to this discipline;

COURSE CONTENTS: General background related to drama analysis (plot, setting, characters, themes, spectacle); Beginnings of English drama :

mediaeval mysteries – text interpretation; Mediaeval miracles and moralities : Everyman; Renaissance drama : Christopher Marlowe, Dr. Faustus (text selection); W. Shakespeare, A Midsummer Night's Dream (text analysis); Metamorphoses of a myth : G. B. Shaw, Pygmalion; The Importance of Being Earnest, Oscar Wilde (cultural context, general themes, text analysis); Waiting for Godot, Samuel Beckett – cultural context, general themes, text analysis; Death of a Salesman, Arthur Miller; Sure Thing, David Ives; Edward Albee : Who's Afraid of Virginia Woolf?; Edward Albee : The Sandbox

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): written examination

COURSE TITLE: CHALLENGING THE REALIST NOVEL: ORIENTAL PROSE IN EIGHTEENTH-CENTURY ENGLAND

ECTS CREDITS: 1

TYPE OF COURSE: Optional

COURSE OBJECTIVE(S): To enable students to situate the realist novel within its historical, social, political and cultural context. To help students understand the value of eighteenth-century British Oriental writings as historical and cultural sources, and to assess their impact on a vast array of perceptions of the East in England at the time. To familiarise students with a period of the developing British Empire when the craze for the East and the Oriental writings were matched with curiosity and enchantment. To assess the impact of eighteenth century Oriental writings on the realist novel and look into different modes of perception. Students should demonstrate an ability to compare and contrast different critical and theoretical approaches to reading texts, and the acquisition of a critical vocabulary. They should also develop an awareness of the relations between texts and the historical moments of their production and reception. The course will help students develop a case study (of their choice) that is based on eighteenth-century English Oriental writings. Students should demonstrate skills in the organisation of a coherent written argument appropriate to an assignment that will contribute to the final mark obtained for this module.

COURSE CONTENTS: 1. Introduction. Defining the Field. Eighteenth Century England: The Enlightenment/The Age of Reason vs. "An Age of Plot and Deceit, of Contradiction and Paradox" (Defoe) 2. The Novel in Its Beginnings: Aspects and Issues (the birth of the novel; the role of the Oriental tale in the 18th-century as an alternative to the novel) 3. The Business of the 'Chinoiserie' in 18th-century Epistolary Style ('chinoiserie': definition and employment of the term; the Oriental style in 18th century English art and literature; 18th-century enthusiasm for Chinese objects). 4. In Search of Happiness: The 18th -century Philosophical Discourse in Prose ("the charms of Oriental

images", the natural world in the description of the Happy Valley, the gardening practice in 18th century England; parody and philosophy) 5. Scheherezading It: *The Arabian Nights* and their Adaptability to the 18th century Paradigm (Antoine Galland's first translation into French; the oral tradition in literature; various versions of the original tales into English; the question of translation) 6. Pseudo-Oriental Tales and Pseudo-Travel Writers in 18th century England: The Case of George Psalmanazar (the problem of translation; Oriental tales and English Oriental tales; the "Description of Formosa" and its ethnographic merits) 7. Pseudo-Oriental Tales and Pseudo-Travel Writers in 18th century England: The Case of William Beckford

**FRENCH LANGUAGE AND LITERATURE (B)
BACHELOR'S DEGREE**

1ST YEAR, 1ST SEMESTER

**COURSE TITLE: LANGUE FRANÇAISE (GROUPE
NOMINAL)**

NOMBRE DE CRÉDITS: 4

TYPE DE DISCIPLINE: de Spécialité

OBJECTIFS DU COURS: Donner aux étudiants les concepts théoriques et opérationnels et les modèles théoriques découlant du structuralisme, utilisés dans la description du français.

CONTENU DU COURS: Le nom – centre du groupe nominal. Les catégories grammaticales du nom: le genre, le nombre et le cas. Les déterminants du nom : les Actualisateurs et les Modificateurs. Les Actualisateurs définis : L'article défini, l'adjectif démonstratif, l'adjectif possessif. Les Actualisateurs indéfinis : l'article indéfini, l'article partitif, l'adjectif indéfini, l'adjectif interrogatif. Les Modificateurs du nom : typologie. L'adjectif épithète : l'accord et la place dans le groupe nominal. Le complément du nom : réalisateurs, rection, valeurs des prépositions. La subordonnée relative : formes et emploi du pronom relatif (formes simple et composée), typologie, emploi du mode. Les substituts du groupe nominal : traits sémantiques et rôle discursif.

LANGUE D'ENSEIGNEMENT: Français

ÉVALUATION: Examen

COURSE TITLE: CIVILISATION FRANÇAISE

NOMBRE DE CRÉDITS: 4

TYPE DE DISCIPLINE: De Spécialité

OBJECTIFS DU COURS: Donner aux étudiants un panorama sur l'histoire et sur la civilisation française afin qu'ils puissent mieux comprendre le contexte historique et les références culturelles de la société française contemporaine.

CONTENU DU COURS: Notions de géographie: diversité et unité de la France. Les grands événements dans l'histoire de la France. La révolution française de 1789 et ses symboles. Personnalités politiques qui ont marqué l'histoire de France. Les principales dynasties, Louis XIV, Napoléon 1er. Visages de la France contemporaine : économie, modes de vie, culture et loisirs, éducation. La francophonie.

LANGUE D'ENSEIGNEMENT: Français

FORME D'ÉVALUATION: Épreuve écrite

3RD YEAR, 1ST SEMESTER

COURSE TITLE: LANGUE FRANÇAISE (LEXICOLOGIE ET SEMANTIQUE)

NOMBRE DE CRÉDITS: 4

TYPE DE DISCIPLINE: de Spécialité

OBJECTIFS DU COURS: Entraîner les étudiants à comprendre l'importance de l'étude du sens, les notions fondamentales avec lesquelles opère la sémantique, les mécanismes du sens. Entraîner les étudiants à utiliser de façon consciente les mécanismes d'analyse sémantique.

CONTENU DU COURS: La sémantique. L'analyse sémique ou componentielle. Les unités de sens. Les anomalies sémantiques. Formes et causes des changements de sens. La sémantique structurale diachronique. La structuration sémique du lexique. Les relations sémantiques. La présupposition.

LANGUE D'ENSEIGNEMENT: Français

FORME D'ÉVALUATION: Examen

COURSE TITLE: LITTÉRATURE FRANÇAISE (XX^E SIÈCLE)

NOMBRE DE CRÉDITS: 4

TYPE DE DISCIPLINE: de Spécialité

OBJECTIFS DU COURS: l'étude du mouvement littéraire français au XX^e siècle; l'acquisition des compétences nécessaires pour le débat d'idées, l'analyse, la synthèse, le commentaire de texte; l'approfondissement des connaissances culturelles, des idées contemporaines dans le domaine littéraire, historique, philosophique, artistique; le perfectionnement de l'expression orale et écrite ; la formation du sens critique et l'instruction des disponibilités de communication en vue de l'argumentation logique et cohérente des opinions exprimés.

CONTENU DU COURS: Les novateurs du roman : Marcel Proust et le roman poétique. André Gide et la « mise en abyme » 2. Le roman problématique et de l'engagement : André Malraux et le roman de la condition humaine. Saint - Exupéry et la foi dans les valeurs traditionnelles. 3. Le roman existentialiste : Jean - Paul Sartre, Albert Camus. 4. Le Nouveau Roman: Alain Robbe - Grillet, Michel Butor, Le

nouveau Nouveau Roman. 5. Courants nouveaux dans la poésie: Guillaume Apollinaire et la poésie cubiste. Paul Valéry et la poésie pure. Le dadaïsme et le surréalisme (Tristan Tzara, André Breton). Lignes de force contemporaines : Henri Michaux, Saint – John Perse. 6. Le discours dramatique : Les maîtres (Jean Giraudoux, Paul Claudel). Le théâtre existentialiste (Jean – Paul Sartre, Albert Camus). Les maîtres de l'absurde (Eugène Ionesco, Samuel Beckett).

LANGUE D'ENSEIGNEMENT: Français

FORME D'ÉVALUATION: Examen

COURSE TITLE: TRAVAUX DIRIGÉS: TECHNIQUES DE RÉDACTION

NOMBRE DE CRÉDITS: 2

TYPE DE DISCIPLINE: de Spécialité

OBJECTIFS DU COURS: Identifier et définir les concepts, theories et techniques linguistiques et textuelles dans la rédaction d'un texte dans une langue étrangère.

CONTENU DU COURS: Typologie des textes- notions introductives. Le choix du sujet et la documentation. Le plan général. La structure argumentative. La redaction assistée par l'ordinateur. L'appareil scientifique de la thèse. Les index, les glossaires et les annexes. Techniques de rédaction d'un poster scientifique.

LANGUE D'ENSEIGNEMENT: Français

FORME D'ÉVALUATION: Épreuve écrite

COURSE TITLE: COURS OPTIONNEL LANGUE B (LANGUE): PRAGMATIQUE DE LA QUESTION

NOMBRE DE CREDITS: 2

SEMESTRE: 1er semestre

TYPE DE DISCIPLINE: de Spécialité

OBJECTIFS DU COURS: Présentation des faits de langue concernant l'ordre séquentiel spécifique, fonction des constituants facultatifs auxquels l'interrogation se combine; initiation aux méthodes linguistiques appliquées avec développement de la capacité analytique et synthétique chez les étudiants concernant la distinction des tours interrogatifs français/roumain, selon les registres de la langue; acquisition des aspects normatifs de l'expression correcte visant les emplois de la forme modale du verbe et des morphèmes interrogatifs spécialisés dans les interrogations ainsi que les formulations de la réponse structurée selon la question.

CONTENU DES COURS : L'étude sémantique de l'interrogation: les relations question-réponse, les conditions de poser une question et de formuler une réponse adéquate et la typologie sémantique des questions et des réponses. La perspective syntaxique: la spécificité de la forme linguistique pour chaque structure sémantique envisagée. La perspective pragmatique: aspects concernant l'utilisation des questions afin de réaliser un acte de parole autre que l'interrogation; l'expression de l'interrogation sans le recours aux formes grammaticalement consacrées (actes de parole indirects). L'importance de l'interrogation pour l'activité didactique et pour

l'activité humaine (la fonction gnoséologique de la question).

LANGUE D'ENSEIGNEMENT: Français

FORME D'ÉVALUATION: Vérification

3RD YEAR, 2ND SEMESTER

COURSE TITLE: LANGUE FRANÇAISE (INTRODUCTION À LA PRAGMATIQUE)

NOMBRE DE CRÉDITS: 3

TYPE DE DISCIPLINE: de Spécialité

OBJECTIFS DU COURS: une présentation théorique des principaux phénomènes linguistique qui constituent le domaine de la pragmatique et de leur importance pour l'enseignement, la traduction, etc.; travaux pratiques: d'approfondir par exercices les connaissances théoriques tout en insistant sur les aspects impliqués dans la future activité professionnelle des étudiants (déixis temporelle et spatiale, les actes de langage, analyse du discours). On insiste sur les aspects contrastifs des phénomènes impliqués dans la modalisation et dans l'énonciation.

CONTENU DU COURS: 1. La déixis: les éléments déictiques et leurs emplois déictiques (gestuels ou symboliques) ou non-déictiques (anaphoriques et non anaphoriques); la déixis de personne, temporelle, spatiale, sociale et de discours; 2. Les implicatures conversationnelles: définition, identification, les maximes (emplois et outrages), propriétés; 3. La présupposition: théories de Frege, Russell et Strawson; propriétés; les principaux activeurs 4. Les actes de langage: les actes locutionnaire, illocutionnaire et perlocutionnaires, théories de Austin, Searle; la pragmatique cognitive

LANGUE D'ENSEIGNEMENT: Français

FORME D'ÉVALUATION: Examen

COURSE TITLE: LITTÉRATURE FRANCAISE ET ARTS VISUELS

NOMBRE DE CRÉDITS: 3

TYPE DE DISCIPLINE: de Spécialité

OBJECTIFS DU COURS: Initier les étudiants à une approche comparatiste et transversale du texte et de l'image. Discuter les relations qu'entretiennent la littérature et les arts visuels. La présentation de questions théoriques fondamentales sera accompagnée d'une sélection de textes et d'images du XX^e et du XXI^e siècles.

CONTENU DES COURS: 1. Cadre théorique : a. La littérature et les autres arts. b. Les arts visuels- définition, formes. c. L'acte créateur pictural et scriptural – une approche poétique. d. Le pictural dans le texte littéraire : une approche poétique. L'ekphrasis. La plasticité du texte littéraire. 2. La littérature et les arts visuels : échanges et transferts : a. Littérature et peinture. b. Littérature et photographie. c. Littérature et dessein.

TYPE OF COURSE: Core

PHONETICS

COURSE OBJECTIVE(S): The aims of this course are: to convey the basic notions on the phonological system of classical Latin, first and foremost, but also that of anterior or posterior phases; to pass on the basic knowledge on Latin prosody and metric which are needed to build skills for understanding the mechanisms of chanting Latin verses; to convey the knowledge which is necessary in understanding the importance of knowing Latin phonetics in the study of Romanian and Romance languages.

COURSE CONTENTS: Latin—an Indo-European language. The periodization of the evolution of the Latin language. Italic languages, ie common linguistic features. The Latin alphabet. The phonological system of Latin. The vowel system and its evolution. Diphthongs. General rules and special rules for determining the syllable quantity. The consonant system and its evolution. The Stress: definition, types, general and special rules. The Syllable. Phonetic changes. Prosody and metrics. Exercises.

ASSESSMENT METHOD(S): Examination

GRAMMATICAL EXERCISES

COURSE OBJECTIVE(S): To introduce first-year students to the descriptive grammar of Latin. This practical course is devoted to Latin morphology; the lessons are devoted to the presentation of the planned grammatical issues, while at the same time solving several exercises and translating texts which have been especially created to have a didactic purpose. Students are required to take part and work hard in solving the exercises which are selected according to the proposed topics of study. During the first semester of the first year, on account of the limited number of Latin language classes in pre-university education, the role of the Latin practical courses is to improve the knowledge of Latin, to help students work correctly with Latin morphology, to translate or create texts in Latin on their own. I have published several Latin textbooks over the years. They contain Latin morphology and syntax exercises, accompanied by answers. Students will often have homework assigned from these textbooks so as to apply the information they learn during class.

COURSE CONTENTS: Grammatical exercises in Latin morphology, according to the following schedule:

- 1-2. The Latin noun. Types of inflexion in Latin. Case declensions for the five types of inflection.
3. The Latin adjective. Adjective classes and the corresponding types of inflection. The degrees of comparison.
4. Noun determinants. Latin pronouns and adjectives. Personal and reflexive pronouns. Demonstrative pronouns.
5. Possessive pronouns. Relative Pronouns. Interrogative pronouns. Indefinite pronouns.
6. Latin numerals (inflected and non-inflected forms).
7. The Latin adverb. Adverb formation. The degree of comparison of the adverb.
8. Introduction to the Latin verb morphology. Types of inflection. Morphemic analysis. Grammatical categories.
9. Active and medio-passive inflections.
10. The Indicative and Subjunctive finite moods. Present and perfect tenses.
11. The imperative mood. Non-finite moods. Verbal periphrases.
12. The Verbs *esse*, *posse*, *ferre*, *ire*, *habe*.
13. Latin prefixes and conjunctions.

ASSESSMENT METHOD(S): examination

1ST YEAR, 2ND SEMESTER

**COURSE TITLE: LATIN LANGUAGE.
MORPHOLOGY**

NUMBER OF CREDITS: 4

TYPE OF SUBJECT: Core

COURSE OBJECTIVE(S): For the Latin morphology courses and seminars in the 1st year, the objectives are to teach the verbal system through notions that facilitate the correct and stable acquisition of the grammatical forms as well as the understanding of the general linguistic information that students need to learn in order to know and understand the grammar of the language they study. Even if the students already have some grammatical information from the first semester, we will review, in the first meeting, notions such that of the word as a phonetic, morphological and lexical unit, the constituents of the word, such as root, suffix, inflection and vowel alternations: e / o / zero. We will also review the principles of morphemic analysis: switching, allomorphs, zero morph. During the following seminars, the specific concepts for the Latin verbal system will be explained: inflection; the four declensions, specific inflections, the grammatical categories: voice, person, manner, tense, aspect. The difference between *infectum* and *perfectum* will be explained, as well as the tenses that are formed for each of them. We will also examine the finite and non-finite moods, with their specific declensions in the active and passive voice, and deponent and semi-deponent verbs. For deponent and irregular verbs, there will be many examples to make sure they are properly understood.

COURSE CONTENTS: 1. Morphology and the other areas of language, differences and specific characteristics. Operational elements. 2. The Numeral in Latin: formation and functions. Classes of numerals and their inflection. The grammatical categories of the verb and their description. 3. The present tense and its characteristic alterations: reduplication, infixes, suffixes, lexical- and aspect-marked verbs: iterative verbs, inchoative verbs, perfective verbs, state verbs, desiderative verbs. Formation of the denominative verbs. 4. and 5. The present tense. Forming present, imperfect and future tenses in the indicative, subjunctive and imperative moods. 6. The verb *sum*, *esse*, *fui*. 7 and 8. Formation of the perfect aspect: root alteration phenomena and specific suffixes. Formation of the perfect indicative and subjunctive, the past perfect and future-in-the-past. 9. Introduction to non-finite moods of the verb. Overview and grammatical categories. Contingencies between noun, adjective and verb. 10. Detailed analysis of the infinitive, participle, gerundive and gerund, supine. The Passive voice in

Latin: formation and functions. Deponent and semi-deponent verbs. 12. Anomalous verbs (irregular: *volo, velle; nolo, nolle; mal, malle; fero, ferre; eo, ire*). 13. The adverb in Latin: classification by meaning and formation type. 14. Comparison between verbal morphology and nominal morphology at formative and functional levels. SEMINAR: 1. Specific introductory notions for Latin morphology and the Latin verbal system: word, root, tense, declensions, suffixes, prefixes. Vowel alternations e / o / zero. 2. The numeral in Latin. Formative analysis of the Latin numerals and exercises with numerals. The Latin verbal system: inflection, the four conjugations and the specific declensions. Specific grammatical categories-voice, aspect, manner, tense, person, number. Inflectum and perfectum. Aspects derived from the inflectum and the perfectum. Finite moods (in the active, passive and middle voices -deponent verbs). Formation, suffixes and declensions. 5. Non-finite / nominal moods: the infinitive, participle, gerundive, gerund, supine. Deponent verbs. 7. Irregular verbs.

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: LATIN LITERATURE. THEATRE

NUMBER OF CREDITS: 4

TYPE OF SUBJECT: Core

COURSE OBJECTIVE(S): this course aims: to form a vision of the origins of dramatic arts and the role of this complex literary genre in the field of universal literature; to convey the fundamental notions of dramatic arts and to build a genetic perspective of the descend and evolution of the fundamental dramatic genres, i.e. comedy and tragedy, within Latin literature; to integrate these literary facts into a cultural ensemble governed by specific rules, and to understand in depth the dynamics of Latin literature reflected in the way the dramatic arts were generated and evolved.

COURSE CONTENTS: The beginnings of the Greek-Latin dramatic arts: the ritual complex. The dramatic organization: administrative conditions and architecture. The Latin theater: genetic and organizational context. The beginnings of Latin comedy (forms of the folk comic, first adaptations). The Latin comedy: Plautus (overview). The Latin Comedy: Plautus (the system of social roles and dramatic roles). The Latin comedy: Terentius (overview). The Latin comedy: Terentius (character psychology). Poetic / metapoetic features of the comic discourse. The beginnings of the Latin tragedy (Livius Andronicus, Naevius, Ennius). The Latin tragedy: Seneca. Seneca: Roman decadentism and rhetorical psychology. The functions and role of the dramatic genre in Latin culture. Reoccurrences of the dramatic (Greek-) Latin model in universal literature. SEMINAR: The boundary of the dramatic genre, in relation to and in comparison with the epic genre and the lyrical genre. The differences

between comedy and tragedy. The beginnings of theatre in Rome. The transmission of Latin literature and the support they were written on: waxed tablets, papyrus, parchment. Manifestations of the native Latin theatre: Fescennine verses, Saturas, Atellana, the mime. The first Latin playwrights: Livius Andronicus, Cnaeus Naevius, Quintus Ennius. Titus Maccius Plautus: Introduction to the life and opera of Plautus, the comedigrapher. Presentation of the success which the 21 plays by Plautus enjoyed in the Roman world. Influences of the old and new Greek comedy on Plautus. The study of the *Pseudolus* comedies by Plautus, of the most famous play by Plautus and of *Menaechmi*, in order to explain and highlight the *qui-pro-quo* theme and the theme of the double. The study of *Poenulus* and *Bacchides*. The study of *Miles gloriosus*. Publius Terentius Afer: Introduction to the life and work of the Latin writer. The study of Plautus' *Phormio* and *Andria*. Comparison between Plautus and Terentius. Discussion on Terentius' prologues. The study of Terentius' *Eunuchus* and *Hecyra*. L. Annaeus Seneca as a playwright. *Medea*.

COURSE TITLE: PRACTICAL COURSE (LATIN)

NUMBER OF CREDITS: 2

TYPE OF SUBJECT: Core

GRAMMATICAL EXERCISES

COURSE OBJECTIVE(S): To introduce first-year students to the descriptive grammar of Latin. This practical course is devoted to Latin morphology; the lessons are devoted to the presentation of the planned grammatical issues, while at the same time solving several exercises and translating texts that were especially created to have a didactic purpose. Students are required to take part and work hard in solving the exercises that have been selected according to the proposed topics of study. During the first semester of the first year, on account of the limited number of Latin language classes in pre-university education, the role of the Latin practical courses is to improve the knowledge of Latin, to help students work correctly with Latin morphology, to translate or create texts in Latin on their own. I have published several Latin textbooks over the years. They contain Latin morphology and syntax exercises, accompanied by answers. Students will often have homework assigned from these textbooks so as to apply the information they learn during class. After having learnt the descriptive morphology and applied it in exercises, in the second semester, the students translate and morphosyntactically analyze texts from the Latin authors, especially Caesar. They thus come into contact with the Latin language of the classical writers, with its specificity in word order and in the

construction of a predominantly synthetic linguistic system.

COURSE CONTENTS: Grammatical exercises in Latin syntax according to the following schedule:

1. General notions of syntax. 2. Syntax of cases. The Nominative Case. The Vocative Case 3. The Genitive Case. 4. The Dative case 5. The Accusative case 6. The Ablative case 7. Syntax of the sentence. Adverbial clauses. Adverbial clauses with *quod, quia, ut, ne, quin, quominus*. 8. Participial clauses. Relative clauses. 9. Purpose, result, concessive, comparative subordinate clauses. 10. The tense system in Latin. 11. Caesar, *Bellum Gallicum*, I, 1, I, 13 12. Caesar, *Bellum Gallicum*, I, 19, I, 30. 13. Caesar, *Bellum Gallicum*, III, 9, III, 21, III, 27.

ASSESSMENT METHOD(S): Examination

TEXT INTERPRETATION

COURSE OBJECTIVE(S): The aim of this practical course is to translate from Latin authors in order to familiarize students with the style and works of the respective writers and to provide them with information about the Roman culture and civilization from the different periods of its history. As the students translate the texts, they will also analyse them from a grammatical and morpho-syntactic point of view. As a result, students will develop their logical understanding of the Latin text as well as their speed in translating and interpreting Latin texts not only grammatically, but also stylistically. The translations from Caesar are meant to familiarize students with the political life of classical Rome, in the 1st century AD, with the stages of the Romanization of Gallia, all the while improving their knowledge of classical Latin.

COURSE CONTENTS: Caesar, *Bellum Gallicum*, I, 7. Caesar, *Bellum Gallicum*, I, 8. Caesar, *Bellum Gallicum*, I, 44. Caesar, *Bellum Gallicum*, I, 7. Caesar, *Bellum Gallicum*, II, 4. Caesar, *Bellum Gallicum*, III, 12. Caesar, *Bellum Gallicum*, IV, 1. Caesar, *Bellum Gallicum*, IV, 16. Caesar, *Bellum Gallicum*, IV, 28. Caesar, *Bellum Gallicum*, V, 28. Caesar, *Bellum Gallicum*, VI, 29. Caesar, *Bellum Gallicum*, VI, 40. Caesar, *Bellum Gallicum*, VII, 42.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

2ND YEAR, 1ST SEMESTER

COURSE TITLE: LATIN LANGUAGE. SYNTAX

NUMBER OF CREDITS: 4

TYPE OF SUBJECT: Core

COURSE OBJECTIVE(S): This course aims: to provide a description of the syntax of Latin from a mainly functional perspective; to highlight the relationship between the morphological value and the syntactic function of the various grammatical classes, as well as the semantic role of the morphological category of the case; to provide

clear and precise tools for the syntactic analysis of the sentence in order to understand and better translate texts.

COURSE CONTENTS: Course. The definition of syntax. The sentence: the definition. The syntax and semantics of the sentence: The parts of speech. The structure of the sentence. Types of clauses. Tenses in independent clauses. Moods in independent clauses. Syntactic function, semantic role, form, level. The subject: the definition, subject realization, omitted subject, indefinite subject, absence of the subject. The cases of the subject, the agreement. The predicate: the definition. The verbal predicate: the moods. The nominal predicate, the predicative noun, the ellipse of the copula or of the verbal predicate. Syntax of the agreement. The attributive modifier. The definition. Classification. The attributive noun and pronoun: partitives, possessives, quality, the explanatory function, the subjective genitive and the objective genitive. Uses and evolution in late Latin. The apposition. The adjective and participle as attributive adjectives. Definition. Classification. Direct object: realization, verbal categories requiring direct objects in the accusative, accusative after nonfinite forms of the verb, accusative after transitive phrases consisting of a noun or adjective with *esse*, internal object accusative, infinitive verb as a direct object. Indirect object: realization, verbs used in the dative. Values of the indirect object: benefit or loss, *dativus commodi vel innici, dativus ethicus, dativus iudicantis*, dative of direction, dative of attribution or addressing. The indirect object with adjectives. Dative of agent: realization as a proper noun or pronoun, either in *dativus auctoris* or the ablative case with or without *ab*. The place adverbial: it indicates staying in place (*ubi?*), direction (*quo?*), crossing (*qua?*), starting point (*where?*). The adverb of cause: preferably realized by a single ablative, competing with the accusative with prepositions (*ob, propter, ex, pra, ab* postclassical).

The time adverbial. It indicates the time of action: *quando*, duration: *quamdiu*, how long the action takes: *quamdudum*, how long the action has been going on for: *ex quo tempore*, how long before the action is over: *quanto tempore*. It modifies verbs and adjectives and is realized as nouns, pronouns, gerund and gerundive constructions; it is used in the dative or accusative, in the genitive or ablative with preposition. The manner adverbial. The measure adverbial: developed from the instrument adverbial. The instrument adverbial. The sociative adverbial, a type of instrument adverbial. Comparison adverbials. The comparative adverbial. The superlative adverbial. The adverb of relation. Seminar: Semantics and syntax of cases. The nominative and vocative. Semantics and syntax of the genitive. Semantics and syntax of the dative. Semantics and syntax of the accusative. Semantics and syntax of the ablative. Word order. Context.

LANGUAGE OF INSTRUCTION: Romanian
ASSESSMENT METHOD(S): Written examination

COURSE TITLE: LATIN LITERATURE. PROSE

NUMBER OF CREDITS: 4

TYPE OF SUBJECT: Core

COURSE OBJECTIVE(S): To offer an overview of the Latin prose in its chronological and aesthetic evolution, in relation to the historical context and the given political and cultural environment. To present the chronological boundaries and the criteria applied for them. To define the main features of the Latin literature and its specific key concepts. To present, describe and contextualize the genres of Latin prose in their evolution. To identify and present the most relevant topics by the authors of Latin prose. To present the literary works which are representative of each genre and theme, as well as their authors. To offer models of literary analysis and criteria of aesthetic ASSESSMENT METHOD(S). To identify the influence that Latin literature had on the European literature and culture.

COURSE CONTENTS: Introduction to the study of Latin literature. General overview. The origins of Latin literature. The formation of literary Latin. The periodization of its evolution according to different criteria. The first five centuries of Latin literature - the preliterary period. The historical, social and cultural context. The beginnings of high culture Latin literature. The influence of Greek literature, language and culture. The formation of literary genres. Prose genres: historical prose, oratorical prose, legal prose, philosophical prose, technical prose, didactic and scholarly prose, fiction. The beginnings of Latin historiography: *Historia Graeca*. The first Latin histories. Cato the Elder. The great Latin historiography: representative historians, theory and poetics of the genre. Caesar. Cornelius Nepos. C. Sallustius Crispus. Historical prose in the age of Augustus. Titus Livius. The historical prose of the second century. Tacitus. Other historians of the second century: Suetonius, Florus. Fronto. Historiography in the III-VI centuries. Ammianus Marcellinus. Oratorical Prose. The beginnings of the oratory. Oratory up to Gracchi. Oratory from Gracchi to Cicero. Cicero, a theoretician and practitioner of rhetorical art. Philosophical prose. Cicero. Seneca. Legal prose before and after Gracchi. Didactic and scholarly prose in the first century BC. Varro. Technical Prose. Treaties on agriculture: Cato, Varro, Columella. SEMINAR: Introduction to Latin literature. Methods of studying ancient Latin literature. Overview of Sallustius' work.

De coniuratione Catilinae- presentation of the characters, Catilina's murders, mischief, debauchery. Catalina's speech that urges riots and promises. The urge to fight. The end of the war and the death of Catilina.

Bellum Iugurthinum-presentation of the characters and of the conflict. The reason behind writing about this war. The development of the conflict. Presentation of the life and work of the Latin writer Titus Livius. Certain events of great interest in the history of Rome: the founding of the city - Romulus and Remus, the abduction of the Sabine women, the law of the 12 Tablets, the decemvirate, the equality of rights between patricians and the plebe, the establishment of the censorship, the invasion of the Gauls. The three wars between the Romans and the Carthaginians: characters, fighting strategies, decisive confrontations. Speeches held during the wars.

Presentation of the life and work of the Latin writer P. Cornelius Tacitus. His conception of writing history. Comments on the events included in Tacitus' major works: *Historiae* and *Annales*. 69 AD, "the year of the four kings"; the type of events contained in *Historiae*. The method of writing annals *without hatred and bias*.

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: PRACTICAL COURSE (LATIN)

NUMBER OF CREDITS: 2

RETRANSLATION

TYPE OF SUBJECT: Core

COURSE OBJECTIVE(S): to improve the knowledge of Latin, to activate the grammatical structures assimilated in the previous years by means of translation exercises from Romanian into Latin (defined as the target language); to improve the lexical knowledge in Latin, selecting the optimal lexical unit in the given context; to apply and improve the grammatical knowledge by morpho-syntactic analysis of the selected words; to refine Latin lexical knowledge by constructing the lexical families of the words suggested by the teacher, to develop their ability to express themselves in and understand Latin; to acquire different levels of correctness and speed in solving Latin grammar exercises. Because the enrolled students are of different levels, exercises with varying degrees of difficulty have been chosen; I have even innovated by creating texts in Romanian which are to be translated in the manner of Latin writers (Cicero, Caesar, Sallustius). Thus, students will improve their knowledge of the works of Latin writers and will express themselves more readily in Latin.

COURSE CONTENTS: 1. Lexical-grammatical exercises in Latin. (Serban 1995: 8) Ex. 1, 2, 3. I translated these exercises into Romanian, while the students will translate them into Latin. (Gason/Lambert 1988: 42). Retranslation exercises from Romanian into Latin by using a lexicon appropriate for the ancient Greek-Roman civilization. I translated these exercises into Romanian, while the students will retranslate them

into Latin. 2. Lexical-grammatical exercises in Latin. (Serban 1995: 8, ex 1) (Șerban 1995: 9, ex 2) (Șerban 1995: 9, ex 1). I translated these exercises into Romanian, while the students will retranslate them into Latin. (Gason / Lambert 1988: 48, p 72, p 73). Retranslation exercises from Romanian into Latin using a lexicon appropriate for the ancient Greek-Roman civilization. 3. Lexical-grammatical exercises in Latin. (Serban 1995: 9, ex 2) (Gason / Lambert 1988: p. 55, p 78, p 79, p 84). Retranslation exercises from Romanian into Latin using a lexicon appropriate for the ancient Greek-Roman civilization. 4. Lexical-grammatical exercises in Latin. Translations based on Ørberg 2005: 84-*Miles Romanus* (The Roman Soldier). Serban 1995: 10, ex. 1, p. 11, ex. 2, p. 11, ex. 3, p. 11, ex. 4. I translated these exercises into Romanian, while the students will retranslate them into Latin.. 5. Lexical-grammatical exercises in Latin. (Bujor/Chiriac 1971: 152-153, *Epoca de aur*), (Bujor/Chiriac 1971: 154-155, *Porumbelul și coțofana*). 6. Lexical-grammatical exercises in Latin. (Bujor/Chiriac 1971:161: *Pământul și zonele lui*). (Bujor/Chiriac 1971: 166-167: *Sclavii la romani*). 7. Lexical-grammatical exercises in Latin. (I created exercises in Romanian to be translated into Latin by the students) (eg 1-11, cf. (Dascălu 2011: 26, ex. 3)). 8. Lexical-grammatical exercises in Latin. (Exercises I created in Romanian to be translated into Latin by the students) (ex. 1-28, cf. *Anexa de Retroversiuni*). 9. Glossary / Grammar Exercises in Latin (Gason / Lambert 1988: 96, Retranslation on the Cyclops), (Gason / Lambert 1988: 102, Retranslation based on Ovidius, *Metamorphosis: Acis and Galatea*). 10. Lexical-Grammatical Exercises in Latin (Gason / Lambert 1988: 109), Retranslation: the dialogue between Cynthia and Glaucus). (Gason / Lambert 1988: 114: retranslation about the Vestals). 11. Lexical-Grammatical Exercises in Latin (Gason / Lambert 1988: 133: about the end of Scipio the African, 187 BC), (Gason / Lambert 1988: 139, retranslation about a father's reproach to his son). 12. Lexical-grammatical exercises in Latin. (Gason / Lambert 1988: 162, retranslation about the wishes of men), (Gason / Lambert 1988: 168, retranslation about a military encounter). 13. Latin-Grammatical Exercises in Latin (Gason / Lambert 1988: 193): Retranslation about a praise to deafness. (Gason / Lambert 1988: 198): retranslation about old age.

ASSESSMENT METHOD(S): examination

2ND YEAR, 2ND SEMESTER

COURSE TITLE: LATIN LANGUAGE. SYNTAX

NUMBER OF CREDITS: 4

TYPE OF SUBJECT: Core

COURSE OBJECTIVE(S): To teach the notions of the syntax of the Latin sentence, from a synchronical point of view, applied to the classical period in the history of Latin. Immixtion with diachronic research will result by report to the evolutionary phases of Latin before or after the period studied here (preclassical Latin, respectively, late Latin, and the emergence of Romance languages). These theoretical aspects will be studied by means of a series of examples, of exercises especially during seminars. **SPECIFIC COURSE OBJECTIVE(S):** - assimilation of the theoretical and operational concepts in the field of syntax, in general, and especially in the field of Latin syntax; - assimilation of the analysis and interpretation grids of the linguistic phenomena related to the evolution of Latin and the necessity of the subsequent reorganization of the morphosyntax of Romance languages; - Acquiring the skills for the morphosyntactic analysis of a statement.

COURSE CONTENTS: COURSE: C1. Types of sentences: declarative sentences, interrogative sentences, imperative sentences and exclamatory sentences; C2. Values of moods in independent sentences; C.3. Syntactic relationships (the non-dependency or coordination relationship, the dependency or subordination relationship); C.4. Subordinate object structures: object clauses with the indicative, object clauses with the (completive and indirect interrogation); C.5. Subordinate relative structures: attributive relative clauses and relative adverbial clauses; C.6. Subordinate adverbial structures: purpose, consecutive, causal, comparative, conditional, concessive; C.7. Participial syntactic structures specific to Latin: Relative Participle and Absolute Ablative; C.8. *Consecutio temporum* and the transformation from direct speech into reported speech and the free reported speech. SEMINAR. S.1. Presentation of

several textbooks on Latin syntax and of the theories they introduce: Ernout / Thomas, Slușanschi, Touratier, Pinkster. S.2. Types of coordination: asyndetic, syndetic: copulative, disjunctive, adversative, conclusive, causal. Exercises. S.3. Types of subordinate clauses. Adverbial clauses: with *quod*, subjunctive clauses, indirect interrogative. Exercises. S.4. Subordinate clauses: purpose, consecutive, causal, comparative. Exercises. S.5. Subordinate clauses: conditional, time. Exercises. S.6. Subordinate relative clauses. The multivalence of conjunctions: UT, CUM, QUOD. Exercises. S.7. Clauses with verbs in non-finite moods: participial clauses: relative and absolute clauses, and infinitive subordinate clauses. Sequence of tenses. Exercises.

ASSESSMENT METHOD(S): Written examination

3RD YEAR, 1ST SEMESTER

COURSE TITLE: LATIN LANGUAGE. LEXICOLOGY

NUMBER OF CREDITS: 4

TYPE OF SUBJECT: Core

COURSE OBJECTIVE(S): This course aims at defining the basic concepts in lexicology: lexicon, vocabulary, lexicology, lexical or derivational morphology, morphem, alomorph, lexeme, affix, derivation, composition; to highlight the etymological structure of the Latin vocabulary: the inherited stock, the loanwords; to highlight the mechanisms of word formation in Latin, to present and explain the main processes of enriching the Latin lexicon through internal sources: derivation and composition.

COURSE CONTENTS: Course. The inherited Indo-European stock: The main onomasiological domains of the Indo-European stock which are present in Latin. Common Indo-European patrimony, Indo-European elements belonging to the lateral areas in Latin; Loans from Italic languages. Elements from the Mediterranean substrate. Loans from other languages. Etruscan loanwords. Greek loanwords. Word formation. Terminological and theoretical explanations. Derivation by suffixation. The main simple suffixes used to form nouns and adjectives. The main compound suffixes used to form nouns and adjectives. Derivation by prefixation: Prefixes; the negative prefix; preverbs. Composition: Systems consisting of two lexemes: nominal lexeme + verbal lexeme. The syntematic adjective. The *bahuvrīhi* compounds. Systems that are old fused syntagms. Seminar. Setting the theoretical and conceptual framework of the subject. Characteristics of the Indo-European Latin lexicon. Stylistic registers. The contribution of the loanwords to the creation of literary Latin. Exercises. The criteria for classifying suffixes. Classification of prefixes. Preverbs. Types of compounds. Processes of composition. Exercises

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: LATIN LITERATURE. POETRY

NUMBER OF CREDITS: 4

TYPE OF SUBJECT: Core

COURSE OBJECTIVE(S): To offer an overview of the Latin poetry in its chronological and aesthetic evolution, in relation to the historical context and to the given political and cultural environment. To present, describe and contextualize the genres of Latin poetry in their evolution. To identify and present the more relevant themes by Latin poets. To present the literary works which are representative of each genre and theme, as well as their authors. To offer models of literary analysis and criteria of

aesthetic **ASSESSMENT METHOD(S)**. To identify the influence that Latin poetry had on the European literature and culture.

