

Ford Romania Intern Program Internship Workplan

Project Name:	Door Line Tester	Supervisor Name:	D. Iova
Department Name:	Maintenance	Supervisor CDSID:	diova
Assignment Location:		Supervisor Position#:	Maintenace Senior Eng.

Project Description

At the end of Door Line it is required a door tester, in order to check some functions on doors as: mirror folding or glasses moving (up &down).

In preparing station if a sequence of mirror is selected wrong there is no possibility to check which represents a delay in cycle with effect in efficiency line.

Therefore it is proposed to build a door tester.

Project name: Door tester

Measurable Objectives

Identify NOK sequence of mirror;

Identify defects in glass moving

Expected Major Contributions

Identify opportunities for door line efficiency.

Expected Benefits to Intern

Eliminate breakdown generated by actual electric source for glass lifting

Intern Qualifications (schooling, work experience, major)

Vision of process

Technical knowledge