COURSE CONTENTS: Course: Introduction. The beginnings of high culture literature in Rome coincide with the beginnings of high culture Latin poetry: the historical and cultural conditions under which poetry appeared, the third and second centuries BC. The genres cultivated by Latin poets. The epic genre. The emergence of the high culture epic. Livius Andronicus. Naevius. Ennius. The Roman society in the second- first centuries BC. The lyric genre. The satire. Lucilius. The didactic-philosophical poem. Lucretius. The Roman Alexandrianism. Catullus. The Roman society during Augustus. Vergilius: *Bucolics*, *Georgics*. *Aeneid*: the Roman national epic.

Seminar. Titus Lucretius Carus, *Poemul naturii*. Caius Valerius Catullus, *Carmina*. Vergilius, *Bucolica*. *Georgica*. Vergilius, *Eneida*.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: LATIN LANGUAGE. PRACTICAL COURSE. TRANSLATION

NUMBER OF CREDITS: 2

TYPE OF SUBJECT: Core

COURSE OBJECTIVE(S): The main objective is to teach literary translation from Latin authors. I have chosen a selection of texts from the Prime Catilinam of the great Latin writer and narrator Marcus Tullius Cicero to outline a more accurate picture of the 1st century BC, but also to provide students with a *terminus comparationis* with Sallustius' monograph written retrospectively, twenty years after the dramatic event.

COURSE CONTENTS: Cicero, *Catlinara* I: 1-2) I, 1; 3-4) I, 2-3; 5-6) II, 4; 7) II, 7-8-9; 8-9) XI, 27-28; 10-11) XI, 29-XII, 29; 12-13) XII, 30, XIII, 31, 32, 33.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: OPTIONAL COURSE B: THE DYNAMICS OF LATIN LITERARY GENRES

NUMBER OF CREDITS: 2

TYPE OF SUBJECT: Elective

COURSE OBJECTIVE(S): To learn and understand the specific notions of the dynamics of literary genres; broad overview of Latin literature, following the dynamics of major genres (historiography, epic) as well as minor ones (elegy); specific functions and characteristics of the Latin historiographical discourse (practice of the identitarian memory and cultivation of a symbolic image); the Latin poem and epic as exceptional symbolic achievements of the identitarian program; understanding the position of the Latin novel on the literary scene: the carnivalesque review of this culture; the function of intimate elegiac discourse:

regaining the suppressed sensory body in favor of the symbolic profile.

COURSE CONTENTS: COURSE: The dynamics of Latin literature: major and minor genres. The historiographical discourse and identitarian memory. *Rheum natura* and *Aeneid* as identitarian myths. The Romanesque and carnivalesque: Petronius and Apuleius. The elegiac genre and resurrection of the suppressed emotional body. The intimist elegiac discourse: Catullus, Tibullus, Propertius. Ovid and ex-centering of the elegiac intimism (artifice and theatricality). Seminar: Titus Livius and the concept of history-epic. Lucretius and the illuminist discourse. *Aeneid* as an identitarian myth. Satyricon and the carnivalesque of Latin culture. The Latin Elegy: features of intimist discourse. Catullus, Tibullus, Propertius. Ovid and fake intimacy.

ASSESSMENT METHOD(S): Examination

3RD YEAR, 2ND SEMESTER

COURSE TITLE: LATIN. THE HISTORY OF LANGUAGE

NUMBER OF CREDITS: 3

TYPE OF SUBJECT: Compulsory, specialty

COURSE OBJECTIVE(S): This course aims at clarifying the object of the history of Latin, at establishing the phases of the evolution of Latin in relation with historical evolution, at recognizing the features specific to each evolutionary phases.

COURSE CONTENTS: Course. Delimitation of the object of study. The Language of Rome. Latin – an Indo-European language. Italic languages. The certified beginnings of Latin: the springs of knowledge, the description of the features of each compartment of language during the 8th-6th centuries B.C. The Latin of the 3rd and 2nd centuries B.C.: historical period, the springs of knowledge, the description of the language during this period, preoccupations for the cultivation of the language, the description of each compartment of the language. Latin during the 2nd -1st centuries B.C.: historical period, the springs of knowledge, the cultivation of the language, the description of each compartment of the language. The 1st-4th centuries A.D.: historical period, the cultivation of the language, the literary-vulgar language, the description of the compartments of the language for each register. Seminar: Latin during the 3rd-2nd centuries B.C., application: legal texts, Plaut, Cato. Latin during the 2nd-1st centuries B.C., application: Cicero, Vergiliu. Latin of the 1st-4th centuries A.D., application: Petronius, Augustinus.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Exam

COURSE TITLE: LATIN LITERATURE. POETRY

NUMBER OF CREDITS: 3

TYPE OF SUBJECT: Core

COURSE OBJECTIVE(S): - To offer an overview of the Latin poetry in its chronological and aesthetic evolution, in relation to the historical context and to the given political and cultural environment. To present, describe and contextualize the genres of Latin poetry in their evolution. To identify and present the more relevant themes by Latin poets. To present the literary works which are representative of each genre and theme, as well as their authors. To offer models of literary analysis and criteria of aesthetic **ASSESSMENT METHOD(S)**. To identify the influence that Latin poetry had on the European literature and culture.

COURSE CONTENTS: Course: Horace. Horatian lyricism, the epode, ode, satire. Epistles. *Poetic Art*. Roman elegy: Tibullus, Propertius. Ovid. Poetry before the exile. Poetry during the exile. The Roman society in the time of the Early Principality. Poets of the first century BC: Manilius, Phaedrus, Calpurnius Siculus, Caesius Bassus. Stoic poets of the first century. Epos: Lucan. Satire: Persius. Classical poets of the first century. Epigram: Martialis. Poetry of the second century. Satire. Juvenal. The second neoterism. The Roman society between the third-sixth centuries. Literary trends. Poetry in the third century. *Pervigilium Veneris*. The late neoterism: Pentadius. Classical poetry of the fourth- fifth centuries. Ausonius. Claudian. Conclusions on Latin poetry and literature in general. Seminar: Quintus Horatius Flaccus. Albius Tibullus. Sextus Propertius. Publius Ovidius Naso.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: LATIN LANGUAGE. PRACTICAL COURSE. TRANSLATION

NUMBER OF CREDITS: 2

TYPE OF SUBJECT: Core

COURSE OBJECTIVE(S): - to develop the students' skills in translating from Latin into Romanian, as well as to increase the speed of their responses, in order to create lasting linguistic automatisms and to increase their interest in classical languages. To improve the knowledge of Latin by repeating and enhancing the Latin grammar skills and knowledge acquired during the previous Latin language courses. I have selected texts from Latin authors for exercises in Latin morphology and syntax. To improve lexical knowledge in Latin, to select the optimal lexical unit in the given context, creating lexical families, etymological interpretations.

COURSE CONTENTS: Seneca, *Litterae ad Lucilium*, 59, 1-2, *Litterae ad Lucilium*, 74, 1-4, 30-34. 2. Tacitus, *Agricola*, 12, Cicero, *De oratore*, II, 41. 3. Sallustius, *De coniuratione Catilinae*, 20, 24, 61. 4. Cicero, *De re publica*, II, 5-6, Titus Livius, *Ab Urbe condita*, V, 54, 4-5. 5. Cicero, *De re publica*, VI, 3 (*Somnium Scipionis*). 6. Cicero, *De officiis*, I, 1, 1, 2. 7. Tacitus, *Annales*, 2, 69-72. 8. Apicius, VII, 7. 9. Seneca, *De brevitate vitae*, I, II. 10. Seneca, *De*

breuitate uitae, III. 11. Seneca, *De prouidentia*, I. 12. Seneca, *De prouidentia*, II. 13. Seneca, *De prouidentia*, III.

FIELD: APPLIED MODERN LANGUAGES
PROGRAMME TITLE: TRANSLATION AND INTERPRETATION (ENGLISH, FRENCH)
BACHELOR'S DEGREE

1ST YEAR, 1ST SEMESTER

COURSE TITLE: LANGUE FRANÇAISE (GROUPE NOMINAL)

NOMBRE DE CRÉDITS: 4

TYPE DE DISCIPLINE: Fondamentale

OBJECTIFS DU COURS: Donner aux étudiants les concepts théoriques et opérationnels et les modèles théoriques découlant du structuralisme, utilisés dans la description du Français.

CONTENU DU COURS: Le nom – centre du groupe nominal. Les catégories grammaticales du nom: le genre, le nombre et le cas. Les déterminants du nom : les Actualisateurs et les Modificateurs. Les Actualisateurs définis : L'article défini, l'adjectif démonstratif, l'adjectif possessif. Les Actualisateurs indéfinis : l'article indéfini, l'article partitif, l'adjectif indéfini, l'adjectif interrogatif. Les Modificateurs du nom : typologie. L'adjectif épithète : l'accord et la place dans le groupe nominal. Le complément du nom : réalisateurs, rection, valeurs des prépositionsG. La subordonnée relative : formes et emploi du pronom relatif (formes simple et composée), typologie, emploi du mode. Les substituts du groupe nominal : traits sémantiques et rôle discursif.

LANGUE D'ENSEIGNEMENT: Français

ÉVALUATION: Examen écrit + oral

COURSE TITLE: ENGLISH (THE VERB PHRASE)

ECTS CREDITS: 4

TYPE OF COURSE: Core

COURSE OBJECTIVE(S): To provide knowledge of English morphology and morpho-syntax relevant to ESL/EFL teaching. This descriptive course focuses on the grammatical categories of the English verb.

COURSE CONTENTS: Aspect: durative vs. non-durative opposition. Tense - aspect: uses and values of Present Tense Simple & Continuous, Past Tense Simple & Continuous, Present Perfect Simple & Continuous. Means of Expressing Futurity. Voice. Modality by mood & modal verbs. Modal verbs. Non-finite forms of the verb.

COURSE TITLE: CIVILISATION FRANÇAISE

NOMBRE DE CRÉDITS: 4

TYPE DE DISCIPLINE: d

OBJECTIFS DU COURS: Donner aux étudiants un panorama sur l'histoire et sur la civilisation Française afin qu'ils puissent mieux comprendre le contexte historique et les références culturelles de la société Française contemporaine.

CONTENU DU COURS: Notions de géographie: diversité et unité de la France. Les grands événements dans l'histoire de la France. La révolution Française de 1789 et ses symboles. Personnalités politiques qui ont marqué l'histoire de France. Les principales dynasties, Louis XIV, Napoléon I-er. Visages de la France contemporaine : économie, modes de vie, culture et loisirs, éducation. La francophonie.

LANGUE D'ENSEIGNEMENT: Français

ÉVALUATION: Examen écrit

COURSE TITLE: THÉORIES GÉNÉRALES DE LA TRADUCTION (FRANÇAIS)

NOMBRE DE CRÉDITS: 4

TYPE DE DISCIPLINE: De spécialité

OBJECTIFS DU COURS: - initiation aux procédés de la traduction directe et indirecte; - approche théorique des différentes conceptions sur la traduction, telles qu'elles apparaissent chez les linguistes, les didacticiens, les psychologues et les logiciens;- acquisition des théories modernes sur la traduction automatique.

CONTENU DU COURS: La traductologie (définition, objet et méthodes, interférences avec d'autres domaines scientifiques). La compréhension en traduction (importance de la compréhension en traduction; importance du sujet en traductologie; hypothèses concernant le processus de compréhension; place de la compréhension dans l'activité traduisante). La typologie des difficultés de compréhension (au niveau lexical, morphologique, morphosyntaxique, syntaxique, pragmatique). Les questions du sens et de la compréhension (le sens linguistique - modèles linguistiques du sens - historique de la question; rapports entre l'analyse sémantique et la compréhension; compréhension selon le type de traduction). Le traducteur: récepteur et destinataire du message (fonctions du traducteur, problèmes terminologiques, traitement intellectuel et détermination de l'information contenue dans le message; activités de documentation déployées par le traducteur; types et sources).L'unité de traduction

(analyse des signes et exégèse des concepts; division du texte de départ en unités de traduction; cohésion des unités de traduction; dilution et concentration des unités); Quelques problèmes pratiques de la traduction (la déverbalisation et la réverbalisation, la liberté et la fidélité en traduction, le transfert culturel); La traduction par équivalences (équivalences cognitives et affectives; le caractère global de l'équivalence; l'explicite et la synecdoque; le génie des langues et la création d'équivalences; comment juger de l'équivalence); Traduction, structuration grammaticale et hétéronymie (traduction et traits distinctifs; traduction et niveaux de comparaison; relations hétéronymiques; fourches lexicales; lexémisation idiosyncrasique; faux amis); La traduction par correspondances (mots choisis délibérément, énumérations, termes techniques, polysémie et actualisation, avatars de la traduction par correspondances); La traduction en langue étrangère (dans quelle langue faut-il traduire?; limites de la traduction; jugements de valeur sur le texte traduit en langue étrangère).

FORME D'ÉVALUATION: Épreuve écrite

COURSE TITLE: INFORMATICS**ECTS CREDITS:** 2**TYPE OF COURSE:** Specialty**COURSE OBJECTIVE(S):** The course aims at presenting the systems of electronic computing, the Windows system, the methods and commands of computer memory management and the text-editing programmes. The aim of the course is the students' familiarization with computer operation and their acquisition and correct use of theoretical and practical concepts related to computer editing.**COURSE CONTENTS:** The use of a computer is obvious in most domains and this is the reason why the students are presented with introductory elements related to computing techniques and the basic components of an electronic computer. All the operators have to know the notions of file and directory, and how to work with the computer memory. After a presentation of the Windows operation system, students are trained to work with windows and use commands to manage the memory through Windows Explorer. They learn how to use Microsoft Word with a detailed presentation of the menus and the work commands. Students can practise the most useful editing commands and save documents.**LANGUAGE OF INSTRUCTION:** Romanian**ASSESSMENT METHOD(S):** Test**COURSE TITLE: SPORTS****ECTS CREDITS:** 3**TYPE OF COURSE:** Required**COURSE OBJECTIVE(S):** Acquisition of minimal sports terminology regarding rules and regulations, practice methods, parameters, dosing, hygiene, physiology of physical effort, planning and effects of various body training, notions of tactics; Acquisition of active strategies to secure effective and continuous feed-back; Facilitating harmonious physical development by constantly acting on the proportionality of muscle groups, preventing the installation of deficient attitudes and correcting physical deficiencies signalled in the segments and the spine; Compliance with professional deontology rules (teacher's code of ethics) based on explicit value options; Team-work spirit development to solve different learning tasks; Application of specific methods to improve personal and professional development plans.**COURSE CONTENTS:** Complex corrective practice with prophylactic character; Skills. Bilateral sports games; Speed control. Bilateral sports games; Bilateral sports games; Resistance; Bilateral sports games. Force.**LANGUAGE OF INSTRUCTION:** Romanian**EVALUARE:** A/R1ST YEAR, 2ND SEMESTER**COURSE TITLE: CONTEMPORARY ROMANIAN (LEXICOLOGY)****ECTS CREDITS:** 3**TYPE OF COURSE:** Core**COURSE OBJECTIVE(S):** To update the students' knowledge about lexicology and semantics and to complete it with the new research results of the most recent phase of contemporary Romanian, to present and analyse the language facts: the vocabulary dynamics during the last 20 years, the dynamics of the meaning, the means of vocabulary enrichment, semantic relations, deviations from the norm. To acquire normative aspects of language and practise the correct utterance. To familiarize students with the methods used for lexico-semantic analysis: making students sensitive to the contrastive analysis of the facts of language presented and of the effects on translation, the best and creative revaluation of the students' own potential in the scientific activities.**COURSE CONTENTS:** The dynamics of the lexis: borrowings (luxury borrowings, compounding, linguistic calque, necessary borrowings), derivation. The dynamics of the meanings: semantic extension, „de-terminologization“, semantic disagreements. English influence („false friends“, orthography and orthoepy of Anglicisms). Linguistic cliché. Semantic relations. Pleonastic and anacoluthic structures. The writing of compound words. The orthography of Anglicisms. Logos and abbreviations: orthography and orthoepy. Writing with uppercase and with minuscule letters. Repetitive structures. Semantic relations in different types of texts.**LANGUAGE OF INSTRUCTION:** Romanian**ASSESSMENT METHOD(S):** Exam**COURSE TITLE: LANGUE FRANÇAISE (GROUPE VERBAL)****NOMBRE DE CRÉDITS:** 4**TYPE DE DISCIPLINE:** Fondamentale**OBJECTIFS DU COURS:** Initier les étudiants aux modèles structuraux de description de la phrase (l'analyse en CI et la grammaire des cas).**CONTENU DU COURS:** Le verbe - centre du groupe verbal (GV). Traits inhérents et traits contextuels du verbe Les catégories grammaticales du verbe: le mode, le temps, l'aspect, la diathèse, le nombre et la personne. Les constructions attributives. L'attribut du sujet. L'attribut de l'objet. Le complément d'objet direct (COD). Le complément d'objet indirect (COI). Le complément prépositionnel. Le groupe verbal à deux compléments: COD et COI. Le groupe verbal à deux compléments: COD et complément prépositionnel. Les constructions infinitives. La subordonnée complétive directe et indirecte.**LANGUE D'ENSEIGNEMENT:** Français**FORME D'ÉVALUATION:** Examen écrit + oral.**COURSE TITLE: ENGLISH LANGUAGE (THE NOUN PHRASE)****ECTS CREDITS:** 4**TYPE OF COURSE:** Core**COURSE OBJECTIVE(S):** Theoretical and practical knowledge of the notions of morphology and

lexicology and their application in analysis to ensure correct expression in various communication situations

COURSE CONTENTS: Lexicology vs. morphology. The role of word structure analysis. Derivation and inflection. Determiners. The article as a determiner. The noun. Paradigmatic features. Number variation of nouns. The role of gender in English. The grammatical category of case. The adjective. The numeral. The pronouns. Characteristics and subdivisions

FORME D'ÉVALUATION: Examen

COURSE TITLE: TRAVAUX DIRIGÉS - FRANÇAIS

NOMBRE DE CRÉDITS: 2

TYPE DE DISCIPLINE: de spécialité

EXERCICES GRAMMATICaux ET LEXICAUX

OBJECTIFS DU COURS: La présentation des faits de langue (le domaine de la morphosyntaxe) qui posent le plus de difficultés dans l'acquisition du Français; le choix de type d'exercices les plus adéquats.

CONTENU DU COURS: Les déterminants obligatoires du verbe (GN2, GN3); la complétive directe; le déterminant infinitival; le groupe adverbial (les circonstants dimensionnels).

LANGUE D'ENSEIGNEMENT: Français

FORME D'ÉVALUATION: Épreuve écrite

TRADUCTIONS GRAMMATICALES

OBJECTIFS DU COURS: former les habitudes de traduction du domaine roumain-Français et Français-roumain de textes littéraires et fabriqués ayant comme but le transfert correct des substituts (pronominalisations du complément d'objet, du complément circonstanciel, place des pronoms atones et toniques dans la phrase, formes des pronoms et adjectifs pronominaux possessifs et démonstratifs, pronoms relatifs et interrogatifs, pronoms et adjectifs indéfinis); réaliser des traductions visant l'approche contrastive des formes et des valeurs de l'article Français en roumain: défini, indéfini, partitif; suppression de l'article partitif; traduire l'adjectif Français, en tenant compte des diverses valeurs de celui-ci en fonction de la position (antéposé / postposé au nom déterminé), de la fréquence et de la dimension, de la forme (forme analytique / forme synthétique de certains adjectifs pour les degrés de comparaison)

CONTENU DU COURS: Traductions centrées sur la problématique des substituts: pronominalisations du sujet et du complément d'objet direct et indirect par des pronoms personnels (formes toniques et atones, formes conjointes et disjointes); observer les conditions d'emploi de chaque catégorie de formes. Pronoms et adjectifs pronominaux possessifs et démonstratifs; pronoms et adjectifs pronominaux indéfinis; pronoms interro-relatifs. Traductions centrées sur la problématique de l'article Français: défini, indéfini, partitif. Forme et valeurs de l'article Français,

approche contrastive de l'article partitif et possibilités de traduction en roumain. Traductions centrées sur la problématique de l'adjectif. Formes et valeurs de l'adjectif Français en fonction de plusieurs facteurs : utilité et fréquence, position par rapport au nom déterminé pour exprimer des valeurs stylistiques. Formes analytiques / formes synthétiques pour l'expression des degrés de comparaison de certains adjectifs (*bon, petit, mauvais*). Traductions centrées sur la problématique de l'adverbe Français. Adverbes de temps, de lieu, de manière en *-ment*. Adjectifs en emploi adverbial dans des contextes typés. Les degrés de comparaison des adverbes, formes synthétiques de certains adverbes (*bien, mal, beaucoup*).

NOMBRE DE CRÉDITS: 2

TYPE DE DISCIPLINE: Complémentaire

OBJECTIFS DU COURS: Le cours a comme objectif l'initiation des étudiants aux problèmes difficiles de la traduction envisagée comme processus de médiation culturelle. D'une part, on privilégie l'analyse des principales difficultés auxquelles les traducteurs sont confrontés lorsqu'il s'agit de trouver des équivalents culturels dans les textes littéraires. D'autre part, il s'agit de comprendre le rôle de médiateur culturel du traducteur/interprète dans l'espace social. En ce sens, on met en relation la fonction d'interprète, qui se situe au niveau linguistique et la fonction de relais entre deux espaces culturels.

CONTENU DU COURS: Dans la société contemporaine, la traduction est devenue une nécessité vitale pour le partage des cultures et des connaissances. La médiation interlinguistique entre les nations doit se faire avec un maximum de visibilité, de sérieux et de responsabilité. Le cours propose les axes de réflexion suivants : définition du concept de médiation ; la relation traducteur-interprète ; la spécificité de l'acte de traduction et d'interprétariat ; difficultés et solutions dans la traduction des culture-bounds ; la traduction comme interlocution ; le rôle de médiateur de l'interprète dans l'espace social ; problèmes de la traduction littéraire.

LANGUE D'ENSEIGNEMENT: Français

FORME D'ÉVALUATION: Épreuve écrite

COURSE TITLE: INFORMATICS

ECTS CREDITS: 2

TYPE OF COURSE: Complementary

COURSE OBJECTIVE(S): The course aims at developing the students' skill of editing in order to obtain complex documents, by mastering details and commands specific to Microsoft Word. Students are expected to use the menus and the work commands, to work with tables as well as to acquire and correctly utilize theoretical and practical concepts referring to computer editing.

COURSE CONTENTS: Computer editing is very useful as it allows the operators to create complex documents on different topics of interest. Students will learn different editing techniques, how to use new pages, how to create the header and the footer for a document, techniques to highlight certain paragraphs and other useful tasks. It is also important for the students to learn new techniques of orthographic and grammar checking of the edited text, through the linguistic attendance offered by the computer applications. To learn different methods regarding the organisation of the information by drawing and using tables.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: INTERNSHIP

ECTS CREDITS: 3

TYPE OF COURSE: Specialty

COURSE OBJECTIVE(S): 1. To analyse and solve problems regarding the correspondance between the

linguistic systems and cultural phenomena of the languages and cultures in contact.2. To familiarize students with diverse types of texts (professional genres) communicated and mediated. 3. To write and edit diverse types of texts specific to the institution/societies.

COURSE CONTENTS: The translation of the documents made available to the students by the institution where the internship takes place – application, circular, notification. The activity of the students in the departments of the institution/society where the internship takes place.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Oral examination

COURSE TITLE: SPORTS

ECTS CREDITS: 3

TYPE OF COURSE: Required

COURSE OBJECTIVE(S): Acquisition of minimal sports terminology regarding rules and regulations, practice methods, parameters, dosing, hygiene, physiology of physical effort, planning and effects of various body training, notions of tactics; Acquisition of active strategies to secure effective and continuous feed-back; Facilitating harmonious physical development by constantly acting on the proportionality of muscle groups, preventing the installation of deficient attitudes and correcting physical deficiencies signalled in the segments and the spine; Compliance with professional deontology rules (teacher's code of ethics) based on explicit value options; Team-work spirit development to solve different learning tasks; Application of specific methods to improve personal and professional development plans.

COURSE CONTENTS: Complex corrective practice with prophylactic character; Skills. Bilateral sports games; Speed control. Bilateral sports games; Bilateral sports games; Resistance; Bilateral sports games. Force.

LANGUAGE OF INSTRUCTION: Romanian

EVALUARE: A/R

2ND YEAR, 1ST SEMESTER

COURSE TITLE: LANGUE FRANÇAISE (SYNTAXE)

NOMBRE DE CRÉDITS: 4

TYPE DE DISCIPLINE: de spécialité

OBJECTIFS DU COURS: Assimilation des concepts théoriques et opérationnels utilisés en linguistique Française. Présentation et analyse des faits de langue. Acquisition des aspects normatifs de la langue et l'expression correcte.

CONTENU DU COURS: I. Les compléments circonstanciels (G Adv.). Critères d'identification et de définition. Les circonstants dimensionnels (de lieu, de temps, de quantité). Les circonstants non dimensionnels (de manière, d'instrument, de cause, de conséquence, de but, de condition et de supposition, de concession).

LANGUE D'ENSEIGNEMENT: Français

FORME D'ÉVALUATION: Examen écrit + oral

COURSE TITLE: ENGLISH (THE SIMPLE SENTENCE SYNTAX)

ECTS CREDITS: 4

TYPE OF COURSE: Core

COURSE OBJECTIVE(S): to give the students the necessary theoretical frame in order to analyze appropriately any syntactic pattern; to develop students' ability to use different syntactic structures depending on their communicative goals; within each theme both theoretical and practical aspects are given attention, specific knowledge checking being doubled by exercises and applications.

COURSE CONTENTS: SENTENCE TYPES. Functional Classification of Sentences. The simple sentence Means of Connecting Words. The Phrase. The Noun Phrase. The Verb Phrase. The Adjective Phrase. The Adverbial Phrase. Complex constructions. Independent elements of the sentence. Basic sentence patterns.

The order of words in the sentence

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: ENGLISH CULTURE AND CIVILISATION

ECTS CREDITS: 4

TYPE OF COURSE: Core

COURSE OBJECTIVE(S): Since literature represents a mirror held up to a people's civilisation the students need to know how they (literature and civilisation) are interrelated. They need to know the main writers and how their works reflect the reality of the time.

COURSE CONTENTS: The course focuses on the invasions and the Norman conquest reflected in "Beowulf" and "The Battle of Maldon", the social and cultural background reflected in Chaucer's "Canterbury Tales", history and Shakespeare, Medieval drama (Marlowe), Neoclassicism and Alexander Pope, Romanticism (W. Wordsworth, S. Coleridge. W. Blake, P. Shelley, G.Byron).

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: THEORY OF TRANSLATION (ENGLISH)

ECTS CREDITS: 4

TYPE OF COURSE: Speciality

COURSE OBJECTIVE(S): to make students aware of the status of translation and of translator in the contemporary world and in the universal frame of human communication; to make students understand that translation theory is an interdisciplinary science; to give students practice in reflective translating and translation evaluation; to expose students to a variety of text-types at different levels of difficulty

COURSE CONTENTS: Perspectives on translation and on the translator; Language functions and text-types; Translation methods; The unit of translation:

translation procedures; Culture specific items. The cultural intertraffic; Translation evaluation
LANGUAGE OF INSTRUCTION: English
ASSESSMENT METHOD(S): 70% formal examination, 30% home task assignment

COURSE TITLE: LANGAGES DE SPÉCIALITÉ (FRANÇAIS)

NOMBRE DE CRÉDITS: 2

TYPE DE DISCIPLINE: de spécialité

OBJECTIFS DU COURS: Initier les étudiants aux mécanismes spécifiques qui interviennent dans la structuration du discours spécialisé (scientifique et technique) et aux problèmes que pose la traduction.

CONTENU DU COURS: Délimitation du champ et définition des concepts; les dimensions des langues de spécialité; description du langage scientifique général et du langage technique: a. la dimension lexicale: statut des unités lexicales, structure (types de dérivation, la composition/les collocations), contenu; b. la dimension grammaticale: types de structures, types de phrases (CI obligatoires/CI facultatifs dans la phrase spécialisée); modèles de description de la phrase spécialisée; c. la dimension pragmatique (paramètres énonciatifs, modalisations préférentielles); le texte spécialisé; d. problèmes spécifiques de traduction du texte spécialisé; application (analyses, exercices).

LANGUE D'ENSEIGNEMENT: Français

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): Familiarising students with the interpretation of conceptual curriculum analysis models; developing analysis competences applied to curriculum design models; acquisition of active strategies to secure effective and continuous feedback; Identifying real-life situations to apply curriculum theories; Applying specific design models to develop curricula; Specialised competences training to draft and use curriculum documents while developing analysis and evaluation of curriculum output; compliance with the professional deontology norms (teacher's code of ethics), based on explicit value options; Team-work spirit development to solve different learning tasks; application of specific methods to improve personal and professional development plans.

COURSE CONTENTS: 1. Conceptual approaches in the analysis of the curriculum; 2. Structural analysis of the educational curriculum; 2.1. Deliverables of the educational process; 2.2. Curricular CONTENTS; 2.3. The role of other components of the curriculum: training strategies, training intervals, evaluation strategies; 3. Educational curriculum analysis processual perspective; 3. Curriculum design; 3.2. Curriculum implementation; 3.3. Curriculum evaluation; 4. Perspectives on curriculum output; 4.1. Main curricular products: curricula, alternative resource books; 4.2. Auxiliary curriculum products; 4.3. The teacher's competencies and attributions in the evaluation, selection and design of curricular documents

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: CONTEMPORARY ROMANIAN I

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory, specialisation

COURSE OBJECTIVE(S): Applicable knowledge and understanding of concepts; Theoretical framing and interpreting of the subject content in well-defined contexts; Critical and analytical thinking and the acquisition of the specific conceptual and methodological apparatus; Design and evaluation of specific practical activities; Effective application of research methods, techniques and tools; Increased awareness and positive attitudes towards the field of language theory; Fostering a scientific

environment centred on values, democratic relationships and scientific probity; optimal and creative use of students' potential in scientific activities; Raising students' awareness and receptivity as to actively engage them in the long-life professional development process by assimilating methods and techniques specific to linguistic theory.

COURSE CONTENTS: Romanian language macro-system and diasystem; The phonological and grammar system; The lexical system.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: ROMANIAN LITERATURE

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory, specialisation

COURSE OBJECTIVE(S): Customisation of an operative terminological and conceptual apparatus applied to the field of Romanian literature; Framing literature study outcomes, strategies and contents conveyed in the primary and pre-school education; Developing the didactic strategy competence; In-depth knowledge of fundamental elements in literature didactics; updating of previous literary theory knowledge; Familiarising students with classics literary works; developing critical and creative thinking skills to approach classics literary works classics; Adequate knowledge and understanding of the specificity of literature for children, genes and species.

COURSE CONTENTS: Introductory Course: Trends and Tendencies in the Second Half of the 19th Century. The era of our great classics. Classicism and Junimism features. Titu Maiorescu and Maiorescianism; Mihai Eminescu's work (overview); I. Creanga's work (overview); The work of I.L.Caragiale (overview); The work of Ioan Slavici (overview); The work of B. St. Delavrancea (overview); The work of M. Sadoveanu (overview).

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: MATHEMATICS - PRIMARY AND PRE-SCHOOL EDUCATION I

ECTS CREDITS: 3

SEMESTER: I

TYPE OF COURSE: Compulsory, specialisation

COURSE OBJECTIVE(S): Applicable knowledge and understanding of concepts; Theoretical framing and interpreting of the subject content in well-defined contexts; Critical and analytical thinking and the acquisition of the specific conceptual and methodological apparatus; Acquisition of active strategies to secure effective and continuous feed-back; Design and evaluation of specific practical activities; The application of research methods, techniques and tools; The application self-assessment learning methods; Compliance with

professional deontology norms based on explicit value options;

COURSE CONTENTS: Cognitive thinking, stages of thinking: Concept, content, sphere. Classification of notions. Operations with notions. Elements of bivalent logic. Sentences. Reasoning. General laws of logical thinking; Sets. Sets of numbers. Operations with sets. Properties of sets operations. The characteristic function of a set. Properties. Elements of mathematical logic. Logical operations. Logica quantifiers. Logical predicates. Binary relations. Relationships of order. Relationships of equivalence.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Oral examination

COURSE TITLE: ENGLISH (FIELD-RELATED/SPECIALISATION)

ECTS CREDITS: 3

TYPE OF COURSE: Optional, elective

COURSE OBJECTIVE(S): Applicable knowledge and understanding of concepts; Rising awareness on the concepts and the phenomenon of globalization and its consequences in terms of education, as well as the role of the English in this process of globalization; Acquisition of feasible techniques to solve different types of lexical and grammatical exercises (Error correction, Gap Filling, Multiple Choice, Word building) and related tasks; Developing language communicative skills (listening; reading comprehension; inferential mechanisms for contextual sense detection; various functional styles writing skills; etc.); Design and evaluation of specific practical activities; Raising students' awareness and receptivity as to actively engage them in the long-life professional development process by assimilating methods and techniques specific to English language.

COURSE CONTENTS: Personal data. Personal Relationships. Careers. Our home. At the restaurant. At the bank. Means of transport: underground, bus, taxi, train, airplane. The travel agency. Leisure time activities. Health and hygiene. Sports. Hobbies and pastime activities. Company management and hierarchy. Taking photos.

LANGUAGE OF INSTRUCTION: Romanian/ English

ASSESSMENT METHOD(S): Oral examination

COURSE TITLE: FRENCH (FIELD-RELATED/SPECIALISATION)

ECTS CREDITS: 3

TYPE OF COURSE: Optional, elective

COURSE OBJECTIVE(S): Applicable knowledge and understanding of French-related concepts and theories; Development of critical analysis applied to evaluation models of educational programs; Acquisition of active strategies to secure effective and continuous feed-back; Appropriate use of concepts and theories specific to the field of French language; The application self-assessment learning

methods; Comparative analysis of strategies and implementation models for educational projects; Compliance with professional deontology rules based on explicit value options.

COURSE CONTENTS: Historique de la didactique du FLE - L'introduction : méthode / méthodologie; La préhistoire de la didactique : les méthodologies traditionnelles et naturelles; La méthodologie de « la méthode directe; La méthodologie active; La méthodologie audio-orale; La méthodologie Structuro-globale audio-visuelle (SGAV); L'approche communicative; L'approche actionnelle.
LANGUAGE OF INSTRUCTION: Romanian/French
ASSESSMENT METHOD(S): Oral examination

COURSE TITLE: PEDAGOGICAL PRACTICE - PRE-SCHOOL EDUCATION

ECTS CREDITS: 2

TYPE OF COURSE: Compulsory, specialisation

COURSE OBJECTIVE(S): Identification and analysis of curriculum elements based on the carried out activities, structural and procedural approaches; Familiarising students with the specialised pedagogical language by defining fundamental concept/ notions of pedagogy; Implementing models analysis of the curriculum reform directions and strategies, The provisions of the curricular regulatory documents; Development of pedagogic practice-related competences and abilities: analysis, explanation, evaluation, interpretation as integrative approaches for the adaptation, reconstruction, design, implementation and evaluation of the curriculum; Strengthening assessment and interpretation competences related to child behaviour analysis as to outline strategic and pedagogical directions applied to the psychological development of preschool children; Compliance with professional deontology rules based on explicit value options; Team-work spirit development to solve different learning tasks; Application of specific methods to develop personal and professional development plans; Raising critical awareness to education-related issues via academic debates.

COURSE CONTENTS: Design of practice activities; introducing the school and class; specific curriculum analysis; critical analysis of the activities carried out; development of a pedagogical practice portfolio; cumulative analysis and presentation of the pedagogical practice portfolio.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Oral examination

COURSE TITLE: PEDAGOGICAL PRACTICE - PRIMARY EDUCATION

ECTS CREDITS: 2

TYPE OF COURSE: Compulsory, specialisation

COURSE OBJECTIVE(S): Identification and analysis of curriculum elements based on the carried out activities, structural and procedural approaches;

Familiarising students with the specialised pedagogical language by defining fundamental concept/ notions of pedagogy; Implementing of specific analysis models of the curriculum reform directions and strategies, the provisions of the curricular regulatory documents; Development of pedagogic practice-related competences and abilities: analysis, explanation, evaluation, interpretation as integrative approaches for the adaptation, reconstruction, design, implementation and evaluation of the curriculum; Strengthening assessment and interpretation competences related to child behaviour analysis as to outline strategic and pedagogical directions applied to the psychological development of preschool children; Compliance with professional deontology rules based on explicit value options; Team-work spirit development to solve different learning tasks; Application of specific methods to develop personal and professional development plans; raising critical awareness to education-related issues via academic debates.

COURSE CONTENTS: Design of practice activities; Introducing the school and class; Specific curriculum analysis; Critical analysis of the activities carried out; Development of a pedagogical practice portfolio; Cumulative analysis and presentation of the pedagogical practice portfolio.

ECTS CREDITS: 2

TYPE OF COURSE: Compulsory, additional

COURSE OBJECTIVE(S): Acquisition of minimal sports terminology regarding rules and regulations, practice methods, parameters, dosing, hygiene, physiology of physical effort, planning and effects of various body training, notions of tactics; Acquisition of active strategies to secure effective and continuous feed-back; Facilitating harmonious physical development by constantly acting on the proportionality of muscle groups, preventing the installation of deficient attitudes and correcting physical deficiencies signalled in the segments and the spinee; Compliance with the professional deontology norms (teacher's code of ethics), based on explicit value options; Team-work spirit development to solve different learning tasks; application of specific methods to improve personal and professional development plans.

COURSE CONTENTS: Group/class organisation; Remote *Oina*-throwing. Bilateral games. Bilateral sports games; Speed. Bilateral sports.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): A/R

2ND YEAR, 2ND SEMESTER

COURSE TITLE: EDUCATIONAL RESEARCH METHODOLOGY

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): Framing the main trends in research in education, design, implementation and evaluation of pedagogical research; Acquisition of active strategies to secure effective and continuous feed-back; Appropriate use of specific concepts and theories applied to Educational Research Methodology; Identification of real-life educational situations that can be solved via pedagogical research activities; Compliance with the professional deontology norms (teacher's code of ethics), based on explicit value options; Team-work spirit development to solve different learning tasks; application of specific methods to develop personal and professional development plans; developing empathetic and helping-based behaviours.

COURSE CONTENTS: The status and role of pedagogical research; The process of pedagogical research. The research project; The methodology of pedagogical research; Research output capitalisation. The deontology of research; Research and innovation in the educational process
LANGUAGE OF INSTRUCTION: Romanian
ASSESSMENT METHOD(S): Written examination

COURSE TITLE: THE PSYCHOLOGY OF EDUCATION

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory, specialisation

COURSE OBJECTIVE(S): Applicable knowledge and the understanding of different concepts in the field of the Psychology of Education. Application of the main theories and models of teaching and learning to assess pupils' personality, as a factor actively involved in the educational instructive process; Acquisition, understanding, explaining and interpreting the general problems of psychological research of the educational process and of the instructive-educational process; Implementation of evaluation models to develop psychologically-based educational projects, specific to the curriculum field, as related to teaching-learning, behavioural and educational activities.

COURSE CONTENTS: Conceptual approaches to Education Psychology; Motivation psychology and learning activity; Learning, behaviour, communication.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: THE PEDAGOGY OF PRE-SCHOOL AND PRIMARY EDUCATION

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory, specialisation

COURSE OBJECTIVE(S): Applicable knowledge and the understanding of different concepts in the field of pedagogy of primary and preschool education; Critical thinking and analysis of psycho-pedagogical core research dimensions in the field of primary and school education; the design of teaching and educational activities specific to pre-school and primary education; In-depth analysis of a specific curriculum and specific customisation strategies applied to specific instructive-educational situations.

COURSE CONTENTS: The challenges of postmodern education and perspectives of educational analysis in terms of pedagogy of pre-school and primary education; Curricula specificities in terms of primary and preschool pedagogy; Activities specific to primary education; Assessment technologies in pre-school and primary education; Educational counselling for pre-school and schoolchildren.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: CLASS/GROUP MANAGEMENT

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory, specialisation

COURSE OBJECTIVE(S): applicable knowledge and understanding of different concepts in the field of Educational Management, main theories and managerial models; Developing analytical competences of educational management models, institutional development strategies applied to classroom management; Acquisition of active strategies to secure effective and continuous feedback; Appropriate use of field-related concepts and theories within the field of *Educational Management*; Developing specific skills and competences to develop projects, institutional development programmes, educational marketing plans in compliance with the endorsed structures, while increasing individual managerial creativity; Developing critical analysis competences related to various managerial styles, identifying values and boundaries. Adopting and training particular manifestations of various managerial styles in class leadership, pedagogical practice; Team spirit development to manage different learning tasks.

COURSE CONTENTS: Educational management - introductory notions; The status of the school as an organization; Strategies and tools in class/ group management; Professor-manager. Teacher's managerial activities; The school class: a socio-educational group.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: LANGUAGE AND COMMUNICATION TEACHING METHODOLOGY (PRE-SCHOOL AND PRIMARY EDUCATION)

ECTS CREDITS: 3

TYPE OF COURSE: Compulsory, specialisation

COURSE OBJECTIVE(S): Appropriate use of a terminological and conceptual apparatus operating in the study of Language and Communication Teaching Methodology. Framing the aims, strategies and contents of Language and Communication Teaching Methodology in pre-school education; Competence developing to train teaching strategy; Developing group management skills in pre-school education; Transfer and mediation of oral or written messages in communication situations; Continuous assessment of students on the basis of weekly practice tasks (topics to be debated, papers); Continuous updating of professional knowledge; Raising students' awareness to develop aesthetic sensitivity.

COURSE CONTENTS: Particularities of pre-school education; Teaching Methodology design: from concept to approach; Experimental activities applied to the field of language and communication; Group management in pre-school education; Assessment of experimental activities applied to the field of language and

communication; Profiling the preschool teacher / the teacher's participation to the long-life professional development.

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: PEDAGOGICAL PRACTICE - PRE-SCHOOL EDUCATION

ECTS CREDITS: 3

TYPE OF COURSE: Compulsory, specialisation

COURSE OBJECTIVE(S): identification and analysis of curriculum elements based on the carried out activities, structural and procedural approaches; Familiarising students with the specialised pedagogical language by defining fundamental concept/ notions of pedagogy; Implementing specific analysis models of the curriculum reform directions and strategies, the provisions of the curricular regulatory documents; development of pedagogic practice-related competences and abilities: analysis, explanation, evaluation, interpretation as integrative approaches for the adaptation, reconstruction, design, implementation and evaluation of the curriculum; strengthening assessment and interpretation competences related to child behaviour analysis as to outline strategic and pedagogical directions applied to the psychological development of preschool children; compliance with professional deontology rules based on explicit value options; team-work spirit development to solve different learning tasks; application of specific methods to develop personal and professional development plans; raising critical awareness to education-related issues via academic debates.

COURSE CONTENTS: design of practice activities; introducing the school and class; specific curriculum analysis; critical analysis of the activities carried out; development of a pedagogical practice portfolio; cumulative analysis and presentation of the pedagogical practice portfolio.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Oral examination

COURSE TITLE: PEDAGOGICAL PRACTICE - PRIMARY EDUCATION

ECTS CREDITS: 3

TYPE OF COURSE: Compulsory, specialisation

COURSE OBJECTIVE(S): Identification and analysis of curriculum elements based on the carried out activities, structural and procedural approaches; Familiarising students with the specialised pedagogical language by defining fundamental concept/ notions of pedagogy; Implementing specific analysis models of the curriculum reform directions and strategies, the provisions of the curricular regulatory documents; Development of pedagogic practice-related competences and abilities: analysis, explanation, evaluation, interpretation as integrative approaches for the

adaptation, reconstruction, design, implementation and evaluation of the curriculum; Strengthening assessment and interpretation competences related to child behaviour analysis as to outline strategic and pedagogical directions applied to the psychological development of primary school children; Compliance with professional deontology rules based on explicit value options; team-work spirit development to solve different learning tasks; application of specific methods to develop personal and professional development plans; Raising critical awareness to education-related issues via academic debates.

COURSE CONTENTS: Design of practice activities; Introducing the school and class; specific curriculum analysis; Critical analysis of the activities carried out; Development of a pedagogical practice portfolio; Cumulative analysis and presentation of the pedagogical practice portfolio.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Oral examination

COURSE TITLE: INTERCULTURAL EDUCATION

ECTS CREDITS: 3

TYPE OF COURSE: Elective, specialisation

COURSE OBJECTIVE(S): Applicable knowledge and understanding of different concepts and values in the field of intercultural communication, of the main theories and models of intercultural education analysis; Developing analytical competences to investigate different project models and intercultural education programmes; Acquisition of active strategies to secure effective and continuous feedback; Appropriate use of field-related concepts and theories within the field of *Intercultural education*; Compliance with the professional deontology norms (teacher's code of ethics), based on explicit value options; Team-work spirit development to solve different learning tasks; Application of specific methods to develop personal and professional development plans.

COURSE CONTENTS: Educational Approach to Cultural Diversity; The European dimension of intercultural education; The intercultural curriculum

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Oral examination

COURSE TITLE: NON-FORMAL EDUCATION AND COMMUNITY DEVELOPMENT

ECTS CREDITS: 3

TYPE OF COURSE: Elective, specialisation

COURSE OBJECTIVE(S): Applicable knowledge and understanding of different concepts in the field of non-formal education and community development; Critical thinking and analysis of the general psycho-pedagogical research perspectives in the fields of non-formal education and community development; The design of teaching approaches and instructive-educational activities specific to non-formal education and community

development; Specific curricula analysis in terms of non-formal education and community development.

COURSE CONTENTS: The Challenges of Postmodern Education and analysis perspectives of non-formal education and community development; Specific curricula to the fields of non-formal education and community development; Strategies, methods and training techniques in the fields of non-formal education and community development; Educational counseling for non-formal education and community development.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Oral examination

COURSE TITLE: SPORTS

ECTS CREDITS: 2

TYPE OF COURSE: Compulsory, additional

COURSE OBJECTIVE(S): Acquisition of minimal sports terminology regarding rules and regulations, practice methods, parameters, dosing, hygiene, physiology of physical effort, planning and effects of various body training, notions of tactics; Acquisition of active strategies to secure effective and continuous feed-back; Facilitating harmonious physical development by constantly acting on the proportionality of muscle groups, preventing the installation of deficient attitudes and correcting physical deficiencies signalled in the segments and the spinee; Compliance with the professional deontology norms (teacher's code of ethics), based on explicit value options; Team-work spirit development to solve different learning tasks; application of specific methods to improve personal and professional development plans.

ASSESSMENT METHOD(S): A/R

3RD YEAR, 1ST SEMESTER

COURSE TITLE: HISTORY OF EDUCATIONAL IDEAS/PARADIGMS

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory, fundamentală

COURSE OBJECTIVE(S): Applicable knowledge and understanding of different concepts and theories in the field of Pedagogy History; Comparative analysis of the main educational alternatives; Familiarising students with the specialised pedagogical language by defining the fundamental concept /notions of different pedagogical alternatives; Appropriate use of field-related concepts and theories within the field of *Pedagogy History*; Developing of specific competences/abilities as to apply pedagogical theoretical models in solving various educational situations; Using appropriate research methods to analyse particular educational phenomena;

Compliance with professional deontology rules based on explicit value options; Team spirit development to manage different learning tasks.

COURSE CONTENTS: Education in Antiquity (I); Education in Antiquity (II); Middle Ages, Humanism and Renaissance; Education in the Modern Age (I); Education in the Modern Age (II); Postmodernism; Critical analysis of historical pedagogical theories.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: EDUCATIONAL AND SOCIAL POLICIES

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): Framing the main research directions in the field of Educational and Social Policies; Familiarising students with specialised pedagogical language by defining the fundamental concepts/concepts of different activities in the field of Educational and Social Policies; Developing interpersonal communication skills and to initiate and maintain fair relationships with all participants in the educational process; Developing students' critical thinking on educational and social policies; Profiling the modern teacher: motivations and responsibilities.

COURSE CONTENTS: Educational policies; Categories of Educational Policies; Social Morality; Fundamentals of social morality in education; The moral virtue in education; The moral duty of the educator; Deontology and Ethics of Authority; Fundamentals of deontology; Deontology and pedagogy. Teachers' Deontological Code; Pedagogical requirements in deontological education of teachers; Subjectivism and subjectivity in evaluation.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: SCIENCES AND SCIENCES TEACHING METHODOLOGY (PRIMARY AND PRE-SCHOOL EDUCATION)

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory, specialisation

COURSE OBJECTIVE(S): Applicable and understanding of the different concepts and theories in the field of Mathematics; Acquisition of with fundamental concepts, evaluation models and strategies of mathematics teaching in primary and pre-school education; Developing analytical skills to design evaluation models of educational programs; Acquisition of active strategies to secure effective and continuous feed-back; Appropriate use of field-related concepts and theories; Identifying real-life managerial and educational situations as to apply field-related theories and methodologies; appropriate application/development of Mathematics assessment tools; the application self-assessment learning methods; comparative analysis

of strategies and implementation models for educational projects; Compliance with professional deontology rules based on explicit value options; Team spirit development to manage different learning tasks.

COURSE CONTENTS: The psycho-pedagogical fundamentals of Mathematics teaching in pre-school education; National Curriculum for Mathematics for Pre-school Education; Types and forms of organisation of mathematical activities; Methods and procedures applied to mathematical activities; Teaching resources specific to mathematical activities; Mathematical didactic games; Evaluation in pre-school education; The psycho-pedagogical and methodological basis in the formation of the notion of natural number.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: MAN AND SOCIETY TEACHING METHODOLOGY (PRIMARY AND PRE-SCHOOL EDUCATION)

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory, specialisation

COURSE OBJECTIVE(S): Featuring and investigating main motivations of the *Man and Society* syllabus; The analysis of the cognitive, axiological and attitudinal characteristics promoted by the syllabus *Man and Society*; Applying principles, models and methods to real-life situations; Developing multidisciplinary research skills and competences; Establishing the principle of reciprocity and interconnection of actions and events in pre-school education.

COURSE CONTENTS: The role of the individual in the society; Human rights; Tolerance; Society vs Society; The role of the pupil in the society; The role of the teacher in the society; The role of the school in the society; Pre-school integration into society.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: THE PSYCHO-PEDAGOGY OF THE GAME

ECTS CREDITS: 3

TYPE OF COURSE: Compulsory, specialisation

COURSE OBJECTIVE(S): Applicable knowledge and understanding of different concepts and theories within the field of the Psycho-pedagogy of the Game; Compliance with official curriculum documents for the design of educational activities; Using appropriate methods and tools to outcome evaluation; Compliance with professional deontology rules based on explicit value options; Team-work spirit development to solve different learning tasks; application of specific methods to improve personal and professional development plans.

COURSE CONTENTS: The Game - psychological and pedagogical valences; Classification of games;

Structure and types of play activities performed in pre-school education; Design and development of sciences-related games; Game play in speech development and other instructional-educational activities; The methodology of adjacent activities (views, auditions, sitting); Playing during school.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: PEDAGOGICAL PRACTICE - PRE-SCHOOL EDUCATION

ECTS CREDITS: 2

TYPE OF COURSE: Compulsory, specialisation

COURSE OBJECTIVE(S): Introducing students to the main activities carried out by pre-school teachers; Teaching staff job description; Analysis of the main curricular documents; Design of the necessary tools applied to pre-school teaching; Compliance with professional deontology rules based on explicit value options; Team spirit development to manage different learning tasks.

COURSE CONTENTS: Introduction to education institutions (Normal/afterschool schedule kindergartens), i.e. the study of educational management documents; Active participation to educational activities, lessons taught by practice tutors and colleagues; Delivery of 3 lessons in partnership or individually, the design of different types of activities; Performing school activities; Design and development of extracurricular activities; Curriculum study in Pre-school Education.

ASSESSMENT METHOD(S): Oral examination

FIELD: MUSIC
PROGRAMME TITLE: MUSIC STUDIES
BACHELOR'S DEGREE

1ST YEAR, 1ST SEMESTER AND 2ND SEMESTER

COURSE TITLE: THEORY, SOLFEGGIO, DICTAT

ECTS CREDITS: 3/SEMESTER

TYPE OF COURSE: Compulsory, core

COURSE OBJECTIVE(S): The Theory, solfeggio, dictat syllabus aims at training the musician-teacher and build-up a comprehensive applicable knowledge of the compositional languages that frame the different musical styles. The investigation objectives focus, on the one hand, on the systemic approach of a vast informational field and, on the other hand, the interference featuring of the vocabulary - syntax - morphology triad. Special attention within the musical language evolution overview is paid to the music of the 20th century, since this creative era - an unprecedented stylistic density boost throughout the history of music - encompasses its own axiological decantation. The course deliverables are secured by a direct and sustainable connection with the musical text via the solfeggio and the dictat, as perception and representation complementary techniques for sound image production – an essential toolkit of any musician.

COURSE CONTENTS: The sound as music raw; The physical basics of music; The physiological basics of music; The acoustic- mathematical organisation of sound resources; Musical notation; Novel trends in contemporary musical notation; Morphological elements of the melody; Theory of musical intervals; New ideas and principles in the theory of musical intervals drawn from contemporary creation; Intonational musical systems; Musical dynamics; Instrumentation elements;

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: HARMONY

ECTS CREDITS: 3/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): The study of Harmony together with the other theoretical subjects enables students to grasp the stylistic peculiarities of different creation eras: Baroque, Classicism and Romanticism. The understanding of Tonal-Functional Harmony principles, harmonic hearing training, along with the development of harmonic analysis competence are set as course main objectives, focusing on different harmonic aspects - harmonic harmonies, melodic notes, the technique of sequence, diatonic modulations, Chromatic harmony - altered tunes – specific for a certain musical piece; The course deliverables are secured by a direct and sustainable connection with the musical text via the solfeggio and the dictat, as perception and representation complementary

techniques for sound image production – an essential toolkit of any musician.

COURSE CONTENTS: Diatonic harmony; Three - sound tunes; The first inversion of main chord parameter values; Chopped bass elements; The second inversion of main chord parameter values; The dominant seventh chord; The dominant canrenone chord; Secondary chord their functions in major and minor; The seventh chord on I and IV in major; Harmonic sequences;

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: HISTORY OF MUSIC

ECTS CREDITS: 3/SEMESTER

TYPE OF COURSE: Compulsory, core

COURSE OBJECTIVE(S): The History of music syllabus aims at training the musician-teacher and build-up a comprehensive applicable knowledge of the compositional languages that frame the different musical styles. The investigation objectives focus, on the one hand, on the systemic approach of a vast informational field and, on the other hand, the interference featuring of the vocabulary - syntax - morphology triad. Familiarising students with different music eras; Applicable acquisition of composers' stylistic characteristics specific to different music periods; information acquisition regarding composers' life and work specific to different music periods throughout the history of music; applicable knowledge of musical instruments emergence and evolution, main forms and genres of instruments and specific features; The course deliverables are secured by a direct and sustainable connection with most representative genres specific to certain historical periods, clearly defined and accompanied by specific features and appropriate examples. Featuring musical instruments and their action mode, accompanied by remindful images.

COURSE CONTENTS: Introduction to the History of Music; Musical cultures in Ancient Times; The evolution of instruments in Ancient Times and the development of voice performance; Greek tragedy – as a syncretic artistic manifestation; Music in the Middle Ages; Ars Antiqua Medieval religious voice genres Medieval folklore art; Renaissance in the European countries; The music of the Middle Ages/evolution of religious and folklore voice and instrumental genres; Evolution of musical language and polyphonic genres from the Renaissance to Baroque; The instrumental genres of the Baroque; The musical Baroque; Baroque Opera

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: CHOIR CONDUCTING

ECTS CREDITS: 3-1ST SEMESTER/2-2ND SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): The theoretical and psychological training of the conductor; acquiring conducting technique, competences and skills for conducting the choral ensemble; acquiring an appropriate and gradual repertoire as regards its complexity and difficulty; acquiring evolved musical thinking; developing artistic – musical sensitivity; forming in-depth stylistic culture. The course deliverables are ensured by the direct, permanent connection with the musical text through choral singing, complementary techniques of choir conducting, an indispensable undertaking to every musician.

COURSE CONTENTS: On the conducting apparatus. Music and gesture; Human voice, a musical instrument in the superlative; The choir. A choir singer's qualities; About choral construction. Voice selection criteria; Choral setting; Acoustics notions; Choral sonority; Breathing and its physiological and artistic aspects; Recitation, declamation and singing. The dialectical and aesthetic relationship between vowels and consonants; Vowel emission. Notions of timbrology;

About voice registers. Registry homogenization; Vocal ambitus. Evaluating one's own voice according to the stated criteria; Choral intonation; Tuning from a choral perspective; Criteria of choral expressiveness: homogeneity, suppleness, agility, rhythmic discipline, etc; Choral attack and cut-off; Diction and articulation in choral singing; Aspects of the rhythm in the choral texture. Omophony and imitative polyphony; Dynamics, the essential dimension of choral performance. Agogics, another essential dimension of interpretation; On sound balance and choral registration.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: CHORAL ENSEMBLE

ECTS CREDITS: 2/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): Developing students' skills to sing in the choir; opening up new horizons of musical knowledge. Operational Objectives: special vocal preparation by choral warm-ups, performed at the beginning of the rehearsal (10-15 minutes), for the improvement of singing technique, homogenization and integration in the vocal part and in the ensemble, respectively; complex repertory accumulation with a vast stylistic area, including musical works from the Renaissance and up to contemporary Romanian and universal music, taking into account all genres of a cappella choral music with instrumental or vocal-symphonic accompaniment. The semestrial concerts prepare students for their future artistic practice as teachers.

COURSE CONTENTS: Respiratory gymnastics; Solfegeing and learning one or more pieces; Warm-ups for easing the singing; acquiring a repertoire from the universal choral literature – E.g. the Renaissance, the Baroque; Homogenization and balance between voices; acquiring a repertoire from the universal choral literature – E.g. the Renaissance, the Baroque; Rhythmic precision; acquiring a repertoire from the universal choral literature – E.g. the Renaissance, the Baroque; Starting the rehearsals for the project concert; The Renaissance polyphonic and homophone works; Stylistic framing specific to each work; Tackling various sound plans; acquiring a repertoire from the Renaissance choral literature; Acquiring a repertoire from the Renaissance music creations; acquiring a repertoire from the Renaissance choral literature; Baroque choral works. The translation of texts; The text-music connection; Tackling melodic line tensions in line with the significance of the literary content; Working over the studied repertoire.

COURSE TITLE: COMPUTER-ASSISTED MUSIC EDUCATION

ECTS CREDITS: 2/SEMESTER

TYPE OF COURSE: Optional, complementary

COURSE OBJECTIVE(S): The role of “Computer-assisted Music Education science in music” in the curriculum - for the first academic year within the Bachelor’s programme, specialisation: Music Performance, study directions: Canto and Instruments is justified by: 1. The contemporary leading role of computing systems - information technology in general - both hardware and

software, since microprocessor-based systems are encounter in all fields of activity, including arts, as Computer-assisted Music Education-assisted tools applied to usual creation or research activities. 2. The lack of Computer-assisted Music Education science subject in the art high schools curricula. Hence, students will be initiated in Computer-assisted Music Education use on the assumption that they do not have previous trained skills. The syllabus is aimed at developing students’ knowledge and skills on how to use a Computer-assisted Music Education, effortlessly and efficiently, for personal needs.

COURSE CONTENTS: Introduction; Didactic means in the field of music education; Multimedia applications used in music didactics; Educational websites; Multimedia CDs/DVDs; Educational software; practice-based software; interactive educational software; educational simulation software; educational software for knowledge assessment;

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Test

COURSE TITLE: JAZZ

ECTS CREDITS: 2/SEMESTER

TYPE OF COURSE: Optional, complementary

COURSE OBJECTIVE(S): Knowledge and understanding of the role and place of this subject in the context of general culture subjects; knowledge and understanding of the role played by the two musical genres in the musical evolution of the 19th, 20th and 21st centuries, and analytical and synthetic judgments about the artistic phenomenon in general and especially the musical one; In the syllabusstructure of Jazz, competencies are more specific, being structured on years of study and they correspond to the level of student development. Learning contents are organized in accordance with each specific competence.

COURSE CONTENTS Operating with terms and concepts specific to the art and culture of the history of Jazz for approaching artistic creations. Fundamental operational concepts: art, culture, civilization, creation, reception, style, ethos, catharsis, prosody, syncretism. Notions and concepts specific to the analysis, commenting and comparison of musical creations. Elements of musical language: monody, heterophony, homophony, polyphony, modal and tonal systems, musical genres and creative styles. Recognizing defining characteristics of the approached artistic creations, according to the specific language elements, in relation to the artistic era and style. The origins of jazz, the historical context of the appearance of jazz music (the African heritage). Introduction to *the history of Jazz*, Ragtime and New Orleans, Blues and its subgenres: Urban Blues, Boogie-woogie and Big Band Blues, Swing - the classical jazz period. The spread of swing genre in Europe. Bebop - the first step towards modern

jazz, Cool Jazz - Jazz movement developed during the second world conflagration. Differentiating some representative themes of the studied genres: Ragtime, Blues, Swing, Bebop, Cool Jazz language: monody, heterophony, homophony, polyphony, modal and tonal systems, musical genres and creative styles. Recognition of the defining characteristics of the artistic creations approached, depending on the specific language elements, according to the artistic style and age. The origins of jazz: historical context and jazz emergence (the African heritage). Introduction to Jazz History, Ragtime and the New Orleans area, Blues further sub-genres: *Urban Blues*, *Boogie-woogie* and *Big Band Blues*, Swing - the classical jazz period. Promoting the swing genre in Europe. Bebop - the first step towards modern jazz, Cool Jazz – the jazz movement developed during the second world conflagration. Differentiating some representative themes of the studied genres: Ragtime, Blues, Swing, Bebop, Cool Jazz

ASSESSMENT METHOD(S): Oral examination

2ND YEAR, 1ST SEMESTER AND 2ND SEMESTER

COURSE TITLE: THEORY, SOLFEGGIO, DICTAT

ECTS CREDITS: 3/SEMESTER

TYPE OF COURSE: Compulsory, core

COURSE OBJECTIVE(S): The Theory, solfeggio, dictat syllabus aims at training the musician-teacher and build-up a comprehensive applicable knowledge of the compositional languages that frame the different musical styles. The investigation objectives focus, on the one hand, on the systemic approach of a vast informational field and, on the other hand, the interference featuring of the vocabulary - syntax - morphology triad. Special attention within the musical language evolution

overview is paid to the music of the 20th century, since this creative era - an unprecedented stylistic density boost throughout the history of music - encompasses its own axiological decantation. The course deliverables are secured by a direct and sustainable connection with the musical text via the solfeggio and the dictat, as perception and representation complementary techniques for sound image production – an essential toolkit of any musician.

COURSE CONTENTS: Introduction to the theory of modes; Oligocorders - primary melodic systems; Pentatonic modes; Pentacord and hexacordial modes; Ancient Greek modes; Western medieval modes; Byzantine modes; Popular heptacordic modes; Popular diatonic modes; Popular chromatic modes; Modulation in modes; Other modal systems used in the peoples' music; Tonality: *General principles deriving from the notion of tonality; General principles deriving from the notion of scale; General principles deriving from the notion of chord; The diatonic tone system; The chromatic tone system; Modulation; Widening the classic concept of tone and mode; Atonal Systems; Other intonational systems and processes used in contemporary creation.*

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: POLYPHONY (COUNTERPOINT AND FUGUE)

ECTS CREDITS: 3/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): The knowledge and acquirement of the techniques specific to polyphonic writing aim at correctly and accurately analyzing the works of the Renaissance and Baroque composers from an artistic, aesthetic and stylistic point of view. Developing polyphonic hearing and thinking. Acquiring a minimal Renaissance and Baroque repertoire. The course deliverables are ensured by a direct and sustainable connection with the musical text through analyzing some contrapuntal works, by the use of complementary working techniques in vocal contrapuntal themes.

COURSE CONTENTS: The object and importance of the study. Brief history of polyphony; Periodization of the Renaissance and Polyphony: Renaissance schools, Palestrinian style characteristics; Melody: modes and intervals; the role of intervals in melodic line construction; Graduality and leaps; Gradual melody; The melodic arch: beginning, climax, ending; Ensuring melodic fluency by avoiding symmetry; Dissonance through the changing note (embroidery) on a quarter, eighth, by the cambiata, by anticipation; Discussing expressive dissonances; Dissonance by ornamental delay; Counterpoint without a cantus firmus; Overlays of melodic-ornamental notes; Simple, ornamented and combined delays; Principles of the technique of three and four-voice counterpoint.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: FORMS AND MUSICAL ANALYSES

ECTS CREDITS: 2/SEMESTER

TYPE OF COURSE: Compulsory, core

COURSE OBJECTIVE(S): The course aims at going over the most significant stages of the evolution of musical language, developing students' analytical thinking on the organization of music by morphology and musical structure analyzes of the types of form patterns that revolved in the historical musical context. By means of the practical works, students will be able to develop skills in the field of musical analysis. Courses will include examples of musical materials from the most important stylistic periods provided by the professor, thus students will benefit, at the same time, from the opportunity to analyze the related scores. The course deliverables are ensured by a direct and sustainable connection with the musical text through the analysis of some tonal - harmonic works, by the use of complementary working techniques in form themes.

COURSE CONTENTS: Introduction to the study of

musical forms; figure, cell and evolution of musical discourse on the basis of figure and cell; Musical motif, phrase and period, definitions, classifications, analyzes, evolution of musical articulation; strophic forms, definitions, classifications, principles of construction; the evolution of the principle of refrain from the beginning (primitive and folk music) to Baroque music; Baroque, classical, romantic rondo in the 20th century; Baroque concerto; Variational principle, generalities, history, definitions, classifications.

ASSESSMENT METHOD(S): Oral examination

COURSE TITLE: MUSICAL SEMIOTICS

ECTS CREDITS: 3/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): Knowledge and understanding of the role and place occupied by this subject of synthesis in the context of general culture subjects; knowledge and understanding of the semiotic theory of formalized languages (from logic to different grammatological systems), including the study of musical systems; the formulation, with the help of semiotic thinking, of analytical and synthetic judgments about the artistic phenomenon in general and especially about the musical phenomenon; Acquiring and developing the skill to make multiple interdisciplinary connections and link them with the help of working means specific to Semiotics.

COURSE CONTENTS: Orientation towards a logic of humanistic culture in general and especially of musical culture. The general framework of Semiotics. Aims and limits of Semiotics - natural and epistemological limits; Theory of Semiotics Codes. The significant as a cultural unity; the interpreter and Code Theory. Sign function; content

and expression in the theory of sign production; denotation and connotation, content and referent. Semantic system - semantic marks; connotative and denotative marks; combinatorial rules and componential analysis; The theory of sign production. The productive process and the process of producing signs; Family of signs: indices, icons, symbols. Semiotic and factual judgments; Structuralism and Semiotics; the notion of structure and the Structuralist approach (Claude Lévi-Strauss); The Saussurean dyadic model (Ferdinand de Saussure). Pierce's theory of the triadic structure of the sign (Charles Sanders Peirce); The theory of significance and communication in achieving the act of musical culture. Communication systems and their codes; the relationship of information - communication - meaning in the act of transmitting the information as well as relationship of creator-interpreter - receiver (the public); Theory of languages in science and art. Natural and artificial languages; scientific and poetic/lyrical languages. The languages of the arts in relation to the other (scientific) languages; The difference between language and speech. Language as a social system and the importance of the difference word/language (parole/langue), language system/language (langue/langage) in Saussurian theory; Language signs (Th. A. Sebeok). Language and writing - two distinct and independent sign systems; Openness, information, communication in information theory. Open work (Eco) and the production of artistic signs; Communication and significance (Jean-Marie Klinkenberg). Information, redundancy and noise; Channel and code and their importance in transmitting information. Variety of channels - variety of codes - variety of information; synchrony and diachrony in receiving the message; Structure of the communication process; communication within non-formal groups, in formal surroundings and in local communities (Denis Mcquail). Current trends in communication theory: communication theory and social theory.

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: POLYPHONY (COUNTERPOINT AND FUGUE)

ECTS CREDITS: 3/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): The knowledge and acquirement of the techniques specific to polyphonic writing aim at correctly and accurately analyzing the works of the Renaissance and Baroque composers from an artistic, aesthetic and stylistic point of view. Developing polyphonic hearing and thinking. Acquiring a minimal Renaissance and Baroque repertoire. The course

deliverables are ensured by a direct and sustainable connection with the musical text through analyzing some contrapuntal works, by the use of complementary working techniques in vocal contrapuntal themes.

COURSE CONTENTS: Introduction to the Baroque era. Comparison with the Renaissance era. The Baroque music schools; The Baroque and polyphony. Bach's style, the quintessence of an entire era; The monorhythmic melody with chord notes (arpeggiata); Completing the arpeggios by melodic-ornamental notes; The polyrhythmic melody; Modal inflections of the melodic line; Methods for developing the melodic material; The counterpoint with general bass lines. Consonant ratios; Overlays of melodic-ornamental notes; Shifting dissonance (embroidery); Dissonance by anticipation; Dissonance by appoggiatura; Dissonance by delay (suspension); General view on instrumental counterpoint dissonances; The counterpoint with ornamented bass; completing the general bass with melodic-ornamental notes; Completing the general bass with delays and appoggiaturas; The double counterpoint (invertible); Imitation; Canon; Principles of instrumental counterpoint for 3, 4 and more voices; Evolution of contrapuntal technique from Palestrina and Bach up to the 20th century

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: MUSICAL FORMS AND ANALYSES

ECTS CREDITS: 3-1ST SEMESTER/2-2ND SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): The course aims at going over the most significant stages of the evolution of musical language, developing students' analytical thinking on the organization of music by morphology and musical structure analyzes of the types of form patterns that revolved in the historical musical context. By means of the practical works, students will be able to develop skills in the field of musical analysis. Courses will include examples of musical materials from the most important stylistic periods provided by the professor, thus students will benefit, at the same time, from the opportunity to analyze the related scores. The course deliverables are ensured by a direct and sustainable connection with the musical text through the analysis of some tonal - harmonic works, by the use of complementary working techniques in form themes.

COURSE CONTENTS: Fugue: Crystallization of the fugue form. Fugue in Baroque music, definition, classifications; Fugue theme, fugue responses, the countersubject, fugue exposition, exposition types; Expositional episode, median reprises, episode art in the Baroque fugue; Double fugue and bithematic fugue; The fugue in other stylistic periods of music history; Sonata. Crystallization of the sonata form, the; Baroque sonata; The sonata of Viennese classics, definition, pattern; Beethoven's sonata: the

development of the second thematic group, the appearance of the third theme, Beethoven's codes; The form of sonata in Romanticism; The form of sonata in the 20th century; Rondo-sonata, or sonata-rondo; Other combinations of form principles: fugue-sonata, variations-sonata, etc. Definitions, classifications, simple succession genres, the suite, the concertante genre, symphonic sonata genres; Cyclic thinking and gender-based form: the cyclic form in Beethoven's creation, the leitmotif in Wagner's creation, Liszt's Sonata in B minor

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: JAZZ AND POP

ECTS CREDITS: 2-1ST SEMESTER/1-2ND SEMESTER

TYPE OF COURSE: Optional, field-related

COURSE OBJECTIVE(S): Jazz originated in the blending of various musical traditions of the black slaves from Africa. The African-American communities formed in the new world actually became the cradle of jazz music, which gradually evolved as it came into contact with local traditions. From the combination of this heterogeneous complex, the American space being a multicultural area due to the ethnic amalgam of its population, European colonists and Indian natives, a new musical genre was gradually formed, with a stylistic, unique personal touch. Using musical information and research techniques by means of musical

elements (acquired by audition, memorized and reproduced); using scores and specialized materials (various sources of information, from the dictionary to the internet).

COURSE CONTENTS: Operating with terms and concepts specific to *Jazz history* between the end of the second world conflagration and the beginning of the 21st century. Free jazz - the homonym of Aleatorism, ambiguity at the level of the artistic creation. The Fusion concept - fusion of *blues, bop, rock* and *funk* repetitive rhythm. Bossa-nova - South American hybrid musical genre. Recognizing stylistic elements specific to the creative diversity of the 20th century in the auditioned works. The jazz creation of the 20th century - diversity and modern means of creation. Contemporary era - interpretation and diffusion of music. Correlating *Jazz history* with historical and social events of the Second Half of the 20th century and the beginning of the 21st century. The concepts of Free jazz, Jazz fusion, Jazz-rock, Smooth Jazz movement, Afro-Cuban jazz - Salsa genre in Cuban music, Afro-Brazilian jazz – the origins of Brazilian samba

COURSE OBJECTIVE(S): The Theory, solfeggio, dictat syllabus aims at training the musician-teacher and build-up a comprehensive applicable knowledge of the compositional languages that frame the different musical styles. The investigation objectives focus, on the one hand, on the systemic approach of a vast informational field and, on the other hand, the interference featuring of the vocabulary - syntax - morphology triad. Special attention within the musical language evolution overview is paid to the music of the 20th century, since this creative era - an unprecedented stylistic density boost throughout the history of music - encompasses its own axiological decantation. The course deliverables are secured by a direct and sustainable connection with the musical text via the solfeggio and the dictat, as perception and representation complementary techniques for sound image production – an essential toolkit of any musician.

COURSE CONTENTS: The sound as music raw; The physical basics of music; The physiological basics of music; The acoustic- mathematical organisation of sound resources; Musical notation; Novel trends in contemporary musical notation; Morphological elements of the melody; Theory of musical intervals; New ideas and principles in the theory of musical intervals drawn from contemporary creation; Intonational musical systems; Musical dynamics; Instrumentation elements;

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: HARMONY

ECTS CREDITS: 4/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): The study of Harmony together with the other theoretical subjects enables students to grasp the stylistic peculiarities of different creation eras: Baroque, Classicism and Romanticism. The understanding of Tonal-Functional Harmony principles, harmonic hearing training, along with the development of harmonic analysis competence are set as course main objectives, focusing on different harmonic aspects - harmonic harmonies, melodic notes, the technique of sequence, diatonic modulations, Chromatic harmony - altered tunes – specific for a certain musical piece; The course deliverables are secured by a direct and sustainable connection with the

musical text via the solfeggio and the dictat, as perception and representation complementary techniques for sound image production – an essential toolkit of any musician.

COURSE CONTENTS: Diatonic harmony; Three-sound tunes; The first inversion of main chord parameter values; Chopped bass elements; The second inversion of main chord parameter values; The dominant seventh chord; The dominant canrenone chord; Secondary chord their functions in major and minor; The seventh chord on I and IV in major; Harmonic sequences;

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: CANTO (INDIVIDUAL)

ECTS CREDITS: 5/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): The canto course is the basic study subject in the formation of students as future lyrical artists (soloists and choristers), concert performers, vocal pedagogues with a highly professional training, able to reproduce the vocal musical creation in all the complexity of its genres and modalities of expression. Since the art of singing is a complex process, the course will follow both the development of individual vocal aptitudes as well as the implementation of vocal technique elements and the formation of associative bonds between the breathing - vibration - resonance segments, as well as resistance to a sustained effort.

COURSE CONTENTS: Anatomy of the natural vibrator - the larynx; Functions of the larynx; Description of the respiratory act; Main organs and anatomical parts active in breathing; the muscular forces involved in breathing; Breathing types; Respiratory gymnastics; Practical studies will be conducted according to the specifics of the student's voice and possibilities: from simple to complex; Respiration and respiratory gymnastics adapted to singing (exercises for breathing discipline, exercises to increase time in the expiratory stage of breathing, exercises for sound exhaling on simple vocalizations); Sound attack, support. Exercises on kept sounds; voice applications on the same level; neighboring ascending or descending sounds; Imposing Exercises on small intervals to quints and small arpeggios; Linking sounds. Legato, portamento Exercises on third, quints and small arpeggios; Articulation (the study of vocals A, E, I, O, U, the study of consonants); Vocalisation - vocals per second, third, quints, octave and nonna. Small and large arpeggios; Study of simple ornaments (aphiatry, mordent); Anatomy of the resonator cavity; Functions of the pharynx; Auditory control of phonation in singing; The voice and its registers; Some issues that may affect voice quality

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: CANTO ACCOMPANIMENT (INDIVIDUAL)

ECTS CREDITS: 1/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): Closely linked to the study of singing, the course of the study subject Canto Accompaniment (Individual) contributes to the formation and finalization of the personality of the lyric artist and the highly qualified vocal pedagogue. The problem addressed in this study subject is the gradual and complex development of the talent of the future singer. The course is individual, each student presenting his/her own psychosomatic, phonatory and artistic structure. The realization of interpreting a musical piece results from the combination of the teacher's and co-interpreter's explanations with the individual study

and the contribution of the student's personality. Like the canto study subject, the study material (repertoire) is allocated to the difficulty it contains by years of study.

COURSE CONTENTS: Accompanied technical studies; Parts of the work of the composers of the Baroque era; Simple lieder from the creation of classical and romantic composers; Parts of the Romanian composers' creation from the end of the XIXth century and the beginning of the XXth century.

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: STAGE MOVEMENT

ECTS CREDITS: 2/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): The ultimate goal of the Stage Movement study subject is to educate an emotional plastic language in the student, maximizing its own structure.

COURSE CONTENTS: Control and straightening of the static and moving body. Correct posture; Exercises for balance and loss of balance; Expansion and relaxation. Wall drops with a relaxed body; Exercises for posture and walking; Suppleness, acrobatics for the development of joint mobility, of dexterity; Exercises with the chair: sitting-lifting; Strains, relaxations: partial-total, simultaneous-successive; Walking, running, stopping, turning in different conditions. Improvisation on this subject; Dragging, climbing, rolling, jumping; Space orientation with communication issues with the partner; Development of shoulders, arms and hands mobility. Improvisation on music; Ascending and descending on the ladder. Technical and applicative; Fall-drops on and out of the chair; Twist-drops. Possibly with hands, legs or eyes bounds; Exercises for memory development; Exercises with the seat, solved with a partner. Coordination with objects; Rolls and drops from height

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: THE TECHNIQUE OF SPEECH AND DECLAMATION IN LIED AND OPERA

ECTS CREDITS: 2/SEMESTER

TYPE OF COURSE: Compulsory, complementary

COURSE OBJECTIVE(S): The study subject is structured into two fundamental components: „the technique of stage speech” (course) and „the art of speech” (individual practical works) which takes place in parallel during six semesters. The first two semesters are dedicated to professional breathing, the next two to vocal forces, and the last two to stylistic refinements.

The modeling of scenic speech contributes with concepts, definitions and norms (basic) that lead to the completion of the student's native qualities.

COURSE CONTENTS: 1. The respiratory system. The fonator system. Its breathing and physiology; The capital role of professional breathing. Pulmonary ventilation: Expiration, Retention, Inspiration; The diaphragm. The fundamental contribution of the diaphragm in voice transmission and its physiology; The correct, professional respiration mechanisms. Respiratory and diaphragmatic gymnastics; The soundtrack of the acoustics of the Romanian language sound. Emission and propagation of sounds. Euphony. Gradual transition from melodic incantation to speech; The linguistic system: the phonetic and phonological level. Positional vocal scheme according to aperture. Staccato and legato; Recitation. Texts from the poetry of M. Sorescu and/or N. Stănescu adapted to the learner's temperamental, emotional and intellectual structure; In the positional vocal scheme, joinings will be performed according to the consonant rule with two vocals: Vocal - Consonant - Vocal. It will work with different combinations and permutations of registers, tempos and different vocal intensities: suites of syllables based on bilabials; suites of syllables based on labio-dentals; suites of syllables based on dentals; suites of syllables based on prepalatals; suites of syllables based on palatals; suites of syllables based on larynx; recitation based on lyrical lyrics (elegy, ode, pastel, satire, sonnet, rondel, gazello, or glossa) that correspond to the level of the student's cultural experience.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: CANTO (INDIVIDUAL)

ECTS CREDITS: 5/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): The canto course is the basic study subject in the formation of students as future lyrical artists (soloists and choristers), concert performers, vocal pedagogues with a highly professional training, able to reproduce the vocal musical creation in all the complexity of its genres and modalities of expression. Since the art of singing is a complex process, the course will follow both the development of individual vocal aptitudes as well as the implementation of vocal technique elements and the formation of associative bonds between the breathing - vibration - resonance segments, as well as resistance to a sustained effort.

COURSE CONTENTS: In the second year, the vocal technique studies will mainly deal with the vocalism of the classical style. This year, the student will study at least 5 accompanied studies. The repertoire will consist of at least 6 pieces (concert, oratorio, opera) from the musical literature of the composers: G. Giordani, N. Piccini, J.S. Bach, C.W. Gluck, J. Haydn, W.A. Mozart, A.E.M. Grétry, P.A. Monsigni, L. van Beethoven, G. Donizetti, V. Bellini, C.M. von Weber, G. Meyerbeer, Am. Thomas; lieder from the Romantic Era: Fr. Schubert, R. Schumann, L. van Beethoven etc as well as pieces from the Romanian musical creation: T. Brediceanu, S. Drăgoi, C. Brăloiu, E. Monția, Al. Zirra, Kiriac, Al. Alessandrescu, M. Negrea, A. Borgovan, I. Perlea etc. The vocal technique studies that will approach the "bel – canto" style in opera vocalization will be

presented. The repertoire will focus on the 19th century musical creation and the creations of National Schools. The development of the vocal technique will continue through more complex exercises and vocalizations for the acquisition of ornaments and agility in singing. Particular attention will be given to correct diction and pronunciation in singing, given the repertoire that must be covered from the variety of vocal musical creations of the National Schools.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: CANTO ACCOMPANIMENT (INDIVIDUAL)

ECTS CREDITS: 1/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): Closely linked to the study of singing, the course of the study subject Canto Accompaniment (Individual) contributes to the formation and finalization of the personality of the lyric artist and the highly qualified vocal pedagogue. The problem addressed in this study subject is the gradual and complex development of the talent of the future singer. The course is individual, each student presenting his/her own psychosomatic, phonatory and artistic structure. The realization of interpreting a musical piece results from the combination of the teacher's and co-interpreter's explanations with the individual study and the contribution of the student's personality. Like the canto study subject, the study material (repertoire) is allocated to the difficulty it contains by years of study.

COURSE CONTENTS: Technical studies accompanied by the singing methods of the authors: Concone, Lütgen, Vaccai, Bordogni, Aprile, Bordese, Glinka, Marchesi, Ștefănescu, Teodorini, etc. Pieces from the creation of the composers: Bach, Cimarosa, Handel, Gluck, Rameau, Pergolese, Paisiello, Haydn, Mozart, Beethoven, etc. Lieder from the creation of the composers: Schubert, Schumann, Boildieu, Mendelsohn, Glinka. Romanian pieces from the creation of the composers: Brediceanu, Brăiloiu, Kiriac, Zirra, Monția, Drăgoi, Alexandrescu, Negrea, Borgovan, Stoia.

ASSESSMENT METHOD(S): Test

COURSE TITLE: THEATRICAL PERFORMANCE

ECTS CREDITS: 2/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): Correct identification of acting art's methods and techniques and their authors. Ability of self-analysis of the acting. Achieving the level of individual performance within the theatrical group (the total, organic functioning of the individual within a theatrical cast). Complex exercises, meeting all

objectives. Achieving the performance level of the theatrical group. Group synchronization, precision, organic operation, and total harmony of each individual with the group.

COURSE CONTENTS: 1. Introductory course: research and creative directions, objectives, themes, bibliography; 2. Methodological Fundamentals of Acting Art; 3. Definition of acting terms I (role, situation, relationship, character, conflict); 4. Definition of acting terms II (threshold, process, purpose, comic, tragic, dramatic etc.); 5. Relationships between defined acting notions. Language in the acting art.; 6. Study and interpretation of dramatic support I - (dramatization: introduction); 7. Study and interpretation of dramatic support II - (dramatization: literary texts, works of art); 8. Study and interpretation of dramatic support II - (dramatization: literary texts, works of art); 9. Analysis of the specific logic mechanism (Acting art - a way of thinking); 10. Process in Acting Art I (Stage 1 - undertaking); 11. Process in Acting Art II (Stage 2 - Processing); 12. Process in Acting Art III (Stage 3 - Option); 13. Process in Acting Art IV (Stage 4-Action); 14. Concretizing the scenic process from conventional to authentic. interconfessional perspectives; 15. Recapitulative Course: Exercise and Acquired Means of Action; 16. Specific forms of thinking and expression of the actor. Schools and methods in acting; 17. The natural, physical and psychic component of the scenic act in realistic dramaturgy; 18. Acting terms in realistic theatre I (role, situation, relationship, character, conflict); 19. Acting terms in realistic theatre II (threshold, process, purpose, comic, tragic, etc.); 20. Study and interpretation of dramatic support I - (realistic theatre: introduction); 21. Study and interpretation of dramatic support II - (realistic theatre: short scenes in two characters); 22. Sources of creativity: The living mirror of reality (observation, attention, imagination).; 23. Theory of Where? Who? What? When? in the scenic approach; 24. Acting area - Living architecture of movement; 25. Training and education of the means of stage expression; 26. Actor and physical action on stage (motivation, purpose, necessity); 27. The role - finality of the acting creative process; 28. Concretizing the scenic process from conventional to authentic in realistic theatre.

ASSESSMENT METHOD(S): written examination

COURSE TITLE: COMPLEMENTARY PIANO

ECTS CREDITS: 1/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): Addressing more complex issues that trigger the anticipation and control of inward hearing, absolutely necessary tools in deciphering a musical text. Going through a differentiated repertoire meant to develop the tracking capability of polyphonic structures (Bach, Purcell, Haendel), of the harmonic relations typical for classicism (Clementi, Diabelli, Mozart) and the approach of romantic or modern pieces that will open up new horizons of knowledge from a stylistic point of view.

COURSE CONTENTS: 1. The technical solution of the legato and staccato; 2. Independent voice management; 3. Music imagination; 4. The piano exercise. Repeating a musical piece as a means of stamping conditioned reflexes; 5. The rare exercise of rapid fragments; 6. Accomodation and totalisation movements in the rare exercise; 7. Rhythmic variants: punctuated exercises; 8. Development of fast singing and pearl; their analysis; 9. Polyphony and its basic aspects; 10. Technique development: exercises with punctuated notes; 11. Achieving optimal sonority in finger techniques; 12. Changing the position of the hand; 13. Compound movement of fingers and arms; 14. Major scale with sharps; 15. Minor scale with sharps; 16. The role of the arm and hand position changes in scale playing; 17. Expansion of the technical activity space; 18. Martellato.

COURSE TITLE: CANTO OPERETTA – MUSIC HALL (INDIVIDUAL)

ECTS CREDITS: 2/SEMESTER

TYPE OF COURSE: Optional, field-related

COURSE OBJECTIVE(S): Familiarizing students with the basics of vocal technique, musicality, musical understanding and interpretation of the operetta/musical repertoire. Cognitive objectives: Adapting voice, resilience and flexibility to the requirements of musical and operetta music; Formation of a complex musical thinking, based on the development of vocal and scenic expressiveness and the realization of interdisciplinary connections; Training the dictum, the alternation of the singing voice with the speaking voice; Physical training to easily perform dance numbers, often present in operetta and musical productions. Procedural objectives: The orderly use of gender-specific concepts and theories (operetta and musical); Using self-evaluating methods of self-learning; Cultivating the syncretism of the arts in interpretation. Attitudinal objectives: Compliance with professional deontology rules based on explicit value options; Collaboration in working teams to solve different learning tasks; Using specific methods to develop a team work plan (choir, ballet, orchestra); The acquisition of contemporary elements and new currents and concepts manifested today in stage art

COURSE CONTENTS: The role of the singer/actor in the operetta/musical show. The construction of the operetta/musical character. Understanding the notions of: dramatic situation, space and time in the operetta/musical show. Structuring situations and identifying the typology of the character. Stimulating the singer-actor's sense of observation. Stimulating the analytical spirit of the singer-actor. Scenic improvisation techniques on various texts of specific literature. Acquiring basic notions of the Viennese Waltz. The study of the operetta/musical libretto. Exercises for alternating the text sung with the spoken one. Working in teams as a way to eliminate emotional and physical blockages. Exercises for augmenting body plasticity. Exercises for building a personal balance by knowing your physical possibilities. Deepening the time-space dimension by conscious assimilation of interdisciplinary elements (music, dance, declamation).

COURSE TITLE: HISTORY OF MUSIC

ECTS CREDITS: 2/SEMESTER

TYPE OF COURSE: Compulsory, core

COURSE OBJECTIVE(S): Acquiring knowledge regarding the periods in the history of music; acquiring the stylistic features of the compositions of each period; acquainting students with the composers' life and creation in each era of the history of music; acquiring knowledge of the emergence and evolution of musical instruments and the main instrument forms and genres, along with their characteristics. The course deliverables are ensured by a direct and sustainable connection with the musical text through the analysis of some tonal - harmonic works, by the use of complementary working techniques in form themes.

COURSE CONTENTS: The late Romantics: G. Mahler, O. Respighi, M. Reger, H. Wolf; The 20th century movements/ Impressionism/Definition of the movement/Stylistic elements/Musical forms and genres;

Cl. Debussy/symphonic and chamber music; Pelleas and Melisande – the lyrical masterpiece of the 20th century; M. Ravel/style elements in symphonic and chamber music; The French tradition of Impressionist music: L. Niedermeyer and G. Faure; Other Impressionists: A. Roussel, P. Dukas; Erik Satie and "Les Six"; Expressionism and P. Hindemith; The Strauss family; Realism and Naturalism/Definition of the movements/representatives/reference opus numbers; Atonality, Dodecaphonism, Serialism/Stylistic-aesthetic aspects in Arnold Schonberg's creation; Second Viennese School/the other two representatives: Anton Webern and Alban Berg; Modern national schools/the Russian school (I. Stravinski, S. Prokofiev, A. Hacıaturian); Modern national schools/the Spanish national school (M. de Falla)/the Polish school (K. Zsيمانovski)/the Czech school (L. Janacek, B. Martinu); the Finnish school (J. Sibelius); the Hungarian school (B. Bartók, Z. Kodály); Romanian music. The origins of Romanian music. Vocal and instrumental music from Antiquity to the 15th century; Religious and secular music in the 15th-18th centuries; Romanian musical life in the 19th century; Musical genres and their representatives in the 19th century; Vocal music in the 19th century; George Enescu/Enescian Symphonies; George Enescu/Chamber music; George Enescu/Vocal-symphonic creation; George

Enescu/Instrumental opus numbers; George Enescu/Opera Oedipe; Stylistic features of the Enescian creation; Romanian music of the 20th century. Specific genres and representatives

LANGUAGE OF INSTRUCTION: Romanian
ASSESSMENT METHOD(S): Written examination

COURSE TITLE: CANTO

ECTS CREDITS: 5/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): The canto course is the basic study subject in the formation of students as future lyrical artists (soloists and choristers), concert performers, vocal pedagogues with a highly professional training, able to reproduce the vocal musical creation in all the complexity of its genres and modalities of expression. Since the art of singing is a complex process, the course will follow both the development of individual vocal aptitudes as well as the implementation of vocal technique elements and the formation of associative bonds between the breathing - vibration - resonance segments, as well as resistance to a sustained effort.

COURSE CONTENTS: Considering that the problems of vocal technique are well understood, this year will focus on the study of expressivity in the art of singing. The improvement of vocal technique will continue; The repertoire will consist of at least 6 tracks (concert arias, oratory, opera, lieder); In the semestrial repertory sheet there will be introduced arias from the operetta creation; Lieder from the Romanian vocal creation will be approached; The study of vocal musical creation at the end of the 19th century will continue, but will insist on the creation of the early 20th century;

LANGUAGE OF INSTRUCTION: Romanian
ASSESSMENT METHOD(S): Written examination

COURSE TITLE: CANTO ACCOMPANIMENT

ECTS CREDITS: 1/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): Closely linked to the study of singing, the course of the study subject Canto Accompaniment individual contributes to the formation and finalization of the personality of the lyric artist and the highly qualified vocal pedagogue. The problem addressed in this study subject is the gradual and complex development of the talent of the future singer. The course is individual, each student presenting his/her own psycho-somatic, phonatory and artistic structure. The realization of interpreting a musical piece results from the combination of the teacher's and co-interpreter's explanations with the individual study and the contribution of the student's personality. Like the canto study subject, the study material (repertoire) is allocated to the difficulty it contains by years of study.

COURSE CONTENTS: Concert vocals from the

creation of: R. Hahn, Ibert, M. Ravel, S. Prokofiev, Glier etc; Concert arias, oratory, opera from the creation of the composers: G. Verdi, G. Rossini, C. Saint-Saëns, G. Bizet, M. Mussorgski, Cl. Debussy, M. Ravel, Cl. Debussy, M. Ravel, P. Mascagni, R. Leoncallo, Fr. Cilea, V. Giordano, G. Puccini, C. Orff, R. Wagner, A. Boito, A. Panchielli, Malipiero, Fr. Poulenc, O. Messiaen, O. Respighi, L. Dallapiccola, E.W. Ferrari etc; Arias of the creation of the operetta of the composers: J. Offenbach, Fl. Hervé, R. Planquette, J. Strauss, Ch. Lecocq, Ed. Audran, Fr. Lehar etc; Lieduri de H. Duparc, G. Fauré, E. Satie, H. Wolf, R. Strauss, G. Mahler, R. Wagner etc; Arias and lieder from the creation of Romanian composers: Al. Mendelsohn, G. Enescu, F. Donceanu, C. P. Basacopol P. Benteoiu, V. Spătărelu, V. Munteanu, L. Dimitriu, D. Popovici, T. Ciortea, Gh. Dumitrescu, L. Profeta, El. Popovici, H. Jerea, A. Stroe, M. Marbé, D. Ghenciu etc.

LANGUAGE OF INSTRUCTION: Romanian
ASSESSMENT METHOD(S): Test

COURSE TITLE: LIED-ORATORIO

ECTS CREDITS: 2/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): The training of the artist singer with a high professionalism is directly related to the study of vocal chamber music (lied, oratorio, cantata). The chamber music genre addresses a limited number of viewers, a well-educated, prepared and cultivated audience. The task of educators is to train performing artists able to form an audience for which the lied becomes an accessible and loving genre. The teaching of lied-oratorio course is done individually, each student representing his own psycho-somatic, phonatory and artistic structure. The first years of study at the canto study subject brought the student a background of vocal and interpretive technique sufficient to address this genre. In the last two years, the study of lied and oratory will be a finishing of the vocal chamber genre, the future interpreter acquiring the art of assimilating musical refinements that will serve to improve the technical means and to enrich the expressive palette, leading it to a valuable interpretation. An important factor in the aesthetic rules of executing lied, oratory, cantata is the good knowledge of different literary and musical styles. The teacher initiates the student on theoretical and practical issues such as: musical analysis of the play (form, harmony, agogic dynamics); analysis of literary text (pronunciation, diction, articulation); the difference between the style of chamber music.

COURSE CONTENTS: Lieder and lied cycles of classical, romantic, post-romantic and Romanian creation; Oratorios, cantatas, concert arias from the composers of the periods: Baroque, Classicism, Romanticism as well as from the Romanian creation; Arias with obligato instruments

LANGUAGE OF INSTRUCTION: Romanian
ASSESSMENT METHOD(S): Written examination

COURSE TITLE: LIED-ORATORIO ACCOMPANIMENT

ECTS CREDITS: 1/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): The study subject of „Lied-Oratorio accompaniment” is intended to be an accomplishment of the spectrum of vocal accompaniment and in the plan of the chamber-lied-oratorio genre. Studied in the final years, III and IV respectively, and benefiting from the performances of the performant vocal and interpretive technique, the subject “Lied-oratorio accompaniment” refers to a feed-back interaction and a circuit with perfect rules and content, a well-determined temporality. Studied individually (each student representing a unique and unrepeatable psycho-somatic, phonatory and artistic structure) and in an obvious literary-musical stylistic variety, this study subject proves a complex process of harmonizing all technical-expressive elements: intonation, pronunciation, diction, articulation, breathing, mimics, dynamics, tempo, stamp and vocal-instrumental coloring, musical-literary phrasing, voice-piano symphysis etc. The task of the accompanist is to create, together with the canto teacher, performers capable of supporting and transmitting artistic emotion to the audience and, at the same time, to awaken respect for the values of Romanian and universal musical chamber art.

COURSE CONTENTS: The accompaniment of some lieder and lied cycles of classical, romantic, post-romantic and Romanian creation; The accompaniment of some oratorios, cantatas, concert arias from the composers of the period: Baroque, Classicism, Romanticism as well as from Romanian creation; The accompaniment of some arias with obligato instruments;

COURSE TITLE: OPERA CLASS

ECTS CREDITS: 3/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): Familiarizing students with the basics of vocal technique, musicality, musical understanding and interpretation of opera repertoire. Formation of singers-actors capable of interpreting the dramatic musical roles in the repertoire of the lyrical theatre. Cognitive objectives: Adapting voice, resilience and flexibility to the requirements of musical and operetta music; Formation of a complex musical thinking, based on the development of vocal and scenic expressiveness and the realization of interdisciplinary connections; Training the dictum, the alternation of the singing voice with the speaking voice; Physical training to easily perform dance numbers, often present in

operetta and musical productions. Procedural objectives: The orderly use of gender-specific concepts and theories (operetta and musical); Using self-evaluating methods of self-learning; Cultivating the syncretism of the arts in interpretation. Ctitudinal objectives: Compliance with professional deontology rules based on explicit value options; Collaboration in working teams to solve different learning tasks; Using specific methods to develop a team work plan (choir, ballet, orchestra); The acquisition of contemporary elements and new currents and concepts manifested today in stage art
COURSE CONTENTS: The role of the singer-actor in the opera show. The construction of the opera character. Understanding the notions of: dramatic situation, space and time in the opera show. Structuring situations and identifying the typology of the character. Stimulating the singer-actor’s sense of observation. Stimulating the analytical spirit of the singer-actor. The study of the specifics of the opera libretto. Working in teams as a way to eliminate emotional and physical blockages. Exercises for augmenting body plasticity. Exercises for building a personal balance by knowing your physical possibilities. Deepening the time-space dimension by conscious assimilation of some interdisciplinary elements (music, dance, declamation). Types of breathing and their use in the opera repertoire. Voice improvisation exercises. Improvisation applied in the construction of the character.

Seminar: Role-playing from the operas of Pergolesi. Role-playing from the operas of Purcell. Role-playing from the operas of Gluck. Role-playing from the operas of Monteverdi. Role-playing from the operas of Cimarosa. Role-playing from the operas of Lully. Role-playing from the operas of Rameau. Role-playing from the operas of Mozart. Role-playing from the operas of Beethoven. Role-playing from the operas of Rossini. Role-playing from the operas of Donizetti. Role-playing from the operas of Bellini. Role-playing from the operas of Meyerbeer. Role-playing from the operas of Berlioz.

LANGUAGE OF INSTRUCTION: Romanian
ASSESSMENT METHOD(S): Written examination

COURSE TITLE: OPERA ACCOMPANIMENT

ECTS CREDITS: 1/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): Being closely related to the study of the “opera” study subject, collective opera accompaniment contributes to the development of students’ ability to perform roles in opera or operetta performances at a high level of musical and aesthetic culture. The practical course consists of individual and collective work with students for the correct acquisition of the musical score (intonation, rhythm, text). The course also includes the overall work with the soloist group, the musical ensemble and the individual and collective directing

rehearsals for the finishing of the musical fragments or the whole performance supported by the students in the opera study subject.

COURSE CONTENTS: This year, are studied arias and small fragments (duets, thirds) of the opera or operetta, from the universal or Romanian music, the repertoire being made according to the technical-vocal and scenic possibilities of the students. It is recommended to study the recitative, duet, tertiary arias of the composers Pergolesi, Gluck, Mozart, Donizetti, Rossini. You can even study secondary roles in the integral works that fit with the students of the higher years. The students' grading will be done through a practical test throughout the year, taking into account the work done, but also the attendance at this collective course.

ASSESSMENT METHOD(S): Oral examination

4TH YEAR, 1ST SEMESTER AND 2ND SEMESTER

COURSE TITLE: POLYPHONY (COUNTERPOINT AND FUGUE)

ECTS CREDITS: 4- 1ST SEMESTER/3-2ND SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): The knowledge and acquirement of the techniques specific to polyphonic writing aim at correctly and accurately analyzing the works of the Renaissance and Baroque composers from an artistic, aesthetic and stylistic point of view. Developing polyphonic hearing and thinking. Acquiring a minimal Renaissance and Baroque repertoire. The course deliverables are ensured by a direct and sustainable connection with the musical text through analyzing some contrapuntal works, by the use of complementary working techniques in vocal contrapuntal themes.

COURSE CONTENTS: Introduction to the Baroque era. Comparison with the Renaissance era. The Baroque music schools; The Baroque and polyphony. Bach's style, the quintessence of an entire era; The monorhythmic melody with chord notes (arpeggiata); Completing the arpeggios by melodic-ornamental notes; The polyrhythmic melody; Modal inflections of the melodic line; Methods for developing the melodic material; The counterpoint with general bass lines. Consonant ratios; Overlays of melodic-ornamental notes; Shifting dissonance (embroidery); Dissonance by anticipation; Dissonance by appoggiatura; Dissonance by delay (suspension); General view on instrumental counterpoint dissonances; The counterpoint with ornamented bass; completing the general bass with melodic-ornamental notes; Completing the general bass with delays and appoggiaturas; The double counterpoint (invertible); Imitation; Canon; Principles of instrumental counterpoint for 3, 4 and more voices; Evolution of contrapuntal technique from Palestrina and Bach up to the 20th century

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: MUSICAL FORMS AND ANALYSES

ECTS CREDITS: 3/SEMESTER

TYPE OF COURSE: Compulsory, core

COURSE OBJECTIVE(S): The course aims at going over the most significant stages of the evolution of musical language, developing students' analytical thinking on the organization of music by morphology and musical structure analyzes of the types of form patterns that revolved in the historical musical context. By means of the practical works, students will be able to develop skills in the field of musical analysis. Courses will include examples of musical materials from the most important stylistic periods provided by the professor, thus students will benefit, at the same time, from the opportunity to

analyze the related scores. The course deliverables are ensured by a direct and sustainable connection with the musical text through the analysis of some tonal - harmonic works, by the use of complementary working techniques in form themes.

COURSE CONTENTS: Fugue: Crystallization of the fugue form. Fugue in Baroque music, definition, classifications; Fugue theme, fugue responses, the countersubject, fugue exposition, exposition types; Expository episode, median reprises, episode art in the Baroque fugue; Double fugue and bithematic fugue; The fugue in other stylistic periods of music history; Sonata. Crystallization of the sonata form, the; Baroque sonata; The sonata of Viennese classics, definition, pattern; Beethoven's sonata: the development of the second thematic group, the appearance of the third theme, Beethoven's codes; The form of sonata in Romanticism; The form of sonata in the 20th century; Rondo-sonata, or sonata-rondo; Other combinations of form principles: fugue-sonata, variations-sonata, etc. Definitions, classifications, simple succession genres, the suite, the concertante genre, symphonic sonata genres; Cyclic thinking and gender-based form: the cyclic form in Beethoven's creation, the leitmotif in Wagner's creation, Liszt's Sonata in B minor

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: MUSICAL AESTHETICS

ECTS CREDITS: 3- 1ST SEMESTER/2- 2ND SEMESTER

TYPE OF COURSE: Compulsory, core

COURSE OBJECTIVE(S): Cognitive: to know and understand the privileged position of this synthesis study subject in all field-related study subjects; to formulate analytical and synthetic judgments about the artistic phenomenon in general and the musical phenomenon in particular; to detail the fundamental aspects of the artistic phenomena, insisting on the components of the musical phenomenon (creation – interpretation – reception). Affective: to receive and evaluate with higher sign the artistic values that are fulfilled in the overall cultural life; to relate (sensitively and logically motivating) the phenomenon of artistic reception with the creation of aesthetic taste by the development of the critical spirit in the analysis of the work of art. Both types of objectives, combined, will aim to develop the skills to discover and understand the true value of the works of art.

COURSE CONTENTS: Preliminary aspects: Difficulties in defining the object of study of aesthetics or About the duality of aesthetics in the view of W. Tatarkiewicz; Status, issues and methods of research in the context of post-modernism; the legitimacy of the phrase "Aesthetics of the Arts"; Aesthetic object and aesthetic experience; definitions and conceptual clarifications in the view of aesthetists Jean Grenier, Mikel Dufrenne and

Dabney Townsend. Mutations or consistency of the concept of harmony (perfection) throughout cultural epochs. Stages in the evolution of aesthetic ideas: Aesthetic thought of the Ancient Orient; the syncretism of aesthetic, ethical and religious values in Oriental societies; The beautiful in the classical Greek philosophy; the sketch of a hierarchy; beautiful in the Pythagorean, Platonic and Aristotelian philosophy; Hellenistic aesthetics; features and representatives; the theses of ancient classics present in Horatiu's "Ars poetica"; the aesthetics of Plotin between Neoplatonism and modernism; The aesthetic postulates of the Middle Ages or the rethinking of the human through the sacred; the transcendence of the definition of beauty at St. Augustine and Boethius; Renaissance from the point of view of the dignity of man and art; an attempt to define this period through divergent opinions; Leonardo da Vinci and the pantheism of his aesthetics; Baroque as a type of existence; the relationships between arts in the baroque; The aesthetic postulations of classicism; concepts about music in the thinking of the classical German philosophers: Kant, Fichte, Schelling and Hegel; classic and modern in Mozart's creation; The aesthetic postulates of Romancism; Schopenhauer and the music understood as a direct picture of the world; aesthetic filiation in the thought and creation of Schumann, Liszt, Wagner and Nietzsche; Modern and post-modern aesthetics; Debussy and Impressionist vision of music; T.W. Adorno and the philosophical foundations of new music; Roman Vlad about modernity and tradition in contemporary music. Esthetic categories in E. Moutsopoulos' vision; traditional, determinant and final categories. Artistic creation and its possible meanings; aspects of the relationship between the creator and the work in the contemporary era: Brief history of the notion and the theory of creation; Contemporary age under the mark of objectivity; Cornelius Caesar and "Integrative aesthetics"; Contemporary creation as "open work"; the musical phenomenon in the context of the aesthetic data offered by contemporary creation. Aesthetics of reception: Artist and audience; The public and the work of art; Public attitudes and art criticism.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: CANTO

ECTS CREDITS: 4-1ST SEMESTER/3-2ND SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): The canto course is the basic study subject in the formation of students as future lyrical artists (soloists and choristers), concert performers, vocal pedagogues with a highly professional training, able to reproduce the vocal musical creation in all the complexity of its genres and modalities of expression. Since the art of singing is a complex process, the course will follow

both the development of individual vocal aptitudes as well as the implementation of vocal technique elements and the formation of associative bonds between the breathing - vibration - resonance segments, as well as resistance to a sustained effort. Because each student presents his/her own psycho-somatic phonatory and artistic structure, the course is conducted individually based on a systematic study based on intersensory exercises, to which the visual, auditory and motor element will be added in their various aspects. The practical artistic character of the course is aimed both at the realization of a sound emission technique and the use of the phoning organ for the purpose of acquiring full control of the means of vocal expression, as well as the artistic interpretation of the musical repertoire. The course is based on the gradual approach of a repertoire which will lead to familiarizing the future interpreter with the technical and stylistic difficulties of vocal scores. The repertoire during the 4 years of study should represent an informational artistic storage and an opening of artistic horizons in the musical culture of the student.

COURSE CONTENTS: An emphasis will be placed on the study of the specific vocal contemporary music from the following composers' creation: Al. Roussel, Ar. Schoenberg, Al. Berg, J. Strawinsky, A. Hacıaturian, A. Webern, S. Prokofiev, B. Bartok, K. Weill, B. Britten, B. Blancher, W. Egk, A. Copland, S. Barber, G. Gershwin, A. Jolivet, H. Villa-Lobos, L. Bernstein, G. Menotti, Ch. Ives etc.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: CANTO ACCOMPANIMENT

ECTS CREDITS: 1/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): Closely linked to the study of singing, the course of the study subject Canto Accompaniment individual contributes to the formation and finalization of the personality of the lyric artist and the highly qualified vocal pedagogue. The problem addressed in this study subject is the gradual and complex development of the talent of the future singer. The course is individual, each student presenting his/her own psycho-somatic, phonatory and artistic structure. The realization of interpreting a musical piece results from the combination of the teacher's and co-interpreter's explanations with the individual study and the contribution of the student's personality. Like the canto study subject, the study material (repertoire) is allocated to the difficulty it contains by years of study.

COURSE CONTENTS: An emphasis will be placed on the study of contemporary vocal musical compositions from the following composers' creation: Al. Roussel, Ar. Schoenberg, Al. Berg, J. Strawinsky, A. Hacıaturian, A. Webern, S. Prokofiev,

B. Bartok, K. Weill, B. Britten, B. Blancher, W. Ecg, A. Copland, S. Barber, G. Gershwin, A. Jolivet, H. Villa-Lobos, L. Bernstein, G. Menotti, Ch. Ives etc.

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: LIED-ORATORIO ACCOMPANIMENT

ECTS CREDITS: 1/SEMESTER
TYPE OF COURSE: Compulsory, field-related
COURSE OBJECTIVE(S): The study subject of „Lied-Oratorio accompaniment“ is intended to be an accomplishment of the spectrum of vocal accompaniment and in the plan of the chamber-lied-oratorio genre. Studied in the final years, III and IV respectively, and benefiting from the performances of the performant vocal and interpretive technique, the subject “Lied-oratorio accompaniment“ refers to a feed-back interaction and a circuit with perfect rules and content, a well-determined temporality. Studied individually (each student representing a unique and unrepeatable psycho-somatic, phonatory and artistic structure) and in an obvious literary-musical stylistic variety, this study subject proves a complex process of harmonizing all technical-expressive elements: intonation, pronunciation, diction, articulation, breathing, mimics, dynamics, tempo, stamp and vocal-instrumental coloring, musical-literary phrasing, voice-piano symphysis etc. The task of the accompanist is to create, together with the canto teacher, performers capable of supporting and transmitting artistic emotion to the audience and, at the same time, to awaken respect for the values of Romanian and universal musical chamber art.
COURSE CONTENTS: The accompaniment of some lieder and lied cycles of classical, romantic, post-romantic and Romanian creation; The accompaniment of some oratorios, cantatas, concert arias from the composers of the period: Baroque, Classicism, Romanticism as well as from Romanian creation; The accompaniment of some arias with obligato instruments;

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: OPERA ACCOMPANIMENT

ECTS CREDITS: 1/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): Being closely related to the study of the "opera" study subject, collective opera accompaniment contributes to the development of students' ability to perform roles in opera or operetta performances at a high level of musical and aesthetic culture. The practical course consists of individual and collective work with students for the correct acquisition of the musical score (intonation, rhythm, text). The course also includes the overall work with the soloist group, the musical ensemble and the individual and collective directing rehearsals for the finishing of the musical fragments or the whole performance supported by the students in the opera study subject.

COURSE CONTENTS: Musical training begins to play a role according to the stage of development

of each student, starting from the most acceptable fragments of the role. It is recommended to compose the repertoire of the following composers' works: Mozart, Donizetti, Rossini, Bellini, Verdi, Puccini, Bizet, Nicolai, Tchaikovsky. Students with a soloist perspective in musical theatre will study an integral role, and students oriented to choral or didactic activity will study fragments of operas or operettas. The students' grading will be made through a practical test throughout the year, taking into account the work done, as well as the attendance in this collective course.

FIELD: MUSIC
PROGRAMME TITLE: MUSICAL PERFORMANCE
(MUSICAL INSTRUMENTS)
BACHELOR'S DEGREE

1ST YEAR, 1ST SEMESTER AND 2ND SEMESTER

COURSE TITLE: THEORY, SOLFEGGIO, DICTAT

ECTS CREDITS: 4/SEMESTER

TYPE OF COURSE: Compulsory, core

COURSE OBJECTIVE(S): The Theory, solfeggio, dictat syllabus aims at training the musician-teacher and build-up a comprehensive applicable knowledge of the compositional languages that frame the different musical styles. The investigation objectives focus, on the one hand, on the systemic approach of a vast informational field and, on the other hand, the interference featuring of the vocabulary - syntax - morphology triad. Special attention within the musical language evolution overview is paid to the music of the 20th century, since this creative era - an unprecedented stylistic density boost throughout the history of music - encompasses its own axiological decantation.

The course deliverables are secured by a direct and sustainable connection with the musical text via the solfeggio and the dictat, as perception and representation complementary techniques for sound image production – an essential toolkit of any musician.

COURSE CONTENTS: The sound as music raw; The physical basics of music; The physiological basics of music; The acoustic- mathematical organisation of sound resources; Musical notation; Novel trends in contemporary musical notation; Morphological elements of the melody; Theory of musical intervals; New ideas and principles in the theory of musical intervals drawn from contemporary creation; Intonational musical systems; Musical dynamics; Instrumentation elements;

ASSESSMENT METHOD(S): Test

COURSE TITLE: CHAMBER MUSIC

ECTS CREDITS: 4/SEMESTER

TYPE OF COURSE: Compulsory, specialisation

COURSE OBJECTIVE(S): The Chamber music syllabus sets as main objective the achievement of an optimal level of technical and aesthetic training

of the chamber music groups to meet contemporary exigencies and needs of music performance; The higher level of artistic education with noticeable accomplishments at national and international level bound us to review the chamber music repertoire towards a more flexible performance of the course resources recommended in the syllabus, hence developing new academic optimisation models applied to the field of chamber music.

COURSE CONTENTS: Training of metric-rhythmic pulse coordination skills; dynamics and expression-based variations of voice-related thematic and accompaniment elements; acquisition of the main stylistic peculiarities: proper application through the study and the performance of three music chamber works.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: ORCHESTRA

ECTS CREDITS: 3/SEMESTER

TYPE OF COURSE: Compulsory, specialisation

COURSE OBJECTIVE(S): The orchestra as a whole represents, above all, an assembly of different individualities. It depends on their structure, to what extent their technical and musical capabilities and possibilities can be homogenised, as the primary factor of an orchestra is its homogenisation; The rehearsal has to fulfil a training function, facilitating students' successive accumulations from one rehearsal to another, based on a thorough preparation of each session; Repetition as such is not something isolated; rehearsal and concert are interconnected and can only be understood within their interdepend framework.

COURSE CONTENTS: Orchestra as academic subject (proper and quiet tune, singing stop immediately after the conductor's request and other discipline issues); Singing in the Orchestra as a solo; Homogenising with Orchestra colleagues; Homogenisation within different families - instruments (wood, brass, string instruments); Homogenising the sound of the whole orchestra; Acquiring a variety of dynamic palettes (sustained intonation of constant and variable nuances over larger and smaller timeframes); Dedicated training to read at first glance the tempo of the score or close tempos (in case of fast tempos); Familiarity with visible transposition in different tones for transposing suitors; For string instruments, homogenisation on the same arc feature, pressing as much as possible the string, the same manner vibrato (left hand technique), the use of the arc over its entire length or on sections - at the top, at the bead - the right hand technique), familiarity to play in the same way in different nuances of various modes of attack: arco, pizzicato, staccato, col lengo, sul ponticello etc; Higher integration of the percussion instruments in the orchestra, of both melodic instruments (timers, bells, xylophones,

vibraphones, etc.), as well as non-melodic instruments (small drum, big drum, triangle, etc.); Section diversification of the orchestra palette and dynamic modes of attack; Browsing a diverse repertoire in terms of style (from pre-classic to modern), difficulty, and genre (overtures, symphonies, symphonic poems, suites ballet accompaniments etc.) formations structure (works only for strings Orchestra or only for blowers); Browsing some works of the Romanian repertoire, in addition to the universal repertoire works.

ASSESSMENT METHOD(S): Test

COURSE TITLE: COMPUTER-ASSISTED MUSIC EDUCATION

ECTS CREDITS: 2/SEMESTER

TYPE OF COURSE: Optional, field-related

COURSE OBJECTIVE(S): The role of "Computer-assisted Music Education science in music" in the curriculum - for the first academic year within the Bachelor's programme, specialisation: Music Performance, study directions: Canto and Instruments is justified by: 1. The contemporary leading role of computing systems - information technology in general - both hardware and software, since microprocessor-based systems are encounter in all fields of activity, including arts, as Computer-assisted Music Education-assisted tools applied to usual creation or research activities. 2. The lack of Computer-assisted Music Education science subject in the art high schools curricula. Hence, students will be initiated in Computer-assisted Music Education use on the assumption that they do not have previous trained skills. The syllabus is aimed at developing students' knowledge and skills on how to use a Computer-assisted Music Education, effortlessly and efficiently, for personal needs.

COURSE CONTENTS: Introduction to Computer-assisted Music Education science in music;

Dedicated resources for music education; Multimedia applications used in music teaching training; Educational sites; Multimedia CDs/ DVDs; Educational software; Practice software; Interactive educational software; Educational simulation software; Knowledge assessment educational software;

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Test

COURSE TITLE: JAZZ

ECTS CREDITS: 2/SEMESTER

TYPE OF COURSE: Optional, elective

COURSE OBJECTIVE(S): Applicable knowledge and understanding of the role and place of this academic subject in the context of general culture academic subjects; applicable knowledge and understanding of the role played by the two musical genres in the musical evolution of the 19th, 20th and 21st centuries, and analytical and synthetic thinking of the artistic phenomenon in general and the musical phenomenon in particular; The Jazz syllabus focuses on specific competencies, structured on academic years in agreement with the students' developmental level. The learning contents are organised in agreement with each specific competence.

COURSE CONTENTS: Applicable knowledge and practice of terms and concepts specific to the art and culture adopted from the history of Jazz to approach different artistic creations. Fundamental operational concepts: art, culture, civilisation, creation, reception, style, ethos, catharsis, prosody, syncretism. Specific concepts for the analysis and comparison of different musical works. Elements of musical language: monody, heterophony, homophony, polyphony, modal and tonal systems, musical genres and creative styles. Recognition of the defining characteristics of the artistic creations approached, depending on the specific language elements, according to the artistic style and age. The origins of jazz: historical context and jazz emergence (the African heritage). Introduction to Jazz History, Ragtime and the New Orleans area, Blues further sub-genres: *Urban Blues*, *Boogie-woogie* and *Big Band Blues*, Swing - the classical jazz period. Promoting the swing genre in Europe. Bebop - the first step towards modern jazz, Cool Jazz – the jazz movement developed during the second world conflagration. Differentiating some representative themes of the studied genres: Ragtime, Blues, Swing, Bebop, Cool Jazz

ASSESSMENT METHOD(S): Oral examination

2ND YEAR, 1ST SEMESTER AND 2ND SEMESTER

COURSE TITLE: THEORY, SOLFEGGIO, DICTAT

ECTS CREDITS: 3/SEMESTER

TYPE OF COURSE: Compulsory, core

COURSE OBJECTIVE(S): The Theory, solfeggio, dictat syllabus aims at training the musician-teacher and build-up a comprehensive applicable knowledge of the compositional languages that frame the different musical styles. The investigation objectives focus, on the one hand, on the systemic approach of a vast informational field and, on the other hand, the interference featuring of the vocabulary - syntax - morphology triad. Special attention within the musical language evolution overview is paid to the music of the 20th century, since this creative era - an unprecedented stylistic density boost throughout the history of music - encompasses its own axiological decantation. The course deliverables are secured by a direct and sustainable connection with the musical text via the solfeggio and the dictat, as perception and representation complementary techniques for sound image production – an essential toolkit of any musician.

COURSE CONTENTS: Introduction to Module Theory; Oligochorders - primary melodic systems; Pentatonic modes; Pentachord and hexachordal modes; Ancient Greek modes; Western medieval modes; Byzantine modes; Popular heptachordal modes; Popular diatonic modes; Popular chromatic modes; Modulation modes; Other modal systems used in universal music; *Tonality: General principles deriving from the notion of tone; General principles deriving from the notion of scale; General principles deriving from the notion of chord;* The diatonic tonal system; The chromatic tone system; Modulation; Widening the classic concept of tone and mode; Atonal systems; Other intonational systems and processes used in contemporary music creation;

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: HARMONY

ECTS CREDITS: 3/SEMESTER

TYPE OF COURSE: Compulsory, core

COURSE OBJECTIVE(S): The study of Harmony together with the other theoretical subjects enables students to grasp the stylistic peculiarities of different creation eras: Baroque, Classicism and Romanticism. The understanding of Tonal-Functional Harmony principles, harmonic hearing training, along with the development of harmonic analysis competence are set as course main objectives, focusing on different harmonic aspects - harmonic harmonies, melodic notes, the technique of sequence, diatonic modulations, Chromatic harmony - altered tunes – specific for a certain musical piece; The course deliverables are secured by a direct and sustainable connection with the musical text via the solfeggio and the dictat, as perception and representation complementary techniques for sound image production – an essential toolkit of any musician.

COURSE CONTENTS: Effective dissonant melodies; Diatonic modulation; Modulation in the dominant; Modulation in the subdominant; Modulation in the minor relative; Modulation in the minor relatives of the dominant and subdominant; Diatonic modulation from minor to first-degree tones; Modulation in the dominant; Subdomain modulation; Modulation in the major relative; Modulation in the major relative dominant and subdominant; Diatonic modulation from major to distant tones; Diatonic modulation from minor to distant tones;

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: HISTORY OF MUSIC

ECTS CREDITS: 3/SEMESTER

TYPE OF COURSE: Compulsory, core

COURSE OBJECTIVE(S): The History of music syllabus aims at training the musician-teacher and build-up a comprehensive applicable knowledge of the compositional languages that frame the different musical styles. The investigation objectives focus, on the one hand, on the systemic approach of a vast informational field and, on the other hand, the interference featuring of the vocabulary - syntax - morphology triad Familiarising students with different music periods throughout the History of Music; applicable acquisition of composers' stylistic characteristics specific to different music periods; information acquisition regarding composers' life and work specific to different music periods throughout the history of music; applicable knowledge of musical instruments emergence and evolution, main forms and genres of instruments and specific features; The course deliverables are secured by a direct and sustainable connection with most representative genres specific to certain

historical periods, clearly defined and accompanied by specific features and appropriate examples. Featuring musical instruments and their action mode, accompanied by remindful images.

COURSE CONTENTS: 1. The transition from Baroque to Classicism/The School of Mannheim/Representatives; 2. Classicism: Definition/Style highlights; 3. J. Haydn/Life and activity/Vocal-symphonic creation; 4. J. Haydn/Symphonic creation and chamber music; 5. W.A. Mozart/Life and activity/Symphonic creation; 6. W.A. Mozart/Instrumental concerts, chamber music; 7. W.A. Mozart/Opera and vocal-symphonic creation; 8. L. van Beethoven/Life and activity/Symphonic creation; 9. L. van Beethoven/Instrumental concerts and overtures; 10. L. van Beethoven/Concerts and sonatas; 11. L. van Beethoven/Voice-symphonic creation, overtures and the *Fidelio* opera; 12. The periodicity of Beethoven's creation (stages and fields of Beethoven's creation); 13. Aspects of Romanticism in Beethoven's creation; 14. The classic-romantic transition accomplished by Beethoven; 15. Romanticism/Definition and periodisation/ Stylistic aspects and specific musical genres; 16. The *Lied* in the creation of Fr. Schubert/ Schubert: life and work; 17. The work of N. Paganini, F. Mendelssohn - B., Fr. Chopin in the Romantic stylistic context; 18. The great romantics: H. Berlioz, Fr. Liszt, R. Schumann; 19. Programme Music/Genre of Programme Music: Programme Symphony and Symphonic Poem; 20. French romantic opera in the first half of the nineteenth century; 21. The evolution of French romantic opera in the second half of the nineteenth century: Ch. Gounod, G. Bizet, L. Delibes, E. Chabrier, J. Massenet, G. Meyerbeer; 22. French romantic opera in the second half of the nineteenth century: F. David, E. Lalo, C. Saint - Saens, C. Franck, V. d'Indy; 23. Italian romantic opera in the second half of the nineteenth century: Spontini, Rossini, Donizetti, Bellini; 24. The climax of Italian romantic opera: Giuseppe Verdi; 25. German romantic opera at the beginning of the 19th century: G.J. Vogler, E.T.A. Hoffmann, L. Spohr, C.M. von Weber; 26. Richard Wagner and Wagnerian musical drama/Wagnerian stylistic features; 27. Late Romanticism: J. Brahms, A. Bruckner; 28. National schools in the nineteenth century (Russian, Czech, Norwegian, Spanish)

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: INSTRUMENT ACCOMPANIAMENT

ECTS CREDITS: 1/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): Close related to the study of the instrument, the co-rehearsal course contributes to the development and completion of the instrument artists' personality and of highly qualified instrument teachers. The problem addressed by this academic subject focuses on the gradual and complex development of future performers' talent. The course is individually-taught as each student is featured by a singular psychosomatic structure, personalised technical and artistic skills. The completion of a musical piece performance is rounded within a harmonised collaborative work between the teacher's and co-interpreter's explanations with individual study and the contribution of the student's personality. As with the Instrument academic subject, the course resource (repertoire) is assigned according to different levels of difficulty in compliance with the chorology of the academic years.

COURSE CONTENTS: Accompanied technical studies; Parts of Baroque composers' works; Sonatas and concerts of classical and romantic composers' works; Parts of Romanian composers' works - late 19th century and early 20th century

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Test

COURSE TITLE: CHAMBER MUSIC

ECTS CREDITS: 3/SEMESTER

TYPE OF COURSE: Compulsory, specialisation

COURSE OBJECTIVE(S): Chamber music syllabus sets as main objective the achievement of an optimal level of technical and aesthetic training of the chamber music groups to meet contemporary exigencies and needs of music performance; The higher level of artistic education with noticeable accomplishments at national and international level bound us to review the chamber music repertoire

towards a more flexible performance of the course resources recommended in the syllabus, hence developing new academic optimisation models applied to the field of chamber music.

COURSE CONTENTS: Training of metric-rhythmic pulse coordination skills; dynamics and expression-based variations of voice-related thematic and accompaniment elements; acquisition of the main stylistic peculiarities: proper application through the study and the performance of three music chamber works.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: ORCHESTRA

ECTS CREDITS: 3/SEMESTER

TYPE OF COURSE: Compulsory, specialisation

COURSE OBJECTIVE(S): The orchestra as a whole represents, above all, an assembly of different individualities. It depends on their structure, to what extent their technical and musical capabilities and possibilities can be homogenised, as the primary factor of an orchestra is its homogenisation; The rehearsal has to fulfil a training function, facilitating students' successive accumulations from one rehearsal to another, based on a thorough preparation of each session; Repetition as such is not something isolated; rehearsal and concert are interconnected and can only be understood within their interdependent framework.

COURSE CONTENTS: Orchestra as academic subject (proper and quiet tune, singing stop immediately after the conductor's request and other discipline issues); Singing in the Orchestra as a solo; Homogenising with Orchestra colleagues; Homogenisation within different families - instruments (wood, brass, string instruments); Homogenising the sound of the whole orchestra; Acquiring a variety of dynamic palettes (sustained intonation of constant and variable nuances over larger and smaller timeframes); Dedicated training to read at first glance the tempo of the score or close tempos (in case of fast tempos); Familiarity with visible transposition in different tones for transposing suitors; For string instruments, homogenisation on the same arc feature, pressing as much as possible the string, the same manner vibrato (left hand technique), the use of the arc over its entire length or on sections - at the top, at the bead - the right hand technique), familiarity to play in the same way in different nuances of various modes of attack: arco, pizzicato, staccato, col legno, sul ponticello etc; Higher integration of the percussion instruments in the orchestra, of both melodic instruments (timers, bells, xylophones, vibraphones, etc.), as well as non-melodic instruments (small drum, big drum, triangle, etc.); Section diversification of the orchestra palette and dynamic modes of attack; Browsing a diverse repertoire in terms of style (from pre-classic to

modern), difficulty, and genre (overtures, symphonies, symphonic poems, suites ballet accompaniments etc.) formations structure (works only for strings Orchestra or only for blowers); Browsing some works of the Romanian repertoire, in addition to the universal repertoire works.

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: POLYPHONY (COUNTERPOINT AND FUGUE)

ECTS CREDITS: 3/SEMESTER

TYPE OF COURSE: Compulsory, field-related

COURSE OBJECTIVE(S): Applicable knowledge and acquisition of the techniques specific to polyphonic writing aims as to correctly and accurately analyse

the works of the Renaissance and Baroque composers from an artistic, aesthetic and stylistic point of view. Developing hearing skills and polyphonic thinking. The acquisition of a minimal repertoire from Renaissance and Baroque; The course deliverables are secured by a direct and sustainable connection with the musical text via through analyses of counterpoint works, the use of complementary techniques in voice-related counterpoint themes.

COURSE CONTENTS: The application filed and importance of the academic subject. Historical overview of polyphony; Renaissance and Polyphony Periodization: Renaissance schools, Palestinian style characteristics; melody: modes and intervals; the role of intervals in the construction of the melodic line • Gradual fugue and leaps • The progressive melody • The melodic bow: the introduction, the climax, the end • Securing the melodic fluency by avoiding the symmetry; the dissonance through the exchange note (embroidery) of the fourth, optimal duration, by the bridge note, via anticipation; the issue of expressive dissonances; ornate delayed dissonance; the counterpoint without cantus firmus; ornate melodic note overlays; simple, ornate and combined delays; principles of the counterpoint technique at 3 and 4 voices.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: FORMS AND MUSICAL ANALYSES

ECTS CREDITS: 2/SEMESTER

TYPE OF COURSE: Compulsory, core

COURSE OBJECTIVE(S): The objective of the course is to frame the most significant stages in the evolution of musical language as to develop students' analytical thinking on music organisation via morphology and musical structure analyses of the types of formulas that circulated in the historical musical context. The course practical assignments are aimed at developing students' skills and competences within the field of musical analysis. Course resources will be complemented by music parts from the most important stylistic periods recorded by the tutors, while the students are also assisted to analyse simultaneously the related scores. The course deliverables are secured by a direct and sustainable connection with the musical text via the analysis of some tonal - harmonic works, using complementary techniques in the themes forms.

COURSE CONTENTS: Fugue: Crystallisation of the fugue form. Fugue in the Musical Baroque, definition, classifications; Theme of the fugue, fugue responses, counter-subject, the exhibition of fugue, types of exhibition; The exhibition episode, median halves, the art of the episode the Baroque fugue; Double and double-themed fugue; The fugue in other stylistic periods of music history; Sonata. Crystallisation of sonata, Baroque sonata.

Sonata of Viennese classics, definition, pattern; The Beethoven Sonata: the development of the second thematic group, the appearance of the third theme, the codes in Beethoven; Sonata forms in Romanticism; Sonata forms in the 20th century; Sonata rondo; Other mixtures of principles: fugue-sonata, sonata variations, etc; Definitions, classifications, simple successions genres, the suite, the concert genre, the genres of the symphonic sonata; Cyclical thinking and genre-making: the cyclical idea in Beethoven, the motif in Wagner's work, sonata in si by Liszt.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: HISTORY OF MUSIC

ECTS CREDITS: 2/SEMESTER

TYPE OF COURSE: Compulsory, core

COURSE OBJECTIVE(S): Familiarising students with different music periods throughout the History of Music; Applicable acquisition of composers' stylistic characteristics specific to different music periods; information acquisition regarding composers' life and work specific to different music periods throughout the history of music; applicable knowledge of musical instruments emergence and evolution, main forms and genres of instruments and specific features; The course deliverables are secured by a direct and sustainable connection with the musical text via the analysis of some tonal - harmonic works, using complementary techniques in the themes forms.

COURSE CONTENTS: Late Romantics: G. Mahler, O. Respighi, M. Reger, H. Wolf; The twentieth century/ the Impressionism/Definition/Stylistic Elements/Musical Forms and Genres; Cl. Debussy/ symphonic and chamber music. Pelleas and Melisandre – the lyrical masterpiece of the twentieth century; M. Ravel/elements of style in symphonic and chamber music; The French Tradition of Impressionist Music: L. Niedermeyer and G. Faure; Other Impressionists: A. Roussel, P. Dukas; Erik Satie and The Six; Expressionism and P. Hindemith; The Strauss family;

Realism and naturalism/Definition/representatives/reference opposites; Atonalism, dodecaphonic, serialism/Aesthetic stylistic aspects in Arnold Schoenberg's creation; The Second Viennese School/the other two representatives: Anton Webern and Alban Berg; Modern National Schools/The Russian School (I. Stravinski, S. Prokofiev, A. Hacıaturian); Modern national schools/The Spanish National School (M. de Falla)/The Polish School (K. Zsيمانovski)/ The Czech School (L. Janacek, B. Martinu); The Finnish School (J. Sibelius); The Hungarian School (B. Bartók, Z. Kodály); Romanian music. The origins of Romanian music. Voice and instrumental music from antiquity until the 15th century; Religious and secular music in the 15th-18th centuries; Romanian musical life in the 19th

century; Musical genres and their in the 19th century; Voice music in the 19th century; George Enescu/ the Enescian symphonies; George Enescu/ Chamber music; George Enescu/ Vocal-symphonic creation; George Enescu/ Instrumental Oppositions; George Enescu/ the Oedip masterpiece; Stylistic features of the Enescian creation; Romanian music of the 20th century. Specific genres and representatives.

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: MUSIC AESTHETICS

ECTS CREDITS: 3/SEMESTER

TYPE OF COURSE: Compulsory, core

COURSE OBJECTIVE(S): Cognitive: to grow aware of the germane role this synthesis subjects plays in all specialised academic subjects; to develop

analytical and synthetic thinking on the artistic phenomenon in general and the musical phenomenon in particular; to feature the fundamental aspects of the artistic phenomena, highlighting the components of the musical phenomenon (creation - performance - reception); Affective: to grow aware and praise the artistic values that materialise in the whole of the cultural life; to relate (sensitively and logically; motivating) the phenomenon of artistic reception by developing a higher aesthetic sensitivity and a fine critical spirit in the analysis of art works; both types of objectives, combined, are aimed at developing students' skills and competences to discover and understand the true value of art works

COURSE CONTENTS: I. Preliminary issues: I.1. Difficulties in defining the field of aesthetics or About the duality of aesthetics in the view of W. Tatarkiewicz; I.2. Status, issues and research methods in the context of post-modernism; the legitimacy of the phrase "Aesthetics of the Arts"; I.3. Aesthetic object and aesthetic experience; definitions and conceptual clarifications in the vision of aesthetics Jean Grenier, Mikel Dufrenne and Dabney Townsend. Mutations or consistencies of the concept of Harmony (perfection) throughout cultural epochs. II. Stages in the evolution of aesthetic ideas: II.1. Aesthetic thinking in the Ancient Orient; the syncretism of aesthetics, ethical and religious values in Oriental societies; II.2. The beauty in the classical Greek philosophy; the sketch of a hierarchy; The beauty in the Pythagorean, Platonic and Aristotelian philosophy; II.3. Hellenistic aesthetics; features and representatives; the theses of ancient classics in Horatiu's "Ars poetica"; the aesthetics of Plotin between Neo-Platonism and modernism; II.4. The aesthetic postulates of the Middle Ages or the rethinking of the human through the sacred; the transcendence of the definition of beauty in St. Augustine and Boethius; II.5. Renaissance in terms of human dignity and art; an attempt to define this period through divergent views; Leonardo da Vinci and the pantheism of his aesthetics; II.6. Baroque as a type of existence; the relationships between arts in Baroque; II.7. The aesthetic postulations of the Classicism; concepts of music in the thinking of the Classical German philosophers: Kant, Fichte, Schelling and Hegel; classic and modern in Mozart's creation; II.8. The aesthetic postulates of the Romantics; Schopenhauer and the music understood as a direct picture of the world; aesthetic filiation in the thinking and creation of Schumann, Liszt, Wagner and Nietzsche; II.9. Modern and post-modern aesthetics; Debussy and the Impressionistic vision of music; T.W. Adorno and the philosophical foundations of new music; Roman Vlad about modernity and tradition in contemporary music. III. Aesthetic categories in E. Moutsopoulos' vision; traditional, determinant and final categories. IV.

Artistic creation and its possible meanings; aspects of the creator-masterpiece relationship in the contemporary era: IV.1. Historical overview of the notion and the theory of creation; IV.2. The contemporary age under the mark of objectivity; Corneliu Caesar and the "Integrative Aesthetics"; IV.3. Contemporary creation as "open work"; the musical phenomenon in the context of the aesthetic data offered by contemporary creation. V. The Aesthetics of reception: V.1. The Artist and the audience; V.2. The public and the masterpiece; V.3. The audience feedback and art critics.

ASSESSMENT METHOD(S): Oral examination

COURSE TITLE: JAZZ

ECTS CREDITS: 2/SEMESTER

TYPE OF COURSE: Optional, elective

COURSE OBJECTIVE(S): Familiarising students with the basics of instrumental technique, musicality, musical understanding, operetta performance/musical repertoire: A. Cognitive Objectives - Adapting voice coverage, operetta vocal strength and flexibility requirements, Development of complex musical thinking, based on the development of vocal and stage expressiveness and an increased awareness of interdisciplinary connections, Training diction, alternating speech and music performance. B. Procedural Objectives - Appropriate use of genre-specific concepts and theories (operetta and jazz), Appropriate use of self-assessment, Development of art syncretic views in performing. C. Attitudinal objectives - Compliance with professional deontology rules based on explicit value options, Team spirit development to solve different learning tasks, Application of specific methods to develop a team work plan (choir, ballet, Orchestra), The acquisition of contemporary elements and new trends and concepts manifested today's in stage art.

COURSE CONTENTS: Jazz voice performances from the fourth decade of the 20th century to the present. Description of jazz pieces from the fourth decade of the 20th century to the present. Genres and forms specific to the jazz vocal music of the modern jazz era. The stylistic diversity of jazz in the second half of the 20th century until the contemporary period. Linking specific jazz evolution moments to contextual historical, cultural and social events in the late nineteenth and early twentieth centuries. Specific information on artistic biography and works of representative personalities. The role of music within the American historical and cultural setting. Critical thinking regarding different forms of artistic expression manifested in music, literature, and dance. Forms of musical artistic, plastic literary,

choreographic expression manifested in mono or interdisciplinary visions

ASSESSMENT METHOD(S): Test

COURSE TITLE: RESEARCH PAPER INTERNSHIP

ECTS CREDITS: 6/2ND SEMESTER

TYPE OF COURSE: Compulsory, domain course

COURSE OBJECTIVE(S): To create and develop the students' competences necessary to elaborate summative papers, both theoretical and applied in nature, based on the knowledge, understanding and use of the concepts, theories, methods and techniques of research specific to the domain.

COURSE CONTENTS: 1. Establishing the research topics; 2. Discussions about the various aspects of the graduation thesis: title, structure, layout, the use of bibliographical sources, graphics, tables, figures, etc; 3. Setting the deadlines for each stage of graduation thesis elaboration; 4. Reaching an agreement regarding the theoretical and methodological aspects specific to each research topic; 5. Preparing the students to perform empirical research: details regarding the presentation of the organization where the empirical research will take place, clarifications regarding the research methods and the interpretation of the results; 6. Checking the degree of achieving the proposed objectives by the students in elaborating the thesis; 7. Discussions about the manner of formulating the conclusions derived from the research, identifying the limitations and the future directions of research; 8. Discussions about the manner of defending the theses in front of the board of examiners during the graduation papers presentation session.

ASSESSMENT METHOD(S): Test

COURSE TITLE: THEATRICAL PERFORMANCE

ECTS CREDITS: 6/SEMESTER

TYPE OF COURSE: Compulsory, specific

COURSE OBJECTIVE(S): Correct identification of acting art's methods and techniques and their authors. Ability of self-analysis of the

acting. Achieving the level of individual performance within the theatrical group (the total, organic functioning of the individual within a theatrical cast). Complex exercises, meeting all objectives. Achieving the performance level of the theatrical group. Group synchronization, precision, organic operation, and total harmony of each individual with the group.

COURSE CONTENTS: 1. Introductory course: research and creative directions, objectives, themes, bibliography; 2. Methodological Fundamentals of Acting Art; 3. Definition of acting terms I (role, situation, relationship, character, conflict); 4. Definition of acting terms II (threshold, process, purpose, comic, tragic, dramatic etc.); 5. Relationships between defined acting notions. Language in the acting art.; 6. Study and interpretation of dramatic support I - (dramatization: introduction); 7. Study and interpretation of dramatic support II - (dramatization: literary texts, works of art); 8. Study and interpretation of dramatic support II - (dramatization: literary texts, works of art); 9. Analysis of the specific logic mechanism (Acting art - a way of thinking); 10. Process in Acting Art I (Stage 1 - undertaking); 11. Process in Acting Art II (Stage 2 - Processing); 12. Process in Acting Art III (Stage 3 - Option); 13. Process in Acting Art IV (Stage 4-Action); 14. Concretizing the scenic process from conventional to authentic. interconfessional perspectives; 15. Recapitulative Course: Exercise and Acquired Means of Action; 16. Specific forms of thinking and expression of the actor. Schools and methods in acting; 17. The natural, physical and psychic component of the scenic act in realistic dramaturgy; 18. Acting terms in realistic theatre I (role, situation, relationship, character, conflict); 19. Acting terms in realistic theatre II (threshold, process, purpose, comic, tragic, etc.); 20. Study and interpretation of dramatic support I - (realistic theatre: introduction); 21. Study and interpretation of dramatic support II - (realistic theatre: short scenes in two characters); 22. Sources of creativity: The living mirror of reality (observation, attention, imagination).; 23. Theory of Where? Who? What? When? in the scenic approach; 24. Acting area - Living architecture of movement; 25. Training and education of the means of stage expression; 26. Actor and physical action on stage (motivation, purpose, necessity); 27. The role - finality of the acting creative process; 28. Concretizing the scenic process from conventional to authentic in realistic theatre.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: STAGE IMPROVISATION

ECTS CREDITS: 4/SEMESTER

TYPE OF COURSE: Compulsory, specific

COURSE OBJECTIVE(S): The main objective of the Department is the training of the professional theatre actor, as a thinker and creator, indisputably linked to the efficiency of the improvisation process. The most difficult principle to define in training the future actor is the awareness that he/she is a living artistic personality. The immediate purpose of improvisation is to achieve credible actions within the scenic frame, and to subject the actor's body to a harmonious evolution with special requirements.

COURSE CONTENTS: the stage: its forms; the performance as a complex art – profound knowledge of the reality; the relation: feeling/intellect and collective art/ individual formation. The necessity of developing the body expression in parallel with fantasy. The ultimate goal of education in a theatre school - Successful artistic interpretation. Self-awareness: the ability to respond spontaneously and dynamically to external or internal demands; mastery of movement, gesture, attitude and their exquisite subordination to the ideas of dramatic text; authenticity in communication; responsiveness; lucid and fine control and adjustment of the external expression with the inner movement. Body and psyche: Transformation of the body into a best friend; Mutual influence (psyche-body) and its constancy - interaction; The body as a tool for expressing ideas on stage. Unleashing, overcoming the resistance and opposition of own body; Submission of actor's body to a harmonious evolution with special requirements; achieving true creative mood on stage; Thinking - the analytical spirit as a support of the refinement of the bodily expression modeled and recreated from within; Sensitive body doubled by a complex psyche; Imposing modern points of view in preparing characters from different epochs; Searching for and understanding different characters, beyond the limits of the student's own psychology.

Cultivating own states, meant to make the actor-student a sensitive, noble, and flexible person from an intellectual, psychic and physical point of view; Acquiring the skill to suppress any unnecessary criticism; Exclusion of the "accidental" element in the actor's profession - (improvisation - yes, "accidents" - no); Mental mobility and inventiveness.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: STAGE DICTION EXPRESSION AND TRAINING

ECTS CREDITS: 3-3

TYPE OF COURSE: Compulsory, specific

COURSE OBJECTIVE(S): The discipline is structured into two fundamental components: "the technique of scenic speaking" (course) and "the art of speech" (in practical works, individually) that take place in parallel during six semesters. The first two semesters are dedicated to professional breathing, the next

two to the vocal force, and the last two to stylistic refinement. The modeling of scenic speech contributes through basic concepts, definitions and norms that lead to the completion of the student's native qualities.

COURSE CONTENTS: Sem. 1: Respiratory system. Phonatory device. Breathing and its physiology; The capital role of professional breathing. Pulmonary ventilation: exhale, retention, inspiration; Diaphragm. The fundamental contribution of the diaphragm in voice transmission and its physiology; The correct, professional breathing mechanisms. Respiratory and diaphragmatic gymnastics; The soundtrack of acoustics of the sounds of the Romanian language. Emission and propagation of sounds. Euphony. Gradual transition from melodic incantation to speech; The linguistic system: phonetic and phonological level. Vocal Positional scheme according to the aperture. Staccato and legato; Recitation. Texts from the poetry of M. Sorescu and / or N. Stanescu adapted to the learner's temperamental, emotional and intellectual structure; Sem. 2: In the positional vocal scheme, juxtapositions will be exercised following the rule of the consonant framed by two vowels: vowel-consonant-vowel. Different combinations and permutations of registers, temps and different vocal intensities will be operated; suites of syllables based on bilabials; suites of syllables based on labio-dentals; suites of syllables based on dentals; suites of syllables based on prepalatals; suite de silabe bazate pe palatals; suites of syllables based on laryngeals; recitation based on lyrical texts (elegy, ode, pastel, satire, sonnet, rondel, gazello or glosa) that correspond to the level of the student's cultural experience;

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: ENGLISH LANGUAGE

ECTS CREDITS: 3/SEMESTER

TYPE OF COURSE: Compulsory, complementary

COURSE OBJECTIVE(S): acquisition and consolidation of a foreign language grammar rules; enriching the general as well as the specialized vocabulary; correct reception of oral and written messages in different situations and contexts.

COURSE CONTENTS: Introductory Notions. The verb. Tenses. The article. The Noun. The Adjective. The Adverb. Pronouns and Pronominal Adjectives. The Numeral. The Preposition. The Conjunction. Grammar and vocabulary exercises

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Test

COURSE TITLE: MUSICAL KNOWLEDGE

ECTS CREDITS: 3/SEMESTER

TYPE OF COURSE: Compulsory, specific

COURSE OBJECTIVE(S):The development of individualized vocal skills, the implementation of vocal technique elements and the formation of associative links between breathing - vibration - resonance segments; the acquisition of the musical knowledge necessary to a future actor.

COURSE CONTENTS: The importance of music; the sound as a complex phenomenon; physical basics of music; producing vibrations; musical sound and noise; The physiological basics of music: the mechanism of hearing; limits of human hearing. The psychological basics of music. Musical notation: graphic representation. Symphonic orchestra instruments. Electric and electronic instruments. About voice: spoken and sung. Voice/ language/ abstract thinking. Feminine voices - classification. Male voices - classification. Other types of voices: children's voices, castrated, light music, variété and jazz, opera.

ASSESSMENT METHOD(S): Examination

COURSE TITLE: VOCALTECHNIQUE – CANTO

ECTS CREDITS: 3

TYPE OF COURSE: Optional, specific

COURSE OBJECTIVE(S): The aim of the course is represented both by the development of individual vocal aptitudes and the implementation of vocal technique elements and the formation of associative links between the breathing - vibration - resonance segments. At the same time, another objective is the acquisition of the musical knowledge necessary to a future actor.

COURSE CONTENTS:

Preparatory exercises for singing; Breathing exercises; Melodic memorizing exercises; Exercises for the development of rhythmic sense; Harmonic exercises at two voices Learning and memorizing songs from the classic repertoire Learning and memorizing songs from the light music repertoire Learning and memorizing songs from the folk music repertoire; Study of musical pieces with instrumental accompaniment; Learning and memorizing songs from children's repertoire.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Test

COURSE TITLE: CLASSICAL DANCE –CHARACTER DANCE

ECTS CREDITS: 2

TYPE OF COURSE: Optional, specific

COURSE OBJECTIVE(S): The course aims at developing the rhythmicity and motor musicality (educating the ability to express through proper body movement, the different features of the musical accompaniment), the initiation in the sports dance, the spontaneity of the body reaction, mastering the inner tensions.

COURSE CONTENTS: Classic Dance Technique: Study at the bar. Classic Dance Technique: Study at

the Center; Classic Dance Technique: technical elements specific to classical dance, Body rotations around the vertical axis – turns. Projections of the body in space – artistic jumping. Movements made from inertia - imbalances, active and passive balances, body-waves; Movements made by controlled action – porté-s, cambré-s, large extensions

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Test

COURSE TITLE: CREATIVY WORKSHOP

ECTS CREDITS: 2

TYPE OF COURSE: Compulsory, specific

COURSE OBJECTIVE(S): the student will have the possibility to propose and conceive a character from the world dramatic literature or, as the case may be, enrich his interpretation of the roles studied in the acting art classes.

COURSE CONTENTS: the student will be encouraged to appeal to his own imagination, to discover correspondences between the characters he/she has to play and other characters in literature, mythology, fine arts, theatre, film, opera, ballet as prerequisites for the development of a novel vision of the roles. The teacher will try to develop the student's availability to invent new situations and reactions.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Test

COURSE TITLE: THEATRICAL PERFORMANCE

ECTS CREDITS: 6

TYPE OF COURSE: Compulsory, specific

COURSE OBJECTIVE(S): the discovery of the means of moving from the literary characters to the scenic characters in the realistic theatre

COURSE CONTENTS: analyzing the character's psychology based on the information provided by the dramatic text and the recommended reading; discovering the character's attitude changes, according to the reactions of other characters and proposed situations; initiating ways to update the text, where appropriate, by gesture, mimics, makeup, costume; stimulating the student's creative capacity.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: IMPROVISATION ART

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory, specific

COURSE OBJECTIVE(S): the training of the professional theatre actor, as a thinker and creator, indisputably linked to the efficiency of the improvisation process; the awareness that the actor is a living artistic personality. Starting from a profound self-knowledge, improvisation develops basic skills: the spirit of observation, concentration,

inner harmony, imagination, creativity, fantasy, affective memory.

COURSE CONTENTS: Orientation – Viola Spolin method: Rediscovering sensations; Series of mirrors (Mirrors A & B, Mirror in teams A, B & C, D, Penetration of the mirror, distorting mirror). Concentration: Yoshi Oida; opening and closing - Michael Cekhov method; Floating – Viola Spolin. Emotion. Physicality. Creative phantasy & spontaneity; Scenic action - *Where? Who? What?* – collective; The counterpoint – *If*; Conflict & accidental; Action & sound. Verbalizing & Voice Stimulation. Exercises: Answer by Interrogation; Affirmative & negative answer; Unintelligible speech - the Viola Spolin method; Sell or present something; The story from the Past; Unintelligible speech in foreign languages - dialogue and translation.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: ART INTERNSHIP

ECTS CREDITS: 3

TYPE OF COURSE: Compulsory, specific

COURSE OBJECTIVE(S): Developing the ability to meet diverse directorial requirements. Fixing and using the means of expression corresponding to a superior artistic creation. The transition from free improvisation to improvisation on topics imposed by the text given to the study. Building a personal path as a result of the structural analysis of a dramatic text. Developing the capacity to transpose an authoritative idea into an organic process in acting. The orderly use of concepts and theories specific to the acting art. Identifying concrete situations of using the concepts and theories specific to the acting art.

COURSE CONTENTS: Proposal and selection of a dramatic text for scenic representation. Reading at the table. Criteria for analyzing the dramatic text. Possible casts. From dramatic literary text to scenic transposition. Ways to approach the scenic interpretation of the text. Suggestions to approach the role. Criteria for analyzing the chosen dramatic text. From dramatic literary text to stage transposition. Ways to approach the scenic interpretation of the text. Scenic text analysis based on dramatic style factors. Study of the biography of the character. Means of building the role. Developing the character. The inner monologue. The psychological element in interpretation. The inner reality. Corrections and suggestions for approaching the role.

COURSE TITLE: UTTERANCE SEMANTICS

ECTS CREDITS: 5

TYPE OF COURSE: Elective

COURSE OBJECTIVE(S): Deepening the basic notions of statement semantics. Creative-innovative application of semantic analysis tools. Manifesting positive and responsible attitudes towards the scientific field of semantics.

COURSE CONTENTS: Terminology specifications and delimitations. 2. Classification of lexical units according to the relationship between their form and meaning. 3. Defining, exemplifying and commenting on the notions of meaning and significance. 4. The semantic form of changes in meaning. 5. Isotopy. 6. Presuppositions.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Exam

COURSE TITLE: ELEMENTS OF APPLIED MORPHOLOGY

ECTS CREDITS: 5

TYPE OF COURSE: Elective

COURSE OBJECTIVE(S): Fixing and systematizing the morphosyntax knowledge. Applying morphology knowledge in spoken and written language. Properly using lexico-grammatical classes in communication.

COURSE CONTENTS: Morphosyntactic analysis. The plural of simple and compound nouns. Masculine or feminine in official addressing. Use of number-defective nouns in communication. The use of the verb and the preposition in communication.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Exam

COURSE TITLE: LEXICAL VARIATION: TYPOLOGY, DYNAMICS, TRENDS

ECTS CREDITS: 5

TYPE OF COURSE: Elective

COURSE OBJECTIVE(S): Adequate knowledge and understanding of concepts, acquiring and developing the ability to recognize semantic differences and nuances, to use them properly in various contexts. The course will attempt to integrate language aspects into a wider intercultural context.

COURSE CONTENTS: Dynamics of meaning: semantic expansions, "determinologisation". Polysemy. Lexical and phraseological contamination. Linguistic clichés. Cultism. "Half-learned Calofilism". Lexico-semantic fields.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Exam

COURSE TITLE: ASPECTS OF THE EVOLUTION OF MODERN LITERARY ROMANIAN

ECTS CREDITS: 4

TYPE OF COURSE: Elective

COURSE OBJECTIVE(S): Adequate knowledge and understanding of the notions specific to the concept of Romanian literary language; explaining and interpreting the fundamental theoretical content; the proper use and didactic exploitation of the notions specific to Romanian literary language; applying the methods and techniques specific to the analysis grade.

COURSE CONTENTS: Theoretical Aspects. Periodization of the history of Romanian literary language. Modern age. The period 1780-1836. The Transylvanian School. The activity in the Romanian Principalities. Ion Heliade Rădulescu. The period 1836-1881. The social, political and cultural framework. Latino-Romance orientation: the Latinist trend; the French influence. National orientation (*Dacia literară*). Introduction of the Latin alphabet; orthographic projects. Titu Maiorescu's conception of Language cultivation. The period 1881-1900. Unification of literary variants; consolidation of literary language styles. General aspects of literary language in the 20th century. Dynamics of literary language rules. Neological vocabulary. Functional styles. The artistic language in the 20th century.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Oral Examination

COURSE TITLE: METHODOLOGY OF RESEARCH

ECTS CREDITS: 2

TYPE OF COURSE: Elective

COURSE OBJECTIVE(S): Adequate knowledge and understanding of the course-specific notions; explaining and interpreting the theoretical content of the subject in well-defined contexts; critical and constructive reflection in assimilating the conceptual and methodological apparatus of the course.

COURSE CONTENTS: Axiology of scientific research. Main types of scientific works. General rules on the writing of scientific papers. Stages of scientific paper elaboration. Documentation in

scientific research. Processing, condensing and organizing information. Writing, style, text processing. Structuring the paper into text units (paper body). Procedures and techniques of information processing. The critical apparatus (references or bibliographic citations).

ASSESSMENT METHOD(S): Oral Examination

COURSE TITLE: INTERNSHIP

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Adequate knowledge and understanding of the activity in the practice center; explaining and interpreting specific actions in well-defined contexts; the critical and constructive thinking in assimilating the norms that govern the activity of the institution hosting the internship.

COURSE CONTENTS: Collecting and systematizing important data regarding the activity field and specificity of the partner institution hosting the internship. Specifying the mission, organization, structure and program of the partner institution. Studying the documents that establish, regulate and support the activity of the institution. Assisting at specific activities carried out by the tutor or the institution staff. Participating in the tutor's training on the exigencies and difficulties of practicing the specific activities by students. Drawing up / filling in some functional texts specific to the current activities in the institution. Settling the research topic together with the tutor (I.1). Structuring a presentation of the research material. Documentation and data essentialization for the Student Internship Project (II). Group revision of the activities carried out by discussing the benefits and difficulties and filling in the Activity Sheet (I.3) including the day, the time interval and the activity carried out. Making a synthesis report on the personal activity in the internship center and presenting it in front of the tutor in order to be evaluated.

ECTS CREDITS: 4

TYPE OF COURSE: Obligatoire

COURSE OBJECTIVE(S): établir des connexions entre l'évolution de la langue française en fonction du parcours historique des territoires où l'on parle cette langue ; expliquer l'influence temporelle de deux points de vue: le stade de l'évolution de la langue avant son attestation officielle et après cette date.-comprendre les influences des groupes sociaux, le rapport avec les phénomènes culturels, religieux, idéologiques, dans la configuration de la langue et de ses représentations, mettre l'accent sur le rôle du français périphérique dans la configuration de l'aspect actuel de la langue.

COURSE CONTENTS: Français – une langue à multiples registres. Règles et normes. Changements linguistiques.

Substrat gallique. La société gallo-romaine. Superstrat franc. Période médiévale. *La langue d'oïl*. Littérature écrite en langue d'oïl. *La langue d'oc*. Particularités linguistiques de l'ancien français. *Le moyen français*. Particularités linguistiques. La Renaissance. Particularités linguistiques. Les dictionnaires. *Le bon usage*. Le 17^e siècle. Particularités linguistiques. L'Académie Française. Le 18^e siècle. Particularités linguistiques. Les dictionnaires. Les débats orthographiques. Les 19^e et 20^e siècles. Les régionalismes. L'évolution du français en dehors du territoire de l'Hexagone. Les variétés géolinguistiques. Points de repère dans l'évolution du français en Europe (Belgique, Suisse, Val d'Aoste, Luxembourg, etc.) et au delà de l'Europe (Canada, Louisiane, Antilles, Ile de la Réunion, Madagascar, Comores, Noire, Asie). Les créoles.

LANGUAGE OF INSTRUCTION: Français
ASSESSMENT METHOD(S): Examen

**COURSE TITLE: ÉCRIVAINS ROUMAINS
D'EXPRESSION FRANÇAISE**

ECTS CREDITS: 6

TYPE OF COURSE: Obligatoire

COURSE OBJECTIVE(S): connaître les spécificités de la littérature roumaine d'expression française, comme composante des littératures francophones

COURSE CONTENTS: La littérature dans l'espace francophone européen: interculturalité et diversité.

La littérature dans l'espace francophone européen: interculturalité et diversité. L'émigration et l'exil: deux conditions différentes des écrivains roumains d'expression française. Figures légendaires et grandes personnalités des littératures d'expression roumaine et française: Panait Istrati, Eugène Ionesco, Mircea Eliade, E. M. Cioran, Gherasim Luca ; les contemporains: Vintila Horia, Dumitru Tepeșneag et Matei Vișniec. *Questions générales du cours:* L'imaginaire des écrivains roumains de langue française: convergences et différences propres aux littératures roumaine et française ? L'émigration et l'exil: productrices de mutations, intégration ou assimilation *malgré soi* ?

Pré-requis: la lecture des œuvres littéraires représentatives des écrivains mentionnés.

LANGUAGE OF INSTRUCTION: Français

ASSESSMENT METHOD(S): Examen

**COURSE TITLE: DÉVELOPPEMENT DE LA
COMPÉTENCE DE COMPRÉHENSION ET
D'EXPRESSION ORALES**

ECTS CREDITS: 4

TYPE OF COURSE: Obligatoire

COURSE OBJECTIVE(S): l'acquisition des bases théoriques et méthodologiques de la compréhension et de l'expression orales, le développement progressif de la compétence d'acquisition des techniques de compréhension et de l'expression orales; développement de la capacité de créer des exercices pour développer les aptitudes de communication orale.

COURSE CONTENTS: La communication. Aspects théoriques et méthodologiques. Stratégies nécessaires à la compréhension et à l'expression orales. Techniques de communication orale en présentiel. Techniques d'expression à partir d'un thème proposé: conversation, exposition, conférence, discours. Modalités efficaces pour évaluer la compétence de compréhension et d'expression. Création des supports didactiques pour assurer la compréhension et l'expression.

LANGUAGE OF INSTRUCTION: Français

ASSESSMENT METHOD(S): Épreuve écrite

**COURSE TITLE: DIDACTIQUE DE LA LECTURE
LITTÉRAIRE**

ECTS CREDITS: 2

TYPE OF COURSE: Obligatoire

COURSE OBJECTIVE(S): acquisition de nouvelles techniques de lecture et de l'analyse du texte utilisables dans la didactique du Fle. Développer la créativité et l'esprit d'analyse, la capacité d'appliquer une analyse critique du texte (non)littéraire. Identifier et analyser quelques méthodes de corrélation des connaissances théoriques à l'activité pratique de la classe de FLE.

COURSE CONTENTS: Méthodes de lecture: lecture de la perspective thématique, sociocritique, psychocritique, mythocritique, intertextuelle. Spécificité de la lecture littéraire. Lecture plurielle. Lecture co-énonciation. Lecture production. Lecture – création dirigée. Rapport écrivain – narrateur – narrataire – lecteur. Typologie du lecteur. Analyse du texte de la perspective narratologique contemporaine. Éléments de pragmatique du texte littéraire.

Les thèmes proposés seront discutés à partir d'un roman contemporain choisi par les étudiants. Suite à la lecture multiple que nous proposons les étudiants vont identifier les éléments spécifiques de chaque type de texte, chaque modalité d'entamer ce texte et pourront envisager des propositions concrètes pour l'exploitation dans la classe de Fle.

LANGUAGE OF INSTRUCTION: Français

ASSESSMENT METHOD(S): Évaluation

COURSE TITLE: LANGUES DE SPECIALITÉ

ECTS CREDITS: 4

TYPE OF COURSE: Obligatoire

COURSE OBJECTIVE(S): – sensibiliser/initier les apprenants aux problèmes soulevés par les langues de spécialité; – circonscrire le domaine des discours spécialisés (genres de discours et activités de travail); – familiariser les apprenants avec les approches des divers aspects du domaine (principes d'analyse des discours professionnels français, intégration du champ d'étude dans la perspective européenne, formalisation et standardisation des échanges linguistiques professionnels); – développer les compétences de lecture, compréhension et production de textes de spécialité;- exercer les habiletés de traduction (méthodes de traduction et exploitation professionnelle des ressources des langues de spécialités (dictionnaires, glossaires) dans les activités orales et écrites dans le processus du travail.

COURSE CONTENTS: a) – dimension socio-professionnelle: genres de discours, genres professionnels; interactions linguistiques « de travail »; – secteur économique de travail à distance (télé-travail), dialogues professionnels;- spécialisation et hiérarchisation dans le domaine juridique et administratif; b) dimension référentielle: formulation des référents (définitions, classification) et légitimation par l'autorité; – approche morphosyntaxique: modes, temps, aspect, modalités, groupes de mots, structures spécifiques,

collocations; c) – approche pragmatique et marques de l'énonciation dans les activités telles que la délibération, l'argumentation, le débat à l'intérieur des groupes d'opérateurs; d) – dimension intertextuelle: genèse des textes, élaboration matérielle, fonctionnement du discours rapporté et des citations; conséquences méthodologiques (sélection des corpus et procédés d'exploitation et d'enseignement-apprentissage)

LANGUAGE OF INSTRUCTION: Français

ASSESSMENT METHOD(S): Épreuve écrite

COURSE TITLE: ASPECTS ACTUELS DANS L'ÉTUDE DE LA PRAGMATIQUE

ECTS CREDITS: 6

TYPE OF COURSE: Obligatoire

COURSE OBJECTIVE(S): Le cours se propose de reprendre les plus importantes notions de pragmatique de la perspective du FLE, avec un accent particulier sur l'étude de la deixis, de la conversation et des actes de langage.

COURSE CONTENTS: Les principales manières de manifestation de la deixis dans les langues naturelles; les caractéristiques de la deixis en français (les déictiques de personne, temporels, spatiaux, sociaux, discursifs). Implications et implicatures conversationnelles et conventionnelles (présuppositions, les théories de Grice, Horn et Ducrot); techniques d'analyse de la conversation et du dialogue et leur importance pour l'enseignement du dialogue et du français parlé; les présuppositions en tant qu'implications et leurs activateurs; L'étude des actes de langage et de leur structure; la force locutionnaire, illocutionnaire et perlocutionnaire; l'analyse sémantique et pragmatique des énoncés performatifs; les actes de langage du point de vue didactique.

LA LANGUAGE OF INSTRUCTION: Français

ASSESSMENT METHOD(S): Examen

COURSE TITLE: LANGUE MODERNE (ANGLAIS)

ECTS CREDITS: 3

TYPE OF COURSE: Facultative

COURSE OBJECTIVE(S): To develop the ability of understanding the meaning of words and sentences uttered clearly and slowly (instructions, simple directions, questions, numbers, prices, times). To develop the ability of understanding the meaning of words and sentences uttered in everyday conversation: information about people, places, professional activities, news etc. To develop the ability of understanding a written text (newspaper articles, forms, simple messages, personal letters, instructions, advertisements) in order to identify relevant contextual information (information about people, temporal and spatial location of events). To develop the strategic ability of communicating in everyday situations – speech acts (introductions, greetings and leave-taking expressions, thanking, selling and buying formulas etc); also, making

payments, asking for information about public transport, ordering at the restaurant, expressing preferences, etc. To develop the strategic ability of writing sentences connected to everyday life: an important event in one's personal life, hobbies, personal letters, hotel reservation, postcard, etc.

COURSE CONTENTS: 1. Personal details: Name and surname. Introductions. Forms of address. Identity card. Passport. Civil status. Citizenship, nationality. Physical and moral features. 2. Personal relationships: Family kinship. Friends. Profession and occupation. Invitations and meetings. Personal correspondence. Telephoning. 3. Residence: Types of residence. My house (description, rooms, furniture). Rental contract (hostel, apartment/flat, house). Comfort and household items. 4. Meals: Moments of the day. Food and drink. 5. Paying a visit: Greeting and parting formulas. Agreeing, refusing, and thanking. 6. Going shopping: Departments. Clothing and footwear. 7. Temporal orientation: Time, date. Days of the week. Months and seasons. 8. Spatial orientation: Direction and position. Address. 9. Leisure time: Hobbies. Reading. Music. Sports. Watching a TV programme (news programmes, weather forecast, films, entertainment programmes). 10. Going on holidays: Choosing a destination: seaside, mountain. Countries and capitals. Postcard writing. 11. My place of work: Education. Location/description of the workplace. Timetable. Description of a work experience. 12. At the restaurant: Reading and understanding a menu. Ordering and paying. Expressing preferences. 13. At the bank: Payment operations. Requesting information. 14. Means of transport: underground, bus, taxi, train, plane. Buying a ticket. Information about fares and timetables. 15. Tour operators: Booking a journey – choosing a destination. Understanding a leaflet, a brochure and an offer. 16. Health and hygiene: Human body. Physical and psychological state. Health insurance.

TEACHING LANGUAGE: ENGLISH

ASSESSMENT METHOD(S): Written examination

2ND YEAR, 1ST SEMESTER

COURSE TITLE: ASPECTS ACTUELS DANS L'ÉTUDE DE LA SÉMANTIQUE

ECTS CREDITS: 5

TYPE OF COURSE: Obligatoire

COURSE OBJECTIVE(S): Initiation des étudiants dans les nouvelles orientations de l'étude de la sémantique; le développement de l'esprit de compréhension et d'analyse des phénomènes sémantiques.

COURSE CONTENTS: Après une courte mise en revue de la problématique étudiée, le cours propose l'étude du rôle et du lieu de la sémantique: la sémantique lexicale – le sens des mots, l'analyse compositionnelle, la théorie du prototype; la

sémantique situationnelle – référence, inférence, la logique propositionnelle ; la sémantique discursive – genres et registres, cohésion, cohérence ; une courte mise en revue de la sémantique cognitive – les métaphores, les schémas, les espaces mentaux. Le séminaire reprend sous forme d'exercices, analyses, discussions, les thèmes proposés, se basant sur des exemples concrets.

LA LANGUAGE OF INSTRUCTION: Français

ASSESSMENT METHOD(S): Examen

COURSE TITLE: LITTÉRATURES FRANCOPHONES EN DEHORS DE L'ESPACE EUROPÉEN

ECTS CREDITS: 4

TYPE OF COURSE: Obligatoire

COURSE OBJECTIVE(S): La définition de l'état d'une littérature migrante, des mouvements identitaires, des mutations qui ont influencé les modèles et les genres littéraires. La découverte et l'analyse de la littérature d'expression française à travers l'étude des textes littéraires de la communauté française d'Amérique. La consolidation des connaissances concernant les concepts fondamentaux qui guident la littérature d'expression française dans l'espace francophone de l'Amérique par genres et courants littéraires.

COURSE CONTENTS: La littérature francophone de l'Amérique: la littérature francophone en Louisiane, la littérature amérindienne ; les Acadiens – victimes et résistance, l'idéal romantique- Evangéline, le mythe de la victime, le mythe Beausoleil, le mythe de l'Acadien bon vivant, le mythe de la femme acadienne, les poètes louisianais: Debbie Clifton, Blackie Frugé ; écrire en Nouvelle Ecosse ; La littérature canadienne: une littérature coloniale et provinciale. Les origines de la littérature canadienne d'expression française. La littérature de la Nouvelle France (1534-1759). La littérature canadienne française jusqu'en 1837. Le Québec littéraire jusqu'à la première Guerre mondiale. Histoire et idéologies littéraires. Le prolongement du romantisme. Le début du roman. La littérature du Québec entre les deux Guerres mondiales. Naturalisme et humanisme. Idéologies littéraires. Poètes et prosateurs. Autour de « la Révolution tranquille »: les années 50 et 60: nationalisme et engagement. Le roman et le conte jusqu'à la fin de « la Révolution tranquille » (1973). Les poètes: Rina Lasnier – culture, histoire, religion ; Paul Chamberland: la « nouvelle barbarie » et l'efficacité de la violence poétique; Roland Giguère ou « l'âge de la parole ». Anne Hébert – poète et romancier. Le Québec littéraire aujourd'hui: mot et écriture. Les genres: poésie, roman, science-fiction, fantastique, essai et critique littéraire, théâtre, autofiction (mémoires, souvenirs, correspondance, journaux, autobiographies...).

LANGUAGE OF INSTRUCTION: Français

ASSESSMENT METHOD(S): Épreuve écrite

COURSE TITLE: PROBLÉMATIQUE DE LA FICTION LITTÉRAIRE

ECTS CREDITS: 4

TYPE OF COURSE: Obligatoire

COURSE OBJECTIVE(S): (i) Analyse des problèmes spécifiques de la fiction littéraire dans le contexte actuel de la théorie littéraire. (ii) Acquisition des compétences d'interprétation critique du phénomène littéraire contemporain, par la mise en relation des théories actuelles de la fiction et de leur illustration dans des divers œuvres littéraires. (iii) Développement des aptitudes de recherche scientifique des étudiants.

COURSE CONTENTS: Les catégories du récit littéraire. La tension narrative. Le statut du personnage romanesque. Les niveaux de réalité en littérature. Problèmes de l'autofiction. Fiction et intertextualité. Fiction littéraire – fiction cinématographique. Le statut du créateur, le rapport auteur – narrateur, narrateur – lecteur. Le problème de l'intentionnalité de l'écrivain. Problèmes actuels de la réception de la fiction. Le rôle du lecteur dans la construction/la reconstruction du texte. Les analyses auront comme point de départ des textes théoriques et des œuvres littéraires illustratives pour les thèmes proposés.

LANGUAGE OF INSTRUCTION: Français

ASSESSMENT METHOD(S): Épreuve écrite

COURSE TITLE: GRANDS COURANTS LITTÉRAIRES EUROPÉENS

ECTS CREDITS: 2

TYPE OF COURSE: Obligatoire

COURSE OBJECTIVE(S): Les activités déroulées dans le cadre de cet atelier ont comme but de permettre aux étudiants la compréhension des phénomènes interculturels européens et de surprendre les aspects essentiels de l'interaction des littératures européennes des XIX^e et XX^e siècles. Le deuxième objectif fondamental du cours consistera dans le développement des compétences des étudiants d'aborder d'une manière critique les phénomènes étudiés et de rédiger un ouvrage de recherche sur des thèmes originaux liés aux courants littéraires abordés

COURSE CONTENTS: Influences et interférences littéraires du XIX^e siècle (Byron, Heine, Lamartine, Scott...). Réalisme, Naturalisme et leurs limites. Les moments de rupture de l'écriture poétique et romanesque des XIX^e et XX^e siècles (Baudelaire, Mallarmé, Rimbaud, Joyce, Proust, Kafka). Les provocations du surréalisme et de l'expressionnisme. La relation littérature – peinture dans les littératures européennes (le cas Michaux). Les littératures européennes entre le modernisme et le postmodernisme – éléments de continuité et de rupture.

LANGUAGE OF INSTRUCTION: Français

ASSESSMENT METHOD(S): Épreuve écrite

COURSE TITLE: ENSEIGNEMENT DU LEXIQUE**ECTS CREDITS:** 4**TYPE OF COURSE:** Obligatoire

COURSE OBJECTIVE(S): la reprise et l'approfondissement des concepts fondamentaux de la lexicologie et de la sémantique ; l'approfondissement des acquis antérieurs en morphologie et en sémantique lexicale ; la formation d'habiletés dans le choix des stratégies didactiques adéquates pour l'enseignement des divers phénomènes lexicaux

COURSE CONTENTS: l'analyse et la classification des sens ; l'opposition signifiant /signifié/ référent ; la perspective onomasiologique et la perspective sémasiologique dans la recherche linguistique ; -les structures du lexique: le mot et ses relations dans le système lexicologique ; la structuration de l'expression lexicale ; la formation des mots,- l'étude des distributions: i) appartenance à la même classe distributionnelle ; (ii) regroupement d'après le même comportement syntaxique,- la structuration du contenu lexical ; la structuration parallèle du contenu et de l'expression ; la typologie des champs linguistiques ; archaïsmes et néologismes

LANGUAGE OF INSTRUCTION: Français**ASSESSMENT METHOD(S):** Évaluation**COURSE TITLE: THÉORIE ET ANALYSE DES ACTIVITÉS DIDACTIQUES****ECTS CREDITS:** 4**TYPE OF COURSE:** Obligatoire

COURSE OBJECTIVE(S): (i) habituer l'étudiant avec une réflexion critique à la suite du stage d'observation de la classe ayant comme support les théories et les méthodes didactiques assimilées déjà dans le 1er cycle. (ii) analyse des éléments épistémologiques d'une perspective interdisciplinaire tenant compte de la liaison entre les différents contextes d'apprendre/enseigner le FLE

COURSE CONTENTS: L'histoire de l'enseignement de la langue française dans l'espace francophone (notamment celui de l'Europe Orientale). Les problématiques de l'enseignement du FLE: les rôles de ceux qui enseignent la discipline. Les disciplines de référence: la perspective psycho cognitive, les sciences sociales, les sciences du langage, les sciences du texte et de la littérature. Les méthodologies non-conventionnelles (la méthode communicative, la méthode par l'activité silencieuse, la méthode par mouvement, la suggéstopédie, les critères du choix d'une méthode). Le cours aura un caractère interactif, et le séminaire va réaliser surtout des activités d'analyse des manuels de FLE en usage. Les principaux thèmes des séminaires: La construction des manuels: séquences et types de séquences, Les contenus: thèmes majeurs, le rôle des images. Modalités d'exploitation en fonction du niveau

groupe – classe. L'Examen consistera en une vérification des notions assimilées, suivie par l'analyse d'un manuel d'après une grille d'analyse

LANGUAGE OF INSTRUCTION: Français

ASSESSMENT METHOD(S): Examen

COURSE TITLE: ESTHÉTIQUE ET HERMÉNEUTIQUE LITTÉRAIRES**ECTS CREDITS:** 4**TYPE OF COURSE:** Obligatoire

COURSE OBJECTIVE(S): le renforcement des qualités indispensables d'un jeune chercheur: l'esprit critique, le pouvoir associatif, l'opération avec des concepts de base de l'esthétique, de la poétique et de la théorie littéraire actuelle, l'utilisation d'un appareil philologique adéquat ; l'acquisition des habiletés de rédaction d'un ouvrage de recherche qui circonscrit la thématique abordée, en partant de l'étude approfondie de certains textes fondamentaux de l'esthétique et de la théorie littéraire contemporaine et assimilant une bibliographie donnée

COURSE CONTENTS: L'étude d'une œuvre littéraire de point de vue génétique, tant dans le plan de la création, tant de celui de la réception. *La relation auteur – œuvre:* La nécessité et les voies d'une poétique. Les commencements d'une œuvre littéraire: poésie et état poétique ; l'attente et l'attention. Liberté et discipline imposée. Le pendule poétique: Son et Sens. "L'inspiration". Le hasard et l'acte critique. La fonction poétique de la pensée. Architecture de l'œuvre et architecture du sien auctorial. Le créateur crée. L'œuvre accomplie. *La relation œuvre – récepteur:* La lecture herméneutique. La dimension poétique de la lecture. La lecture comme processus de récréation du texte. Le cercle de la compréhension et la boucle herméneutique. L'expérience herméneutique et le langage. La dimension ludique de la lecture: art et jeu. Le dialogue herméneutique entre le texte et l'interprète. La traduction comme interprétation et récréation du texte originaire. Les textes proposés comme points de référence font partie des ouvrages fondamentaux de l'esthétique et de la théorie littéraire contemporaine, avec priorité du domaine de la poétique

LA LANGUAGE OF INSTRUCTION: Français**ASSESSMENT METHOD(S):** Examen**COURSE TITLE: INTERNSHIP****ECTS CREDITS:** 3**TYPE OF COURSE:** Compulsory

COURSE OBJECTIVE(S): adequate knowledge and understanding of the activity in the practice center; explaining and interpreting specific actions in well-defined contexts; the critical and constructive thinking in assimilating the norms that govern the activity of the institution hosting the internship.

COURSE CONTENTS: Collecting and systematizing important data regarding the activity field and

specificity of the partner institution hosting the internship. Specifying the mission, organization, structure and program of the partner institution. Studying the documents that establish, regulate and support the activity of the institution. Assisting at specific activities carried out by the tutor or the institution staff. Participating in the tutor's training on the exigencies and difficulties of practicing the specific activities by students. Drawing up / filling in some functional texts specific to the current activities in the institution. Settling the research topic together with the tutor (I.1). Structuring a presentation of the research material. Documentation and data essentialization for the Student Internship Project (II). Group revision of the activities carried out by discussing the benefits and difficulties and filling in the Activity Sheet (I.3) including the day, the time interval and the activity carried out. Making a synthesis report on the personal activity in the internship center and presenting it in front of the tutor in order to be evaluated.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Preliminary examination

COURSE TITLE: LANGUE MODERNE (ANGLAIS)

ECTS CREDITS: 2

TYPE OF COURSE: Facultative

COURSE OBJECTIVE(S): To develop the ability of understanding a short text by skimming.- To develop the strategic ability of communicating in everyday situations on themes of personal interest in a variety of situations: during a journey, giving and asking for opinions, agreeing and disagreeing, asking for detailed instructions, narrating a story, describing and explaining moods.- To develop the ability of writing coherent texts on everyday topics: field of interest, ideas and opinions, description of a personal experience in a letter, writing a fax, an e-mail, a CV and a circular; compositions, reports, presentations, summaries, articles, reviews, etc

COURSE CONTENTS: I. The seminar will cover the following topics:1. *Personal relationships:* Conversations on familiar topics. Expressing an opinion. Narrating past events.2. *Profession and career:* Social and professional integration skills. Talking about career. Labour market – offer and demand.3. *Education system:* Education system: description, curricula, examinations and diplomas.4. *The Environment:* Flora and fauna. Climate and weather. Conservationism and pollution.5. *Mass-media:* Radio. Television (documentaries, films, plays, talk shows, interviews) and the press (types of publications: daily newspapers, weekly newspapers, editorials, magazines, journals). 6. *Health and diseases:* Types of diseases. Symptoms. Medical examination. Medical care.

Hospitals, private practice, specialist doctors, drugstores. Medical insurance.7. *Public and private services:* Authorities: administration and finances,

police, social services. Authorities: administration and finances, police, social services.8. *Cultural events:* Exhibitions, plays, museums, operas, ballet, shows.9. *Leisure time:* Sports and events.10. *Youth and society:* The gap between generations. Social and professional integration.11. *Cultural and religious institutions:* Theatres, museums, opera houses, churches.12. *Labour market:* Application file. Interview. Migration of labour force.13. *Political life:* Political structures (Parliament, parties). Political events. Elections.14. *Publicity:* Logos. Advertisements. Slogans 15. *Law and order:* Laws, rules and regulations, public order. Criminals. The legal system structure. 16. *Bank services:* Automatic telling machines (ATMs). Loans, credits, mortgages, cheques, traveller's cheques and vouchers.

ASSESSMENT METHOD(S): Épreuve écrite

LECTURES OBLIGATOIRES POUR L'ATELIER: Tahar Ben Jelloun: *La nuit sacrée*, Assia Djebar: *Femmes d'Alger dans leur appartement*, *Les Nuits de Strasbourg*; Driss Chraïbi: *La civilisation, ma mère !*, Malika Mokkedem, *Je dois tout à ton oubli*, Rachid Boudjedra, *Les Mille et une années de la*

nostalgie, Hôtel Saint-Georges, Yasmina Khadra, L'Attentat, Ce que le Jour doit à la Nuit, Kateb Yacine, Nedjma.

COURSE TITLE: PHONÉTIQUE CORRECTIVE

ECTS CREDITS: 3

TYPE OF COURSE: Obligatoire

COURSE OBJECTIVE(S): L'initiation des futurs enseignants à l'enseignement de la prononciation du français des la première étape d'apprentissage; la prise de conscience des futurs enseignants de leur propre prononciation du français et l'appropriation des mécanismes implicites du système phonétique du français par rapport au système phonétique du roumain

COURSE CONTENTS: L'analyse des difficultés de prononciation spécifique aux sons du français auxquelles se heurtent les locuteurs roumains; le mécanisme articulatoire du français; le rapport graphie-prononciation du français; la transcription phonétique; éléments de phonétique supra-segmentale: difficultés spécifiques, techniques correctives; exercices spécifiques; éléments de phonétique segmentale: le système vocalique du français (voyelles (non) arrondies, voyelles orales et voyelles nasales; exercices et applications, techniques de correction des fautes; analyses des exercices de phonétique et de phonologie des manuels scolaires

LANGUAGE OF INSTRUCTION: Français

ASSESSMENT METHOD(S): Épreuve orale

COURSE TITLE: DIDACTIQUE DE L'INTERCULTUREL DANS L'ESPACE FRANCOPHONE

ECTS CREDITS: 3

TYPE OF COURSE: Obligatoire

COURSE OBJECTIVE(S): accéder à des cultures différentes, les accepter et comprendre, identifier un échantillon de valeurs communes ; mettre en évidence certains éléments spécifiques de civilisation: diversité régionale (traditions, mentalités, culture) et historique (données, événements, personnalités historiques illustres).

COURSE CONTENTS: La problématique de la didactique interculturelle (objectifs, public des sociétés multiculturelles, principes axiologiques, éducation pour la relation avec l'autre). Principes et hypothèses méthodologiques de l'interculturalité (d'ordre cognitif et civilisationnel (des représentations universelles – clichés et stéréotypes). Ressemblances et dissemblances entre divers aspects culturels des civilisations mises en contact. Façons d'exploitation didactique pour réaliser l'éducation multiculturelle et l'ouverture vers les valeurs culturelles de l'Autre. Le rôle de l'altérité et de l'identité dans la définition de soi-même et de l'Autre (dialectique moi-l'Autre, formes de dysfonctionnement de l'identité, acculturation, perspectives interactionnistes dans les sociétés

multiculturelles). Le rôle des manuels scolaires dans l'acceptation des valeurs et des différences qui nous séparent, enseignement de la tolérance et de l'acceptation des différences

LA LANGUAGE OF INSTRUCTION: Français

ASSESSMENT METHOD(S): Examen

COURSE TITLE: ANALYSE DE LA COMMUNICATION DIDACTIQUE DANS LE PROCESSUS D'ENSEIGNEMENT DU FLE

ECTS CREDITS: 4

TYPE OF COURSE: Obligatoire

COURSE OBJECTIVE(S): -connaître et comprendre les particularités du discours didactique ;(ii)-comprendre le cadre énonciatif dans l situation de la classe de français, (iii)-distinguer les différents types de discours et de textes présents dan la classe de Fle, (iv)-savoir intervenir pour faciliter l'acquisition des quatre compétences fondamentales.

COURSE CONTENTS: *Perspective théorique:* la classe de FLE- cadre de référence pour l'espace scolaire. LE CECR sur la classe de langue. - „contexte” et „situation” dans les sciences du langage et dans la didactique des langues étrangères, -Français en qualité de « contexte », le discours est ses repères spatio-temporels et relationnels, les voix de la classe de Fle (le discours de l'auteur du manuel, les voix textuelles, la voix de l'enseignant). *Perspective pratique:*-la compétence de compréhension orale, la compétence de compréhension écrite, la compétence de production orale, la compétence de production écrite (analyse des productions scolaires, la simulation des situations de discours). Les interactions en classe de FLE: le concept d'„étranger” dans le groupe d'élèves qui apprennent une langue étrangère ; les instructions procédurales dans la langue étrangère et/ou dans la langue maternelle. Les types d'interactions individuelles et de groupe, les rites d'interaction: les éléments rituels inhérents des interactions sociales. La tenue et la déférence. Le cérémonial. L'état d'embarras et de gêne dans le groupe scolaire et dans la société. Le détachement. Les formes de détachement, les répercussions sur les relations de groupe. La politesse et ses manifestations (non)linguistiques. L'expression de la subjectivité dans la communication pédagogique. L'implication du sujet ; La négociation du sens, l'argumentation, la construction de l'interaction pédagogique. Le non-verbal dans la classe de FLE.

LANGUAGE OF INSTRUCTION: Français

ASSESSMENT METHOD(S): Examen

COURSE TITLE: LITTÉRATURE ET CRÉATIVITÉ

ECTS CREDITS: 3

TYPE OF COURSE: Obligatoire

COURSE OBJECTIVE(S): l'étude de la polyphonie des voix littéraires, la mise en évidence de la pluralité littéraire francophone grâce à l'étude des

œuvres des écrivains ouverts à une perspective pluriculturelle; simuler le dialogue des cultures, réarrangées en fonction des affinités esthétiques ou thématiques, par exemple, la littérature de l'identité culturelle belge, canadienne, etc.

COURSE CONTENTS: La genèse de l'œuvre littéraire ; « L'Auteur et l'œuvre. Le créateur créé » - « Le Poème achevé » - « La Poésie – construction de soi et autognose » ; L'espace des littératures ; les littératures francophones: les pays ayant Français comme langue maternelle – l'Europe francophone ; les pays créoles où Français est la deuxième langue ; les pays où Français est la langue officielle ou la langue usuelle - la plupart, d'anciennes colonies françaises ; les pays où Français est la langue privilégiée ; la littérature/la créativité littéraire.

LA LANGUAGE OF INSTRUCTION: Français

ASSESSMENT METHOD(S): Épreuve écrite

COURSE TITLE: PROBLÉMATIQUE DE LA TRADUCTION

ECTS CREDITS: 3

TYPE OF COURSE: Obligatoire

COURSE OBJECTIVE(S): Cet atelier propose aux étudiants en Master (enseignants ou futurs enseignants) une perspective plurielle de la traduction, orientée sur la traduction comme processus et comme évaluation des connaissances de langue étrangère ; approche contrastive, axée sur les convergences et les divergences de la structure grammaticale des langues romanes (roumain et français) ; l'intégration des éléments culturellement marqués

COURSE CONTENTS: Cadre de référence: éléments de théorie et de méthodologie traductives. Modèles de communication. Critères textuels et extratextuels visant la qualité de la traduction. Analyse de la composante informationnelle des énoncés. Critères de sélection des textes (thème et version). Schéma de base en traduction didactique. Evaluation des éléments d'interculturalité. Explicitation du texte. Types d'exercices centrés sur les procédés utilisés en traduction. Traduction des textes en langues de spécialité. Critères d'évaluation: évaluation globale, individuelle et traitement des erreurs

ASSESSMENT METHOD(S): Examination

COURSE TITLE: ECONOMIC AND TECHNICAL LANGUAGE (ENGLISH)

ECTS CREDITS: 4

TYPE OF COURSE: Specialty

COURSE OBJECTIVE(S): to familiarize students with particularities of economic and technical language and equip them with the necessary skills for the translation market

COURSE CONTENTS: Cross-cultural economic translation; Ethics and Social Responsibility; Commercial Law; Operational Management; Technical translation; Technical communication

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: LANGAGE ÉCONOMIQUE ET TECHNIQUE (FRANÇAIS)

NOMBRE DE CRÉDITS: 4

TYPE DE DISCIPLINE: de Spécialité

OBJECTIFS DU COURS: Initier les étudiants à l'étude linguistique des documents économiques et techniques actuels. L'assimilation et l'utilisation adéquate des concepts théoriques et opérationnels de la linguistique française dans le domaine de la traduction économique et technique. Maîtriser la terminologie du domaine économique et technique.

Développer de la compétence des étudiants d'appliquer des stratégies de traduction spécifiques à la traduction du langage économique et technique.

CONTENU DU COURS : La définition et l'analyse de l'évolution des concepts de langage économique et technique, langages à objectifs spécifiques, langages spécialisés. Le langage de l'entreprise et la communication spécialisée perspectives de description. La dimension lexicale des langages économique et technique : la définition des concepts de lexique/vocabulaire/terme de spécialité. La problématique de la terminologie dans la perspective de la création de nouveaux termes. Caractéristiques du vocabulaire des langages économique et technique (approches du point de vue du statut, de la structure, du contenu). La dérivation syntagmatique et paradigmatic. Problèmes spécifiques à la traduction du vocabulaire de spécialité. La dimension grammaticale : types de phrase dans le langage économique et technique. La structure de la phrase. Le rapport entre le statut obligatoire ou facultatif des constituants de phrase et leur pertinence dans la structuration du sens spécifique dans les langages économique et technique. Les textes de spécialité en langage économique ou technique – l'unité du discours et le support de la traduction.

LANGUE D'ENSEIGNEMENT: français

ÉVALUATION: Epreuve écrite

COURSE TITLE: FACHSPRACHE DER WIRTSCHAFT UND DER TECHNIK (DEUTSCH)

ANZAHL DER ECTS-PUNKTE: 4 ECTS

VERANSTALTUNGSART: Fachpflichtkurs

LERNZIELE: Der Kurs zur Einführung in die Fachsprache der Wirtschaft und der Technik hat das Ziel, einerseits die Studierenden mit Grundbegriffen, mit dem jeweiligen Fachwortschatz und den typischen Textsorten vertraut zu machen, die im Wirtschaftsdeutsch bzw. im technischen Deutsch vorzufinden sind. Durch wiederholte Übersetzungsübungen anhand von Beispielen aus echten sowie aus überarbeiteten deutschen Fachpublikationen sollen die translatorischen Fähigkeiten der Kursteilnehmer intensiv trainiert werden. Andererseits sollen die Studierenden in einem weiteren Schritt zur Produktion von wirtschaftlichen und technischen deutschen Fachtexten befähigt werden.

INHALTE DER VERANSTALTUNG: 1. Fachsprache Wirtschaftsdeutsch: Grammatische, lexikalische und funktionale Grundmerkmale; 2. Typische Textsorten des Handels (Handelskorrespondenz, Geschäftsbriefe) und des Bank- und Rechnungswesens; 3. Unternehmungsgrundlagen und Marketing, Wirtschaftskommunikation online, Texte der Wirtschaftspresse (Leitartikel, Kommentar), Vertrag, Kaufvertrag, Mietvertrag, Protokoll, Anfrage, Bestellung, Rechnung, Auftragsbestätigung, Quittung, Beschwerde, Stellenanzeigen, Lebenslauf,

Bewerbungsschreiben, Vorstellungsgespräch; 4. Sprache der Technik: Fachwortschatz und typische Textsorten; technische Dokumentationstexte, Gebrauchsanweisungen; 5. Hilfsmittel (Wörterbücher, Lexika) und Webressourcen für die Übersetzung von wirtschaftssprachlichen und technischen Texten; renommierte Fachpublikationen.

UNTERRICHTSSPRACHE: Deutsch

PRÜFUNGSART: Klausur

COURSE TITLE: QUALITY MANAGEMENT IN SPECIALIZED TRANSLATION

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): To understand and use specific knowledge related to the Quality Management in Specialized Translation; to explain and interpret practical contents in specific contexts;; critical and constructive reflection in assimilating the specific conceptual content of the subject.

COURSE CONTENTS: Translator's status in contemporary society; Translator's profession; Rights, obligations and professional standards; International organizations ; Translators networks ; The role of international organizations in professionalizing the translator's job ; Rights, obligations and professional standards. International organizations. A short history and general introduction. Medium and long term perspectives. Management of daily translating activity. Law, financial and fiscal aspects. The European market of specialized translation. Legal and organizational framework. Professional and social mobility and cohesion. Case studies. How to approach collaboration offers. Customer relations.

ASSESSMENT METHOD(S): Oral examination

2ND YEAR, 1ST SEMESTER

COURSE TITLE: USING AND ADMINISTERING DATA BASES

ECTS CREDITS: 4

TYPE OF COURSE: COMPULSORY

COURSE OBJECTIVE(S): acquiring the general concepts of data bases; presenting different patterns of describing data, especially the relational model; acquiring the operations specific to relational algebra; relational data basis normalization; acquiring specific notions of data integrity and security; acquiring the ability to use an interrogation language in designing a data basis.

COURSE CONTENTS: Concepts and problems regarding data bases; aspects regarding data basis organisation; data basis definition and architecture; data basis classification; aspects concerning data basis designing: designing conceptual external and internal schema. Logically structuring data: data logical patterns and the entity-attribute-relation model. Data bases with hierarchical structures and networks. Relational data bases: relations, domains, attributes and the schemata of a relation, informational and boolean operations, constraints on relation integrity.

Data query languages for relational models: relational algebra, relational calculus for tuples and domains, query optimisation criteria. Data basis integrity constraints: functional dependence, multivalued and

generalised. Relational data bases structuring: normal forms in data bases, relation normalisation techniques. Data bases of physical structure : files structuring, files organisation structure, types of file organisation, searching and memorising methods. Data bases integrity and security.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: STRATEGIES, TECHNIQUES AND MEANS OF TEXT TRANSLATIONS

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

OBJECTIVES OF THE COURSE: Proper usage of contrastive aspects (convergent and divergent) in both languages: source-language and target-language; proper usage of translation strategies, techniques and means; team work; interpersonal communication and taking on specific roles.

CONTENT OF THE COURSE The features of a literary text. Literary genres and types of texts. Linguistic translation. Cultural dimension of translation. Direct and indirect means of translation. Types of equivalences and their part in adopting adequate translation strategies best suited for different types of texts. Ambiguity in translation. Difficulties in translating the literary text: puns, culturemes, phraseologisms. Translation criticism (applying traductology ca traducerii (aplicarea translation standards, their objective and subjective limitations). Literary translations for a specific type of public and optimising translation strategies and techniques (omission, adaptation, euphemism).

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE CONTENTS: Cross-cultural economic translation; Ethics and Social Responsibility; Commercial Law; Operational Management; Technical translation; Technical communication

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: LA TRADUCTION COMME MÉDIATION CULTURELLE (FRANCAIS)

NOMBRE DE CRÉDITS: 4

TYPE DE DISCIPLINE: Optimale

OBJECTIFS DU COURS: La familiarisation des étudiants avec la problématique de la traduction envisagée comme processus de médiation entre deux ou plusieurs cultures. L'appropriation d'un appareil terminologique et conceptuel opérationnel dans le domaine de la traduction et de la médiation culturelle. La réalisation d'une image d'ensemble des finalités, des stratégies de traduction et des contenus linguistiques et culturels véhiculés dans le transfert linguistique. L'approfondissement des connaissances de culture et de civilisation française et roumaine.

CONTENU DU COURS : Définition de la traduction ; unités de traduction. Types de traduction; traduction/ interprétariat ; traduction littéraire/traduction spécialisée. Modes et procédés de traduction ; transformations grammaticales, lexicales, stylistiques. La notion de situation de traduction. La notion d'équivalence culturelle. L'interculturel dans la traduction. Problèmes concernant différentes visions du monde. Traduction des exotismes et des « situations spécifiquement culturelles ». Les culturèmes et leur

équivalence. Procédés stylistiques dans la traduction. Analyses des éléments culturels présents dans des textes littéraires et de spécialité. Analyse et traduction des éléments culturels inscrits dans la langue (unités lexicales, phraséologiques, parémiologiques, stéréotypes, etc.)

LANGUE D'ENSEIGNEMENT: Français

ÉVALUATION: Examen

COURSE TITLE: LANGAGE MÉDIA ET SOUS-TITRAGE (FRANÇAIS)

NOMBRE DE CRÉDITS: 2

TYPE DE DISCIPLINE: Optionnelle

OBJECTIFS DU COURS: L'initiation des étudiants à l'étude du langage média. La définition et l'analyse des concepts de langage média, sous-titrage de film, etc. L'étude de la problématique de la terminologie de spécialité dans la perspective de la création lexicale. L'approfondissement de l'étude de la construction du message média et des éléments spécifiques de la traduction pour le sous-titrage de film. Le développement des compétences des étudiants d'appliquer des stratégies de traduction adéquates au domaine.

CONTENU DU COURS : Description des pratiques de transfert linguistique dans les médias. L'impact des pratiques de transfert linguistique sur la capacité de la population à parler et/ou comprendre des langues étrangères. La corrélation entre les pays qui présentent des niveaux élevés de compétence linguistique et la tradition du sous-titrage par rapport au doublage. La relation entre connaissance des langues étrangères et préférence pour le doublage ou le sous-titrage. Le potentiel du sous-titrage pour encourager l'apprentissage et améliorer la maîtrise des langues. Le rôle du sous-titrage comme catalyseur dans l'apprentissage des langues. L'impact éducatif du langage écrit et du langage parlé à l'écran. Description des obstacles à l'utilisation du sous-titrage. Le rôle du sous-titrage dans la création d'un environnement favorable aux langues en Europe. Pratiques de traduction linguistique dans les médias.

LANGUE D'ENSEIGNEMENT: Français

ÉVALUATION: Epreuve écrite

COURSE TITLE: LA TRADUCTION LITTÉRAIRE – APPROCHES CONTEMPORAINES (FRANCAIS)

NOMBRE DE CRÉDITS: 3

TYPE DE DISCIPLINE: Optimale

OBJECTIFS DU COURS: L'initiation des étudiants à la théorie et à la méthodologie de la traduction littéraire, analyses de traductions d'une série de textes littéraires ou de critique et de théorie littéraire. L'assimilation d'un appareil terminologique et conceptuel opérationnel dans la traduction littéraire, des textes de critique ou de théorie littéraire. La mobilisation de connaissances encyclopédiques, pluriculturelles, des étudiants afin de proposer des solutions de traduction ou des analyses pertinentes d'un texte traduit.

CONTENU DU COURS: Typologie de la traduction – typologie du traducteur. De la traduction littéraire à la traduction (re)création artistique : la relation auteur – œuvre – traducteur. Les tendances déformantes de la traduction dans la vision d'Antoine Berman (applications à la traduction de la prose) : la rationalisation, la clarification, l'allongement, l'ennoblissement et la vulgarisation, l'appauvrissement qualitatif, l'appauvrissement quantitatif, l'homogénéisation, la destruction des rythmes, la destruction des réseaux signifiants sous-jacents, la destruction des systématismes textuels, la destruction (ou l'exotisation) des réseaux langagiers vernaculaires, la destruction des locutions et idiotismes, l'effacement des superpositions des langues. Particularités de la traduction du texte théâtral et du texte poétique : repères théoriques et analyses de traduction. Entre le traduisible et l'intraduisible : difficultés de la traduction littéraire (la traduction des jeux de mots, de l'intertextualité, des textes écrits en respectant certaines contraintes d'écriture – par exemple, les textes de type oulipien).

LANGUE D'ENSEIGNEMENT: Français

ÉVALUATION: Epreuve écrite

NOMBRE DE CRÉDITS: 20

TYPE DE DISCIPLINE: obligatoire

OBJECTIFS DU COURS: Présenter la gestion de projet par l'exposé des principales théories du domaine ainsi que des principaux outils informatiques à disposition ; décrire la gestion de projet dans le domaine de la traduction ; mettre en place un projet de traduction ; analyser l'impact des méthodes utilisées sur la qualité de la traduction globale.

CONTENU DU COURS: 1. La gestion de projet : éléments de définition, théories, méthodologies et outils de planification, outils informatiques. 2. La gestion de projet dans le domaine de la traduction. 3. Exemple d'un projet de traduction. 4. Analyse de l'impact de la gestion sur le projet de traduction.

LANGUE D'ENSEIGNEMENT: Français

ÉVALUATION: Projet

COURSE TITLE: RESEARCH PAPER INTERNSHIP

ECTS CREDITS: 10

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): The internship involves guiding the students in the elaboration of the thesis by the coordinator by documenting in libraries and consulting the specialized bibliography.

CONTENTS: Elaboration and completion of the paper according to the established plan, of the specialty bibliography and in accordance with the writing rules of the graduation thesis.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Oral examination

FIELD: PHILOLOGY
PROGRAMME TITLE: PARADIGMS OF ORGANISATIONAL COMMUNICATION
MASTER'S DEGREE

1ST YEAR, 1ST SEMESTER

COURSE TITLE: THEORY OF ORGANISATIONAL COMMUNICATION

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): The course aims to complement the subjects studies on the first MA by focusing on the study of organisational internal and external communication. Lately, change has been one of the most evident characteristics of modern society; consequently, the main variable a company's success or survival depends on is the way in which an organisation adjusts both inside and outside. In this context, communication becomes a basic resource that triggers new functional configurations.

COURSE CONTENTS: Organisations – content and characteristics. Communicatin styles. Formal and informal communication. Horizontal (same hierarchical level), ascendent (subordinate – superior) or descendent communication. Internal communication (within the organization), external communication (with partners, customers, collaborators, suppliers, etc). Spontaneous and strategic internal communication. External communication. The strategic dimension of organisational communication. Organisational culture. Communication and adjustment to change.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Exam

COURSE TITLE: LEADERSHIP AND MANAGEMENT OF HUMAN RESOURCES

ECTS CREDITS: 5

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): To discuss changes that occurred within organisations and in managerial practices as a result of the development of modern management techniques. To identify the contributions of various schools to the development of managerial thinking. To describe the manager from the point of view of his/ her functions, roles and abilities. To understand the reasons why managerial theories and practices have changed along the years. To understand leadership as a component of the manager's role and the importance of leadership in human resource development. To familiarise students with the principles and functions of human resource management. To understand the sequential process in which human resources are ensured, developed and motivated.

COURSE CONTENTS: Leadership. Characteristics of a leader. Four characteristics of strong leaders.

Approaches to leadership. Leader/manager behavior research. X and Y theory. Teoria X și Teoria Y. Mangerial grid. I-IV systems. The situational theory of leadership. The route-target model. Leaders' failure. Development of ideas. Values and the leader. Leadership and human resource management. Definition, importance, principles and objectives. The functions of human resource management. Ensuring human resources. Human resource planning. Recruitment and selection. Integration of new employees. Human resource development. Training and skills upgrading. Career management. Organisational development. Human resource motivation.

ASSESSMENT METHOD(S): Examination

COURSE TITLE: EDUCATION COUNSELLING ETHICS

ECTS CREDITS: 6

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Knowledge and understanding of the different concepts in the field

of Education counselling ethics; Description of the different types, methods and training techniques specific to the field; Knowledge of the main theories and paradigms regarding ethics and deontology in educational counseling; The methodical use of the concepts and theories specific to the discipline Education counselling ethics; Identifying practical educational situations of application of theories and specific training methodologies; Using self-evaluation methods of learning, taking into account the specifics of their own professional activity; Compliance with professional deontology rules based on explicit value options; Working in teams to solve different learning tasks; Developing an empathetic behavior and helping guidance.

CONTENTSS: Introduction to Education counselling ethics; The categories of ethics, moral progress, moral virtue, moral duty; Deontology and the ethics of authority; Fundamentals of ethics and deontology in educational counselling; Deontology and educational counselling; The deontological code of the educational counselor and career development; Deontology and pedagogy; The deontological code of the teaching staff; Ethical requirements in deontological education; perspectives in postmodern ethics and deontology.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): oral Examination

COURSE TITLE: COUNSELLING INTERNSHIP

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S):

Analysis of the cultural and organizational climate specific to internship institutions; Multidimensional analysis of the activities observed in counselling practice; Acquiring active strategies for achieving an operative and continuous feed-back; Identifying practical educational situations that can be addressed through effective strategies and research activities; Using methodological models for designing and conducting research to design and implement research projects in internship institutions; Using self-assessment methods of learning; Compliance with professional deontology rules based on explicit value options; Working in teams to solve different learning tasks; Using specific methods to develop a personal and professional development plan; Developing empathetic behavior and helping guidance.

COURSE CONTENTS: Activities of general knowledge of the school institution, of studying the cultural and organizational climate (using specific research methods: scientific observation, participatory observations, questionnaires, focus groups); Activities for the observation of educational counselling activities recorded in observation protocols; Activity for the observation of activities specific to the assessment of the school and professional path, recorded in observation

protocols; Activity for the observation of documents relating to counselling and career development; Involvement in designing educational counselling activities by studying documents from educational institutions where the applicative internship takes place; Development of projects - exercise in the field of educational counselling, the practice of specific tools (interest questionnaires and aptitude tests)

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Oral Examination

COURSE TITLE: RESEARCH PEPER INTERNSHIP

ECTS CREDITS: 4

TYPE OF COURSE: Compulsory

COURSE OBJECTIVE(S): Developing the capacities for documenting and synthesizing the relevant contributions in the field of the studied subjects; Assimilation of optimal strategies for achieving a successful dissertation thesis; Developing the capacity to analyze the basic structures and the main stages in the elaboration of a dissertation thesis; Using self-assessment methods of learning, taking into account the specificities of educational management activities; Comparative analysis of the strategies, modalities and techniques of writing a dissertation paper; Using effective NTIC tools in developing a dissertation paper; Compliance with the professional deontology rules based on explicit value options; Working in teams to solve different learning tasks; Developing empathetic behavior and helping guidance.

COURSE CONTENTS: The methodology of educational research - update; Steps to elaborate a dissertation thesis (Choosing the topic; Documenting; Elaborating the framing plan; Requirements for Writing the dissertation); Structure of a dissertation thesis (Introduction, Theoretical-methodological fundamental part, Practical-applied part, Conclusions, Bibliography, Appendices); The process of elaboration of the dissertation thesis. Terms, rules, style of writing; Criteria for the (self) evaluation of the CONTENTS of the dissertation paper; Criteria for the (self) evaluation of the presentation of the dissertation paper; Applications (Presentation of the CONTENTS of dissertation papers, Presentation of the research methodology and the results obtained, Simulations aimed at presenting dissertation papers).

ASSESSMENT METHOD(S): Preliminary Examination

FIELD: DRAMA AND PERFORMING ARTS
PROGRAMME TITLE: THEATRICAL PERFORMANCE
MASTER'S DEGREE

1ST YEAR, 1ST SEMESTER AND 2ND SEMESTER

COURSE TITLE: CULTURAL ANTHROPOLOGY

ECTS CREDITS: 4/SEMESTER

TYPE OF COURSE: Compulsory, synthesis

COURSE OBJECTIVE(S): The course aims to provide the knowledge regarding the European culture and civilization background; to explain and interpret the cultural movements that have marked the evolution of the European culture;

COURSE CONTENTS: The object and importance of philosophical and cultural anthropology. The concept of cultural anthropology. Human and culture. Cultural anthropology relations with political anthropology and culture philosophy. Ancient Anthropology. Modern and contemporary anthropology. Philosophical anthropology and religious anthropology. Directions in contemporary anthropology Urban cultural specificity

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Test

COURSE TITLE: CREATIVITY WORKSHOP

ECTS CREDITS: 5/SEMESTER

TYPE OF COURSE: Compulsory, deepening

COURSE OBJECTIVE(S): Developing and deepening the vision of actor's thinking by cultivating and developing individual skills through actor-specific exercises with a high degree of complexity; Deepening the means of the creation process in the theater, developing the acting techniques and skills; Practical realization and mounting of scenes from complex dramatic texts (ancient drama, Shakespeare, Chekov, Ionesco, contemporary texts etc.) depending on the personality of the student.

COURSE CONTENTS: Establishing, deepening and stimulating the student's creativity as a process of recovery of human totality, of the entire individual potential, a complex formation of new skills, specific to an activity of spiritual and psychological-physical performance, to overcome the limits of the common person. The process of experimentation and recovery of the five senses, of all types of memory and imagination, as well as of all mental processes, actually processed, not only superficially symbolic and mimicked, of sensory information obtained by correctly, honestly and also imaginatively relating to static objects and live dynamic subjects, as well as to environmental events, in a permanent relationship with the dynamics of situations and through a strict observance of established themes and rules, until the specific mechanism of the actor's creativity has been acquired, namely to transform the convention (the theme proposed) into a procedural objective

psychic reality that also determines the appropriate behaviors naturally and organically.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: THEATRICAL PERFORMANCE

ECTS CREDITS: 5/SEMESTER

TYPE OF COURSE: Compulsory, synthesis

COURSE OBJECTIVE(S): Review of techniques and methods acquired during Cycle I; Acting art starts from the necessity of learning about the human being, of the objective and subjective reality. Deepening the knowledge aims to develop the student's personal value, and confidence in the ability of self-improvement in order for the student to be able to adapt to any concrete conditions in the theatre. Creation of specialists in the improvisation approach of (literary or dramatic) classical works in a cognitive perspective of inter-disciplinarity. This theoretical and especially practical subject, a field less studied today, tends to explore, to study the contemporary bio-social conditions that impose diverse, exciting locations - for the ultimate creation of a new form of performance. Formation of refined specialists meant to change or remodel the world of the modern performance.

COURSE CONTENTS: The paths and the modalities of the conversion of the dramatic text into a scenic performance (imagining the journey from the text to the performance). The actor's tools: The overall character's objective; Objective of the scene; Physical, emotional and mental obstacles; substitution; Inner images; Intention and action; The pre-scenic moment; The scenic space and the fourth wall; Acts of staff; Inner monologue; The story of the character; Pleasure of playing (relaxation). Analyzing classic dramatic texts. Finding contemporary correspondence and identifying the new means of expression that are being proposed. Studying the specific "improvisation" means for an artistic completion; as an academic and professional Test, the student must succeed on his/her own to bring out the special qualities of the one who (in this masters) conceives a powerful and refined whole (a performance) .

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: FILM ACTING TECHNIQUES

ECTS CREDITS: 4/SEMESTER

TYPE OF COURSE: Compulsory, deepening

COURSE OBJECTIVE(S): Capability to memorize, repeatability, distributive attention, assuming relationship with the partner and the camera, capability to identify with the proposed situation and the connection of thinking

COURSE CONTENTS: the course includes notions of deepening the film technique through the

elaboration of the filming technique notions according to the plans, the connection of the thought, the post-synchronous technique, the filming under unfavorable conditions, the process of repetitiveness in any given situation, the notions of conception, the signing of a film contract and / or television, watching movies in different cinematic styles, presenting, taking risks and assuming a program of the shooting day, notions about eating, recreation and everyday life in relation to a cinematic career

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Test

COURSE TITLE: ART PROJECT MANAGEMENT

ECTS CREDITS: 4/SEMESTER

TYPE OF COURSE: Compulsory, deepening

COURSE OBJECTIVE(S): Training skills in project management; assimilation of the theoretical and operational concepts in the field of project management; ability to identify and apply management methods in professional activity to achieve greater efficiency and effectiveness.

COURSE CONTENTS: 1. Management-culture-art interaction; 2.Theoretical Fundamentals of Management; 3.Funds of project management; 4.Management modern at the level of the cultural and artistic project; 5. Nature and purpose of cultural and artistic project; 6.Objects of projects - General aspects; 7. Organization of project management in general; 8. The process of elaborating the artistic project; 9.Models of project identification and uniformity; 10.Registration of the project proposal; 11.Implementation of the project; 12. Evaluation of the project; 13. Project evaluation - Principles of work; 14.Project selection process, specific criteria and tools ofevaluation; 15.Management of project teams; 16. Management of communication within the artistic project; 17. Artistic project management and financial profit; 18. Managing the management of material resources within the project; 19. Types of expenses in the artistic project 20. The budget of the artistic project; 21.Financing the artistic project from public sources; 22.Financing the project from private sources; 23.Contacts - Definition and mode of administration; 24.Management of risk; 25.Management of artistic project marketing;26.Management of project quality; 27. Classification of cultural and artistic programs and projects according to the area of interest criterion; 28. Interaction between market economy, art and projects oriented towards cultural-economic products.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Test

COURSE TITLE: IMPROVISATION AS PERFORMANCE

ECTS CREDITS: 4/1ST SEMESTER

TYPE OF COURSE: Optional, synthesis

COURSE OBJECTIVE(S): Creating specialists in approaching classical (literary or dramatic) works through improvisation in a cognitive perspective of interdisciplinarity; This theoretical and especially practical subject tends to explore, to study the contemporary bio-social conditions that impose diverse, exciting locations - for the creation of a new form of performance; The formation of refined specialists meant to change or remodel the world of modern performance; During the two years of the Master - "Improvisation as a form of performance", the student must trainhimself as a cultured, always impressed person, seeking new forms imposed by the Romanian life or the European community

COURSE CONTENTS: 1.Analysis of dramatic texts (at the student's proposal) - identification of means of expression specific to improvisation; 2. Studying the specific "improvisation" means for artistic finalization, for an academic and professional achievement; 3. Forming individuality and developing the personality of the future actor-creator student; 4. The mode of expression of the student through: subjectivity (creative individuality); 5.Function of awareness; 6. Corrective training - in the creative process; 7. The psychological gesture and improvisation; 8. The role of improvisation in the development of scenic skills; 9.Definition of the scenic space in order to perform the improvisation performance; 10. Psychological Unity in Scenic Communication Action; 11.Behaviour, specific means of expression in the art of improvisation; 12. Scenic improvisation, making the final performance

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: DECLAMATION AND PROSODY

ECTS CREDITS: 4/2ND SEMESTER

TYPE OF COURSE: Optional, synthesis

COURSE OBJECTIVE(S): Vocal force and stylistic refinement; verbal, non-verbal communication. Body. Relationships with the scenic background and lights, costume, props, sounds, etc.

COURSE CONTENTS: 1. Purpose of the text in the tradition of the theater. Written text and scenic text. The metamorphoses of the written text in the scenic reading process; 2. Rhythm. Tempo. The emphasis. Intonation and intonation subjectivity. Voice intensities ; 3. Inner technique (emotions), outer technique(logic). Expressive effects.; 4. The oral feature of the text, the correlation of speech with the other elements (spatial, sound, visual, etc.) of the final artistic product; 5. Monologue, on a dramatic Shakespearean text.

2ND YEAR, 1ST SEMESTER AND 2ND SEMESTER

COURSE TITLE: CULTURE AND GLOBALIZATION

ECTS CREDITS: 3/SEMESTER

TYPE OF COURSE: Compulsory, synthesis

COURSE OBJECTIVE(S): Establishing models and systems of exegesis and appreciation (skills) by reference to the evolution of the 20th century auctorial models; knowledge, understanding and explanation of the elementary notions and events specific to the history of the European culture and civilization; developing an extensive vocabulary allowing the interdisciplinary dialogue.

COURSE CONTENTS: Europe from the beginning of the Middle Ages to the Renaissance. Renaissance and European Enlightenment. Diversity of cultures - the unity of European civilization. European culture in modern times. European culture and civilization in the perspective of globalization. Culture and civilization trends. Models of organization and foundation of culture: gnosiological model, cosmological model, ontological model

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: SPECTACOLOGY

ECTS CREDITS: 3/SEMESTER

TYPE OF COURSE: Compulsory, synthesis

COURSE OBJECTIVE(S): Acquiring a basic vocabulary common to all specialties in the field of performing arts; Establishing models and systems of exegesis and appreciation (skills) by reference to the evolution of the performance art; Providing students with comparative analysis tools, chronologically designed to assimilate information about the past in terms of present and utility for the profession today; Developing an analytical thinking that supports the formation of a professional artistic conception of the future specialists in performing arts (actors, directors, etc.)

COURSE CONTENTS: 1.The performance in the ancient Greece: the structure of the acting area; the importance of the ritual; the dramatic text; Aristotelian concepts (mimesis, katharsis); theatre and its role in society; 2. Forms of performance in the Roman Empire: theatre, gladiators, public executions; the social role of the show (bread and circus); contributing to the formation of a realistic view of theater; 3.Theatricality in the Oriental performance - "Empire of Signs": India, China, Japan; 4. The show-church relationship in the Middle Ages; 5. The Renaissance theatre and the configuration of the humanistic theories about drama; 6. Renaissance in Spain (the Spanish "golden age") - Lope de Vega, Tirso de Molina, Cervantes; English Renaissance theater and its poetics; "The Shakespeare case"; 7.Classicism: Aesthetic rationalism and philosophical rationalism 8. Enlightenment. Rationalization of the theatrical act; about theatre as a "moral institution";

9.Romanticism. The free and open concept of art. Analysis of beauty, genius and taste. The preference for the miraculous and freedom of fantasy, the nature-truth alliance, the refusal of norms, the function of the audience. Theatre and myth; 10. Realism and Naturalism. Theater as a "social organ"; drama of ideas and psychological drama; 11.Romanian estheticians and playwrights about the performing art: Tudor Vianu, MihailRalea, I.L. Caragiale, G.M. Zamfirescu, Mihail Sebastian, V.I. Popa, Camil Petrescu; 12. Commenting the performance in the specialized press. The role of criticism in the evolution of the performing art.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: CREATIVITY WORKSHOP AND DRAMA RESEARCH

ECTS CREDITS: 5/SEMESTER

TYPE OF COURSE: Compulsory, deepening

COURSE OBJECTIVE(S): Developing the creative capability in every specific compartment of a theatrical production (technically and artistically); Assuming the responsibility of elaborating and presenting a personal theatrical project that illustrates practically the theme of the thesis.

COURSE CONTENTS: The course starts with discussions on the theme of the thesis and on the appropriate text to be chosen to support practically the ideas presented in the thesis, if the theme refers to a dramatic text. In case the theme refers to a theatrical concept, the master student has to create an original text. The coordinating teacher will take care that the students are oriented to wards original, personal solutions both in conceiving the performance and in performing. Avoiding theatrical clichés and common places, both in performing and in conceiving the performance to be presented, is a desideratum that the students' creative phantasy has to accomplish totally freely. The difficulties of such an approach can be overcome by collective debates and, last but not least, by stimulating the competitiveness.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Examination

COURSE TITLE: STAGECRAFT AND PRODUCTION MANAGEMENT

ECTS CREDITS: 5/SEMESTER

TYPE OF COURSE: Compulsory, synthesis

COURSE OBJECTIVE(S): Experimenting the acting art in the process of collective and individual creation of the actor in order to open a vast field of experimentation, discovery and knowledge, human knowledge and interrelation; Knowledge and practice of the notions and means used in the art of theater direction and their prolongation in the art of the actor; Practical realization and mounting of scenes from complex dramatic texts (ancient drama, Shakespeare, Chekhov, Ionesco, contemporary

texts etc.) depending on the personality of the student.

COURSE CONTENTS: Object and subject of theatrical art: multidimensionality of human resources and nature. The duality and contradictions of human behavior; The specificity of the performing art: the emitter called ACTOR. Repetition and innovation in the art of the actor; The basic notions of the theatre director book. Review of the acquisitions of the acting means. Being an actor today; The practical research piece applied in the theatrical experiment. Exercises that stimulate the discovery and modeling of the artistic personality of a personal vision of the art of the performance. Ceremony in the presence of an audience - theater performance

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Test

COURSE TITLE: ACTING PORTFOLIO

ECTS CREDITS: 5//SEMESTER

TYPE OF COURSE: Compulsory, synthesis

COURSE OBJECTIVE(S): Knowledge and pursuit of the artistic act according to the predefined geometry of the scenic space, Implementation of speech techniques adapted to the main stage of a theatre. Expansion of the message. Adaptation to working conditions in the professional theater, Rehearsal training to create a character in the parameters of the dramatic text, Deepening the notions of makeup and hairdressing.

COURSE TITLE: STYLISTICS OF MUSICAL CREATION

ECTS CREDITS: 4/SEMESTER

TYPE OF COURSE: Compulsory, of synthesis

COURSE OBJECTIVE(S): The synoptic approach to the phenomenology of musical creation - in terms of stylistic parameters. Refining the analytical skills in the three dimensions of musical language. Deepening the stylistic determination in relation to the predominance and configuration of musical language elements, as well as musical forms and genres. Revealing the expressive peculiarities that subtly impress the interpretative style and, consequently, improving the students' discernment for choosing the best means to stylistically perform their own interpretations. Students will acquire the knowledge of musical stylistics of various eras apply it to practice.

COURSE CONTENTS: Musical language - dimensions, expressive valences, stylistic evolution. Musical interpretation and the performer's role - in the context of stylistic evolution. Musical text and musical notation variety -the expression of stylistic evolution. Baroque - aspects of musical language elements in the Italian Baroque - Monteverdi, Peri, Torelli, Corelli, Vivaldi. Baroque - aspects of musical language elements in the French Baroque -Leclair, Rameau, Couperin. Baroque - aspects of musical language elements in the German Baroque - J. S. Bach, Telemann, Haendel. The 18th century - Gallant style and the Mannheim

School - J. Chr. Bach, Boccherini, Johann Stamitz, C. Stamitz, Vanhal, Franz Danzi. Viennese Classicism - Stylistic interferences with Gallant style and the Mannheim School - Haydn, Mozart. Viennese Classicism - Stylistic interference with Gallant style and the Mannheim School - L. van Beethoven. Musical Romanticism, Programmatism and national schools in the 19th century - Berlioz, Schubert, Schumann, J. Brahms. National schools in the 19th century: Liszt, Chopin, Grieg, Saint-Saens, Smetana; Rimski-Korsakov, Ceaikovski, Musorgski. Romantic Opera - C. von Weber, Rossini, Wagner, Verdi, Donizetti, Bizet. Modernity - Postromanticism and Neoclassicism (R. Strauss, Puccini, Skriabin, Reger, Rachmaninov) Impressionism and its influences on musical creation (Debussy, Ravel, Szymanowski, I. Albéniz, P. Dukas, Respighi). The second Viennese School and its imprint on the creation of the era - Schönberg, A. Berg, A. Webern, I. Stravinski, G. Gershwin. Seminar: 1. Specific introductory notions of Latin language morphology and the Latin verbal system: word, root, stem, desinence, suffixes, prefixes. Vowel alternations e/o/zero. 2. The numeral in Latin language. Latin numeral formation and exercises with numerals. The Latin verbal system: inflexion, the four conjugations and the specific desinences. Specific grammar categories-voice, aspect, mood, tense, person, number. Inflectum and perfectum stems. Tenses formed by inflectum and perfectum stems. Finite moods (active, passive and middle voice-deponent verbs). Means of formation, suffixes and desinences. 5. Non-finite/nominal moods: infinitive, participle, gerund, gerundive, supine. Deponent verbs. 7. Irregular verbs.

ASSESSMENT METHOD(S): oral examination

COURSE TITLE: CONTEMPORARY MUSIC: LANGUAGE AND STYLE

ECTS CREDITS: 4/SEMESTER

TYPE OF COURSE: Optional, of synthesis

COURSE OBJECTIVE(S): An interdisciplinary approach which brings together the fields of music aesthetics, music history and music analysis, the main stylistic directions of the 20th century music; Deepening the knowledge of contemporary languages by theoretical and practical-analytical means; Understanding the ideatic, philosophical and aesthetic content of modern and contemporary artistic visions in close connection with the society history, with the spirit of the time; Students will acquire knowledge about the universal creation of the 20th century music and they will apply it to practice;

COURSE CONTENTS: Modernism in music: Modernism in French music, Modernism in German music, Modernism in Russian music; Impressionism - aesthetics and language. Claude Debussy. Influences of Impressionism in European Music (M. Ravel, G. Enescu, B. Bartok, C. Szymanowsky); Postromanticism – a synthesis movement at the beginning of the 20th century (G. Mahler, A. Schoenberg, G. Enescu); Expressionism - aesthetics and language. Tonal Expressionism (R. Strauss). Atonal Expressionism (A. Schönberg, A. Berg, A. Webern). Modal Expressionism (Stravinski, Bartok, Prokofiev); Modal Expressionism (Stravinski, Bartok, Prokofiev); Neoclassicism. Neoclassical aspects in the music of the first two decades (Busoni, Ravel, Enescu); Stravinskian Neoclassicism; French Neoclassicism (E. Satie, D. Milhaud, A. Honegger; German Neoclassicism (P. Hindemith); Italian Neoclassicism (P. Casella.); G. Enescu - evolution of the creation and style. Analysis of the works: Octuor, op. 7, Sonata no. 3 for piano and violin, op.25; G. Enescu - evolution of the creation and style. Analysis of the works: Opera Oedipe, Quartet op. 22, no. 2; Traditional composers. D. Şostakovich; Second wave Avangardism: Pierre Boulez and Karlheinz Stockhausen; stochastic music; Darmstadt School: Luigi Nonno, K. Stockhausen, P. Boulez; electronic music; Functional music: having aesthetic function, having commercial function, Ambient music: BrinEno (Music for airports); Music for advertisements, the video, music for movies; Entertainment shows - music-hall, variété; Musical theater in the second half of the 20th century; Pop music culture; Jazz music

COURSE TITLE: THE SCIENTIFIC FOUNDAMENTALS OF GAMES – BASKETBALL

CODE: D05ESCL104

ECTS CREDITS: 5

COURSE OBJECTIVE(S): The course is aimed at students of the first year and supports their understanding of basic concepts of the basketball game. The objectives of the course are: learning the technical elements and individual tactics of attack and defense; training profile best performer of practicing basketball game in regular conditions; developing the capacity to execute and demonstrate the main actions of individual technical-tactical actions in the 1: 1 relationship

COURSE CONTENTS: Course: 1. History and evolution of the game; 2. The constitutive parts of the basketball game; 3. The categorical and terminological system of basketball; 4. Trends of evolution in basketball game; 5. The features of the game; 6. Game and training concept; 7. Description of the basketball game. Basic rules in the practice of the game; 8. Basketball technique in attack; 9. The tactics of basketball game; 10. Rules

of the game. Seminar: 1. Learning basic position, change direction and motion into the field; 2. Learning to hold, catch, and take the ball from place, followed by travel; 3. Learning stops and pivoting; 4. Dribbling learning; 5. Learning shooting from the place and jump; 6. Learning shooting from running and from dribbling; 7. Fixing the technical elements acquired in complex and complex structures, playing in half and all over the field in the form of individual tactical attack and defense tactics; 8. Improving technical and tactical actions of individual and collective tactical combinations of attack and defense; 9. Developing the ability to apply technical-tactical knowledge in the game; 10. Basic rules - arbitration.

COURSE TITLE: LEISURE ACTIVITIES-ORIENTEERING

CODE: D05ESCL107

ECTS CREDITS: 3

COURSE OBJECTIVE(S): Acquiring theoretical and practical knowledge related to learning and strengthening the main elements and technical procedures specific to the orienteering discipline, as well as the main regulations in this sport.

COURSE CONTENTS: Course: 1. Main notions in orienteering; 2. Conventional signs on the orienteering map; 3. Notions of planimetry and levelment; 4. Courses of orienteering and age categories; 5. Important aspects of the regulation for orienteering competitions; 6. Working strategies in an orienteering race; 7. Leading lines and choice of displacement variants between control stations; 8. Means of technical training using compass; 9. The evaluation of the distance to go in the orienteering races and the description control points; 10. Description and classification of orienteering competitions by mode of movement; 11. Description of the type of orienteering races; 12. Classification of national and international orienteering competitions; 13. General physical training tips for beginners; 14. General aspects of technical training for beginner orienteers. Seminar: 1. The meaning of the colors and the main conventional signs on the orienteering map; 2. Geographical setting of the map; 3. Map setting using the compass; 4. Means of strengthening the technique using the finger compass; 5. Technics and basic strategies in an orienteering race; 6. Running an orienteering race, accompanied by a teacher; 7. Running individually an orienteering race in a park area; 8. Running individually an orienteering race in an urban area; 9. Identification of the attack points in an orienteering race; 10. Running an orienteering race using the back of the control stations; 11. Means of technical training for beginners; 12. Means of physical training for beginners; 13. Running an orienteering course in

competition conditions; 14. Participation in an orienteering competition.

1ST YEAR, 2ND SEMESTER

COURSE TITLE: THEORY AND METHODOLOGY OF PHYSICAL EDUCATION AND SPORTS

CODE: D05ESCL211

ECTS CREDITS: 5

COURSE OBJECTIVE(S): Acquiring the fundamental theoretical-methodological notions and development trends necessary for their proper usage in professional communication and their interdisciplinary correlation for a further satisfactory evolution in the field of study.

COURSE CONTENTS: Course: 1. The goals of physical education and sports; 2. The research methods in physical activities and sports; 3. Fundamental theoretic notions in theory and methodology of physical education and sports:

physical development, motor movement; Motor capacity, physical education and sports; 4. The system of the means of physical education and sports; 5. The content of the instructional and educational process of physical education (specific knowledge, somatic and functional parameters, motor qualities); 6. Speed and coordinative capacity: definition, restrictive factors, types, methods of development, means of action and the place and role in lesson; 7. Endurance: definition, restrictive factors, types, methods of development, means of action and the place and role in lesson; 8. Strength: definition, restrictive factors, types, methods of development, means of action and the place and role in lesson; 9. Flexibility: definition, restrictive factors, types, methods of development, means of action and the place and role in lesson; 10. Motor skills; 11. The lesson of physical education and sports - arguments, requirements, structure, training and coaching; 12. The effort in the lesson of physical education and sport: parameters, dosage, leading and determination; 13. Density of the physical education lesson; 14. Training methods. Seminar: 1. Physical education and sports as social activities; 2. Evolution of theoretical thinking in physical education and sports (2 hours); 3. Movement games (2 hours); 4. Forms of organizing the students and methods of organizing the exercises (2 hours); 5. Formulating themes and objectives in motor qualities and developing systems for students (4 hours); 6. Formulating themes and objectives in motor skills of locomotion, handling and stability and developing systems for students (4 hours); 7. Formulating themes and objectives specific motor skills in athletics and developing systems for students (2 hours); 8. Formulating themes and objectives specific motor skills in acrobatic gymnastics and developing systems for students (2 hours); 9. Formulating themes and objectives specific motor skills in sport games and developing systems for students (2 hours); 10. Applying (by groups) a density protocol to a lesson of physical education directly in the pre-university education units (2 hours); 11. Interpretation of the density protocol achieved in school units in pre-university education (2 hours).

COURSE TITLE: SCIENTIFIC FUNDAMENTALS OF FOOTBALL

CODE: D05ESCL214

ECTS CREDITS: 5

COURSE OBJECTIVE(S): This course addresses first-year-students of Physical Education and Sports Faculty and includes general notions regarding the theory and methodology of teaching the football game, all organized according to teaching the sports training factors (physical, technical, tactical,

theoretical, psychological or biological training) both in primary, secondary or high-schools and in the sports clubs with a football profile. There are also notions of recovery after effort injuries suffered by athletes, as football is a sport of contact. The vision promoted by the content - a profound analysis of the concrete mechanisms of approaching football in schools and in the training of performance footballers - is recommended, at the same time offering a useful guide to those who work in football at various levels.

ASSESSMENT METHOD(S): Exam

COURSE TITLE: THE SCIENTIFIC FUNDAMENTALS OF THE HANDBALL GAME

CODE: D05ESCL213

ECTS CREDITS: 5

COURSE OBJECTIVE(S): The discipline aims to know and use the proper terminology specific to the field and handball in particular, describing and demonstrating the operational systems corresponding to handball. It also seeks to select and develop operational handball specific systems in view of the intended purpose.

COURSE CONTENTS: Course: 1. Historical milestones of handball game development; 2. Handball as a means of physical education and sport; 3. Handball technique. Individual actions; 4. Tactics of handball; 5. Collective actions in attack; attack in system; 6. Collective defense actions; the game in system; 7. Defense system 6: 0; 8. Handball game regulation; 9. Phase I and Phase III of the attack - Counterattack and organization of the game; 10. Phase II of the attack - sustained counterattack; 11. Concept of playing and training in handball; 12. Concept of playing and training in handball; 13. Characteristics of the effort in the handball game. Contribution of the game to the development of specific motor skills; 14. The internal competition system and the rules for the organization of competitions Seminar: 1. The fundamental position for attack and defense. Movement in the field; 2. Holding, catching and passing the ball; 3. Dribbling, fence and misleading movements; 4. Throwing in the added, crossed and jump step; 5. Removing the ball from the opponent. Blocking throws. Attacking the opponent in possession of the ball; 6. Goalkeeper technique; 7. Phase II of the attack - sustained counterattack; 8. Phase II of the attack - sustained counterattack; 9. Phase IV of the attack - Game in the system; 10. Attack system with a pivot and two pivots; 11. Bringing the ball into successive advancement. The passes of hiring semicircle players; 12. Crossing. Firewall. Blocking and leaving the block; 13. Replenishment in defense. Taking over, teaching and exchanging people in defense; 14. Defense system 6 + 0.

ASSESSMENT METHOD(S): Exam

COURSE TITLE: THEORY AND PRACTICE IN GYMNASTICS – RHYTHMIC GYMNASTICS

CODE: D05ESCL317

ECTS CREDITS: 5

COURSE OBJECTIVE(S): Forming skills to apply the rhythmic gymnastics content according to the physical education curricula. Developing posture and confident body movement, enhancing coordination and agility, increasing flexibility and strength for students from different levels using specific apparatus and music.

COURSE CONTENTS: 1. Brief history and aspects of the modern rhythmic gymnastics' evolution. Object of the theory and methodology of rhythmic gymnastics; 2. Definition, characteristics, particularities, tasks, branches of rhythmic gymnastics in the system of physical education and sports; 3. Basic Body Preparation. Theoretical and methodological notions of aesthetic movements; 4. Body skills - features, execution characteristics, systematization; 5. The motor content of rhythmic gymnastics: variations of rhythmic and dance steps (definition, systematization, technical characteristics); 6. Conducted actions technique (systematization, characteristics); 7. Technique of inertial movements (definition, systematization, technical characteristics); 8. The technique of balance elements (definition, systematization, basic

mechanism, balance school). 9. Artistic jumps and turns; 10. Specific apparatus used in rhythmic gymnastics (Rope, hoop, ball, clubs, ribbon); 11. Basic rules for the composition of the exercises as a whole; Scoring Code Provisions in Rhythmic Performance Gymnastics.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Exam

COURSE TITLE: HANDBALL TEACHING METHODOLOGY IN SCHOOL

CODE: D05ESCL319

ECTS CREDITS: 5

COURSE OBJECTIVE(S): The general objective of the discipline is training students on how to teach handball in schools in accordance with the provisions of the framework objectives of physical education and with the provisions of the curriculum and the curriculum theory.

COURSE CONTENTS: Course: 1. Handball as a means of physical school education; 2. Methodology of teaching individual technical tactics; 3. Methodology of teaching techniques and techniques for attack game; 4. Counterattack and sustained counterattack; 5. Methodology of teaching techniques and techniques for attack game; 6. Organizing the attack, attacking the system; 7. Methodology of teaching technical elements for defense. Defense 6: 0 and 5: 1; 8. Methodology of teaching throws at the cross-linked, cross-jump and jump; 9. Methodology of Teaching the Phase I and Phase III of the Defense - Reploding and Organizing the Defense; 10. Methodology of teaching the technical elements and techniques specific to the goalkeeper's game; 11. Methodology of training the representative school team; 12. Organization of the handball base of performance; 13. Arbitration and organization of matches; 14. Methodology of delivering specific items and procedures to portals. Seminar: 1. The fundamental position for attack and defense. Movement in the field; 2. Holding, catching and bouncing the ball; 3. Dribbling, slopes and misleading movements; 4. Throwing in the added, crossed and jump step; 5. Removing the ball from the opponent. Blocking throws. Attacking the opponent in possession of the ball; 6. The goalkeeper's game; 7. Phase I of the attack – Counterattack; 8. Phase II of the attack - sustained counterattack; 9. Phase IV of the attack – system game; 10. Attack system with a pivot and two pivots; 11. Bringing the ball into a squalid penetration. The passes of hiring semicircle players; 12. Crossing. Firewall. Blocking and leaving the lock; 13. Replenishment in defense. Taking over, teaching and exchanging people in defense; 14. Defense system 6: 0, 5: 1.

ASSESSMENT METHOD(S): Written exam

COURSE TITLE: SPORTS FACILITIES

CODE: D05ESCL649

ECTS CREDITS: 3

COURSE OBJECTIVE(S): The course addresses students from Physical Education and Sports faculties, as well as teachers in pre-university education, specialists in the field, sports coaches and managers and all those who want to deepen their knowledge in this field. The course is structured on 14 chapters and is based on a documented bibliography on sports infrastructure and on techniques for setting up and maintaining sports facilities. It has 3 credits in the curriculum, being a compulsory, specialized discipline which

proposes a synthesis of data from the multitude of sources of prestigious authors in the field. The specific competences accumulated are professional and transversal and as objectives, the course aims at: Acquiring theoretical knowledge related to the arrangement, maintenance, operation and exploitation of sports facilities; Acquiring knowledge about the characteristics of sports facilities; Acquiring knowledge about the components of sporting bases; Acquiring knowledge about the location and construction of sports facilities.

COURSE CONTENTS: Course: 1. The material basis of sports organization; 2. The clasification of sports facilities, technical systems and sports instalations; 3. The characteristics of sports facilities; 4. The elements of sports facilities; 5. The improvement and endowment of sports facilities; 6. The location and construction of indoor sports facilities; 7. The location and construction of outdoor sports facilities; 8. Sports facilities regarding general physical training; 9. Steps in the improvement of sports facilities; 10. Human resources in sports facilities; 11. The maintenance of sports facilities; 12. Sports facilities and enviroment, the hygiene of sports facilities; 13. The protection and security of athletes and spectators activity; 14. The lighting and ventilation of gyms and stadiums. Seminar: 1. The clasification and characteristics of sports buildings; 2. Elements of sports facilities; 3. Rules regarding the improvement of sports facilities; 4. The plans regarding the maintenance of sports facilities; 5. Project regarding the upgrade and cleaning of sports complex; 6. The design of sports base with necessary annexes made by students; 7. The design of an organizational chart with staff involved in the management of sports base made by students.

COURSE TITLE: ANATOMY AND BIOMECHANIC II

CODE: D06KTC113

ECTS CREDITS: 5

COURSE OBJECTIVE(S): Development of basic knowledge about the human body, acquiring the basic notions of the anatomy of the nervous system as a theoretical and practical basis for the study of other fundamental disciplines.
LANGUAGE OF INSTRUCTION: Romanian/English
ASSESSMENT METHOD(S): Exam

COURSE TITLE: KINESIOLOGY

CODE: D06KTC109

ECTS CREDITS: 5

COURSE OBJECTIVE(S): The purpose of this course is to identify and explain the concepts, theories and specific laws of the human movement as well as the use of fundamental and specialized knowledge for their interpretation and application in practice. There are defined the principles of the movement as a therapeutic measure as well as indications, contra-indications and main forms of its practical application; The specific objectives learned from the study of this discipline are the achievement of correct reasoning through the use of the theoretical knowledge.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Exam

COURSE TITLE: PHYSIOLOGY

CODE: D06KTC114

ECTS CREDITS: 5

TYPE OF COURSE: Fundamental discipline

COURSE OBJECTIVE(S): The purpose of the discipline of Physiology is to give to the students the opportunity to understand how is the normal function of human body and how it is adapted to environmental variations. It is important to explain the variations of some biological parameters and to identify the factors that cause these variations. The students will be able to interpret the deviations from normality of some biological parameters and to find a clinical correlation; The specific objectives learned from the study of the discipline of Physiology are the setting up of strong theoretical, clinical and practical knowledge of physiology in kinetotherapy, in order to develop necessary skills to elaborate and to correct and efficient apply of rehabilitation programs in various diseases.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Exam

COURSE TITLE: PHYSICAL THERAPY BASES

CODE: D06KTC201

ECTS CREDITS: 5

COURSE OBJECTIVE(S): This course provides the student an introduction to the theoretical and practical basis for the use of therapeutic exercise in rehabilitation settings. Emphasis is given to the basic components (goals) of a comprehensive therapeutic exercise program including: to correct the body posture and alignment, improve range of motion, strength, muscular endurance, balance, coordination, correcting respiratory deficits, effort training and sensitivity reeducation; Following the completion of this course, students will understand and apply: the theoretical and scientific bases associated with the use of therapeutic exercises in the rehabilitation process; knowledge and skills related to the development of basic components of

a comprehensive rehabilitation program, how to prescribe, perform and progress therapeutic exercise programs, including determination of therapeutic goals and objectives, selection development of criteria for progression and return to activities of daily living; physiological effects, therapeutic indications and contraindications associated with the use of passive, active, activeassisted, resistive (isometric, isotonic, isokinetic) and cardiorespiratory exercise.

CODE: D06KTC204

ECTS CREDITS: 5

COURSE OBJECTIVE(S): The course require deepening knowledge of the morphology and functions of the various systems and structures of the human body involved in massage and interfering with notions of topographical anatomy and living anatomy of the human body, physiology, pathophysiology and clinical pathology, allowing the acquisition of practical skills useful in various situations with whom they will face in their professional activity; This course includes definitions, descriptions, and directions for the application and use of most common massage methods and techniques such as effleurage, petrissage, friction, compression, tapotement, and vibration, as well as their variations It is important to understand both why and where massage methods, and techniques are used, as well as how to organize a process that uses the various therapeutic approaches efficiently. Also, explain massage therapy effects on the cardiovascular and lymphatic systems, as well as on connective tissues. States how massage therapy supports functions of the skin, internal organs, body systems, and specific conditions where it has been found to produce positive effects; During the practical hours the application of all techniques on body will be exemplify and practically applied.

ASSESSMENT METHOD(S): Exam

COURSE TITLE: MANAGEMENT AND MARKETING IN KINETOTHERAPY (PHYSICAL THERAPY)

CODE: D06KTC205

ECTS CREDITS: 5

COURSE OBJECTIVE(S): The assimilation by the future physiotherapist of the various fundamental aspects of Management and Marketing used in their practical activity

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Exam

COURSE TITLE: EVALUATION METHODS IN KINETOTHERAPY (PHYSICAL THERAPY)

CODE: D06KTC207

ECTS CREDITS: 4

COURSE OBJECTIVE(S): This course emphasis of the class the use of critical thinking skills to apply assessment principles for the determination of the quality of assessment tools and usefulness of the data for meaningful decision-making. These skills

are essential to the future specialist ability to critically evaluate the clinical status of the patients of all ages; The main objective of course is to obtain knowledge in administration and interpretation of measurement and evaluation procedures in kinetotherapy. The main focus will be on: global assessment of physical development, assessment of human musculoskeletal system: evaluation of segmental physical development, assessment of joint mobility, assessment of muscle strength, grasping, walking, assessment of effort capacity etc; The course help to the accumulation of theoretical and practical notions regarding the evaluation of functional status that is mandatory for the formulation of the kinetotherapeutic strategy and the monitoring of the rehabilitation results.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Exam

COURSE TITLE: REHABILITATION IN PHYSICAL AND SENSORIAL DISABILITIES

CODE: D06KTC209

ECTS CREDITS: 5

COURSE OBJECTIVE(S): The objectives of the course are: knowledge of the general harmonious physical development and of the normal human body motricity at different age categories, physical and somatic evaluation, in order to detect the deviations from normal, developing the ability to understand the mechanism of formation and correction of physical and sensorial impairments, training the capacity of building the methodical route of the kinetic programs for correction of the first and second degree physical deficiencies in the physical therapy sessions, establish a management capacity in order to build the kinetic programs in order to correct physical deficiencies 1st and 2nd degree in rehabilitation field, education of the ability to use a correct specialized language.

COURSE CONTENTS: The course presents the various types of physical and sensorial deficiencies that arise through various growth disorders and body development that are manifested by deviations, structural deformations that induce and disturbances of the shape and physical functions of the body. These deficiencies alter the morpho-functional development of the body. The correct posture of the body and, implicitly, the good functioning are concerns of kinetic therapy that proposes corrective and prophylactic exercises for them in the practical courses.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Exam

COURSE TITLE: METHODS AND TECHNIQUES IN NEUROMOTOR REHABILITATION

CODE: D06KTC210

ECTS CREDITS: 5

COURSE OBJECTIVE(S):

At the end of the course the student should be able to: to comprehend the fundamental principles of neuromotor re-education methods and techniques; to comprehend the evaluation rationale and decision making of the proper method/technique depending on the patient's clinical condition; to identify and apply the extero- and proprioceptive stimuli which are used in PNF and in other techniques also; to identify and describe basic neurodevelopmental techniques and basic proprioceptive neuromuscular facilitation techniques; to demonstrate and instruct basic neurodevelopmental techniques using proper hand placement and positioning; to demonstrate and instruct basic proprioceptive neuromuscular facilitation techniques using primary and secondary patterns; to perform basic neurodevelopmental and proprioceptive neuromuscular facilitation techniques.

COURSE CONTENTS: This course introduces the students to the study of the neuroanatomical bases of reeducation methods and techniques, core principles of the most common neuromotor re-education methods and techniques and their application in clinical practice. The course is a mix of theory driven lectures corroborate with practical sessions that will allows the student to identify the pathology and select the appropriate neuromotor methods and techniques to rehabilitate the patient. The lab course focuses on instruction in specific treatment techniques and method used for muscle re-education, motor learning to regain functional independence, normalization of muscle tone and gait training for the patient with different injury or disease of the nervous system. The following rehabilitation techniques will be practiced: Neurodevelopmental Technique (Bobath Concept) Proprioceptive Neuromuscular Facilitation (PNF), Brunnstrom and Rood inhibition and facilitation techniques through the progression of postures, as well as Frankel method.

LANGUAGE OF INSTRUCTION: Romanian/English

ASSESSMENT METHOD(S): Exam

COURSE TITLE: SOCIAL ASSISTANCE

CODE: D06KTC211

ECTS CREDITS: 4

COURSE OBJECTIVE(S): The assimilation by the future physiotherapist of the various fundamental aspects of psychotherapy used in social assistance

LANGUAGE OF INSTRUCTION: Romanian/English

ASSESSMENT METHOD(S): Exam

COURSE TITLE: OCUPATIONAL THERAPY

CODE: D06KTC213

ECTS CREDITS: 4

COURSE OBJECTIVE(S): The practical courses emphasis on the ability of students: to make independent and critical assessments which

determine the person's goals; to identify, formulate and solve problems autonomously; to improve the person's ability to perform daily activities and reach the person's goals. The objective of this course is that after the hours of course and seminars, the student will be able when exposed to punctual clinical situations to illustrate the possibilities of OT treatment true activities and occupation appropriate to expose case.

COURSE CONTENTS: The course will introduce to the students the foundations and basic of occupational therapy (OT), the process and domain of practice for this profession. OT is a client-centred health profession concerned with promoting health and well-being through occupation. The primary goal of OT is to enable people to participate in the activities of everyday life. Topics of this course include the history of OT, professional values and ethics; development, and parameters of the profession; models of practice; roles of occupation in daily life; clinical reasoning; the process of designing and documenting client-centered, activity and task analysis, occupation-based interventions, therapeutic use of activity and occupation.

LANGUAGE OF INSTRUCTION: Romanian/English
ASSESSMENT METHOD(S): Exam

COURSE TITLE: EQUIPMENTS IN KINETOTHERAPY (PHYSICAL THERAPY)

CODE: D06KTC214

ECTS CREDITS: 4

COURSE OBJECTIVE(S): Identify and explain the theoretic and practical concept for use the specific devices in rehabilitation. How to indicate the devices and how to work. Movement assessment before use the specific rehabilitation equipment.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Exam

COURSE TITLE: REHABILITATION IN SPORTS MEDICINE

CODE: D06KTC215

ECTS CREDITS: 4

COURSE OBJECTIVE(S): Development the knowledges of sport activities, specific pathology in sport, evaluation of health and method for increase the sport performance; How to design the goals of sport specific rehabilitation; Return to sport activity.

LANGUAGE OF INSTRUCTION: Romanian/English

ASSESSMENT METHOD(S): Exam

COURSE TITLE: APPLICATIONS FOR SWIMMING THERAPEUTICAL

CODE: D06KTC208

ECTS CREDITS: 3

COURSE OBJECTIVE(S): Upon successful completion of this course, the student will: demonstrate knowledge of the properties of water

and describe the application of such in rehabilitation programs; demonstrate the ability to utilise the physical properties of water to improve range of movement for patients with stiff joints or tight soft tissues; demonstrate an understanding of the physical properties of water to strengthening techniques in the pool; demonstrate an understanding of the equipment used in aquatic therapy and their applications; demonstrate the ability to confidently use various flotation devices in regard to patient handling; demonstrate knowledge of and apply the goals of aquatic therapy; demonstrate an appropriate selection of treatment techniques for these patients.

COURSE CONTENTS: The purpose of this course is to introduce the student to aquatic therapy and common musculoskeletal, neurological, cardiorespiratory diseases which are managed with aquatic therapy by physiotherapists. The course aims to identify the importance of the properties of water on the ability to move the body, establishing the indications and contraindications of hydrokinotherapy, presenting some types of techniques and exercises performed in water for prevention or therapeutic purposes. This information may assist the physical therapist in planning an efficient treatment plan and recognizing those who may be physiologically at risk to participate in aquatic therapy at a given point in the rehabilitation process

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Exam

COURSE TITLE: PRACTICAL PLACEMENT IN SOCIAL ASSISTANCE CENTERS

CODE: D06KTC206

ECTS CREDITS: 6

COURSE CONTENTS: Neuromotor rehabilitation third age, social integration of people with disabilities.

LANGUAGE OF INSTRUCTION: Romanian/English

ASSESSMENT METHOD(S): Exam

COURSE TITLE: PRACTICAL PLACEMENT IN SPA UNITS

CODE: D06KTC211

ECTS CREDITS: 4

COURSE OBJECTIVE(S): Development the specific practical competences in field of using the specific spa methods and ways

COURSE CONTENTS: Indication and contraindication of environments factors in rehabilitation.

LANGUAGE OF INSTRUCTION: Romanian/English

ASSESSMENT METHOD(S): Exam

COURSE TITLE: PHYSICAL THERAPY IN ORTHOPAEDICS TRAUMA

CODE: D06KTC301

ECTS CREDITS: 3

COURSE OBJECTIVE(S): Knowledges of clinic and functional disorders in orthopedic and traumatology disorders

COURSE CONTENTS: application of physical therapy indication/ contraindication, functional assessment and goals of rehabilitation of short and long term.

LANGUAGE OF INSTRUCTION: Romanian/English

ASSESSMENT METHOD(S): Exam

COURSE TITLE: GERIATRIC AND GERONTOLOGY REHABILITATION

CODE: D06KTC302

ECTS CREDITS: 4

COURSE OBJECTIVE(S): This course provides information on the neuro-physiological theories and concepts of aging, the physiological and pathological changes and problems associated with this process, and the appropriate rehabilitation interventions are discussed. Also, the course is designed to facilitate understanding of older adults and their special needs and to promote concepts of healthy aging based on physical effort.

COURSE CONTENTS: Cognitive impairments, dementia, biological, socioeconomic, and functional changes due to aging will be discussed. During the practical courses the poly pathology of older patients are emphasized, and students are encouraged to apply all the notions learned in other courses in order to identify the needs of older patient and establish the goals and therapeutic intervention for rehabilitation process of older persons. Students are challenged to solve the therapeutic problems relevant to the types of older patients they will assist in physical therapy clinical settings in order to develop the practical skills necessary to select and apply the means, techniques, procedures and methods used to the rehabilitation of older patients.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Exam

COURSE TITLE: REHABILITATION IN CARDIO-PULMONARY DISORDERS I

CODE: D06KTC303

ECTS CREDITS: 4

COURSE CONTENTS: Pulmonary dysfunction, evaluation of respiratory function, goals of rehabilitation program in pulmonary disorders.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Exam

COURSE TITLE: REHABILITATION IN PEDIATRICS

CODE: D06KTC304

ECTS CREDITS: 5

COURSE OBJECTIVE(S): Evaluation of functional diagnostic and application of physical therapy

methods in neuromotor child development; Development the capacity of analysis the sciences concepts about how to introduce the rehabilitation methods in peditry; Goals of rehabilitation.

LANGUAGE OF INSTRUCTION: Romanian/English

ASSESSMENT METHOD(S): Exam

COURSE TITLE: PRACTICAL PLACEMENT IN ORTHOPEDIC AND PEDIATRIC UNITS

CODE: D06KTC305

ECTS CREDITS: 4

COURSE OBJECTIVE(S): Functional diagnostic, evaluation of motor function in different pathology, development the skills of evaluation, put the functional diagnostic and design the rehabilitation program in orthopedic and pediatric pathologies.

LANGUAGE OF INSTRUCTION: Romanian/English

ASSESSMENT METHOD(S): Exam

COURSE TITLE: RESEARCH METHODOLOGY

CODE: D06KTC306

ECTS CREDITS: 5

COURSE OBJECTIVE(S): Principles of research methodology, application in physical therapy, how to start a researchm how collect the data and analysis; The results of research in physical therapy help the physical therapist to analyse the results of rehabiliattion porgram; Guide for interviews, questionnaire, data base documentation.

LANGUAGE OF INSTRUCTION: Romanian/English

ASSESSMENT METHOD(S): Exam

COURSE TITLE: ORTHETICS AND PROTHETICS

CODE: D06KTC307

ECTS CREDITS: 3

COURSE OBJECTIVE(S): Knowledges of orthosis and prosthesis principles, evaluation before use the device, indication of devices, rehabilitation after prothesis, phases of rehabiliattion after arthroplasty.

LANGUAGE OF INSTRUCTION: Romanian/English

ASSESSMENT METHOD(S): Exam

COURSE TITLE: PHYSIOTHERAPY

CODE: D06KTC308

ECTS CREDITS: 4

COURSE OBJECTIVE(S): The students will learn about the balneoclimatology, Romanian bioclimate, natural mineral or warm waters or gases used for therapy, therapeutic saline's. The course will focus on the rationale and appropriate selection of therapy for selected conditions. On the theoretical and practical courses the students will be instruct about: galvanic current, iontophoresis, galvanic bath, ultrasound therapy, *low frequency currents* such as TENS, faradic, high voltage, micro current, diadynamic currents, *medium frequency currents* such as: Interferential currents, direct and modified

direct currents, magnetotherapy, laser used for therapy, ultraviolet light etc.

COURSE CONTENTS: Balneology, electrotherapy with emphasis on their actions on cellular level, benefices, adverse reactions, contraindications and precautions, also the practical use modalities.

One by one all of forms of electrotherapy will be presented, mentioning the definition, description of electrotherapy techniques, application parameters, indications and contraindications, how to operate the equipment that supplies the electric current and the derived energy forms.

Students will study and experience the parameters, responses and sensations by the application of different forms of electrical current used in rehabilitation therapy. Also they will learn to identify common characteristics of electrical stimulation equipment (on/off switches, intensity, electrodes, etc.)

LANGUAGE OF INSTRUCTION: Romanian/English
ASSESSMENT METHOD(S): Exam

COURSE TITLE: REHABILITATION IN CARDIO-PULMONARY DISORDERS II

CODE: D06KTC 310

ECTS CREDITS: 4

COURSE OBJECTIVE(S): Evaluation of cardiovascular system, knowledges about cardiovascular pathology, specific goals of rehabilitation in hypertension, myocardic ischemia, arithmy, indication of physcial exercises in cardiac failure, development the specific protocols of rehabiliattion.

LANGUAGE OF INSTRUCTION: Romanian/English
ASSESSMENT METHOD(S): Exam

COURSE TITLE: PHYSICAL THERAPY IN NEUROLOGY

CODE: D06KTC311

ECTS CREDITS: 4

COURSE CONTENTS: Theory and practical aspects of neurologic disorders, evaluation of neuromotor function, diagnostic in neurology; Specific pathology (stroke, peripheric neuropathies, muscle distrophy, rare disease).

LANGUAGE OF INSTRUCTION: Romanian/English
ASSESSMENT METHOD(S): Exam

COURSE TITLE: PHYSICAL THERAPY IN RHEUMATOLOGIC DISEASES

CODE: D06KTC312

ECTS CREDITS: 4

COURSE OBJECTIVE(S): The general objective of the discipline is to explain the important role of kinetotherapy as an important tool in the treatment of rehabilitation of rheumatic diseases. After the presentation of the clinical and etiopathogenesis of the rheumatologic diseases, the emphasis will be on the assessment of the functional clinical

evaluation possibilities of the patient with rheumatic pathology, on kinetic management in the intervention of rheumatic diseases recuperation in different stages and joints; Students will also learn to formulate rehabilitation goals and propose a individualized complex physiotherapy program.

COURSE CONTENTS: In rheumatology, the rehabilitation perspective refers mainly to patients with spinal pain such as discopathy, spondylosis, ankylosing spondylitis; rheumatoid arthritis, also related to soft tissues such as fibromyalgia and related to musculoskeletal changes due to aging such as osteoarthritis of the shoulder, knee, hip, ankle, wrist, etc. In inflammatory diseases, anatomical and functional rehabilitation management includes joint protection, maintenance of physical fitness and prevention of musculoskeletal and joints impairment.

LANGUAGE OF INSTRUCTION: Romanian/English
ASSESSMENT METHOD(S): Exam

COURSE TITLE: PRACTICAL PLACEMENT IN CARDIOPULMONARY AND NEUROLOGYC UNITS

CODE: D06KTC313

ECTS CREDITS: 4

COURSE CONTENTS: Evaluation in specific pathology –stroke, pulmonary dysfunction, peditry, muscledisorders, rheumatology, cardiovascular diseases; Create the reahbilitation program-goals, methods of physical therapy; Restore the effort capacity, prescription of physical exercises in chronic diseases.

BACHELOR'S DEGREE

1ST YEAR, 1ST SEMESTER

COURSE TITLE: INTRODUCTION IN ROMANIAN'S ANCIENT HISTORY

CODE: D12ISTL101

ECTS CREDITS: 6

TYPE OF COURSE: fundamental, course + seminary

COURSE OBJECTIVE(S): At the end of the semester, the students must have main information about the ancient history of Romania: politics, wars, world relations, people, culture, religion

COURSE CONTENTS: The course content is presented in 14 items starting from the Prehistoric Age, continuing with the Dacian Kingdoms, Roman-Dacian conflicts, Roman conquest of Dacia, Free Dacian people, Roman Province of Dacia, The retreat of Aurelian, The migrations, the restoration of Constantine the Great, the starting of Christian religion, martyrdom, Romanization process, Romanian ethno genesis.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: WORLD AND ROMANIAN HISTORIOGRAPHY

CODE: D12ISTL107

ECTS CREDITS: 5

TYPE OF COURSE: complementary, course + seminary

COURSE OBJECTIVE(S): At the end of the semester, the students must have main information about the main historical works and the great historian's life.

COURSE CONTENTS: There are presented main historian biographies (foreigners and Romanians), works, historiographical issues, tendencies and evolutions

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

1ST YEAR, 2ND SEMESTER

COURSE TITLE: SOCIETY, INSTITUTIONS, STATE IN THE ANCIENT ROMANIAN SPACE

CODE:

ECTS CREDITS: 6

TYPE OF COURSE: fundamental, course + seminary

COURSE OBJECTIVE(S): At the end of the semester, the students must be able to have extended information about the themes presented in the first semester.

COURSE CONTENTS: The course is oriented on study cases and particular problems of the historical research.

LANGUAGE OF INSTRUCTION: Romanian

2ND YEAR, 1ST SEMESTER

2ND YEAR, 2ND SEMESTER

COURSE TITLE: INTRODUCTION TO XXTH CENTURY WORLD HISTORY

CODE: D12ISTL304

ECTS CREDITS: 7

TYPE OF COURSE: compulsory

COURSE OBJECTIVE(S): gaining fundamental knowledge referring to XXth century and the beginning of XXI century of world history; developing the historian thinking of students through the use of structural and comparative analyses; using and interpretation of documents.

COURSE CONTENTS: Introduction (Short view over the contemporary world); Consequences of Peace Treaties from Paris. The struggle of Great Powers to impose a new social-political and economic order around the world; States with totalitarian and authoritarian regimes: *USSR, Germany, Italy, Spain, Portugal*; States with democratically regime (1919-1939): *Great Britain, France, USA*; Main Asian countries (1919-1939): *Japan, China*; World War II; New world order after World War II; Collapse of the colonial empires; Cold War.

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written examination

3RD YEAR, 1ST SEMESTER

COURSE TITLE: MUSEOLOGY

CODE: D12ISTL502

ECTS CREDITS: 3

TYPE OF COURSE: special

COURSE OBJECTIVE(S): At the end of the semester, the students must have main information about the museum science, research and protection, conservation of the historical heritage.

COURSE CONTENTS: There are presented main types of museums, the principles of protection of the cultural heritage, principles of the research in history and archaeology.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Project-based

COURSE TITLE: HISTORY OF THE EUROPEAN INTEGRATION

CODE: D12ISTL508

ECTS CREDITS: 2

TYPE OF COURSE: special

COURSE OBJECTIVE(S): At the end of the semester, the students must have main information about the European Union, structure, history, institutions steps of the construction and integration.

COURSE CONTENTS: There are presented main steps in the EU construction, the main institutions, the main historical milestones, the main steps of the integration.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Project-based

COURSE TITLE: INTRODUCTION IN THE GREEK-LATIN EPIGRAPHY

CODE:

ECTS CREDITS: 2

TYPE OF COURSE: special

COURSE OBJECTIVE(S): At the end of the semester, the students must have main information about the Greek-Roman epigraphy, basic language elements, steps of historical investigation.

COURSE CONTENTS: There are presented main steps of the historical investigation, different types of

inscriptions, the importance of the epigraphy for the historical research.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Project-based

COURSE TITLE: HISTORY OF THE JEWS

CODE: D12ISTL509

ECTS CREDITS: 3

TYPE OF COURSE: complementary

COURSE OBJECTIVE(S): The course provides an insight into the history of the Jews. The course aims at: exploring some issues and major historical phenomena regarding the history of the Jews; addressing themes that are representative for this specialization; acquiring new abilities of generalization and abstraction of historical phenomena specific to the studied period; acquiring basic knowledge about the history of the Jews; developing the students' historical thinking through the use of structural and comparative analysis; use and interpretation of documents;

COURSE CONTENTS: This course examines the history of Jews and Judaism as a history of cultural development, change, and negotiation. The course introduces students to the major events, figures, and themes of Jewish history from the Spanish Expulsion to the post-WWII era, including the Enlightenment and Emancipation, Zionism, the Holocaust, and the foundation of Israel.

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written examination

3RD YEAR, 2ND SEMESTER

COURSE TITLE: HISTORY OF THE HOLOCAUST

CODE: D12ISTL614

ECTS CREDITS: 3

TYPE OF COURSE: complementary

COURSE OBJECTIVE(S): The course provides an insight into the history of the Holocaust. The course aims at: exploring some issues and major historical phenomena in those epochs; addressing themes that are representative for this specialization; acquiring new abilities of generalization and abstraction of historical phenomena specific to the studied period; acquiring basic knowledge about the history of the Holocaust; developing the students' historical thinking through the use of structural and comparative analysis; use and interpretation of documents;

COURSE CONTENTS: This course covers German Jewry in the post-war and Nazi period, and includes the rise of the National Socialist Party, the establishment of the totalitarian state, anti-Jewish policies, and responses of German Jewry in the face of racial persecution. The course also covers the steps in the establishment of the "Final Solution" and its execution in various countries. It covers all

major aspects of the concentration and extermination camps, including their role in the context of the "Final Solution".

LANGUAGE OF INSTRUCTION: English

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: HISTORY OF THE COLD WAR

CODE: D12ISTL613

ECTS CREDITS: 3

TYPE OF COURSE: complementary

COURSE OBJECTIVE(S): The course provides an insight into the history of the Cold War. The course aims at: exploring some issues and major historical phenomena in those epochs; addressing themes that are representative for this specialization; acquiring new abilities of generalization and abstraction of historical phenomena specific to the studied period; acquiring basic knowledge about the history of the Cold War; developing the students' historical thinking through the use of structural and comparative analysis; use and interpretation of documents.

COURSE CONTENTS: The beginning of the Cold War, the expansion of communism in the world, the transition of East-European states from "Popular democracies" to "Developed Socialism", from the strategic balance to peripheral confrontation, from instability to fundamental crisis of socialist states, cold war crises, the end of the cold war.

ASSESSMENT METHOD(S): Written examination

1ST YEAR, 2ND SEMESTER

COURSE TITLE: STUDIES OF SECURITY

CODE: D12SPL204

ECTS CREDITS: 6

TYPE OF COURSE: mandatory

COURSE OBJECTIVE(S): The course aims to: provide the appropriate conceptual framework of the defence and security system in the international context; to offer students several models of analysis of the institutions and security; to familiarize students with the main reflections of the national defence system in the context of NATO's defence strategy.

COURSE CONTENTS: Security institutions (definitions, concepts, classification); The international security environment; Strategic institutions and concepts; Security and the post-modern world; The North-Atlantic treaty; Strategic content for the European security; Coordinates of the regional security; Russia and the ex-Soviet space; General provisions on the European Union's external action and specific provisions on the common security policy; Security strategies in the Euro-Atlantic space; The security strategy of Romania; The new security strategy of the USA; Theoretical considerations on the homeland security concept; The European security area: admission to the Schengen space.

LANGUAGE OF INSTRUCTION: Romanian/ English

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: COMMON POLICIES OF THE EUROPEAN UNION

CODE: D12SPL201

ECTS CREDITS: 6

TYPE OF COURSE: fundamental

COURSE OBJECTIVE(S): To become familiar with the field of community policies in order to understand the functioning of decision-making in the EU through the paradigms of European studies; To define the main concepts addressed; Surprisingly and critically interpreting the problem and setting the agenda; Understand the interdisciplinary character of the field of study; To make associations and comparisons with other disciplines in the field; Understand the mechanism of adopting public policies at supranational level; Familiarize yourself with European Institutional Architecture.

COURSE CONTENTS: The economic and political construction of the European Union; The EU legal system: sources of Community law, case law and application of Community law; Fundamental rights

and citizens' freedoms in the European Union; Transfer and exercise of competences at the level of the European Union; Institutionalization and Exercise of the Exclusive Powers of the European Union; Institutionalization of shared competences with Member States; Powers to support, coordinate or complement the action of Member States; The political system of the European Union under the Treaty of Lisbon; Institutional and Political Architecture of the European Union: The Executive of the European Union; Legislative initiative; Institutional and Political Architecture of the European Union: Legislation of the European Union; Interinstitutional relations and decision-making in the European Union; Establishment of the Customs Union and the Internal Market; Common commercial policy; Institutionalization of the Area of Freedom, Security and Justice; Social policy in the European Union; Common foreign and security policy.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: IMAGOLGY AND NATIONAL SECURITY

CODE:

ECTS CREDITS: 8

TYPE OF COURSE: fundamental

COURSE OBJECTIVE(S): Presentation of key concepts, imaging theories, and models using imaging techniques in configuring and operationalizing the national security strategy; The analysis of the imagological constructs with which they operate in the field of manipulation and media warfare and those aimed at counteracting them; Define the main concepts addressed; Surprisingly and critically interpreting the problem; Understand the interdisciplinary character of the field of study; Make associations and comparisons with other disciplines in the field.

COURSE CONTENTS: General notions and principles of imagology; Content analysis; Myths, images and stereotypes; Characteristics of the imagistic constructs; Trends in media coverage of national security issues: dominant themes, attitudes and frames; Review of news reporting; Casuistry; Image analysis; Image indicator system; Image analysis and organization image management; Configuration and reconfiguration of the mind through manipulation and ideological intoxication; Persuasion, propaganda and manipulation; Casuistry; Institutionalizing threats to security in the political discourse.

LANGUAGE OF INSTRUCTION: Romanian

ASSESSMENT METHOD(S): Written examination

COURSE TITLE: SECURITY AND PUBLIC POLICIES

CODE:

ECTS CREDITS: 8

TYPE OF COURSE: fundamental

COURSE OBJECTIVE(S): To become familiar with the field of public policies in order to understand the functioning of the decision-making process through the paradigms of study of public policies; Define the main concepts addressed; Surprisingly and critically interpreting the problem and setting the agenda; Understand the interdisciplinary character of the field of study; To make associations and comparisons with other disciplines in the field; Understand the mechanism for adopting public policies; Familiarize yourself with public policy monitoring and evaluation processes.

COURSE CONTENTS: Current concepts in the study of public policies; Public Policy Cycle; Paradigms in the study of public policies; Identify the issue and set the agenda; Formulating the public policy proposal; Mechanism for adopting public policies; Monitoring and evaluating public policies; Methods of analysing and forecasting the implementation of public policies; Politicians and political implications of Euro-Atlantic integration; European cooperation under the Common Security and Defence Policy; Europeanisation and analysis of the policy cycle of public policy security in European governance; EU and NATO as models for formulating public security policies; Administrative capacity and European integration; Decentralization of public services; Continuity and change in public policy making; Analytical perspectives. Institutionalization of the European Area of Freedom, Security and Justice; Analysis of national foreign policy; Theories, concepts and models.

LANGUAGE OF INSTRUCTION: Romanian
